#### FIRST MARINER BANCORP AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2004 AND 2003

(UNAUDITED)

#### NOTE 1 BASIS OF PRESENTATION

The foregoing consolidated financial statements of First Mariner Bancorp (the Company) are unaudited; however, in the opinion of management, all adjustments (comprising only normal recurring accruals) necessary for a fair presentation of the results of interim periods have been included. The balances as of December 31, 2003 have been derived from audited financial statements. There have been no significant changes to the Company s accounting policies as disclosed in the 2003 annual report. These statements should be read in conjunction with the financial statements and accompanying notes included in First Mariner Bancorp s Annual Report on Form 10-K for the year ended December 31, 2003. The results shown in this interim report are not necessarily indicative of results to be expected for the full year.

Consolidation of financial information has resulted in the elimination of all significant intercompany accounts and transactions. Certain reclassifications have been made to amounts previously reported to conform with the classifications made in 2004.

#### NOTE 2 COMPREHENSIVE INCOME (DOLLARS IN THOUSANDS)

	Six months ended June 30,

\$73, respectively) included in net income		209		116	
Total other comprehensive (loss) income		(3,943)		187	
Total comprehensive (loss) income	\$	(1,263)	\$	2,670	

#### NOTE 3 PER SHARE DATA

Basic earnings per share is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings per share is computed after adjusting the numerator and

denominator of the basic earnings per share computation for the effects of all dilutive potential common shares outstanding during the period. All options and warrants as of June 30, 2004 are in the money and are included in the computation. The dilutive effects of options, warrants and their equivalents are computed using the treasury stock method.

Information relating to the calculation of earnings per common share is summarized as follows:

		Three Mor	nths En	ded	Six Months Ended			
(dollars in thousands)	Jur	ne 30, 2004	Ju	ne 30, 2003	Ju	ne 30, 2004	Ju	me 30, 2003

Weighted-average shares outstanding-basic		5,743,659		5,401,633		5,728,560		5,398,331
Dilutive securities-options and warrants		603,789		464,782		628,779		426,203
Adjusted weighted-average shares outstanding-dilutive		6,347,448		5,866,415		6,357,339		5,824,534

#### NOTE 4 - STOCK BASED COMPENSATION

In December 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Account Standards No. 148. Accounting for Stock-Based Compensation Transition and Disclosure (SFAS No. 148) which amends Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation (SFAS No. 123). SFAS No. 148 provides alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation and requires disclosure in annual and interim financial statements of the effects of stock-based compensation as reflected below.

The Company continues to account for its stock option and employee stock purchase plans under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related

Interpretations. No stock-based employee compensation expense related to the Company s stock option and stock purchase plans is reflected in net earnings, as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net earnings and earnings per share if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation.

NOTE 5 SEGMENT INFORMATION

The Company is in the business of providing financial services, and operates in three business segments commercial and consumer banking, consumer finance and mortgage banking. Commercial and consumer banking is conducted through First Mariner Bank (the Bank) and involves delivering a broad range of financial services, including lending and deposit taking, to individuals and commercial enterprises. This segment also includes the Company s treasury and administrative functions. Mortgage banking is conducted through First Mariner Mortgage, a division of the Bank, and involves originating residential single family mortgages for sale in the secondary market and to the Bank. Consumer finance is conducted through Finance Maryland, and involves originating small direct consumer loans and the purchase of retail installment sales contracts.

For the six month period ended June 30, 2004:

ITEM 2 - MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read and reviewed in conjunction with Management s Discussion and Analysis of Financial Condition and Results of Operations set forth in the Company s Annual Report on Form 10-K for the year ended December 31, 2003.

Portions of this 10-Q may contain forward-looking language within the meaning of The Private Securities Litigation Reform Act of 1995. Statements may include expressions about the Company's confidence, policies, and strategies, provisions and allowance for loan losses, adequacy of capital levels, and liquidity. Such forward looking statements involve certain risks and uncertainties, including general economic conditions, competition in the geographic and business areas in which the Company operates, inflation, fluctuations in interest rates, legislation and government regulation. For a more complete discussion of risks and uncertainties that could cause actual results to differ materially from those contained in the forward looking statements, see Risk Factors filed as Exhibit 99 to the Company's Form 10-K for the year ended December 31, 2003. The Company assumes no obligation to update forward-looking statements at any time.

The Company

The Company is a financial holding company incorporated under the laws of Maryland and registered under the federal Bank Holding Company Act of 1956, as amended. The Company was organized in 1994 and changed its name to First Mariner Bancorp in May 1995. Since 1995, our strategy has involved building a network of banking branches and ATMs to capture market share and build a community franchise for stockholders, customers and employees. We are focusing on growing assets and earnings by capitalizing on the broad network of Bank branches, mortgage offices, consumer finance offices, and ATMs established during our infrastructure expansion phase.

First Mariner Bank (the Bank ), the only bank subsidiary, offers consumer and commercial banking and real estate lending services throughout central Maryland, the Eastern Shore of Maryland, and in portions of Virginia. Finance Maryland, LLC (Finance Maryland), is a wholly owned subsidiary, and offers traditional consumer finance products and services through its branch network located in central Maryland, the Eastern Shore of Maryland, and Delaware. Branch locations in Delaware operate under the trade name of Finance Delaware.

The Company s executive offices are located at 3301 Boston Street, Baltimore, Maryland 21224 and its telephone number is (410) 342 - 2600.

#### Financial Condition

The Company s total assets were \$1,144.961 million at June 30, 2004, compared to \$1,057.853 million at December 31, 2003, increasing \$87.108 million or 8.2% for the first six months of 2004. Earning assets increased \$71.323 million or 7.2% to \$1,056.032 million from \$984.709 million. The growth in assets was primarily due to growth in loans outstanding (+\$23.692 million), increases in the Company s investment portfolio (+\$47.725 million), and higher short-term investments (+\$11.053 million). Loans held for sale decreased by \$10.897 million. Growth in total assets was funded by an increased level of customer deposits of \$66.491 million. Borrowed funds increased by \$22.031 million.

The investment portfolio composition is as follows:

	June 30, 2004	December 31, 2003
Investment securities-available for sale:		
Mortgage-backed securities	\$ 213,152	\$ 149,763
Trust preferred securities	36,108	22,987
US Government agency notes	78,472	107,314
US Treasury securities	999	1,001
Equity securities	1,308	1,274
Foreign Government Bonds	1,250	1,250
Other investment securities	4,873	4,848
Total investment securities-available-for-sale	\$ 336,162	\$ 288,437

Total loans increased \$23.692 million during the first six months of 2004. Significant growth was realized in the Company s commercial real estate loan portfolio (+\$14.871 million) and consumer loans (+\$5.416 million). The total loan portfolio was comprised of the following:

	June 30, 2004	December 31, 2003	
	(in thou		
Loans secured by first mortgages on real estate:			
Residential	\$ 41,729	\$	40,231
Commercial	251,310		236,439

Credit Risk Management

The Company attempts to manage the risk characteristics of its loan portfolio through various control processes, such as credit evaluation of borrowers, establishment of lending limits and application of lending procedures, including the holding of adequate collateral and the maintenance of compensating balances. However, the Bank seeks to rely primarily on the cash flow of its borrowers as the principal source of repayment. Although credit policies are designed to minimize risk, management recognizes that loan losses will occur and the amount of these losses will fluctuate depending on the risk characteristics of the loan portfolio as well as general and regional economic conditions.

The provision for loan losses for the six months ended June 30, 2004 was \$789,000 compared to \$1.452 million for the same period ended June 30, 2003. The lower provision for the six months of 2004 reflects lower levels of non-performing and delinquent loans compared to the same period last year. The allowance for loan losses totaled \$9.020 million at June 30, 2004 compared to \$8.692 million at December 31, 2003. This represented an increase of 3.8%. As of June 30, 2004 the allowance for loan losses is 1.42% of outstanding loans as compared to 1.43% at December 31, 2003.

Activity in the allowance for loan losses is as follows:

	Six Months Ended June 30,					
	2004			2003		
Allowance for loan losses, beginning of year	\$	8,692		\$	7,18	38
Loans charged off:

Provision for loan losses		789			1,45	52
Allowance for loan losses, end of period	\$	9,020		\$	8,20	)6
Loans (net of premiums and discounts)						
Period-end balance		633,539			547,14	11
Average balance during period		625,865			539,35	52
Allowance as percentage of period-end loan balance		1.42	%		1.5	50%
Percent of average loans:						
Provision for loan losses (annualized)		0.25	%		0.5	54%
Net chargeoffs (annualized)		0.15	%		0.1	16%

During the first six months of 2004 net chargeoffs decreased as compared to average loans outstanding to 0.15%, as compared to 0.16% during the same period of 2003. Non-performing assets, expressed as a percentage of total assets, decreased to 0.21% at June 30, 2004, down from 0.48% at December 31, 2003, and 0.45% at June 30, 2003, due to resolutions of loans placed on nonaccruing status during the quarter and a decrease of other real estate owned. Loans past due 90 days or more and still accruing totaled \$6.127 million compared to \$2.258 million at December 31, 2003 and \$9.688 million as of June 30, 2003.

Nonperforming Assets (Dollars in thousands)	June 30, 2004	ember 31, 2003	June 30, 2003
Nonaccruing loans	\$ 2,314	\$ 4,774	\$ 2,607
Real estate acquired by foreclosure	92	296	1,902
Total non-performing assets	\$ 2,406	\$ 5,070	\$ 4,509
Loans past-due 90 days or more and accruing	\$ 6,127	\$ 2,258	\$ 9,688

At June 30, 2004, the allowance for loan losses represented 374.9% of nonperforming assets compared to 171.4% at December 31, 2003. Management believes the allowance for loan losses at June 30, 2004 is adequate.

#### Deposits

Deposits totaled \$814.224 million as of June 30, 2004, increasing \$66.491 million or 8.9% from the December 31, 2003 balance of \$747.733 million. The increase in deposits is attributable to management s growth strategy, which includes significant marketing, promotion and cross selling of existing customers into additional products. The mix of deposits has not significantly changed during 2004. Continued successful marketing campaigns have maintained a strong mix of non-interest checking accounts, NOW and money market accounts.

	June 30, 2004			December 31, 2003			
(Dollars in thousands)		Balance	Percent of Total	Balance	Percent of Total

#### Results of Operations

Net Income. For the six months ended June 30, 2004, net income totaled \$2.680 million compared to \$2.483 million for the six month period ended June 30, 2003. Basic earnings per share for the first six months of 2004 totaled \$.47 compared to \$.46 per share for the same period of 2003. Diluted earnings per share totaled \$.42 for the first six months of 2004 compared to the first six months of 2003 of \$.43. Earnings for the six months ended June 30, 2004 reflected higher net interest income, a lower provision for credit losses, a decline in fee income and growth in noninterest expenses.

For the second quarter of 2004, net income totaled \$1.373 million compared to \$1.328 million for the three month period ended June 30, 2003. Basic earnings per share for the three month period ended June 30, 2004 totaled \$.24 compared to \$.25 per share for the same period of 2003. Diluted earnings per share totaled \$.22 for the second quarter of 2004 compared to \$.23 for the second quarter of 2003. Increased net income for the second quarter of 2004 was attributable to increases in net interest income, while noninterest expense increased and the provision for loan losses and income tax expense decreased.

*Net Interest Income.* Net interest income for the first six months of 2004 totaled \$20.148 million, an increase of 21.5% over \$16.584 million for the six months ended June 30, 2003. The net interest margin for the six month period was 3.99% compared to 4.04% for the comparable period of 2003, while average earning assets increased by \$185.523 million or 22.8%.

Total interest income increased by \$3.894 million due to growth in average loans and investments. Average loans outstanding increased by \$86.513 million, average investment securities increased by \$184.883 million while average loans held for sale decreased \$54.016 million. Yields on earning assets for the period decreased to 6.15% from 6.61%. Interest expense increased by \$330,000. Average interest bearing liabilities increased by \$165.083 million. Average interest bearing deposits increased by \$71.492 million and average borrowings increased by \$93.591 million. Yields on interest bearing liabilities decreased to 2.45% from 2.93% for the same period in 2003 as a result of the decline in general interest rates.

Second quarter net interest income was \$10.227 million in 2004, an increase of 21.1% over \$8.444 million for the second quarter of 2003. The net interest margin for the three month period was 3.92% compared to 3.95% for the comparable period of 2003. Interest income increased \$1.930 million. Average loans outstanding for the second quarter increased by \$90.605 million and average investment increased \$217.216 million. Average loans held for sale decreased \$62.746 million and average interest bearing deposits decreased by \$56.667 million. Yields on earning assets for the period decreased to 6.05% from 6.48%. Interest expense increased by \$147,000. Average interest bearing liabilities increased by \$171.131 million, as average interest bearing deposits increased by \$57.406 million and average borrowings increased by \$113.725 million. Rates paid on interest bearing liabilities for the quarter ended June 30, 2004 decreased to 2.41% from 2.88% for the same period in 2003 as a result of the decline in general interest rates.

Noninterest Income Noninterest income for the three months ended June 30, 2004 was \$4.673 million, a decrease of \$551,000 or 10.5% for the same comparable period of 2003. Deposit service charges rose slightly as compared to the three months ending June 30, 2004 due to the increased number of deposit accounts offset by lower overdraft revenue. ATM fees increased by \$50,000 or 7.5% as a result of increased volume of ATM and debit card transactions. As of June 30, 2004, the Bank has 49 ATM locations that it owns and operates and 146 ATM s through the third party agreements. Mortgage banking income and gain on sale of mortgage loans decreased by \$603,000 (-32.6%) due to decreased volume of mortgage loans originated and loans sold into the secondary market. The volume of mortgage loans sold into the secondary market for the three months ended June 30, 2004 was \$152 million compared to \$288 million for the same comparable period in 2003.

	For six months ended June 30,					
(Dollars in thousands)		2004		2003		
	A	mount		Amount		
Gain on sale of mortgage loans	\$	1,695	\$	2,634		
Service fees on deposits		3,241		3,203		
ATM fees		1,343		1,253		
Gain on sales of investment securities, net		340		189		
Other mortgage banking revenue		842		941		
Income from bank owned life insurance		515		370		
Other operating income		1,418		1,355		
Total noninterest income	\$	9,394	\$	9,945		

For the six months ended June 30, 2004, noninterest income decreased \$551,000 million or 5.5% to \$9.394 million compared to \$9.945 million for the same period of 2003, reflecting higher levels of revenue in most major categories. Deposit service charges rose \$38,000 or 1.2% as compared to the same period of 2003. Gain of sale of mortgage loans decreased \$939,000 or 35.6% due to decreased volume of mortgage originations and sales of mortgages. Mortgages sold into the secondary market decreased 41.6% during the first six months of 2004.

Noninterest expenses - For the six months ended June 30, 2004 noninterest expenses increased \$3.611 million or 16.8% to \$25.048 million compared to \$21.437 million for the same period of 2003. Increased salary and employee benefits expenses of \$2.099 million relate to additional personnel costs for new positions due to an increase in the number of loans and deposits, staffing hired to support the expansion of the consumer finance company and wholesale mortgage activities, and increased cost of employer provided health care. Occupancy expenses increased \$240,000 due to new offices of Finance Maryland, increased space occupied by administrative areas and higher utility costs. Other noninterest expenses grew by \$1.162 million due to increases in postage, security and administrative expenses.

For the second quarter of 2004, noninterest expenses increased \$1.706 million or 15.8% to \$12.519 million, compared to \$10.813 million for the same quarter of 2003. Increases in salary and employee benefits expenses is related to the increased personnel costs for the consumer finance company and wholesale mortgage operations, as well as, higher benefit expenses. Increases in furniture and fixtures expenses as well as net occupancy is related to increased number of mortgage branches and consumer finance offices.

	For six months ended June 30,			
		2004		2003
Noninterest expense		Amount		Amount
(Dollars in thousands)				
Salaries and employee benefits	\$	12,952	\$	10,853

Total noninterest expense	\$	25,048	\$	21,437

*Income Taxes*- The Company recorded income tax expense of \$1.025 million on income before taxes of \$3.705 million, resulting in an effective tax rate of 27.7% for the six month period ended June 30, 2004 in comparison to income tax expense of \$1.157 million on income before taxes of \$3.640 million, resulting in an effective tax rate of 31.8% for the six month period ended June 30, 2003. The decrease in the effective tax rate reflects higher levels of tax exempt interest income for state income tax purposes, increased income from Bank Owned Life Insurance which is exempt from both federal and state income taxes, and benefits of state and federal income tax credits awarded over the past year.

The Company recorded income tax expense of \$519,000 on income before taxes of \$1.892 million, resulting in an effective tax rate of 27.4% for the three month period ended June 30, 2003 in comparison to income tax expense of \$625,000 on income before taxes of \$1.953 million, resulting in an effective tax rate of 32.0% for the three month period ended June 30, 2003. The decrease in the effective tax rate reflects higher levels of tax exempt interest income for state income tax purposes, increased income from Bank Owned Life Insurance which is exempt from both federal and state income taxes and recognition of newly acquired state and federal income tax credit over the past year.

Liquidity and Capital Resources

Stockholders equity decreased \$536,000 in the first six months of 2004 to \$57.898 million from \$58.434 million as of December 31, 2003. Other comprehensive income decreased by \$3.943 million due to the decrease in market values of securities classified as available for sale. Retained earnings grew by the retention of net income of \$2.680 million for the first six months of 2004. Common stock and additional paid in capital increased by \$727,000 reflecting proceeds from the sale of stock under the Company stock purchase plan and the exercise of options and warrants.

Banking regulatory authorities have implemented strict capital guidelines directly related to the credit risk associated with an institution s assets. Banks and bank holding companies are required to maintain capital levels based on their risk adjusted assets so that categories of assets with higher defined credit risks will require more capital support than assets with lower risk. Additionally, capital must be maintained to support certain off-balance sheet instruments.

The Company and the Bank have exceeded its capital adequacy requirements to date. The Company regularly monitors its capital adequacy ratios to assure that the Bank exceeds its regulatory capital requirements. The regulatory capital ratios are listed below:

	At June 30,		
	2004	2003	
	(unaudited)		
Regulatory capital ratios			
Leverage			
Consolidated	7.3%	7.5%	
The Bank	6.7%	7.2%	
Tier 1 capital to risk weighted assets			
Consolidated	10.0%	9.8%	
The Bank	9.4%	9.4%	
Total capital to risk weighted assets			
Consolidated	14.4%	15.0%	
The Bank	11.1%	10.5%	

The Bank s principal sources of liquidity are cash and cash equivalents (which are cash on hand or amounts due from financial institutions, federal funds sold, money market mutual funds, and interest bearing deposits), and available for sale securities. The levels of such assets are dependent on the Bank s operating, financing and investing activities at any given time and are influenced by anticipated deposit flows and loan growth. Cash and cash equivalents totaled \$64.803 million at June 30, 2004 compared to \$46.679 million as of December 31, 2003. The Company s loan to deposit ratio stood at 77.8% as of June 30, 2004 and 81.6% at December 31, 2003.

#### FORWARD-LOOKING STATEMENTS

This Quarterly Report filed on Form 10-Q may contain forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995. Readers of this report should be aware of the speculative nature of forward-looking statements. Statement that are not historical in nature, including the words anticipate, estimate, should, expect, believe, intend, and similar expressions, are based on current expectations, estimates and projections about (among other things) the industry and the markets in which the Company operates, they are not guarantees of future performance. Whether actual results will conform to expectations and predictions is subject to known and unknown risks and uncertainties, including risks and uncertainties discussed in this Form 10-Q, general economic, market, or business conditions; changes in interest rates, deposit flow, the cost of funds, and demand for loan products and financial services; changes in our competitive position or competitive actions by other companies; changes in the quality or composition of loan and investment portfolios; the ability to manage growth; changes in laws or regulations or policies of federal and state regulators and agencies; and other circumstances beyond the Company's control. Consequently, all of the forward-looking statements made in this document are qualified by these cautionary statements, and there can be no assurance that the actual results anticipated will be realized, or if substantially realized, will have the expected consequences on the Company's business or operations. For a more complete discussion of these risk factors, see Risk Factors filed as Exhibit 99 to the Company's Form 10-K for the year ended December 31, 2003. Except as required by applicable laws, we do not intend to publish updates or revisions of any forward-looking statements we make to reflect new information, future events or otherwise

#### ITEM 3 - QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Results of operations for financial institutions, including the Company, may be materially and adversely affected by changes in prevailing economic conditions, including declines in real estate values, rapid changes in interest rates and the monetary and fiscal policies of the federal government. The profitability of the Company is in part a function of the spread between the interest rates earned on assets and the interest rates paid on deposits and other interest-bearing liabilities (net interest income), including advances from Federal Home Loan Bank of Atlanta (FHLB) and other borrowings. Interest rate risk arises from mismatches (i.e., the interest sensitivity gap) between the dollar amount of repricing or maturing assets and liabilities and is measured in terms of the ratio of the interest rate sensitivity gap to total assets. More assets repricing or maturing than liabilities over a given time period is considered asset-sensitive and is reflected as a positive gap, and more liabilities repricing or maturing than assets over a give time period is considered liability-sensitive and is reflected as negative gap. An asset-sensitive position (i.e., a

positive gap) will generally enhance earnings in a rising interest rate environment and will negatively impact earnings in a falling interest rate environment, while a liability-sensitive position (i.e., a negative gap) will generally enhance earnings in a falling interest rate environment and negatively impact earnings in a rising interest rate environment. Fluctuations in interest rates are not predictable or controllable. The Company has attempted to structure its asset and liability management strategies to mitigate the impact on net interest income of changes in market interest rates. However, there can be no assurance that the Company will be able to manage interest rate risk so as to avoid significant adverse effects on net interest income. At June 30, 2004, the Company had a one year cumulative positive gap of approximately \$215 million.

In addition to the use of interest rate sensitivity reports, the Company tests its interest rate sensitivity through the deployment of a simulation analysis. Earnings simulation models are used to estimate what effect specific interest rate changes would have on the Company's net interest income and net income. Derivative financial instruments, such as interest rate caps, are included in the analysis. Changes in prepayments have been included where changes in behavior patterns are assumed to be significant to the simulation, particularly mortgage related assets. Call features on certain securities and borrowings are based on their call probability in view of the projected rate change. The simulation model also includes the estimated effect of rate changes on the Company's fee income and net income produced by the Company's mortgage banking operations. At June 30, 2004, the Company's estimated earnings sensitivity profile reflected a minimal sensitivity to interest rate changes. Based on an assumed increase/decrease of 200 basis points over a one year period, the Company's net income would decrease by 7% if rates were to decline. Based on an assumed increase/decrease of 200 basis points over a one year period, the Company's net interest income would decrease by 0% if rates were to increase and net interest income would decrease by 0% if rates were to decline.

#### Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures. The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports filed under the Securities Exchange Act of 1934, such as this Quarterly Report, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow for timely decisions regarding required disclosure. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

An evaluation of the effectiveness of these disclosure controls, as of the end of the period covered by this Quarterly Report on Form 10-Q, was carried out under the supervision and with the participation of the Company s management, including the CEO and CFO. Based on that evaluation, the Company s management, including the CEO and CFO, has concluded that the Company s disclosure controls and procedures are effective.

(b) <u>Changes in Internal Control Over Financial Reporting</u>. There were no significant changes in our internal control over financial reporting or in other factors during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

#### PART II - Other Information

- Item 1 Legal proceedings None
- Item 2 Changes in securities, use of proceeds and issuer purchases of equity securities None
- Item 3 Defaults upon senior securities None

Item 4 - Submission of matters to a vote of security holders-None

Item 5 - Other information - None

Item 6 - Exhibits and reports on Form 8-K

(a) Exhibits Required to be filed by Item 601 of Regulation S-K

See Exhibit Index following signatures

(b) Reports on Form 8-K

On July 21, 2004, the Company furnished on Form 8-K a press release concerning the Company s earnings for second quarter earnings under item 12 and reporting the

Company s adoption of a stock repurchase program under item 5.

#### SIGNATURES

Pursuant to the requirements of Section 13 or 15 (d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
