NET SAVINGS LINK, INC.
(A Development Stage Company)
Notes to the Unaudited Financial Statements

1. Nature of Operations and Continuance of Business

The unaudited interim financial statements included herein have been prepared by Net Savings Link, Inc. (“we,” “our” or the “Company”) in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. We suggest that these interim financial statements be read in conjunction with the audited financial statements and notes thereto included in our Form 10-K for the year ended November 30, 2011, as filed with the SEC. We believe that all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein and that the disclosures made are adequate to make the information not misleading. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year as reported in Form 10-K have been omitted.

2. Going Concern

These financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. During the period from inception through May 31, 2012, the Company has generated limited revenues and has an accumulated deficit of \$3,108,942. The continuation of the Company as a going concern is dependent upon the continued financial support from its management, and its ability to identify future investment opportunities and obtain the necessary debt or equity financing, and generating profits from the Company’s future operations. These factors raise substantial doubt regarding the Company’s ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

3. Related Party Transactions

As of May 31, 2012, the Company owed \$27,975 to the President and CEO of the Company for back due wages.

As of May 31, 2012, the Company owed \$30,677 to the Vice President and director of the Company for back due wages.

4. Convertible Promissory Notes Payable

During the six months ended May 31, 2012, the Company issued three Unsecured Convertible Promissory Notes (the “Convertible Promissory Notes”) to Asher Enterprises, Inc., a Delaware corporation (“Asher”) in the amounts of \$47,500, \$37,500 and \$37,500, or a total of \$122,500. The Convertible Promissory Notes are unsecured, due approximately nine months from the dates of issuance, accrued interest at 8% per annum and are convertible, at the option of the holder, into shares of the Company’s common stock after 180 days from issuance at fifty eight percent (58%) of the fair market value of one share of the Company’s common stock based on the average of the three lowest bid prices of the Company’s common stock during the ten trading days prior to the conversion date.

4. Convertible Promissory Notes Payable (Continued)

During the six months ended May 31, 2012, the Company issued two Unsecured Convertible Promissory Notes (the “Convertible Promissory Notes”) to Southridge Partners II, LP, a Delaware Limited Partnership (“Southridge”) in the amounts of \$75,000 and \$50,000 or a total of \$125,000. The Convertible Promissory Notes are unsecured, due approximately three and nine months, respectively, from the dates of issuance, accrued interest at 8% per annum and are convertible, at the option of the holder, into shares of the Company’s common stock. The note in the amount of \$75,000 is convertible into common shares at maturity and the note in the amount of \$50,000 is convertible into common shares after 180 days from issuance at sixty percent (60%) and seventy percent (70%), respectively, of the fair market value of one share of the Company’s common stock based on the average of the two lowest bid prices of the Company’s common stock during the five trading days prior to the conversion date. The Company paid \$50,000 in legal fees associated with the funding of \$75,000 convertible note. These fees have been recorded as debt discount and are being amortized straight line over the life of loan (approx. 4 months).

In addition, to the \$75,000 convertible note due to Southridge Partners II, LP, the Company granted a stock warrant for 1,500,000 shares of its common stock with an exercise price of \$0.05 per share on March 9, 2012. These warrants have a seven-year term and are fully vested on the grant date. On March 9, 2012, the Company fair valued the warrants using the Black-Scholes pricing model for a total value of \$86,100. The warrant has a relative fair market value of \$19,405; this is accounted for as a discount on the convertible note. The discount is amortized over the life of loan (approx. 4 months). As of May 31, 2012, the Company has recognized \$44,248 in amortized discount and \$25,157 remains unamortized.

The fair value of the warrants was computed using the Black-Scholes pricing model with the following assumptions:

Expected Term	7 years
Expected volatility	434.78%
Risk free interest rate	1.43%
Expected dividend yield	0.00%

The warrants weighted average remaining contractual life for warrants outstanding as of May 31, 2012 is approximately 6.7 years; the weighted average exercise price is \$0.05. The intrinsic value of the warrants is \$0.00.

Due to their being no explicit limit to the number of shares to be delivered upon settlement of the above conversion options embedded in the Convertible Promissory Notes, the conversion options, once available, will be deemed and classified as derivative liabilities and recorded at fair value.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES.

Under the supervision and with the participation of our management, including the Principal Executive Officer and Principal Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer have concluded that these disclosure controls and procedures are not effective because procedures were not in place to provide for timely, complete, accurate reporting of events. The foregoing was a result of our president's lack of experience with his reporting and disclosure obligations. Our president is committed to educating himself through the seminars and consulting with attorneys to become fully knowledgeable with his obligations. In addition, currently there are no written policies or procedures that clearly define the roles in the disclosure and reporting process.

There were no changes in our internal control over financial reporting during the quarter ended May 31, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
