CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited consolidated financial statements for the interim periods have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (GAAP) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the financial information and footnotes required by GAAP for complete financial statements, although we believe the disclosures are adequate to make the information presented not misleading. It is suggested that these consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in our latest shareholders' annual report on Form 10-K. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year or for any other interim period. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these consolidated financial statements, we have made our best estimates and judgments of certain amounts included in the consolidated financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results, since actual results could differ from those estimates.

Principles of Consolidation

The consolidated financial statements include the accounts of Nortech Systems Incorporated and its wholly owned subsidiary, Manufacturing Assembly Solutions of Monterrey, Inc. All significant intercompany accounts and transactions have been eliminated.

Revenue Recognition

We recognize revenue upon shipment of manufactured products to customers, when title has passed, all contractual obligations have been satisfied and collection of the resulting receivable is reasonably assured. We also provide engineering services separate from the manufacture of a product. Revenue for engineering services is recognized upon completion of the engineering process, providing standalone fair value to our customers. Our engineering services are short-term in nature. In addition, we have another separate source of revenue that comes from short-term repair services, which are recognized upon completion of the repairs and shipment of product back to the customer. Shipping and handling costs charged to our customers are included in net sales, while the corresponding shipping expenses are included in cost of goods sold.

Table of Contents**Stock Options**

Following is the status of all stock options as of June 30, 2013, including changes during the six-month period then ended:

	Shares	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding - January 1, 2013	288,750	\$ 7.19		
Granted	29,000	\$ 3.20		
Cancelled	(50,000)	\$ 7.22		
Outstanding - June 30, 2013	267,750	\$ 6.75	3.28	\$ 3,480
Exercisable - June 30, 2013	238,750	\$ 7.19	2.51	\$

There were no options exercised during the three and six months ended June 30, 2013 and 2012. There were no stock options granted during the three months ended June 30, 2013. The weighted-average fair value of options granted during the six months ended June 30, 2013 was \$1.65 per share.

Total compensation expense related to stock options for the three months ended June 30, 2013 and 2012 was \$1,720 and \$0, respectively. Total compensation expense related to stock options for the six months ended June 30, 2013 and 2012 was \$5,501 and \$0, respectively. As of June 30, 2013, there was approximately \$42,000 of unrecognized compensation related to unvested option awards that we expect to recognize over a weighted-average period of 2.62 years.

Equity Appreciation Rights Plan

In November 2010, the Board of Directors approved the adoption of the Nortech Systems Incorporated Equity Appreciation Rights Plan (the 2010 Plan). The total number of Equity Appreciation Right Units (Units) the Plan can issue shall not exceed an aggregate of 750,000 Units. The 2010 Plan provides that Units issued shall fully vest three years from the base date as defined in the agreement unless terminated earlier. Units give the holder a right to receive a cash payment equal to the appreciation in book value per share of common stock from the base date, as defined, to the redemption date. Unit redemption payments under this plan shall be paid in cash within 90 days after we determine the value as of the redemption date.

During the year ended December 31, 2010, 100,000 Units were issued with a vesting date of December 31, 2012. On March 7, 2012, the Company granted an additional 250,000 Units with vesting dates ranging from December 31, 2014 through December 31, 2016. On February 13, 2013, the Company granted an additional 350,000 Units with vesting dates ranging from December 31, 2015 through December 31, 2019.

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Total compensation expense related to these Units based on the estimated appreciation over their remaining terms was \$22,838 and \$11,195 for the three months ended June 30, 2013 and 2012,

Table of Contents

respectively and \$36,830 and \$14,005 for the six months ended June 30, 2013 and 2012, respectively.

As of June 30, 2013 and December 31, 2012, approximately \$52,000 and \$101,000 have been accrued under this plan, respectively. As of December 31, 2012, approximately \$86,000 of this balance was included in Other Accrued Liabilities and the remaining \$15,000 balance was included in Other Long-term Liabilities. A payment of \$86,817 was made during the first quarter of 2013 related to these Units. As of June 30, 2013, the balance is included in Other Long-term Liabilities.

Earnings per Common Share

For the three and six months ended June 30, 2013 and 2012, the effect of all stock options is antidilutive. Therefore, no outstanding options were included in the computation of per-share amounts.

Segment Reporting Information

All of our operations fall under the Contract Manufacturing segment within the Electronic Manufacturing Services industry. We strategically direct production between our various manufacturing facilities based on a number of considerations to best meet our customers' requirements. We share resources for sales, marketing, engineering, supply chain, information services, human resources, payroll, and all corporate accounting functions. Consolidated financial information is available that is evaluated regularly by the chief operating decision maker in assessing performance and allocating resources.

Inventories

Inventories are stated at the lower of cost (first-in, first-out method) or market (based on the lower of replacement cost or net realizable value). Costs include material, labor, and overhead required in the warehousing and production of our products. Inventory reserves are maintained for the estimated value of the inventories that may have a lower value than stated or quantities in excess of future production needs.

Inventories are as follows:

	June 30 2013	December 31 2012
Raw Materials	\$ 13,582,936	\$ 13,325,525
Work in Process	3,713,847	2,704,653
Finished Goods	2,893,897	3,108,839

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Reserve		(1,414,567)		(1,474,155)
Total	\$	18,776,113	\$	17,664,862

Table of Contents

Impairment Analysis

We evaluate long-lived assets, primarily property and equipment, as well as the related depreciation periods, whenever current events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. Recoverability for assets to be held and used is based on our projection of the undiscounted future operating cash flows of the underlying assets. To the extent such projections indicate that future undiscounted cash flows are not sufficient to recover the carrying amounts of related assets, a charge might be required to reduce the carrying amount to equal estimated fair value. Assets held for sale are reported at the lower of the carrying amount or fair value less costs to dispose. We recorded an impairment charge for the three and six months ended June 30, 2013 of \$0 and \$74,000, respectively, which related to an asset held for sale which was ultimately sold in the second quarter of 2013. The impairment charge was included in general and administrative expenses in the statements of income. There were no impairment charges for the three and six months of ended June 30, 2012.

NOTE 2. CONCENTRATION OF CREDIT RISK AND MAJOR CUSTOMERS

Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash and accounts receivable. With regard to cash, we maintain our excess cash balances in checking accounts at two high-credit quality financial institutions. These accounts may at times exceed federally insured limits. We grant credit to customers in the normal course of business and do not require collateral on our accounts receivable.

Our largest customer has two divisions which accounted for 10% or more of our net sales for the three and six months ended June 30, 2013 and 2012. The first division accounted for 19% of net sales for the three and six months ended June 30, 2013 and 16% of net sales for the three and six months ended June 30, 2012. The second division accounted for 4% of net sales for the three and six months ended June 30, 2013 and 10% and 7% for the three and six months ended June 30, 2012, respectively. Together the divisions accounted for 23% of net sales for the three and six months ended June 30, 2013 and 26% and 23% for the three and six months ended June 30, 2013 and 2012, respectively.

Combined accounts receivable from both divisions represented 18% and 15% of total accounts receivable at June 30, 2013 and December 31, 2012, respectively.

Export sales represented 12% of net sales for the three and six months ended June 30, 2013. Export sales represented 6% and 7% of net sales for the three and six months ended June 30, 2012, respectively. The increase in export sales relates to increased sales volume to existing customers.

NOTE 3. FINANCING ARRANGEMENTS

On May 2, 2012, we entered into the fourth amendment to the third amended and restated credit agreement with Wells Fargo Bank (WFB). The credit agreement with WFB provides for a line

Table of Contents

of credit arrangement of \$13.5 million, which expires if not renewed, on May 31, 2015. The credit arrangement also provides a \$1.8 million real estate term note with a maturity date of March 31, 2027 which replaced the \$0.9 million real estate term note that was to expire on May 31, 2012, and a new term loan of up to \$2.0 million for capital expenditures to be made prior to December 31, 2013 with a maturity date of December 31, 2017. At June 30, 2013, we've used \$0.9 million of the \$2.0 million capital term loan.

On December 31, 2012, in connection with our purchase of the Mankato building, we again amended our credit agreement with WFB to include an additional \$1.7 million real estate term note that expires if not renewed on May 31, 2015. The purchase of the building was funded through our line of credit which was paid down when the new real estate term note was funded on January 9, 2013.

Under the agreement, both the line of credit and real estate term notes are subject to variations in the LIBOR rate. Our line of credit bears interest at three-month LIBOR + 2.75% (approximately 3.00% at June 30, 2013) while our real estate term notes bear interest at three-month LIBOR + 3.25% (approximately 3.5% at June 30, 2013). The weighted-average interest rate on our line of credit was 3.3% and 3.2% for the three and six months ended June 30, 2013, respectively, while the weighted-average rate on our real estate term loan was 3.7% and 3.5% for the same periods. We had borrowings on our line of credit of \$8,674,662 and \$7,923,487 outstanding as of June 30, 2013 and December 31, 2012, respectively.

The credit agreement contains certain covenants which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial performance, and limit the amount of annual capital expenditures.

The availability under the line is subject to borrowing base requirements, and advances are at the discretion of the lender. At June 30, 2013, we have net unused availability under our line of credit of approximately \$3.9 million. The line is secured by substantially all of our assets.

NOTE 4. INCOME TAXES

On a quarterly basis, we estimate what our effective tax rate will be for the full fiscal year and record a quarterly income tax provision based on the anticipated rate. As the year progresses, we refine our estimate based on the facts and circumstances by each tax jurisdiction. Our effective tax rate for the three months ended June 30, 2013 was 34%, compared with 38% for the three months ended June 30, 2012, respectively. The effective tax rate for the year ended December 31, 2013 is expected to be 27% compared to 32% for the year ended December 31, 2012. The decreases are principally due to the federal government retroactively reinstating the research and development credit for the 2012 tax year and extending it to 2013.

The differences between federal income taxes computed at the federal statutory rate and reported income taxes for the three and six months ended June 30, 2013 and 2012 are as follows:

Table of Contents

	Three Months Ended June 30			Six Months Ended June 30		
	2013	2012		2013	2012	
Statutory federal tax provision	\$ 97,000	\$ 63,000	\$	\$ 140,000	\$ 125,000	\$
State income taxes	13,000	12,000		23,000	16,000	
Income tax credits	(17,000)	(3,000)		(103,000)	(6,000)	
Change in uncertain tax positions	8,000	(2,000)		22,000	8,000	
Other	(3,000)	6,000		(5,000)	(8,000)	
Income tax expense	\$ 98,000	\$ 76,000	\$	\$ 77,000	\$ 135,000	\$

At June 30, 2013, we had \$161,500 of net uncertain tax benefit positions recorded in other long-term liabilities that would reduce our effective income tax rate if recognized. The \$21,500 increase from December 31, 2012 primarily relates to 2012 and 2013 state research and experimentation credits.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONSOverview:

We are a Wayzata, Minnesota based full-service Electronics Manufacturing Services (EMS) contract manufacturer of wire and cable assemblies, printed circuit board assemblies, higher-level assemblies and box builds for a wide range of industries. We provide value added services and technical support including design, testing, prototyping and supply chain management to customers mainly in the Aerospace and Defense, Medical, and Industrial Equipment markets. We maintain manufacturing facilities in Baxter, Bemidji, Blue Earth, Mankato, Merrifield, and Milaca, Minnesota; Augusta, Wisconsin; and Monterrey, Mexico.

Summary of Results:

For the quarter ended June 30, 2013, we reported net sales of \$28.5 million compared to \$28.0 million reported in the same quarter of 2012, a 1% increase year over year and a 10% increase sequentially from the first quarter of 2013.

Our gross profit percentage for the three and six months ended June 30, 2013 was 11.8% and 12.1%, respectively. The gross profit percentage for the three and six months ended June 30, 2012 was 11.0% and 10.8%, respectively. The improvement in gross margin is the result of favorable product mix and an increased investment in automation along with our continued lean initiatives.

Income from operations was approximately \$373,000 and \$597,000 for the three and six months ended June 30, 2013, respectively and \$319,000 and \$647,000 for the three and six months ended June 30, 2012, respectively.

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Table of Contents

Net income for the second quarter of 2013 was \$187,219 or \$0.07 per diluted common share, compared to net income of \$125,925 or \$0.05 per diluted common share for the same period in 2012. Net income for the six months ended June 30, 2013 was \$328,308 or \$0.12 per diluted common share, while net income for the same period in 2012 totaled \$248,730 or \$0.09 per diluted common share.

Cash used in operating activities in the first six months of 2013 was \$1.4 million while cash provided by operating activities was \$1.3 million in the first six months of 2012. The difference in cash used in the first six months of 2013 compared to the first six months of 2012 is mainly due to a buildup of inventory to support future production schedules and timing differences on collections of our accounts receivable.

Results of Operations:

The following table presents statements of income data as percentages of total net sales for the periods indicated:

	Three Months Ended June 30		Six Months Ended June 30	
	2013	2012	2013	2012
Net Sales	100.0%	100.0%	100.0%	100.0%
Cost of Goods Sold	88.2	89.0	87.9	89.2
Gross Profit	11.8	11.0	12.1	10.8
Selling Expenses	4.2	4.1	4.4	4.0
General and Administrative Expenses	6.3	5.8	6.6	5.7
Income from Operations	1.3	1.1	1.1	1.1
Other Expenses, Net	(0.3)	(0.4)	(0.4)	(0.5)
Income Before Income Taxes	1.0	0.7	0.7	0.6
Income Tax Expense	0.3	0.3	0.1	0.2
Net Income	0.7%	0.4%	0.6%	0.4%

Net Sales:

We reported net sales of \$28.5 million and \$28.0 for the three months ended June 30, 2013 and 2012, respectively. Our Aerospace and Defense customers drove the increase as we launched a number of new programs and assemblies. Net sales for the six months ended June 30, 2013 and 2012 were \$54.4 million and \$56.4 million, respectively. The majority of the decrease in sales year to date is related to our Industrial customers who continue to be impacted by the slow economy.

Net sales by industry markets for the three and six month periods ended June 30, 2013 and 2012 are as follows:

Table of Contents

(in thousands)	Three Months Ended June 30			Six Months Ended June 30		
	2013 \$	2012 \$	% Change	2013 \$	2012 \$	% Change
Aerospace and Defense	5,036	3,408	48	9,701	8,067	20
Medical	8,100	8,067	0	15,877	15,892	0
Industrial	15,315	16,558	(8)	28,798	32,435	(11)
Total Sales	28,451	28,033	1	54,376	56,394	(4)

Backlog:

Our 90-day order backlog as of June 30, 2013 was approximately \$19.3 million, compared to approximately \$20.3 million at the beginning of the quarter and \$17.3 million at June 30, 2012. Our backlog consists of firm purchase orders and we expect a major portion of the current 90 day backlog to be realized as revenue during the following quarter. Orders for Medical and Defense customers remain strong heading into the 3rd quarter while our Industrial orders remain soft.

Backlog by industry market is shown below:

(in thousands)	Backlog as of the Quarter Ended		
	June 30 2013	March 31 2013	June 30 2012
Aerospace and Defense	\$ 5,117	\$ 5,496	\$ 3,275
Medical	7,366	7,621	5,858
Industrial	6,768	7,230	8,161
Total Backlog	\$ 19,251	\$ 20,347	\$ 17,294

Our 90 day backlog varies due to order size, manufacturing delays, contract terms and conditions and timing from customer delivery schedules and releases. These variables cause inconsistencies in comparing the backlog from one period to the next.

Gross Profit:

Gross profit as a percent of net sales for the three months ended June 30, 2013 and 2012 was 11.8% and 11.0% of net sales, respectively. Gross profit percentage for the six months ended June 30, 2013 and 2012 was 12.1% and 10.8%, respectively. Our gross margin improvement is due to a favorable product mix, increased automation and manufacturing cost reduction lean workouts.

Selling Expense:

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Our selling expenses were \$1.2 million or 4.2% of net sales and \$1.2 million or 4.1% of net sales for the three months ended June 30, 2013 and 2012, respectively. Selling expenses were \$2.4 million or 4.4% of net sales and \$2.2 million or 4.0% of net sales for the six months ended June

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Table of Contents

30, 2013 and 2012, respectively. We continue to invest in business development infrastructure and marketing initiatives in an effort to stimulate sales.

General and Administrative Expense:

Our general and administrative expenses were \$1.8 million or 6.3% of net sales and \$1.6 million or 5.8% of net sales for the three months ended June 30, 2013 and 2012, respectively. General and administrative expenses were \$3.5 million or 6.6% of net sales and \$3.2 million or 5.7% of net sales for the six months ended June 30, 2013 and 2012, respectively. The increase in general and administrative expenses is due to people and incentive expenses.

Income Taxes:

Our effective tax rate for the three and six months ended June 30, 2013 was 34% and 19%, respectively, compared with 38% and 35%, respectively for the three and six months ended June 30, 2012, respectively. The decreases are principally due to the federal government retroactively reinstating the research and development credit in the 1st quarter of 2013 for the 2012 tax year and extending it to 2013. The differences between federal income taxes computed at the federal statutory rate and reported income taxes for the three and six months ended June 30, 2013 and 2012 are as follows:

	Three Months Ended June 30		Six Months Ended June 30	
	2013	2012	2013	2012
Statutory federal tax provision	\$ 97,000	\$ 63,000	\$ 140,000	\$ 125,000
State income taxes	13,000	12,000	23,000	16,000
Income tax credits	(17,000)	(3,000)	(103,000)	(6,000)
Change in uncertain tax positions	8,000	(2,000)	22,000	8,000
Other	(3,000)	6,000	(5,000)	(8,000)
Income tax expense	\$ 98,000	\$ 76,000	\$ 77,000	\$ 135,000

Liquidity and Capital Resources:

We have satisfied our liquidity needs over the past several years with cash flows generated from operations and an operating line of credit through WFB. We also have real estate and equipment term loans. Both the line of credit and real estate term notes are subject to fluctuations in the LIBOR rates. The line of credit, real estate term notes, and equipment loans with WFB contain certain covenants which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial performance, and limit the amount of annual capital expenditures. The availability under our line is subject to borrowing base requirements, and advances are at the discretion of the lender. The line of credit is secured by substantially all of our assets.

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

On June 30, 2013, we had outstanding advances of \$8.7 million under the line of credit and unused availability of \$3.9 million supported by our borrowing base. We believe our financing

Table of Contents

arrangements and cash flows to be provided by operations will be sufficient to satisfy our future working capital needs. Our working capital was \$14.6 million and \$12.6 million as of June 30, 2013 and December 31, 2012, respectively. The increase in working capital relates primarily to increased accounts receivable and inventory levels related to the revenue and planned production increases.

Net cash used in operating activities for the six months ended June 30, 2013 was \$1.4 million. Increased inventories, accounts receivable and decreases in accounts payable were partially offset by an increase in accrued payroll and commissions and noncash depreciation expense.

Net cash used in investing activities of \$0.6 million for the six months ended June 30, 2013 is comprised primarily of property and equipment purchases to support the business.

Net cash provided by financing activities for the six months ended June 30, 2013 was \$2.1 million, mainly due to loan proceeds of \$1.7 million related to the purchase of the Mankato facility and increased borrowings on the line of credit of \$0.8 million to fund operations, offset by payments on long-term debt of \$0.4 million.

Critical Accounting Policies and Estimates

Our significant accounting policies and estimates are summarized in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2012. There have been no significant changes in these critical accounting policies since December 31, 2012. Some of our accounting policies require us to exercise significant judgment in selecting the appropriate assumptions for calculating financial estimates. Such judgments are subject to an inherent degree of uncertainty. These judgments are based on our historical experience, known trends in our industry, terms of existing contracts and other information from outside sources, as appropriate. Actual results could differ from these estimates.

Forward-Looking Statements:

Those statements in the foregoing report that are not historical facts are forward-looking statements made pursuant to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements generally will be accompanied by words such as anticipate, believe, estimate, expect, forecast, intend, possible, potential, predict, project, or other similar words that convey the uncertainty of future outcomes. Although we believe these forward-looking statements are reasonable, they are based upon a number of assumptions concerning future conditions, any or all of which may ultimately prove to be inaccurate. Forward-looking statements involve a number of risks and uncertainties. Important factors that could cause actual results to differ materially from the forward-looking statements include, without limitation:

- Volatility in the marketplace which may affect market supply and demand for our products;
- Increased competition;

Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

- Changes in the reliability and efficiency of operating facilities or those of third parties;
- Risks related to availability of labor;

Table of Contents

- Increase in certain raw material costs such as copper;
- Commodity and energy cost instability;
- General economic, financial and business conditions that could affect our financial condition and results of operations; and
- Availability of raw material components.

The factors identified above are believed to be important factors (but not necessarily all of the important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by us. Unpredictable or unknown factors not discussed herein could also have material adverse effects on forward-looking statements. All forward-looking statements included in this Form 10-Q are expressly qualified in their entirety by the forgoing cautionary statements. We undertake no obligations to update publicly any forward-looking statement (or its associated cautionary language) whether as a result of new information or future events.

Please refer to forward-looking statements and risks as previously disclosed in our report on Form 10-K for the fiscal year ended December 31, 2012.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures:

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q, our management evaluated, with the participation of our Chief Executive Officer and President, Chief Operating and Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act). Based upon their evaluation of these disclosure controls and procedures, the Chief Executive Officer and the President, Chief Operating and Financial Officer have concluded that the disclosure controls and procedures were effective as of the date of such evaluation in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to management, including our Chief Executive Officer and President, Chief Operating and Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting:

There was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
