NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED June 30, 2002 AND 2001

(UNAUDITED)

NOTE 1 BASIS OF PRESENTATION

The foregoing consolidated financial statements of First Mariner Bancorp (the Company) are unaudited; however, in the opinion of management, all adjustments (comprising only normal recurring accruals) necessary for a fair presentation of the results of interim periods have been included. These statements should be read in conjunction with the financial statements and accompanying notes included in First Mariner Bancorp's Annual Report on Form 10-K for the year ended December 31, 2001. The results shown in this interim report are not necessarily indicative of results to be expected for the full year.

Consolidation of financial information has resulted in the elimination of all significant intercompany accounts and transactions. Certain reclassifications may have been made to amounts previously reported to conform with the classifications made in 2001.

NOTE 3 PER SHARE DATA

Basic earnings per share is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings per share is computed after adjusting the numerator and denominator of the basic earnings per share computation

Edgar Filing: FIRST MARINER BANCORP - Form 10-Q

for the effects of all dilutive potential common shares outstanding during the period. The dilutive effects of options, warrants and their equivalents are computed using the treasury stock method.

Information relating to the calculation of earnings per common share is summarized as follows:

(2) Includes net interest income of \$4,724 and \$2,781 for June 30, 2002 and 2001 respectively.

(3) Management's policy for the mortgage banking segment is to recognize a gain for loans sold to the Bank at market prices determined on an individual loan basis.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read and reviewed in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2001.

The Company

The Company is a bank holding company formed in Maryland in 1994 under the name Maryland's Bank Corporation that later changed its name to First Mariner Bancorp in May 1995. The business of the Company is conducted primarily through its wholly-owned Subsidiary, First Mariner Bank (the "Bank"), whose deposits are insured by the Federal Deposit Insurance Corporation ("FDIC"). The Bank, which is headquartered in Baltimore City, serves the central region of the State of Maryland as well as portions of Maryland's Eastern Shore through 22 full service bank branches, 15 mortgage loan offices, and 159 Automated Teller Machines.

The Bank is an independent community bank engaged in the general commercial banking business with particular emphasis on the needs of individuals and small to mid-sized businesses. The Bank emphasizes access to local management as well as personal attention and professional service to its customers while delivering a range of financial products.

On July 12, 2002 First Mariner Bancorp formed Finance Maryland, LLC, a consumer finance company headquartered at 3301 Boston Street Baltimore, Maryland. Finance Maryland currently operates one branch in Baltimore County.

The Company's executive offices are located at 3301 Boston Street, Baltimore, Maryland 21224 and its telephone number is (410) 342 - 2600.

Financial Condition

The Company's total assets were \$806,637,000 at June 30, 2002, compared to \$777,865,000 at December 31, 2001, increasing \$28,772,000 or 3.7% for the first six months of 2002. Earning assets increased \$37,658,000 or 5.3% to \$752,070,000 from \$714,412,000. Loans outstanding have increased \$31,337,000 or 6.7% while loans held for sale decreased by \$40,870,000 or 49.1%. The decrease in loans held for sale was primarily attributable to increased funding of sold loans to investors in the first three months of 2002. Available for sale investment securities increased by \$54,093,000. Deposits increased by \$24,361,000 or 4.1%, while borrowed funds increased \$1,206,000 or 1.4%. Stockholders equity increased by \$3,743,000 or 8.5%, driven by retention of earnings and improvement in fair value of securities classified as available for sale.

Investment securities are as follows:

(in thousands)	June 30, 2002	December 31, 2001
Investment securities-available for sale:		
Mortgage-backed securities	\$ 107,373	\$ 87,057

	500,002	468,665

The increase in total loans was primarily due to increases in the commercial real estate category (commercial real estate first mortgages), which increased by \$24,469,000, and totaled \$190,545,000 as of June 30, 2002. All other categories of loans increased with the exception of residential real estate mortgages, which declined by \$5,812,000. The decrease in residential real estate loans was due to an increase in prepayments.

Credit Risk Management

The first six months provision for loan losses in 2002 was \$635,000 compared to \$750,000 for the same period ended June 30, 2001. The allowance for loan losses totaled \$6,060,000 at June 30, 2002 compared to \$5,524,000 at December 31, 2001. This represented an increase of 10%. As of June 30, 2002 the allowance for loan losses is 1.21% of outstanding loans as compared to 1.18% at December 31, 2001.

The Company attempts to manage the risk characteristics of its loan portfolio through various control processes, such as credit evaluation of borrowers, establishment of lending limits and application of lending procedures, including the holding of adequate collateral and the maintenance of compensating balances. However, the Bank seeks to rely primarily on the cash flow of its borrowers as the principal source of repayment. Although credit policies are designed to minimize risk, management recognizes that loan losses will occur and the amount of these losses will fluctuate depending on the risk characteristics of the loan portfolio as well as general and regional economic conditions.

During the first six months of 2002 net chargeoffs as compared to average loans outstanding were 0.04% as compared to 0.07% during the same period of 2001. Notwithstanding the performance of the loans in the portfolio, the allowance for loan losses has been increased to guard against a softening of the economy. Activity in the allowance for loan losses is as follows:

At June 30, 2002, the allowance for loan losses represented 185% of nonperforming assets compared to 127% at December 31, 2001. Management believes the allowance for loan losses at June 30, 2002 is adequate.

Deposits

Deposits totaled \$624,949,000 as of June 30, 2002, increasing \$24,361,000 or 4.1% from the December 31, 2001 balance of \$600,588,000. The increase in deposits is attributable to management's growth strategy, which includes significant marketing, promotion and cross selling of existing customers into additional products.

Results of Operations

Net Income. For the six months ended June 30, 2002, net income totaled \$1,771,000 compared to \$813,000 for the six month period ended June 30, 2001. Basic earnings per share for the first six months of 2002 totaled \$.33 compared to \$.22 per share for the same period of 2001. Increased net income for the first six months of 2002 was attributable

primarily to increases in revenue (net interest income and non interest income) of \$3,691,000, partially offset by an increase in noninterest expense of \$2,414,000.

Second quarter 2002 net income was \$908,000 compared to earnings of \$501,000 for the second quarter of 2001. Basic earnings per share for the quarter increased to \$.17 from \$.14 for the second quarter of 2001. The increase in earnings was due to an increase in revenue (net interest income and non interest income) of \$1,806,000 while non interest expenses grew by \$1,299,000.

Net Interest Income. Net interest income for the first six months of 2002 totaled \$14,492,000, an increase of 21.6% over \$11,916,000 for the six months ended June 30, 2001. The net interest margin for the six month period was 4.00% compared to 3.63% for the comparable period of 2001.

Average loans outstanding increased by \$29,624,000 while average investment securities increased by \$36,883,000 and average loans held for sale decreased \$5,245,000. Yields on earning assets for the period decreased to 7.00% from 8.23%. Interest expense decreased by \$4,076,000. Average interest bearing liabilities increased by \$37,578,000. Average interest bearing deposits increased by \$86,356,000 and average borrowings declined by \$48,778,000. Rates paid on interest bearing liabilities decreased to 3.44% from 5.05% for the same period in 2001 as a result of the decline in general interest rates.

Second quarter net interest income was \$7,594,000 in 2002, an increase of 17.3% over \$6,472,000 for the second quarter of 2001. The net interest margin for the six month period was 4.13% compared to 3.81% for the comparable period of 2001.

Edgar Filing: FIRST MARINER BANCORP - Form 10-Q

Average loans outstanding for the second quarter increased by \$20,861,000 while average investment securities increased by \$30,976,000 and average loans held for sale decreased \$30,984,000. Yields on earning assets for the period decreased to 7.04% from 8.06%. Interest expense decreased by \$1,806,000. Average interest bearing liabilities increased by \$25,974,000. Average interest bearing deposits increased by \$84,577,000 and average borrowings declined by \$58,603,000. Rates paid on interest bearing liabilities, for the quarter ended June 30, 2002, decreased to 3.36% from 4.70% for the same period in 2001 as a result of the decline in general interest rates, and a higher mix of deposits in the overall funding sources.

Noninterest Income Noninterest income increased \$1,115,000 or 21.5% for the six months ended June 30, 2002 to \$6,297,000 from \$5,182,000 for the same period of 2001, reflecting higher levels of revenue in most major categories. Deposit service charges rose 6.3% as compared to the six months ending June 30, 2002 due to the increased number of deposit accounts. These increases are the result of the continued leveraging of the bank's branch network and focused marketing and promotion of the retail banking products. ATM fees increased by \$156,000 or 19.8% as a result of increased volume of ATM and debit card transactions. The Bank has entered into a partnership with a third party to provide ATM's to additional remote locations. As of June 30, 2002, the Bank has 45 ATM locations that it owns and operates and 114 ATM's through the third party agreement. Mortgage banking income and gain on sale of mortgage loans increased by \$451,000 due to increased dollar volume of mortgage loans originated and sold into the secondary market. The volume of mortgage loans produced during the first six months of 2002 was \$397,386,000 compared to \$388,872,000 in 2001. Other sources of noninterest income increased by \$318,000 or 33.7%. Investment fee revenue received from sales of annuities and mutual funds increased \$158,000 and bank owned life insurance income increased \$267,000.

Non interest expenses - For the six months ended June 30, 2002 non interest expenses increased \$2,414,000 or 16.2% to \$17,476,000 compared to \$15,062,000 for the same period of 2001. Increased salary and employee benefits expenses of \$2,094,000 relate to additional personnel costs for new positions due to an increase in the number of loans and deposits, higher commissions paid on mortgage loan originations, sales of investment products, and staffing hired for the newly formed consumer finance company. Furniture, fixtures, and equipment expense increased by \$122,000 or 12.1% primarily due to higher depreciation expenses. Professional services expenses increased by \$426,000 primarily as a result of increased legal fees associated with growth in lending activities and higher cost for loan workouts. Advertising expenses grew by 14.6% and totaled \$550,000 as the Company maintained most of its advertising campaigns from the prior year.

For the second quarter of 2002, non interest expenses increased \$1,299,000 or 16.6% to \$9,113,000 compared to \$7,814,000 for the same quarter of 2001. Increases in salary and employee benefits expenses relate to the increased personnel costs including several new positions due to the increased number of loans and deposits, as well as higher commission paid on mortgage loan originations and staffing hired for the newly formed consumer finance company. Increases in furniture and fixtures expenses is attributable to higher depreciation cost. Net occupancy is due to the increased number of bank branches and mortgage origination.

Income Taxes- The Company recorded income tax expense of \$907,000 on income before taxes of \$2,678,000, resulting in an effective tax rate of 33.9% for the six month period ended June 30, 2002 in comparison to income tax expense of \$473,000 on income before taxes of \$1,286,000, resulting in an effective tax rate of 36.8% for the six month period ended June 30, 2001. The decrease in the effective tax rate reflects higher levels of tax exempt interest income for state income tax purposes, as well as income from Bank Owned Life Insurance which is exempt from both federal and state income taxes.

Liquidity and Capital Resources

Stockholders' equity increased \$3,743,000 in the first six months of 2002 to \$47,751,000 from \$44,008,000 as of December 31, 2001. Accumulated other comprehensive income improved by \$1,853,000. The improvement resulted from increases in market values of available for sale securities as interest rates declined during the period. Also contributing to the increased capital levels is the retention of net income of \$1,771,000 for the first six months of 2002 and \$119,000 of proceeds from the sale of stock under the company stock purchase plan.

Banking regulatory authorities have implemented strict capital guidelines directly related to the credit risk associated with an institution's assets. Banks and bank holding companies are required to maintain capital levels based on their risk adjusted assets so that categories of assets with higher defined credit risks will require more capital support than assets with lower risk. Additionally, capital must be maintained to support certain off-balance sheet instruments.

The Company and the Bank have exceeded its capital adequacy requirements to date. The Company regularly monitors its capital adequacy ratios to assure that the Bank exceeds its regulatory capital requirements. The regulatory capital ratios are listed below:

The Bank's principal sources of liquidity are cash and cash equivalents, which are cash on hand, amounts due from financial institutions, federal funds sold, stock investments, money market mutual funds, interest bearing deposit and available-for-sale securities. The levels of such assets are dependent on the Bank's operating, financing and investment activities at any given time and are influenced by anticipated deposit flows and loan growth.

FORWARD-LOOKING STATEMENTS

This Quarterly Report filed on Form 10-Q may contain forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Readers of this report should be aware of the speculative nature of forward-looking statements. Statements that are not historical in nature, including the words anticipate, estimate, should, expect, believe, intend, and similar expressions, are based on current expectations, estimates and projections about (among other things) the industry and the markets in which the Company operates, they are not guarantees of future performance. Whether actual results will conform to expectations and predictions is subject to known and unknown risks and uncertainties, including risks and uncertainties discussed in this Form 10-Q, general economic, market, or business conditions; changes in interest rates, deposit flow, the cost of funds, and demand for loan products and financial services; changes in our competitive position or competitive actions by other companies; changes in the quality or composition of loan and investment portfolios; the ability to manage growth; changes in laws or regulations or policies of federal and state regulators and agencies; and other circumstances beyond the Company's control. Consequently, all of the forward-looking statements made in this document are qualified by these cautionary statements, and there can be no assurance that the actual results anticipated will be realized, or if substantially realized, will have the expected consequences on the Company's business or operations. For a more complete discussion of these risk factors, see "Risk Factors" filed as Exhibit 99 to the Company's Annual Report on Form 10-K for the year ended December 31, 2001. Except as required by applicable laws, we do not intend to publish updates or revisions of any forward-looking statements we make to reflect new information, future events or otherwise.

ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Results of operations for financial institutions, including the Company, may be materially and adversely affected by changes in prevailing economic conditions, including declines in real estate values, rapid changes in interest rates and the monetary and fiscal policies of the federal government. The profitability of the Company is in part a function of the spread between the interest rates earned on assets and the interest rates paid on deposits and other interest-bearing liabilities (net interest income), including advances from Federal Home Loan Bank of Atlanta (FHLB) and other borrowings. Interest rate risk arises from mismatches (i.e., the interest sensitivity gap) between the dollar amount of repricing or maturing assets and liabilities and is measured in terms of the ratio of the interest rate sensitivity gap to total assets. More assets repricing or maturing than liabilities over a given time period is considered asset-sensitive and is reflected as a positive gap, and more liabilities repricing or maturing than assets over a given time period is considered liability-sensitive and is reflected as negative gap. An asset-sensitive position (i.e., a positive gap) will generally enhance earnings in a rising interest rate environment and will negatively impact earnings in a falling interest rate environment, while a liability-sensitive position (i.e., a negative gap) will generally enhance earnings in a falling interest rate environment and negatively impact earnings in a rising interest rate environment. Fluctuations in interest rates are not predictable or controllable. The Company has attempted to structure its asset and liability management strategies to mitigate the impact on net interest income of changes in market interest rates. However, there can be no assurance that the Company will be able to manage interest rate risk so as to avoid significant adverse effects on net interest income. At June 30, 2002, the Company had a one-year cumulative positive gap of approximately \$145 million.

In addition to the use of interest rate sensitivity reports, the Company tests its interest rate sensitivity through the deployment of simulation analysis. Earnings simulation models are used to estimate what effect specific interest rate changes would have the Company's net interest income and net income. Derivative financial instruments, such as interest rate caps, are included in the analysis. Changes in prepayments have been included where changes in behavior patterns are assumed to be significant to the simulation, particularly mortgage related assets. Call features on certain securities and borrowings are based on their call probability in view of the projected rate change. At June 30, 2002, the Company's estimated earnings sensitivity profile reflected a minimal sensitivity to interest rate changes. Based on an assumed change of 200

Edgar Filing: FIRST MARINER BANCORP - Form 10-Q

basis points over a one year period, the Company's net interest income would increase by 4% if rates were to increase and decrease by 3% if rates were to decline.
