Item 8.01 Other Events.

Chemtura Corporation announced today that it is implementing an industry-based business model in order to improve performance and accelerate growth. The Company will simplify its financial reporting structure from the current six units to four, as shown on the attached organization chart, each led by a group vice president. Each business will have responsibility for its own production facilities, operational and financial forecasting, sourcing decisions, process excellence initiatives, and technical development efforts. Organizational streamlining is expected to result in a reduction of the Company's global workforce by approximately 10 percent (620 positions), resulting in an annualized cost reduction of approximately \$50 million beginning in 2008. The Company expects to record charges relating to the restructuring in the range of \$25-\$35 million.

A copy of a press release announcing the restructuring is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
