**Item 1.01 Entry into a Material Definitive Agreement**

On August 23, 2007, Ucyglyd Pharma, Inc. (Ucyglyd), a Maryland corporation and wholly-owned subsidiary of Medicis Pharmaceutical Corporation, a Delaware corporation (the Company), and Hyperion Therapeutics, Inc., a Delaware corporation (Hyperion), executed a Collaboration Agreement (the Agreement), pursuant to which Hyperion will continue the ongoing research and development of Ucyglyd's product referred to as GT4P for the treatment of Urea Cycle Disorder (UCD), Hepatic Encephalopathies (HE) and other indications, and additional indications for AMMONUL® (collectively, the Research Projects). In addition, Hyperion will co-promote Ucyglyd's existing on-market products AMMONUL® and BUPHENYL® (the Existing On-Market Products) for the treatment of UCD. In exchange for the rights and licenses granted to Hyperion under the Agreement, Hyperion will pay Ucyglyd a fee of \$10 million. Moreover, if certain conditions are satisfied relating to the Research Projects, Hyperion will be entitled to certain buyout rights to Ucyglyd's development products and Existing On-Market Products, and will pay Ucyglyd royalties and regulatory and sales milestone payments in connection with certain licenses that would be granted to Hyperion upon exercise of such buyout rights with respect to GT4P for various indications and AMMONUL® for HE.

On August 28, 2007, the Company and Hyperion issued a joint press release announcing the strategic collaboration between Hyperion and Ucyglyd. A copy of the press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
