ITEM 1. BUSINESS

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

(A) GENERAL DEVELOPMENT OF BUSINESS

Women's Golf Unlimited, Inc. (the "Company" or "Women's Golf") was incorporated under the laws of the state of New Jersey in February 1982. The Company manufactures and markets throughout the United States proprietary lines of golf equipment for women and men, including golf clubs, golf bags, golf shoes, golf balls and accessories. The Company markets these products under the trade name and trademark Square Two(R) and the trademarks NancyLopezGolf(TM), Lady Fairway(TM), and several others, including S2(R) and Posiflow(R).

The common stock of the Company (the "Common Stock") trades on the SmallCap Market of the National Association of Securities Dealers Automated Quotation System ("Nasdaq") under the trading symbol "GOLF."

Throughout 2001, the Company maintained and strengthened its position as a manufacturer and seller of high-quality, high-performance clubs, especially for women golfers. Golf equipment for women comprised approximately 82% of the Company's business in 2001, as compared against 65% in 1997. Two acquisitions in 2000 expanded significantly both the Company's range of golf products for women and its distribution network. In July, 2000, the Company acquired the NancyLopezGolf(TM) lines of premium golf clubs and accessories, and on December 31, 2000, the Company acquired the Lady Fairway(TM) brand of golf shoes and other accessories.

During 2001, the Company continued to improve its Square Two(R) brands of equipment, introducing the XLD line of premium titanium drivers, redesigning its Kathy Whitworth and Agree series of clubs and launching a premium line of men's clubs, the Rave II(R). During 2001 the Company improved its NancyLopezGolf(TM) brand of equipment by introducing a premium line of irons, woods and titanium drivers, the Delma(R). The Company also upgraded its NancyLopezGolf(TM) line of putters by introducing the Fame(TM) series of putters. The Company also continued its 20-year partnership with the Ladies Professional Golf Association ("LPGA(R)"), completed its first year of an endorsement agreement with Nancy Lopez as well as the second year of an endorsement agreement with Kathy Whitworth, and for a third year aired a television advertisement aimed exclusively at women. The Company's sponsorship of the Square Two(R)/LPGA(R) Custom Club Fitting Program, which began in 1993, provided a forum for design input from professional women golfers during six 2-day seminars. Cosmetic changes to the Company's lines of women's clubs continued to include greater prominence for the distinctive LPGA(R) logo, which all of the women's clubs marketed under the Square Two(R) brand carry.

Between 1997 and 2001, the Company's net sales increased from \$12,073,843 to \$16,144,947 and shareholders' equity increased from \$3,507,094 to \$6,965,015.

-2-

The Company's wholly-owned subsidiary, S2 Golf Acquisition Corp. ("S2 Acquisition"), a New Jersey corporation formed in 2000 (through which the Company acquired the Lady Fairway(TM) line of products through the December 2000 merger of Ladies Golf Equipment Company, Inc. ("Ladies Golf") with and into S2 Acquisition), was merged with and into the Company as of May 25, 2001. At present the Company has no subsidiaries.

(b) FINANCIAL INFORMATION ABOUT INDUSTRY SEGMENTS

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

For financial information about business segments in which the Company operates, see Item 8, Financial Statements and Supplementary Data.

(c) NARRATIVE DESCRIPTION OF BUSINESS

Golf Club Design

The Company designs golf clubs for women and men of all ages, and engages in continuous processes of refining existing designs and developing new designs.

The Company employs two broad design approaches. One targets the steel shaft market, and the other targets the graphite shaft market. In recent years, the graphite shaft market has experienced tremendous growth, particularly among women. Graphite shafts are lighter than steel shafts and have greater design flexibility. The Company, recognizing that graphite has become the shaft of choice for the majority of women, has developed an extensive array of graphite shaft models.

Products

The Company manufactures and markets throughout the United States proprietary lines of golf equipment under the trade name and trademark Square Two(R), and a number of other trademarks, including NancyLopezGolf(TM) and Lady Fairway(TM).

Under the Square Two(R) name, the Company manufactures and markets numerous products for women and men golfers of varying ages and abilities. These products include the ZCX-Ti(TM), Lady Ti(TM), Light & Easy(R), Power Circle(TM), Rave(R), Lady Rave(TM), Rave(R) II, Relief(TM), Rough Relief(TM), Agree(R) and Eight-is-Enough(TM) lines of golf clubs. Many of the Square Two(R) brand clubs feature cavity-back heads with dual copper sole inserts, which lower the center of gravity and expand the "sweet spot," making the clubs more forgiving.

The Relief(TM) bi-metal irons and Rave(R) and Lady Rave(TM) high-modulus graphite-shaft irons and woods feature the Company's patented Posiflow(R) weighting system, in which the shafts are matched to the player's swing speed, which reduces long-iron slices and short-iron pulls. In the Light & Easy(R) and Power Circle(TM) lines, putters have tri-metal heads that are heel-toe weighted to reduce torque on off-center hits, and drivers feature

-3-

club heads made of titanium. The ZCX-Ti(TM) and Lady Ti(TM) lines feature Posiflow(R) weighting and titanium inserts for enhanced feel.

Under the NancyLopezGolf(TM) trademark, the Company markets premium golf clubs, including the Albany(R) and the Delma(R) lines and the Streak 78(R), Fame 87(R) and Debut 98(R) classically styled balata-face putters. The Company's NancyLopezGolf(TM) products also include golf balls, the LopezGrip(R) line of golf gloves, golf bags and other golf accessories.

Under the Lady Fairway(TM) line, the Company markets ladies golf shoes, including Westchester, Monte Carlo and Shaughnessy, as well as golf gloves, golf socks and other golf accessories.

Golf clubs accounted for more than 82% of the Company's revenue in 2001 and 95% in 2000 and 1999.

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

Manufacturing

The Company assembles its golf clubs at its facility located in Fairfield, New Jersey. The Company obtains steel shafts, grips, and accessories from various domestic and foreign shaft manufacturers, graphite shafts from sources in the People's Republic of China, Korea and the US, and finished heads from manufacturers in Taiwan, Thailand and the People's Republic of China, all of which manufacture components to the Company's design specifications.

The Company's Lady Fairway(TM) products (golf shoes, socks, gloves and other accessories) are manufactured by third-party manufacturers in the People's Republic of China, Indonesia and in the US.

Inventory and Component Supply

Foreign suppliers of inventory and components to the Company generally require 90- to 120-day lead times to deliver their products. The Company tries to maintain at least two sources of supply for each of the golf club shaft and golf club head products that it purchases from foreign suppliers. Domestic suppliers of shafts and grips are more plentiful and, under normal circumstances, can provide components to the Company on relatively short notice.

While the Company does not anticipate long-term shortages of components or inventory from its domestic or foreign suppliers, no assurance can be given that the Company will not experience shortages in the future. Delays are not anticipated to be longer than two weeks or to affect materially the Company's ability to deliver its products. The Company regularly evaluates alternative suppliers.

The Company purchases inventory and components through a line of credit in the amount of \$8,000,000 with PNC Bank, National Association ("PNC Bank"), pursuant to which PNC Bank may make available an additional credit facility of up to

-4-

\$1,750,000 in the form of standby or documentary letters of credit and demand loans. See also the discussion of "Liquidity and Capital Resources" under Item 7.

As noted below, the seasonal nature of the golf industry leads to seasonal peaks in demand for the Company's products, although manufacturing occurs throughout the year.

Market

The National Golf Foundation estimates that in 2001 there were 26.4 million golfers in the United States. Although the rate of growth in numbers of golfers has remained relatively flat since 1997, the general popularity of the sport of golf has created a significant market for golf clubs and other golf accessories. In competition for a share of the market, various manufacturers have developed golf clubs using various materials, differing types of construction and the latest engineering technology.

Marketing & Distribution

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

Until approximately 20 years ago, top-of-the-line golf equipment was sold almost exclusively by golf professionals at private clubs. Currently, off-course specialty golf shops, sporting goods retailers, discounters, mail-order houses, the Internet and infomercials account for a substantial share of sales to the golf club market.

The Company markets its products primarily through retail shops and also through private clubs. NancyLopezGolf(TM) brand clubs sell at premium price points, whereas the Square Two(R) brand products retail at mid-level price points. As of March 1, 2002, the Company had established a network of approximately 2,250 retailers with approximately 2,800 retail outlets. Each line has a comprehensive catalog for its dealers.

The golf equipment industry is one in which advertising and promotion are required to create market awareness of a company's products. Management anticipates that it will continue to need to increase its research and development efforts as well as its advertising expenditures.

In 2001, no customer accounted for more than 5% of the Company's total sales. The Company does not believe that the loss of any single customer would materially affect its business.

Competition

In general, the Company competes with manufacturers of sporting goods equipment for all phases of the recreation industry, and its business is subject to factors generally affecting the recreation and leisure market, such as economic conditions, changes in discretionary spending patterns and weather conditions.

The golf club industry is highly competitive and is dominated principally by approximately 10 nationally known manufacturers of sporting goods equipment. Such

-5-

manufacturers, including Callaway(R), Ping(R), Nike(R), Taylor Made(R), and Cobra/Titleist(R), possess greater financial and other resources than those of the Company. The Company competes with these entities primarily on the basis of the pricing and quality of the Company's products and services, along with the Company's position as an official sponsor of the LPGA(R).

Golf clubs are also manufactured by lesser-known, lower-volume companies who assemble clubs from components manufactured by others. While these manufacturers of clubs are generally smaller than the Company, they also compete with the Company.

Seasonality

The golf industry is seasonal. While manufacturing occurs throughout the year, demand for the Company's clubs and other golf products is greatest from March through July.

The Ladies Professional Golf Association Agreement

The Company has entered into an agreement with the Ladies Professional Golf

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

Association, which grants the Company the exclusive right to use the LPGA(R) name and logo on its women's golf clubs and the nonexclusive right to use the LPGA(R) name and logo on certain of its other products, including golf bags. The Company has renewed and restated this licensing agreement effective January 1, 1999 through December 31, 2003, at which time the Company has the option to renew the agreement for two consecutive years under the same terms and conditions. The agreement entitles the Company to use the license granted on a worldwide basis. The Company is obligated to pay to the LPGA(R) a license fee and a royalty fee based on sales volume.

The minimum annual license fee for the term of the agreement is \$200,000 each year through 2003. In the event that the sum of (i) 5% of the net sales of the licensed products (other than golf shoes) up to \$1,000,000 in any calendar year, (ii) 2.5% of the net sales of the licensed products (other than golf shoes) in excess of \$1,000,000 and less than \$5,000,000 in any calendar year, (iii) 1% of the net sales of the licensed products (other than golf shoes) in excess of \$5,000,000, and (iv) 1% of the net sales of golf shoes in any calendar year, exceeds the minimum license fee, the excess shall be paid as a royalty fee.

Under the agreement, the Company is obligated to be a "Title Sponsor" of the LPGA(R) Teaching and Club Professionals Division Team Classic at an annual cost that began at \$35,000 in 1999 and increases by \$2,500 per year through 2003. In addition, the Company is obligated to spend a minimum of \$100,000 per year on various advertising programs.

Kathy Whitworth Endorsement Agreement

The Company has entered into an Endorsement Agreement with former LPGA(R) Tour Golf Professional Kathy Whitworth, effective January 1, 2000 through December 31,

-6-

2005, pursuant to which Ms. Whitworth has granted the Company an exclusive license to use her name, likeness, image and personal identification, singly or in any combination, in connection with the production, marketing and sale of a "Kathy Whitworth" signature line of women's golf clubs. In addition, the Company has the right to include Ms. Whitworth in two print advertisements and one television advertisement per year. Ms. Whitworth also has agreed to use only the golf clubs and golf bags of the Company in any golf event, either professional or social, during the term of the agreement. She serves as a golf instructor at up to ten golf clinics per calendar year, and represents the Company, at the Company's discretion, at up to two Professional Golf Association merchandise shows each calendar year. The Company pays Ms. Whitworth a base fee of \$36,000 per year in equal quarterly payments and a royalty fee of 2% of net sales of the "Kathy Whitworth" line of clubs.

Nancy Lopez License

Under an agreement with Nancy Lopez Enterprises, Inc. ("Lopez Enterprises"), the Company has the exclusive right to use the name, signature, image and endorsement of Nancy Lopez on certain of its golf clubs and other golf equipment. This agreement is for an initial term that ends on December 31, 2007, and shall be extended automatically until December 31, 2010 unless one of the parties decides against such extension. The Company pays Lopez Enterprises an annual fixed royalty of \$200,000, plus additional royalties if the sum of (i) 25% of any fees paid to the Company for sublicenses and (ii) 3% of revenues of

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

up to \$10 million for licensed products plus 3.5% of such revenues greater than \$10 million exceeds the fixed royalty amount of \$200,000. The Company also pays Lopez Enterprises bonuses if Ms. Lopez wins or places at least fifth in specified golf tournaments or wins other named awards, and issues Lopez Enterprises options to purchase Common Stock on the basis of the revenue for licensed products in excess of a certain threshold.

Patents and Trademarks

The Company holds two United States patents, both of which will expire in 2013. One protects the concept of Posiflow(R) weighting in iron heads. The second protects an internal triangular reinforcement cell for metal woods.

The Company owns the rights to the following trademarks registered with the United States Patent and Trademark Office:

"Square Two(R)" is registered in 23 countries. "Lady Fairway" is registered in the United Kingdom and in Sweden.

Given the competitive climate within the golf industry worldwide and the recent counterfeiting of clubhead designs, the Company believes that it is imperative to protect the Company's trade names, trademarks and patentable inventions and designs.

Employees

As of December 31, 2001, the Company employed 59 persons, including 58 full-time employees, 2 of whom were executive officers. Forty-six of these were hourly employees and 13 were management, administrative and marketing personnel. Additional hourly employees are hired during peak production periods, and management anticipates no problems in finding adequate employees. The employees of the Company are not represented by any labor organization.

The Company believes that its present staff is adequate. However, if sales of the Company's golf clubs or golf shoes should increase additional production, clerical, sales and management personnel may be necessary to meet product demand.

Special Note on Forward-Looking Statements

The business, financial condition and results of operations of the Company may be adversely affected by a number of factors. Certain statements and information

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

contained herein reflect the Company's current expectations with respect to the future performance of the Company and may constitute "forward-looking statements" within the meaning of the Federal Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among other risks and uncertainties: the risks inherent in the development and introduction of new products; dependence on consumer tastes, which fluctuate from time to time; seasonality and prevailing weather conditions, as protracted periods of inclement weather could disrupt consumer demand for golf-related products; economic conditions as they impact the availability of

-8-

discretionary income; unanticipated shortages of components or delays in component delivery; and the significant competition in the Company's line of business.

(D) FINANCIAL INFORMATION ABOUT GEOGRAPHIC AREAS

It is impracticable for the Company to provide financial information about geographic areas. Historically, the Company's sales to foreign customers have not been material. For the fiscal year ended December 31, 2001, the Company's sales to foreign customers comprised less than 2.5% of net sales.

ITEM 2. PROPERTIES -----

The Company currently leases its manufacturing facility and sales and executive offices located at 18 Gloria Lane, Fairfield, New Jersey 07004, comprising a total of 28,442 square feet of space. As of December 1, 2001 the Company entered into a new lease agreement for the Fairfield location for a period of three years, expiring on November 30, 2004. In December 2001, the Company consolidated the Florida customer service, sales, warehousing and distribution operations for its Lady Fairway(TM) lines with those operations conducted at its New Jersey location. The Company now maintains a small office of approximately 800 square feet in Lutz, Florida for administrative activities relating to the Lady Fairway(TM) lines.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Women's Golf Unlimited, Inc. operates in one business segment, the manufacture and marketing of golf equipment, including golf clubs, golf balls, golf gloves, golf bags, and, starting on December 29, 2000, golf shoes and socks. The Company markets its products primarily in the United States.

The Company grew substantially with its acquisitions of the Lady Fairway(TM) product line on December 31, 2000 and of the NancyLopezGolf(TM) product line in July of 2000. Taken together, these acquisitions had a material impact on the Company's results of operations, liquidity and capital resources in 2001.

Results of Operations

The results of the Lady Fairway(TM) acquisition were first included with the Company's results in January, 2001. As the results of the NancyLopezGolf(TM) acquisition were first included with the Company's results in August, 2000, 2001 provides the first full year of revenue recognition for the NancyLopezGolf(TM) brand products. In 2001 the Company began to realize synergies from the acquisitions, through expanded and consolidated distribution networks. Management anticipates the realization of additional synergies in 2002 and beyond, as certain non-recurring costs associated with the acquisitions were paid in 2001 and the physical consolidation of sales, customer service, marketing and distribution operations occurred in December of 2001.

Sales

2001 Compared to 2000

In 2001, net sales were \$16,144,947, versus \$12,510,314 in 2000. This is an increase of 29%, resulting from an increase of \$4,834,633 in sales attributable to the Lady Fairway(TM) and NancyLopezGolf(TM) brand acquisitions, offset by a decrease of \$1,200,000 in sales of Square Two(R) brand products due to bad weather in the spring 2001 selling season and the U.S. economic recession, both of which contributed to a poor industry environment in 2001. The Company does not have its own historical sales data to evaluate the impact of these factors

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

on 2001 sales of the Lady Fairway(TM) and NancyLopezGolf(TM) brand products.

2000 Compared to 1999

In 2000, net sales were \$12,510,314, versus \$11,003,556 in 1999, an increase of 13.7%. Forty-six percent of this increase was the result of an increase in the volume of sales of the Square Two(R) brand of equipment, and 54% of this increase was the result of additional sales generated by the addition of the NancyLopezGolf(TM) product line in the last 5 months of 2000. The increase in Square Two(R) brand sales arose from a higher volume of sales of the Light & Easy(R) model of golf clubs and the successful introduction of the Kathy Whitworth monogram series of clubs.

-11-

Gross Profit

2001 Compared to 2000

In 2001, gross profit on sales (net sales less the cost of goods sold) was \$6,775,415 or 42% of sales, an increase over the 2000 gross profit of \$4,258,480 or 34% of sales. This increase in gross profit percentage was due primarily to the mix of products sold in 2001, with higher sales of products with a higher average gross profit margin. Another factor was lower material costs on golf club components.

2000 Compared to 1999

In 2000, gross profit on sales (net sales less the cost of goods sold) was \$4,258,480, or 34.0% of sales, an increase over the 1999 gross profit of \$3,575,426, or 32.5% of sales. The increase in gross profit percentage was the result of lower material costs and the mix of products sold.

Selling Expenses

2001 Compared to 2000

Selling expenses increased to \$3,495,523 in 2001, versus \$2,093,938 in 2000. The primary reasons for the increase were the expenses associated with sales of the Lady Fairway(TM) brand products, payment of the royalty on NancyLopezGolf(TM) brand products for a full 12-months, heavy television advertising costs associated with promoting the NancyLopezGolf(TM) brand and higher sales commissions due to the increased volume of sales.

2000 Compared to 1999

Selling expenses increased to \$2,093,938 in 2000, versus \$1,641,744 in 1999. This increase was primarily the result of increased salaries and wages, new costs for player endorsements (by Kathy Whitworth and Nancy Lopez), which were not incurred in 1999, increased advertising expenses and increased commissions due to higher revenue.

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

General Administrative

2001 Compared to 2000

General and Administrative expenses were \$2,759,711 in 2001, versus \$1,647,827 in 2000. The primary reason for the increase were the non-recurring general and administrative expenses associated with the Lady Fairway(TM) acquisition not incurred in 2000, including increased legal fees, and the recording of 12-months goodwill associated with the NancyLopezGolf(TM) brand (versus 5 months of goodwill expense associated with that brand in 2000).

-12-

2000 Compared to 1999

General and Administrative expenses were \$1,647,827 in 2000, versus \$1,302,325 in 1999. This increase of 19.5% was the result of higher consulting expenses, legal fees, amortization of goodwill arising from the acquisition of the NancyLopezGolf(TM) product line, and bad debt expenses.

Interest

2001 Compared to 2000

Interest expense for 2001 was \$413,111, an increase of 77.0% over the 2000 interest expense of \$233,385. This increase in interest expense resulted from the higher average outstanding balance of the credit facility in 2001 plus the increase of long-term debt in 2001, offset by favorable interest rates. See also the discussion of "Liquidity and Capital Resources" below.

2000 Compared to 1999

Interest expense for 2000 was \$233,385, an increase of 46.9% over the 1999 interest expense of \$158,892. This increase in interest expense resulted from the higher average outstanding balance of the credit facility in 2000, when the average balance was \$1,788,795, than in 1999, when the average balance was \$1,622,654. The increase in the average outstanding balance on the credit facility resulted from a 4.9% increase in the average inventory balance, up to \$3,146,173 in 2000 as compared to \$2,990,925 in 1999. Average balances for accounts receivable in 2000 of \$3,627,447 were 13.6% greater than the 1999 average balances of \$3,134,017.

Other Income

2001 Compared to 2000

Other Income/(Expense) for 2001 was \$269,313, compared to (\$5,307) in 2000. The increase is mainly due to royalty income from international distributors associated with the Square Two(R) and NancyLopezGolf(TM) products.

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

Income Taxes

2001 Compared to 2000

During 2001, the Company recorded a provision for income taxes of \$212,092, compared to \$57,369 in 2000. The provision for income tax as a percentage of income before taxes was 56% in 2001 as compared with 21% in 2000. The effective tax rate was higher in 2001 as compared to 2000 primarily as a result of the elimination in 2000 of certain tax reserves (related to over-accruals of corporate tax liabilities) and the amortization in 2001 of goodwill associated with the acquisition of the Lady Fairway(TM) product line, which is not deductible for tax purposes.

2000 Compared to 1999

In 2000, the Company had an income tax provision of \$57,369, compared to \$166,901 in 1999. The effective tax rate in 2000 decreased as a result of the elimination of certain reserves as discussed in the preceding paragraph. (See the Notes to Financial Statements.)

Liquidity and Capital Resources

The Company's working capital at year end was \$1,988,256 in 2001, compared to \$1,672,945 for 2000, an increase of 18.9%. This increase was the result of a decrease in current assets of \$226,560 offset by a decrease

-13-

in current liabilities of \$541,871. The decrease in current assets was due mainly to decreases of \$475,203 in accounts receivable, \$68,183 in prepaid expenses and \$41,000 in deferred income tax, offset by increased inventory of \$359,995. The 2001 decrease in current liabilities is due to decreases of \$139,946 in the current portion of long-term debt, \$563,425 in accounts payable, \$94,025 in accrued expenses and \$64,112 in other current liabilities, offset by an increase of \$319,637 in short-term borrowings.

Average balances for accounts receivable in 2001 of \$3,895,128 were 7.4% greater than the 2000 average balances of \$3,627,447, also as a result of increased sales after the acquisitions.

Cash provided by operations in 2001 was \$179,046, compared to \$1,483,778 in 2000 and \$2,082,656 in 1999. The decrease in net cash provided by operations is due primarily to the Company's increased inventory of approximately \$389,000, which was the result of the acquisition of the Lady Fairway(TM) line of products, and the reduction of accounts payable, accrued expenses and other liabilities of approximately \$724,000.

The Company's credit facility with PNC Bank (the "PNC Credit Facility") allows a revolving line of credit up to a maximum of \$8,000,000 less 50% of the aggregate face amount of all outstanding letters of credit, and subject to various borrowing bases, as well as up to \$1,750,000 in the form of standby or documentary letters of credit and demand loans.

The availability of funds under the revolving line of credit varies because it is based, in part, on a borrowing base of 80% of eligible accounts receivable

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

and 60% of qualified inventory. Substantially all of the Company's assets are used as collateral for the credit line. Interest rates are at prime plus one-quarter percent, paid monthly; the interest rate as of December 31, 2001 was 5.00%. At December 31, 2001, funds available to the Company under the line of credit were approximately \$679,000.

The average outstanding balance on the line of credit was \$4,233,045 in 2001, up from \$1,788,795 in 2000. This increase resulted from a 51.2% increase in the average inventory balance (of \$4,757,047 in 2001 as compared to \$3,146,173 in 2000), primarily as a result of the NancyLopezGolf(TM) and Lady Fairway(TM) brand line acquisitions.

As of December 31, 2001, the Company had no outstanding letters of credit or demand loans under the PNC Credit Facility.

The PNC Credit Facility contains certain covenants, which among other items require the maintenance of certain financial ratios including tangible net worth and working capital. Any event of default under the credit facility permits the lender to cease making additional loans thereunder. The Company was in compliance with all covenants and conditions of the facility as of December 31, 2001.

-14-

Other debt obligations of the Company, associated with the acquisitions, are a term loan from PNC Bank in the original principal amount of \$900,000, of which \$500,000 remained outstanding on December 31, 2001 and the final payment on which is due in mid-2003, and a promissory note payable to James E. Jones in the original principal amount of \$1,000,000, the entire amount of which remained outstanding on December 31, 2001 and will become due in installments in 2002.

Accounting Policies

The Company's accounting policies and practices are described in Note 1 to the financial statements included herein, "Summary of Significant Accounting Policies." Application of the Company's accounting policies requires judgments by management and incorporates expectations about future events. The Company has established reserves and accruals for possible losses on collection of accounts receivable as well as on obsolete inventory. Management uses all available facts and circumstances in establishing such accruals or reserves.

Calculation of Allowances for Doubtful Accounts

Management reviews on a revolving basis a schedule listing each customer account containing balances that are 90 or more days past due, and determines whether collection of each outstanding balance is anticipated. If collection is anticipated, no reserve for such account is established. If collection is questionable, management applies a reserve of between 20% and 100% of the total amount due. In determining whether to apply a reserve and if so, the amount of such reserve, management draws on its knowledge of the progress of internal collection efforts, the customer's payment history, and other information about the customer. Management also applies a reserve of 2% of accounts receivable that are up to 90 days past due.

Calculation of Reserves for Obsolescence

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

Periodically management reviews all inventory for the purpose of evaluating current reserves for obsolescence, which is determined on the basis of historical and current sales of each product, inventory level, and other factors. A reserve of between 10% and 90% of present book value is assigned for all questionable inventory, to which is added an additional miscellaneous amount.

Certain information in the preceding "Management's Discussion and Analysis of Financial Condition and Results of Operations" constitutes forward-looking information that involves certain risks and uncertainties. See Item 1, Business, under the caption "Special Note on Forward-Looking Statements."

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's exposure to market risks is limited to interest rate risks associated with the variable interest rates on its revolving line of credit, term loan and promissory note. Changes in the interest rates affect the Company's earnings and cash flows, but not

-15-

the fair value of the Company's debt instruments. If the indebtedness outstanding at December 31, 2001 were to remain constant, a 1.0% increase in interest rates occurring on January 1, 2002 would result in an increase in interest expense for the following 12 months of approximately \$46,956.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

See the Index to Financial Statements and Financial Statement Schedule on page F-1 for the location in this report of the financial statements and supplementary data.

ITEM 9. CHANGE IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Compensation of Directors

The Company compensates its non-employee, non-consultant directors (Mary Ann Jorgenson and Frederick B. Ziesenheim) by granting such persons shares of the Company's Common Stock having a fair market value of \$1,000 for every meeting of the Board of Directors or committee thereof attended by such person, and shares of Common Stock having a fair market value of \$500 if such person participated in a meeting by telephone. The number of shares issued is based on the closing price of the stock on the exchange where traded on the meeting date or the preceding date on which such shares were traded.

Certain Agreements

The Company entered into a new employment agreement with Douglas A. Buffington effective January 1, 2001 and terminating on December 31, 2005 unless terminated sooner as provided in the agreement. Mr. Buffington's base annual salary under the agreement is \$175,000. An incentive cash bonus and stock option program are incorporated into the agreement. Additional stock options, other than those provided in the incentive program, may be granted at the discretion of the Company's Board of Directors. The agreement also provides for certain benefits, in addition to the standard Company employee fringe benefits, including but not limited to reimbursement of certain expenses and payment of premiums on a \$750,000 life insurance policy with Mr. Buffington's spouse named as beneficiary. The agreement also contains "noncompetition" and "invention and secrecy" clauses.

In January 1997, the Company entered into an agreement with Randy A. Hamill pursuant to which Mr. Hamill was granted an immediately exercisable option to purchase 40,000 shares of Common Stock at an exercise price of \$0.9375 per share. Upon the occurrence of a change in control of the Company (as defined in the agreement) the exercise price per share for any unexercised portion of the option would be the lower of (a) (i) one cent or (ii) the lowest price greater than one cent per share that would not cause the value to Mr. Hamill of shares acquired upon exercise to be considered an "excess parachute payment" under Section 280G of the Internal Revenue Code of 1986, as amended or (b) \$0.9375. In

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

the event that Mr. Hamill should die while employed by the Company and the Company has received \$500,000 as beneficiary of a life insurance policy it maintains on Mr. Hamill's life, Mr. Hamill's estate will have the right to

-20-

require the Company to purchase the option, if unexercised, for \$500,000 or, subject to certain limitations, to purchase up to 39,999 shares received on exercise of the option for their fair market value at that time.

On December 29, 2000, the Company and S2 Acquisition entered into an employment agreement with James E. Jones, effective as of January 1, 2001 and terminating on December 31, 2005 unless terminated sooner as provided in the agreement, pursuant to which Mr. Jones serves as the Vice President of Marketing of the Company and the President of S2 Acquisition. Under this agreement, Mr. Jones' annual base salary is \$100,000, he may also receive grants of options to purchase shares of the Company's Common Stock, and he receives the Company's standard employee fringe benefits. The agreement also contains "noncompetition" and "invention and secrecy" clauses.

WOMEN'S GOLF UNLIMITED, INC. (FORMERLY KNOWN AS S2 GOLF, INC.) NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS

Women's Golf Unlimited, Inc. (the "Company") was incorporated under the laws of the state of New Jersey on February 2, 1982. The Company manufactures and markets a proprietary line of golf equipment including golf clubs, golf bags, golf shoes, golf balls and accessories. The Company markets these products under various trade names and uses several additional trademarks.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CONCENTRATION OF CREDIT RISK

The Company sells to customers primarily throughout the United States, with a small amount sold to customers overseas. The Company does not require collateral on its trade receivables and while it believes its trade receivables, net of allowances, will be collected, the Company anticipates that in the event of default it would follow normal collection procedures. Overall, management believes the Company's credit risk related to its trade receivables is limited due to the broad range of products and the large number of customers in differing geographic areas.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair values of cash, accounts receivable and accounts payable approximate their carrying values due to the short-term nature of the instruments. The fair value of short-term borrowings approximates their carrying value due to their variable interest rate features, which reprise quarterly. The fair value of long-term borrowings approximate their carrying value due to the interest rate which is variable based upon the prime rate.

INVENTORIES

Inventories are valued at the lower of cost, determined on the basis of the first-in, first-out method, or market. Inventories consist of materials, labor and manufacturing overhead.

PLANT AND EQUIPMENT

Equipment is stated at cost, less accumulated depreciation. Depreciation is

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

provided over the estimated useful service life.

The estimated lives used in determining depreciation are:

Machinery and Equipment	5 Years
Furniture and Fixtures	7 Years

Leasehold improvements are amortized over the lives of the respective leases or the service lives of the improvements, whichever is shorter.

F-8

Maintenance and repairs are charged to operations as incurred.

REVENUE RECOGNITION

The Company recognizes revenue upon the shipment of merchandise in fulfillment of orders. As of December 31, 2001 and 2000, the Company had an allowance for doubtful accounts of \$237,692 and \$320,936, respectively, allowance for discounts of \$40,000, in each year, and an allowance for returns of \$103,393 and \$93,000, respectively.

ADVERTISING COSTS

The Company expenses costs of advertising as incurred. Advertising expenses included in selling expenses for the years ended December 31, 2001, 2000, and 1999 were approximately \$1,238,000, \$589,000 and \$511,000, respectively.

INCOME TAXES

The Company complies with Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes," which requires an asset and liability approach to financial recording for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred tax assets to the amount expected to be realized.

OTHER ASSETS

Other assets principally include patents, trademarks and a covenant not to compete with a former officer of the Company. The patents and trademarks are amortized on the straight-line method over 15 years. The covenant not to compete was fully amortized in 1997. Management periodically evaluates the recoverability of intangible assets based upon current and anticipated net income and undiscounted future cash flows.

EARNINGS PER SHARE

The Company complies with SFAS No. 128, "Earnings per Share." SFAS No. 128 revises certain methodologies for computing earnings per share ("EPS") and requires the dual presentation of basic and diluted earnings per share. Basic EPS excludes dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if stock options or other contracts to issue common stock were exercised and resulted in

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

the issuance of common stock that then shared in the earnings of the Company. Diluted EPS is computed using the treasury stock method when the effect of common stock equivalents would be dilutive. The only reconciling item between the denominator used to calculate basic EPS and the denominator used to calculate diluted EPS is the dilutive effect of stock options issued to employees of the Company and other parties. The Company has issued no other potentially dilutive common stock equivalents.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company complies with SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," which requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amount. The Company continually evaluates whether events and circumstances have occurred that indicated the remaining estimated useful life of long-lived assets, such as property, plant and equipment, identifiable tangibles, and goodwill may warrant revision, or the remaining balance may not be recoverable.

F-9

RECLASSIFICATIONS

Certain reclassifications to prior years' financial statements were made in order to conform to the 2001 presentation.

NEW ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standard Board ("FASB") issued SFAS Nos. 141 and 142, "Business Combinations" and "Goodwill and Other Intangibles". SFAS No. 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Under SFAS No. 142, goodwill is no longer subject to amortization over its estimated useful life. Rather, goodwill is subject to at least an annual assessment for the impairment applying a fair-value based test. Additionally, an acquired intangible asset should be separately recognized if the benefit of the intangible asset is obtained through contractual or other legal rights, or if the intangible asset can be sold, transferred, licensed, rented, or exchanged, regardless of the acquirer's intent to do so. The Company is currently determining the impact of adopting of these statements on its financial position and results of operations.

In October 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment of Disposal of Long-Lived Assets." This statement will be effective for fiscal years beginning after December 15, 2001. This statement established a single accounting model, based upon the framework established in SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," for long-lived assets to be disposed of by sale or to address significant implementation issues. The Company is in the process of assessing the impact of the adoption of this statement on its consolidated financial position, results of operations and cash flows.

The availability of funds under this line of credit varies as it is based, in part, on a borrowing base of 80% of eligible accounts receivable and 60% of qualified inventory. Substantially all of the Company's assets are used as collateral for the credit line. Interest rates are at prime plus one-quarter percent, paid monthly; the interest rate as of December 31, 2001 was 5.00% and 9.75% as of December 31, 2000. At December 31, 2001 and 2000, unused funds available to the Company under the line of credit were approximately \$679,000 and \$895,000, respectively. There were no outstanding letters of credit as of December 31, 2001 and 2000.

The credit facility contains certain covenants, which, among other items, require the maintenance of certain financial ratios including tangible net worth and working capital. Any event of default under the credit facility permits the lender to cease making additional loans there-under.

7. LONG-TERM LOAN

At December 31, 2001 and 2000 long-term debt consists of the following:

8. PURCHASE TRANSACTIONS

During 2000, the Company made the following acquisitions:

On July 31, 2000, the Company acquired from The Arnold Palmer Golf Company (the "Seller") substantially all of the net assets of its NancyLopezGolf (TM) division, for a cash purchase price of \$4,633,333 (the "Purchase Price"). The Purchase Price was a function of projected sales volume, with a post-closing adjustment to be based on (i) changes in the net asset value between April 29, 2000 and the closing date and (ii) realization on accounts receivable in the first six months after closing. On the closing date the Company paid \$3,000,000 of the Purchase Price to the Seller, using the principal amount of a \$900,000 term loan extended to the Company by the Bank together with funds available under the Company's existing revolving line of credit with the Bank. On August 10, the Company, using funds available to it under an amendment to its existing revolving line of credit with the Bank, deposited \$150,000 of the Purchase Price into escrow pending the final determination of the purchase price adjustment and paid to the Seller \$1,009,405, representing the remaining balance of the Purchase Price adjusted pursuant to a mutual agreement of the parties in anticipation of the post-closing purchase price adjustment. The Company has allocated the excess cost over the fair value of net assets acquired to goodwill, which amounted to \$2,156,369, and is being amortized on a straight line basis over a period of ten years.

The acquired assets were comprised of intellectual property, accounts receivable, inventory of golf equipment and manufacturing and other physical equipment used by the Seller in the manufacture and sale of golf clubs and other golf equipment. The Company intends to use all equipment and physical property acquired to continue manufacturing and distributing the NancyLopezGolf(TM) equipment line.

On December 29, 2000, Acquisition Corp. acquired from James E. Jones and Brian Christopher (the "Selling Shareholders") all of the issued and outstanding shares of Ladies Golf, and on December 31, 2000, Ladies Golf was merged with and into Acquisition Corp., with Acquisition Corp. as the surviving entity. The purchase price was comprised of 1,000,000 shares of Common Stock of the Company, par value \$0.01 per share, and a promissory note of the Company in the principal amount of \$1,000,000 with a maturity date of December 31, 2001. Consideration for the acquisition was a function of projected sales volume, with a potential post-closing adjustment in the merger consideration shares to be based on (i) realization on accounts receivable in the first six months after the effective date of the merger, and (ii) losses on non-current inventory in the first nine months after the effective date of the merger. On May 25, 2001 Acquisition Corp. was merged with and into the Company, with the Company as the surviving entity.

The Company has allocated the excess cost over the fair value of net assets acquired to goodwill, which amounted to \$3,242,854 and is being amortized on a straight line basis over a period of 25 years.

F-12

The acquired assets were comprised of intellectual property, accounts receivable, inventory of Lady Fairway(TM) golf shoes and golf accessories and

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

other physical equipment used by Ladies Golf in the design and distribution of women's golf shoes and golf accessories. The Company intends to use all equipment and physical property acquired to continue designing and distributing the Lady Fairway(TM) shoe and accessory lines.

Both acquisitions were accounted for using the purchase method of accounting. The operations of each company acquired have been included in the Company's Statement of Operations from the respective dates of acquisitions. The purchase price was allocated to the assets and liabilities based on their estimated fair value as of the dates of acquisitions.

The following unaudited proforma consolidated results of operations are presented as if the acquisitions had been made at the beginning of the respective periods.

The Company applies the intrinsic value method in accounting for its stock plans. Accordingly, no compensation cost has been recognized for stock option grants issued to employees under any of the Company's stock option plans. If compensation cost for stock option grants issued during 2001, 2000 and 1999 had been determined under the provisions

F-16

of SFAS No. 123, the Company's net income would have been \$164,291 \$177,188, and \$276,504, respectively. The Company's net income per share for basic and diluted in 2001, 2000 and 1999 would have been \$.05, \$.08, and \$.12, respectively.

The fair value of each stock option granted under the Company's plans was estimated on the date of grant using the Black-Scholes option pricing model. The following weighted average assumptions were used to value grants issued under the plans in 2001, 2000 and 1999:

	2001 ----	2000 ----	1999 ----
Annualized Volatility	66%	53%	46%
Risk-Free Interest Rate	4.5%	5%	5%
Expected Term of Option (in years)	3.5	3.5	3.5
Dividend Yield	N/A	N/A	N/A

Edgar Filing: WOMENS GOLF UNLIMITED INC - Form 10-K405/A

The weighted average fair values per share of stock options granted during 2001, 2000 and 1999 were \$.67 \$.60, and \$3.00, respectively.

The exercise price ranges for options outstanding and exercisable at December 31, 2001 were:

EXERCISE PRICE RANGE -----	NUMBER OF SHARES OUTSTANDING AND EXERCISABLE AT DECEMBER 31, 2001 -----	WEIGHTED AVERAGE EXERCISE CONTRACTUAL PRICE -----
\$0.50 to \$2.00	253,901	\$1.460
\$2.01 to \$5.00	413,638	4.039
	-----	-----
Total	667,539	\$3.058
	=====	=====

The Company has generally granted options that do not expire.

GRANTS OF STOCK TO DIRECTORS

The Company compensates its non-employee directors by granting such persons shares of Common Stock having a value of \$1,000 for every meeting of the Board of Directors or committee thereof attended by such person, and shares of Common Stock having a value of \$500 if such person participated in a meeting by telephone. The number of shares issued is based on the closing price of the stock on the exchange where traded on the meeting date or the preceding date on which such shares were traded. The value of the shares issued is charged to operations as incurred.
