ADVANCED MEDICAL OPTICS

Nov/Dec 2004

Filed by Advanced Medical Optics, Inc.,

Pursuant to Rule 425

Under the Securities Act of 1933

And Deemed Filed Pursuant to Rule 14a-12

Under the Securities Exchange Act of 1934

Subject Company: Advanced Medical Optics, Inc.

Commission File No. 001-31257

This filing relates to a proposed acquisition (the "Acquisition") by Advanced Medical Optics, Inc. ("AMO") of VISX, Incorporated ("VISX") pursuant

to the terms of an Agreement and Plan of Merger, dated as of November 9, 2004 (the "Merger Agreement"), by and among AMO, Vault Merger

Corporation and VISX. The Merger Agreement is on file with the Securities and Exchange Commission as an exhibit to the Current Report on

Form 8-K filed by AMO's on July 10, 2004, and is incorporated by reference into this filing. The following is a slide presentation first presented on

November 30, 2004, which includes information regarding the Acquisition:

Forward Looking Statements

Our statements in this presentation that discuss projected demographics and markets, statements regarding the expected timing and benefits of the VISX transaction, statements under the heading "2004-2005 Launch Highlights," and all slides under the heading "Financial and Operational Performance," and elsewhere that refer to AMO's financial projections or estimated future results, including by way of example only, financial projections, discussions of growth prospects and options, product pipeline (future products, regulatory filings and/or expected approvals and potential markets), strategies for AMO's businesses and growth in markets and populations are forward-looking statements that reflect the Company's current analysis of existing trends and information. AMO disclaims any intent or obligation to update these forward-looking statements. Actual results may differ from current expectations based on a number of factors affecting the Company's businesses, including the following

Uncertainty as to whether the VISX transaction will be completed;

Successfully integrating AMO and VISX

The failure to realize the synergies and other perceived advantages resulting from the VISX merger;

Costs and potential litigation associated with the VISX merger;

The failure to obtain the approval of each company's stockholders for the VISX merger;

The inability to obtain, or meet conditions imposed for, applicable regulatory and tax requirements relating to the VISX merger;

The failure of either party to meet the closing conditions set forth in the definitive merger agreement;

The ability to retain key personnel both before and after the merger;

Each company's ability to successfully execute its business strategies;

The extent and timing of regulatory approvals, and the extent and timing of market acceptance, of new products or product indications;

Manufacturing;

Litigation;

The procurement, maintenance, enforcement and defense of patents and proprietary rights;

Competitive conditions in the industry; business cycles affecting the markets in which any products may be sold;

Fluctuations in foreign exchange rates and interest rates; and

Economic conditions generally or in various geographic areas.

Additional information concerning these and other factors can be found under the heading "Certain Factors and Trends Affecting Advanced Medical Optics and its Businesses" in the AMO 2003 Form 10-K and Form 10-Q filed November 2, 2004.
