SECURITIES AND EXCHANGE COMMISSION

**Washington, D.C. 20549**

FORM 10-Q

**(Mark One)**

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE  
ACT OF 1934**

For the quarterly period ended **September 30, 2014**

or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT  
OF 1934**

**For the transition period from \_\_\_\_\_ to \_\_\_\_\_.**

Commission file number: 000-16084

**CITIZENS & NORTHERN CORPORATION**

(Exact name of Registrant as specified in its charter)

PENNSYLVANIA

23-2451943

(State or other jurisdiction of (I.R.S. Employer

Edgar Filing: - Form

incorporation or organization) Identification No.)

90-92 MAIN STREET, WELLSBORO, PA 16901

(Address of principal executive offices) (Zip code)

570-724-3411

(Registrant's telephone number including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes  No

Indicate the number of shares outstanding of each of the registrant's classes of common stock, as of the latest practicable date.

Common Stock (\$1.00 par value) 12,292,607 Shares Outstanding on November 3, 2014

The accompanying notes are an integral part of these unaudited consolidated financial statements.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q****Notes to Unaudited Consolidated Financial Statements****1. BASIS OF INTERIM PRESENTATION**

The consolidated financial information included herein, with the exception of the consolidated balance sheet dated December 31, 2013, is unaudited. Such information reflects all adjustments (consisting solely of normal recurring adjustments) that are, in the opinion of management, necessary for a fair presentation of the financial position, results of operations, comprehensive income, cash flows and changes in stockholders' equity for the interim periods; however, the information does not include all disclosures required by accounting principles generally accepted in the United States of America ("U.S. GAAP") for a complete set of financial statements. Certain 2013 information has been reclassified for consistency with the 2014 presentation.

Operating results reported for the three-month and nine-month periods ended September 30, 2014 might not be indicative of the results for the year ending December 31, 2014. The Corporation evaluates subsequent events through the date of filing with the Securities and Exchange Commission.

**2. PER SHARE DATA**

Net income per share is based on the weighted-average number of shares of common stock outstanding. The following data show the amounts used in computing basic and diluted net income per share. As shown in the table that follows, diluted earnings per share is computed using weighted average common shares outstanding, plus weighted-average common shares available from the exercise of all dilutive stock options, less the number of shares that could be repurchased with the proceeds of stock option exercises based on the average share price of the Corporation's common stock during the period.

	Net Income	Weighted- Average Common Shares	Earnings Per Share
Nine Months Ended September 30, 2014			
Earnings per share – basic	\$12,718,000	12,419,538	\$1.02
Dilutive effect of potential common stock arising from stock options:			
Exercise of outstanding stock options		233,579	

Edgar Filing: - Form

Hypothetical share repurchase at \$19.28	(212,200)		
Earnings per share – diluted	\$12,718,000	12,440,917	\$1.02
Nine Months Ended September 30, 2013			
Earnings per share – basic	\$14,369,000	12,342,706	\$1.16
Dilutive effect of potential common stock arising from stock options:			
Exercise of outstanding stock options	251,970		
Hypothetical share repurchase at \$19.73	(222,749)		
Earnings per share – diluted	\$14,369,000	12,371,927	\$1.16

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

	Net Income	Weighted- Average Common Shares	Earnings Per Share
Quarter Ended September 30, 2014			
Earnings per share – basic	\$4,267,000	12,399,482	\$0.34
Dilutive effect of potential common stock arising from stock options:			
Exercise of outstanding stock options		222,344	
Hypothetical share repurchase at \$19.33		(201,826)	
Earnings per share – diluted	\$4,267,000	12,420,000	\$0.34
Quarter Ended September 30, 2013			
Earnings per share – basic	\$4,689,000	12,363,887	\$0.38
Dilutive effect of potential common stock arising from stock options:			
Exercise of outstanding stock options		302,956	
Hypothetical share repurchase at \$20.10		(269,941)	
Earnings per share – diluted	\$4,689,000	12,396,902	\$0.38

Stock options that were anti-dilutive were excluded from net income per share calculations. Weighted-average common shares available from anti-dilutive instruments totaled 169,728 shares in the nine-month period ended September 30, 2014, 98,809 shares in the nine-month period ended September 30, 2013, 137,873 shares in the third quarter 2014 and 57,658 shares in the third quarter 2013.

**3. COMPREHENSIVE INCOME**

Comprehensive income is the total of (1) net income, and (2) all other changes in equity from non-stockholder sources, which are referred to as other comprehensive income. The components of other comprehensive income, and the related tax effects, are as follows:

(In Thousands)	Before-Tax Amount	Income Tax Effect	Net-of-Tax Amount
Nine Months Ended Sept. 30, 2014:			
Unrealized gains on available-for-sale securities:			
Unrealized holding gains on available-for-sale securities	\$8,500	(\$2,975)	\$5,525
Reclassification adjustment for (gains) realized in income	(894)	313	(581)
Other comprehensive gain on available-for-sale securities	7,606	(2,662)	4,944
Unfunded pension and postretirement obligations:			
Changes from plan amendments and actuarial gains and losses			

Edgar Filing: - Form

included in other comprehensive income	144	(50)	94
Amortization of net transition obligation, prior service cost and net actuarial loss included in net periodic benefit cost	(12)	4	(8)
Other comprehensive gain on unfunded retirement obligations	132	(46)	86
Total other comprehensive gain	\$7,738	(\$2,708)	\$5,030

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

(In Thousands)	Before-Tax Amount	Income Tax Effect	Net-of-Tax Amount
Nine Months Ended Sept. 30, 2013:

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q****4. CASH AND DUE FROM BANKS**

Cash and due from banks at September 30, 2014 and December 31, 2013 include the following:

(In thousands)	Sept. 30 2014	Dec. 31, 2013
Cash and cash equivalents	\$50,131	\$38,591
Certificates of deposit	5,308	6,028
Total cash and due from banks	\$55,439	\$44,619

Certificates of deposit are issued by U.S. banks with original maturities greater than three months. Each certificate of deposit is fully FDIC-insured. The Corporation maintains cash and cash equivalents with certain financial institutions in excess of the FDIC insurance limit.

The Corporation is required to maintain reserves against deposit liabilities in the form of cash and balances with the Federal Reserve Bank of Philadelphia. The reserves are based on deposit levels, account activity, and other services provided by the Federal Reserve Bank. Required reserves were \$12,828,000 at September 30, 2014 and \$15,318,000 at December 31, 2013.

**5. FAIR VALUE MEASUREMENTS AND FAIR VALUES OF FINANCIAL INSTRUMENTS**

The Corporation measures certain assets at fair value. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. FASB ASC topic 820, “Fair Value Measurements and Disclosures” establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 – Fair value is based on unadjusted quoted prices in active markets that are accessible to the Corporation for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

## Edgar Filing: - Form

Level 2 – Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets and other observable inputs.

Level 3 – Fair value is based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows and other similar techniques.

The Corporation monitors and evaluates available data relating to fair value measurements on an ongoing basis and recognizes transfers among the levels of the fair value hierarchy as of the date of an event or change in circumstances that affects the valuation method chosen. Examples of such changes may include the market for a particular asset becoming active or inactive, changes in the availability of quoted prices, or changes in the availability of other market data.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

At September 30, 2014 and December 31, 2013, assets measured at fair value and the valuation methods used are as follows:

(In Thousands)	Quoted Prices in Active Markets (Level 1)	September 30, 2014		Total Fair Value

Loans are classified as impaired when, based on current information and events, it is probable that the Corporation will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Foreclosed assets held for sale consist of real estate acquired by foreclosure. For impaired commercial loans secured by real estate and foreclosed assets held for sale, estimated fair values are determined primarily using values from third-party appraisals less estimated selling costs.

Management's evaluation and selection of valuation techniques and the unobservable inputs used in determining the fair values of assets valued using Level 3 methodologies include sensitive assumptions. Other market participants might use substantially different assumptions, which could result in calculations of fair values that would be substantially different than the amount calculated by management. At September 30, 2014 and December 31, 2013, quantitative information regarding significant techniques and inputs used for assets measured on a recurring basis using unobservable inputs (Level 3 methodologies) are as follows:

<b>Asset</b>	<b>Fair Value at 9/30/14 (In Thousands)</b>	<b>Valuation Technique</b>	<b>Unobservable Input(s)</b>	<b>Method or Value As of 9/30/14</b>
Servicing rights	\$1,296	Discounted cash flow	Discount rate	10.00% Rate used through modeling period
			Loan prepayment speeds	147.00% Weighted-average PSA
			Servicing fees	0.25% of loan balances
				4.00% of payments are late
				5.00% late fees assessed
				\$1.94 Miscellaneous fees per account per month
			Servicing costs	\$6.00 Monthly servicing cost per account
				\$24.00 Additional monthly servicing cost per account
				1.50% of loans more than 30 days delinquent
				3.00% annual increase in servicing costs

## CITIZENS &amp; NORTHERN CORPORATION – FORM 10-Q

Asset	Fair Value at 12/31/13 (In Thousands)	Valuation Technique	Unobservable Input(s)	Method or Value As of 12/31/13
Servicing rights	\$1,123	Discounted cash flow	Discount rate	12.00% Rate used through modeling period
			Loan prepayment speeds	152.00% Weighted-average PSA
			Servicing fees	0.25% of loan balances
				4.00% of payments are late
				5.00% late fees assessed
				\$1.94 Miscellaneous fees per account per month
			Servicing costs	\$6.00 Monthly servicing cost per account
				\$24.00 Additional monthly servicing cost per account
				1.50% of loans more than 30 days delinquent
				3.00% annual increase in servicing costs

The fair value of servicing rights is affected by expected future interest rates. Increases (decreases) in future expected interest rates tend to increase (decrease) the fair value of the Corporation's servicing rights because of changes in expected prepayment behavior by the borrowers on the underlying loans.

Following is a reconciliation of activity for Level 3 assets measured at fair value on a recurring basis:

(In Thousands)	Three Months Ended Sept. 30, 2014	Nine Months Ended Sept. 30, 2014
	Servicing Rights	Servicing Rights
Balance, beginning of period	\$1,281	\$1,123

Proceeds from sales and calls	0	0	0	0	(1,636)	(571)	0	(2,207)

Edgar Filing: - Form

Realized gains, net	0	0	0	0	23	571	0	594
Unrealized gains included in Earnings	0	0	79	79	0	0	84	84
Unrealized gains included in other comprehensive income	0	0	0	0	2	0	0	2
Balance, end of period	\$0	\$0	\$1,049	\$1,049	\$0	\$0	\$1,049	\$1,049

No other-than-temporary impairment losses (OTTI) on securities valued using Level 3 methodologies were recorded in 2014 or 2013.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

Certain of the Corporation's financial instruments are not measured at fair value in the consolidated financial statements. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument. Certain financial instruments and all nonfinancial instruments are excluded from disclosure requirements. Therefore, the aggregate fair value amounts presented may not represent the underlying fair value of the Corporation.

The Corporation used the following methods and assumptions in estimating fair value disclosures for financial instruments:

**CASH AND CASH EQUIVALENTS** - The carrying amounts of cash and short-term instruments approximate fair values.

**CERTIFICATES OF DEPOSIT** - Fair values for certificates of deposit, included in cash and due from banks in the consolidated balance sheet, are based on quoted market prices for certificates of similar remaining maturities.

**SECURITIES** - Fair values for securities, excluding restricted equity securities, are based on quoted market prices or other methods as described above. The carrying value of restricted equity securities approximates fair value based on applicable redemption provisions.

**LOANS HELD FOR SALE** - Fair values of loans held for sale are determined based on applicable sale prices available under the Federal Home Loan Banks' MPF Xtra and MPF Original programs.

**LOANS** - Fair values are estimated for portfolios of loans with similar financial characteristics. Loans are segregated by type such as commercial, commercial real estate, residential mortgage and other consumer. Each loan category is further segmented into fixed and adjustable rate interest terms and by performing and nonperforming categories. The fair value of performing loans is calculated by discounting contractual cash flows, adjusted for estimated prepayments based on historical experience, using estimated market discount rates that reflect the credit and interest rate risk inherent in the loans. Fair value of nonperforming loans is based on recent appraisals or estimates prepared by the Corporation's lending officers.

**SERVICING RIGHTS** - The fair value of servicing rights, included in other assets in the consolidated balance sheet, is determined through a discounted cash flow valuation. Significant inputs include expected net servicing income, the

discount rate and the expected prepayment speeds of the underlying loans.

**DEPOSITS** - The fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, savings, money market and interest checking accounts, is (by definition) equal to the amount payable on demand at September 30, 2014 and December 31, 2013. The fair value of time deposits, such as certificates of deposit and Individual Retirement Accounts, is based on the discounted value of contractual cash flows. The discount rate is estimated using the rates currently offered for deposits of similar remaining maturities. The fair value estimates of deposits do not include the benefit that results from the low-cost funding provided by the deposit liabilities compared to the cost of borrowing funds in the market, commonly referred to as the core deposit intangible.

**BORROWED FUNDS** - The fair value of borrowings is estimated using discounted cash flow analyses based on rates currently available to the Corporation for similar types of borrowing arrangements.

**ACCRUED INTEREST** - The carrying amounts of accrued interest receivable and payable approximate fair values.

**OFF-BALANCE SHEET COMMITMENTS** - The Corporation has commitments to extend credit and has issued standby letters of credit. Standby letters of credit are conditional guarantees of performance by a customer to a third party. Estimates of the fair value of these off-balance sheet items were not made because of the short-term nature of these arrangements and the credit standing of the counterparties.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

The estimated fair values, and related carrying amounts, of the Corporation's financial instruments are as follows:

(In Thousands)	Valuation Method(s) Used	September 30, 2014		December 31, 2013	
		Carrying Amount	Fair Value	Carrying Amount	Fair Value

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

Gross realized gains and losses from available-for-sale securities were as follows:

(In Thousands)	3 Months Ended		9 Months Ended	
	Sept. 30, 2014	Sept. 30, 2013	Sept. 30, 2014	Sept. 30, 2013
Gross realized gains from sales	\$761	\$193	\$1,103	\$1,595
Gross realized losses from sales	(1)	0	(209)	(118)
Losses from OTTI impairment	0	0	0	(25)
Net realized gains	\$760	\$193	\$894	\$1,452

The amortized cost and fair value of available-for-sale debt securities by contractual maturity are shown in the following table as of September 30, 2014. Actual maturities may differ from contractual maturities because counterparties may have the right to call or prepay obligations with or without call or prepayment penalties.

(In Thousands)	Amortized Cost	Fair Value
Due in one year or less	\$11,087	\$11,224
Due from one year through five years	52,156	52,450
Due from five years through ten years	64,890	65,061
Due after ten years	57,236	60,836
Subtotal	185,369	189,571
Mortgage-backed securities	74,278	75,513
Collateralized mortgage obligations,		
Issued by U.S. Government agencies	236,940	234,816
Total	\$496,587	\$499,900

The Corporation's mortgage-backed securities and collateralized mortgage obligations have stated maturities that may differ from actual maturities due to borrowers' ability to prepay obligations. Cash flows from such investments are dependent upon the performance of the underlying mortgage loans and are generally influenced by the level of interest rates. In the table above, mortgage-backed securities and collateralized mortgage obligations are shown in one period.

Investment securities carried at \$361,581,000 at September 30, 2014 and \$323,613,000 at December 31, 2013 were pledged as collateral for public deposits, trusts and certain other deposits as provided by law. See Note 8 for information concerning securities pledged to secure borrowing arrangements.

Management evaluates securities for OTTI at least on a quarterly basis, and more frequently when economic or market conditions warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) whether the Corporation intends to sell the security or more likely than not will be required to sell the security before its anticipated recovery.

A summary of information management considered in evaluating debt and equity securities for OTTI at September 30, 2014 is provided below.

### **Debt Securities**

At September 30, 2014, management performed an assessment for possible OTTI of the Corporation's debt securities on an issue-by-issue basis, relying on information obtained from various sources, including publicly available financial data, ratings by external agencies, brokers and other sources. The extent of individual analysis applied to each security depended on the size of the Corporation's investment, as well as management's perception of the credit risk associated with each security. Based on the results of the assessment, management believes impairment of debt securities, including municipal bonds with no external ratings, at September 30, 2014 to be temporary.

The credit rating agencies have withdrawn their ratings on numerous municipal bonds held by the Corporation. At September 30, 2014, the total amortized cost basis of municipal bonds with no external credit ratings was \$16,424,000, with an aggregate unrealized gain of \$166,000. At the time of purchase, each of these bonds was considered investment grade and had been rated by at least one credit rating agency. Most of the bonds for which credit rating agencies have

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

withdrawn their ratings were insured by an entity that has reported significant financial problems and declines in its regulatory capital ratios, and most of the ratings were removed in the fourth quarter 2009. However, the insurance remains in effect on the bonds. In the third quarter 2013, a credit rating agency withdrew its ratings on several bonds due to changes in its rating methodology related to credit enhancement programs provided by issuers' state governments. However, the credit enhancement remains in effect on the bonds. None of the unrated municipal bonds has failed to make a scheduled payment.

**Equity Securities**

The Corporation's marketable equity securities at September 30, 2014 and December 31, 2013 consisted exclusively of stocks of banking companies. At September 30, 2014, the Corporation held three stocks with an unrealized loss of \$10,000 for which management determined an OTTI charge was not required.

Realized gains from sales of bank stocks totaled \$289,000 in the three-month period ended September 30, 2014 and \$363,000 in the nine-month period ended September 30, 2014. The Corporation realized gains from sales of bank stocks totaling \$188,000 in the three-month period ended September 30, 2013 and \$766,000 in the nine-month period ended September 30, 2013.

C&N Bank is a member of the Federal Home Loan Bank of Pittsburgh (FHLB-Pittsburgh), which is one of 12 regional Federal Home Loan Banks. As a member, C&N Bank is required to purchase and maintain stock in FHLB-Pittsburgh. There is no active market for FHLB-Pittsburgh stock, and it must ordinarily be redeemed by FHLB-Pittsburgh in order to be liquidated. C&N Bank's investment in FHLB-Pittsburgh stock, included in Other Assets in the consolidated balance sheet, was \$2,924,000 at September 30, 2014 and \$3,656,000 at December 31, 2013. The Corporation evaluated its holding of FHLB-Pittsburgh stock for impairment and deemed the stock to not be impaired at September 30, 2014 and December 31, 2013. In making this determination, management concluded that recovery of total outstanding par value, which equals the carrying value, is expected. The decision was based on review of financial information that FHLB-Pittsburgh has made publicly available.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q****7. LOANS**

The loans receivable portfolio is segmented into residential mortgage, commercial and consumer loans. Loans outstanding at September 30, 2014 and December 31, 2013 are summarized by segment, and by classes within each segment, as follows:

Summary of Loans by Type (In Thousands)	Sept. 30, 2014	Dec. 31, 2013
Residential mortgage:		
Residential mortgage loans - first liens	\$290,943	\$299,831
Residential mortgage loans - junior liens	21,843	23,040
Home equity lines of credit	35,975	34,530
1-4 Family residential construction	16,895	13,909
Total residential mortgage	365,656	371,310
Commercial:		
Commercial loans secured by real estate	144,410	147,215
Commercial and industrial	50,615	42,387
Political subdivisions	14,823	16,291
Commercial construction and land	9,069	17,003
Loans secured by farmland	8,542	10,468
Multi-family (5 or more) residential	9,092	10,985
Agricultural loans	3,284	3,251
Other commercial loans	13,620	14,631
Total commercial	253,455	262,231
Consumer	10,298	10,762
Total	629,409	644,303
Less: allowance for loan losses	(7,449)	(8,663)
Loans, net	\$621,960	\$635,640

The Corporation grants loans to individuals as well as commercial and tax-exempt entities. Commercial, residential and personal loans are made to customers geographically concentrated in the Pennsylvania and New York counties that comprise the market serviced by Citizens & Northern Bank. Although the Corporation has a diversified loan portfolio, a significant portion of its debtors' ability to honor their contracts is dependent on the local economic conditions within the region. There is no concentration of loans to borrowers engaged in similar businesses or activities that exceed 10% of total loans at either September 30, 2014 or December 31, 2013.

The Corporation maintains an allowance for loan losses that represents management's estimate of the losses inherent in the loan portfolio as of the balance sheet date and recorded as a reduction of the investment in loans. The allowance for loan losses is maintained at a level considered adequate to provide for losses that can be reasonably anticipated.

## Edgar Filing: - Form

Management performs a quarterly evaluation of the adequacy of the allowance. The allowance is based on the Corporation's past loan loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, the estimated value of any underlying collateral, composition of the loan portfolio, current economic conditions and other relevant factors. This evaluation is inherently subjective as it requires material estimates that may be susceptible to significant revision as more information becomes available. In the process of evaluating the loan portfolio, management also considers the Corporation's exposure to losses from unfunded loan commitments. As of September 30, 2014 and December 31, 2013, management determined that no allowance for credit losses related to unfunded loan commitments was required.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

Transactions within the allowance for loan losses, summarized by segment and class, for the three-month and nine-month periods ended September 30, 2014 and 2013 were as follows:

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

In the evaluation of the loan portfolio, management determines two major components for the allowance for loan losses – (1) a specific component based on an assessment of certain larger relationships, mainly commercial purpose loans, on a loan-by-loan basis; and (2) a general component for the remainder of the portfolio based on a collective evaluation of pools of loans with similar risk characteristics. The general component is assigned to each pool of loans based on both historical net charge-off experience, and an evaluation of certain qualitative factors. An unallocated component is maintained to cover uncertainties that could affect management’s estimate of probable losses. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the above methodologies for estimating specific and general losses in the portfolio.

In determining the larger loan relationships for detailed assessment under the specific allowance component, the Corporation uses an internal risk rating system. Under the risk rating system, the Corporation classifies problem or potential problem loans as “Special Mention,” “Substandard,” or “Doubtful” on the basis of currently existing facts, conditions and values. Substandard loans include those characterized by the distinct possibility that the Corporation will sustain some loss if the deficiencies are not corrected. Loans classified as Doubtful have all the weaknesses inherent in those classified as Substandard with the added characteristic that the weaknesses present make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable. Loans that do not currently expose the Corporation to sufficient risk to warrant classification as Substandard or Doubtful, but possess weaknesses that deserve management’s close attention, are deemed to be Special Mention. Risk ratings are updated any time that conditions or the situation warrants. Loans not classified are included in the “Pass” column in the table below.

The following tables summarize the aggregate credit quality classification of outstanding loans by risk rating as of September 30, 2014 and December 31, 2013:

<b>September 30, 2014</b> <b>(In Thousands)</b>	<b>Special</b>				<b>Total</b>

The general component of the allowance for loan losses covers pools of loans including commercial loans not considered individually impaired, as well as smaller balance homogeneous classes of loans, such as residential real estate, home equity lines of credit and other consumer loans. Accordingly, the Corporation generally does not separately identify individual consumer and residential loans for impairment disclosures, unless such loans are subject to a restructuring agreement. The pools of loans are evaluated for loss exposure based upon three-year average historical net charge-off rates for each loan class, adjusted for qualitative factors. Qualitative risk factors (described in the following paragraph) are evaluated for the impact on each of the three segments (residential mortgage, commercial and consumer) within the loan portfolio. Each qualitative factor is assigned a value to reflect improving, stable or declining conditions based on management's judgment using relevant information available at the time of the evaluation. The adjustment for qualitative factors is applied as an increase or decrease to the three-year average net charge-off rate to each loan class within each segment.

The qualitative factors used in the general component calculations are designed to address credit risk characteristics associated with each segment. The Corporation's credit risk associated with all of the segments is significantly impacted by these factors, which include economic conditions within its market area, the Corporation's lending policies, changes or trends in the portfolio, risk profile, competition, regulatory requirements and other factors. Further, the residential mortgage segment is significantly affected by the values of residential real estate that provide collateral for the loans. The majority of the Corporation's commercial segment loans (approximately 68% at September 30, 2014) is secured by real estate, and accordingly, the Corporation's risk for the commercial segment is significantly affected by commercial real estate values. The consumer segment includes a wide mix of loans for different purposes, primarily secured loans, including loans secured by motor vehicles, manufactured housing and

other types of collateral.

Loans are classified as impaired, when, based on current information and events, it is probable that the Corporation will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record and the amount of shortfall in relation to the principal and interest owed. Impairment is measured on a loan-by-loan basis for commercial loans, by the fair value of the collateral (if the loan is collateral dependent), by future cash flows discounted at the loan's effective rate or by the loan's observable market price.

The scope of loans evaluated individually for impairment include all loan relationships greater than \$200,000 for which there is at least one extension of credit graded Special Mention, Substandard or Doubtful. Also, all loans classified as troubled debt restructurings (discussed in more detail below) and all loan relationships less than \$200,000 in the aggregate, but with an estimated loss of \$100,000 or more, are individually evaluated for impairment. Loans that are

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

individually evaluated for impairment, but which are not determined to be impaired, are combined with all remaining loans that are not reviewed on a specific basis, and such loans are included within larger pools of loans based on similar risk and loss characteristics for purposes of determining the general component of the allowance. The loans that have been individually evaluated, but which have not been determined to be impaired, are included in the “Collectively Evaluated” column in the tables summarizing the allowance and associated loan balances as of September 30, 2014 and December 31, 2013.

The following tables present a summary of loan balances and the related allowance for loan losses summarized by portfolio segment and class for each impairment method used as of September 30, 2014 and December 31, 2013:

September 30, 2014 (In Thousands)	Loans:			Allowance for Loan Losses:

The average balance of impaired loans and interest income recognized on impaired loans is as follows:

(In Thousands)	3 Months Ended Sept. 30,		9 Months Ended Sept. 30,	
	2014	2013	2014	2013
Average investment in impaired loans	\$14,611	\$8,773	\$14,870	\$8,032
Interest income recognized on impaired loans	130	163	503	291
Interest income recognized on a cash basis on impaired loans	130	163	503	291

Loans are placed on nonaccrual status for all classes of loans when, in the opinion of management, collection of interest is doubtful. Any unpaid interest previously accrued on those loans is reversed from income. Interest income is not recognized on specific impaired loans unless the likelihood of further loss is remote. Interest payments received on loans for which the risk of further loss is greater than remote are applied as a reduction of the loan principal balance. Interest income on other nonaccrual loans is recognized only to the extent of interest payments received. Generally,

## Edgar Filing: - Form

loans are restored to accrual status when the obligation is brought current, has performed in accordance with the contractual terms for a reasonable period of time (generally six months) and the ultimate collectability of the total contractual principal and interest is no longer in doubt. The past due status of all classes of loans receivable is determined based on contractual due dates for loan payments. Also, the amortization of deferred loan fees is discontinued when a loan is placed on nonaccrual status.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

The breakdown by portfolio segment and class of nonaccrual loans and loans past due ninety days or more and still accruing is as follows:

(In Thousands)	September 30, 2014		December 31, 2013	
	Past Due 90+ Days and Accruing		Past Due 90+ Days and Accruing	
	Nonaccrual	Nonaccrual	Nonaccrual	Nonaccrual
Residential mortgage:

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

Nonaccrual loans are included in the contractual aging in the immediately preceding table. A summary of the contractual aging of nonaccrual loans at September 30, 2014 and December 31, 2013 is as follows:

(In Thousands)	Current &			Total
	Past Due Less than 30 Days	Past Due 30-89 Days	Past Due 90+ Days	
September 30, 2014 Nonaccrual Totals	\$6,969	\$749	\$6,004	\$13,722
December 31, 2013 Nonaccrual Totals	\$7,878	\$479	\$6,577	\$14,934

Loans whose terms are modified are classified as Troubled Debt Restructurings (TDRs) if the Corporation grants such borrowers concessions, and it is deemed that those borrowers are experiencing financial difficulty. Loans classified as TDRs are designated as impaired. The outstanding balance of loans subject to TDRs, as well as contractual aging information at September 30, 2014 and December 31, 2013 is as follows:

(In Thousands)	Current &			Nonaccrual	Total
	Past Due Less than 30 Days	Past Due 30-89 Days	Past Due 90+ Days		
September 30, 2014 Totals	\$1,325	\$509	\$171	\$6,001	\$8,006
December 31, 2013 Totals	\$3,254	\$13	\$0	\$908	\$4,175

There were no TDRs that occurred during the three-month periods ended September 30, 2014 and 2013. TDRs that occurred during the nine-month periods ended September 30, 2014 and 2013 were as follows:

Nine Months Ended September 30, 2014 (Balances in Thousands)	Number of Contracts	Pre-	Post-
		Modification Outstanding Recorded Investment	Modification Outstanding Recorded Investment

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

The TDRs in the nine-month period ended September 30, 2014 related to residential mortgage loans included a reduction in payment amount on one contract, an interest only period on one contract and a reduction in interest rate and payment on one contract. The TDRs related to commercial loans in the nine-month period ended September 30, 2014 relate to six contracts associated with one relationship. The Corporation entered into a forbearance agreement with this commercial borrower which includes a reduction in monthly payment amounts over a fifteen-month period. At the end of the fifteen-month period, the monthly payment amounts would revert to the original amounts, unless the forbearance agreement is extended or the payment requirements are otherwise modified. The Corporation recorded a charge-off of \$1,486,000 in the second quarter 2014 as a result of these modifications, as the payment amounts based on the forbearance agreement are not sufficient to fully amortize the contractual amount of principal outstanding on the loans. The amount of the charge-off was determined based on the excess of the contractual principal due over the present value of the payment amounts provided for in the forbearance agreement, assuming the revised payment amounts would continue until maturity, at the contractual interest rates. After the effect of the \$1,486,000 charge-off related to loans to one commercial borrower described above, there was no allowance for loan losses on loans to that borrower at September 30, 2014, while the allowance on the loans amounted to \$1,552,000 at December 31, 2013. There were no other changes in the allowance for loan losses related to TDRs that occurred during the nine-month period ended September 30, 2014.

The TDRs in the nine-month period ended September 30, 2013 included interest only payments for an extended period of time on ten contracts, extensions of the final maturity date on three contracts, reduction in interest rate on two contracts, and reduction in payment amount for one year on one contract. There was no allowance for loan losses on these loans at September 30, 2013 and no change in the allowance for loan losses resulting from these TDRs during the nine-month period ended September 30, 2013.

In the third quarter of 2014 and 2013, there were no defaults on loans for which modifications considered to be TDRs were entered into within the previous 12 months. In the nine-month periods ended September 30, 2014 and 2013, defaults on loans for which modifications considered to be TDRs were entered into within the previous 12 months were as follows:

	Number of Contracts	Recorded Investment
Nine Months Ended September 30, 2014 (Balances in Thousands)		
Residential mortgage:		
Residential mortgage loans - first liens	2	\$223
Residential mortgage loans - junior liens	1	62
Commercial:		
Loans secured by real estate	1	429
Loans secured by farmland	4	490
Agricultural	1	13

Edgar Filing: - Form

	Number of Contracts	Recorded Investment
Nine Months Ended September 30, 2013 (Balances in Thousands)		
Commercial,		
Commercial loans secured by real estate	1	\$440

In the nine-month period ended September 30, 2014, the events of default in the table listed above included a borrower's failure to make reduced payments provided for at a reduced interest rate on a first lien residential mortgage. The other events of default listed above in the nine-month periods ended September 30, 2014 resulted from the borrowers' failure to make interest only monthly payments. There were no allowances for loan losses recorded on these loans at September 30, 2014.

In the nine-month period ended September 30, 2013, the event of default listed in the table resulted from the borrower's failure to make interest only payments. There was no allowance for loan losses recorded on this loan at September 30, 2013.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q****8. BORROWED FUNDS****SHORT-TERM BORROWINGS**

Short-term borrowings include the following:

(In Thousands)	Sept. 30, 2014	Dec. 31, 2013
FHLB-Pittsburgh borrowings	\$0	\$20,000
Customer repurchase agreements	6,765	3,385
Total short-term borrowings	\$6,765	\$23,385

The FHLB-Pittsburgh loan facilities are collateralized by qualifying loans secured by real estate with a book value totaling \$446,404,000 at September 30, 2014 and \$453,792,000 at December 31, 2013. Also, the FHLB-Pittsburgh loan facilities require the Corporation to invest in established amounts of FHLB-Pittsburgh stock. The carrying values of the Corporation's holdings of FHLB-Pittsburgh stock (included in Other Assets) were \$2,924,000 at September 30, 2014 and \$3,656,000 at December 31, 2013.

The short-term borrowing from the FHLB-Pittsburgh matured in January 2014 and had an interest rate of 0.24%.

The Corporation engages in repurchase agreements with certain commercial customers. These agreements provide that the Corporation sells specified investment securities to the customers on an overnight basis and repurchases them on the following business day. The weighted average rate paid by the Corporation on customer repurchase agreements was 0.10% at September 30, 2014 and December 31, 2013. The carrying value of the underlying securities was \$10,824,000 at September 30, 2014 and \$11,269,000 at December 31, 2013.

**LONG-TERM BORROWINGS**

Long-term borrowings are as follows:

(In Thousands)	Sept. 30, 2014	Dec. 31, 2013
FHLB-Pittsburgh borrowings	\$12,131	\$12,338
Repurchase agreements	61,000	61,000
Total long-term borrowings	\$73,131	\$73,338

Long-term borrowings from FHLB - Pittsburgh are as follows:

(In Thousands)	Sept. 30, 2014	Dec. 31, 2013
Loan maturing in 2016 with a rate of 6.86%	\$119	\$153
Loan maturing in 2017 with a rate of 6.83%	18	22

Edgar Filing: - Form

Loan maturing in 2017 with a rate of 3.81%	10,000	10,000
Loan maturing in 2020 with a rate of 4.79%	1,027	1,146
Loan maturing in 2025 with a rate of 4.91%	967	1,017
Total long-term FHLB-Pittsburgh borrowings	\$12,131	\$12,338

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

Repurchase agreements included in long-term borrowings are as follows:

(In Thousands)	Sept. 30, 2014	Dec. 31, 2013
Agreement maturing in 2017 with a rate of 3.595%	\$27,000	\$27,000
Agreement maturing in 2017 with a rate of 4.265%	34,000	34,000
Total long-term repurchase agreements	\$61,000	\$61,000

The Corporation incurred a loss of \$1,023,000 in the first quarter of 2013 on prepayment of \$7,000,000 of the agreement with an interest rate of 3.595%. Each of these borrowings is puttable by the issuer at quarterly intervals.

Securities sold under repurchase agreements were delivered to the broker-dealer who is the counter-party to the transactions. The broker-dealer may have sold, loaned or otherwise disposed of such securities to other parties in the normal course of their operations, and has agreed to resell to the Corporation substantially identical securities at the maturities of the agreements. The Master Repurchase Agreement between the Corporation and the broker-dealer provides that the Agreement constitutes a “netting contract,” as defined; however, the Corporation and the broker-dealer have no other obligations to one another and accordingly, no netting has occurred. The carrying value of the underlying securities was \$73,837,000 at September 30, 2014 and \$79,814,000 at December 31, 2013.

**9. DEFINED BENEFIT PLANS**

The Corporation sponsors a defined benefit health care plan that provides postretirement medical benefits and life insurance to employees who meet certain age and length of service requirements. Effective January 1, 2013, this plan was amended so that full-time employees no longer accrue service time toward the Corporation-subsidized portion of the medical benefits. The plan was also amended effective January 1, 2013 to change some of the age and length-of-service requirements for participants to receive some of the benefits provided under the plan. This plan contains a cost-sharing feature, which causes participants to pay for all future increases in costs related to benefit coverage. Accordingly, actuarial assumptions related to health care cost trend rates do not significantly affect the liability balance at September 30, 2014 and December 31, 2013, and are not expected to significantly affect the Corporation's future expenses. The Corporation uses a December 31 measurement date for the postretirement plan

In an acquisition in 2007, the Corporation assumed the Citizens Trust Company Retirement Plan, a defined benefit pension plan. This plan covers certain employees who were employed by Citizens Trust Company on December 31, 2002, when the plan was amended to discontinue admittance of any future participant and to freeze benefit accruals. Information related to the Citizens Trust Company Retirement Plan has been included in the tables that follow. The Corporation uses a December 31 measurement date for this plan.

Edgar Filing: - Form

The components of net periodic benefit costs from these defined benefit plans are as follows:

(In Thousands)	Pension		Postretirement	
	Nine Months Ended		Nine Months Ended	
	Sept. 30, 2014	Sept. 30, 2013	Sept. 30, 2014	Sept. 30, 2013
Service cost	\$0	\$0	\$26	\$31
Interest cost	55	53	43	41
Expected return on plan assets	(66)	(68)	0	0
Amortization of prior service cost	0	0	(23)	(23)
Recognized net actuarial loss	11	23	0	0
Net periodic benefit cost	\$0	\$8	\$46	\$49

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

	Pension Three Months Ended Sept. 30,		Postretirement Three Months Ended Sept. 30,	
	2014	2013	2014	2013
Service cost	\$0	\$0	\$9	\$10
Interest cost	18	17	14	13
Expected return on plan assets	(22)	(23)	0	0
Amortization of prior service cost	0	0	(7)	(7)
Recognized net actuarial loss	3	7	0	0
Net periodic benefit cost	(\$1)	\$1	\$16	\$16

In the first nine months of 2014, the Corporation funded postretirement contributions totaling \$42,000, with estimated annual postretirement contributions of \$60,000 expected in 2014 for the full year. The Corporation made no contribution to the defined benefit pension plan in the nine months of 2014. Based upon the related actuarial reports, no defined benefit pension contributions are required in 2014, though the Corporation may make discretionary contributions.

**10. STOCK-BASED COMPENSATION PLANS**

In January 2014, the Corporation granted options to purchase a total of 39,027 shares of common stock through its Stock Incentive and Independent Directors Stock Incentive Plans. In January 2013, the Corporation granted options to purchase a total of 64,050 shares of common stock. The exercise price for the 2014 awards is \$20.45 per share, and the exercise price for the 2013 awards is \$19.21 per share, based on the market price as of the date of grant. Stock option expense is recognized over the vesting period of each option. The Corporation expects total stock option expense for the year ending December 31, 2014 will be \$154,000, and total stock option expense for the year ended December 31, 2013 was \$242,000.

The Corporation records stock option expense based on estimated fair value calculated using an option valuation model. In calculating the 2014 and 2013 fair values, the Corporation utilized the Black-Scholes-Merton option-pricing model. The calculated fair value of each option granted, and significant assumptions used in the calculations, are as follows:

	<b>2014</b>	<b>2013</b>
Fair value of each option granted	\$5.50	\$5.56
Volatility	39%	41%
Expected option lives	8 Years	8 Years

Edgar Filing: - Form

Risk-free interest rate	2.85%	1.60%
Dividend yield	4.33%	3.69%

In calculating the estimated fair value of stock option awards, management based its estimates of volatility and dividend yield on the Corporation's experience over the immediately prior period of time consistent with the estimated lives of the options. The risk-free interest rate was based on the published yield of zero-coupon U.S. Treasury strips with an applicable maturity as of the grant dates. The expected option lives were based on management's estimates of the average term for all options issued under both plans. In 2014, management assumed a 34% forfeiture rate for options granted under the Stock Incentive Plan, and a 3% forfeiture rate for the Directors Stock Incentive Plan. In 2013, management assumed a 33% forfeiture rate for options granted under the Stock Incentive Plan, and a 0% forfeiture rate for the Directors Stock Incentive Plan. These estimated forfeiture rates were determined based on the Corporation's historical experience.

In January 2014, the Corporation awarded a total of 16,711 shares of restricted stock under the Stock Incentive and Independent Directors Stock Incentive Plans. In January 2013, a total of 37,886 shares of restricted stock were awarded under the Plans. Compensation cost related to restricted stock is recognized based on the market price of the stock at the grant date over the vesting period. For most of the restricted stock awards granted under the Stock Incentive Plan, the Corporation must meet an annual targeted return on average equity ("ROAE") performance ratio, as defined, in order for participants to vest. Management has estimated restricted stock expense in the first nine months of 2014 based on an assumption that the ROAE target for 2014 will be met. For 2014 restricted stock awards under the Stock Incentive Plan to individuals who are substantially involved in mortgage lending, and for restricted stock awards under the Independent Directors Stock Incentive Plan, vesting is not dependent on the Corporation's ROAE.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

Total stock-based compensation expense is as follows:

(In Thousands)	3 Months Ended		9 Months Ended	
	Sept. 30, 2014	Sept. 30, 2013	Sept. 30, 2014	Sept. 30, 2013
Stock options	\$0	\$0	\$154	\$262
Restricted stock	79	113	309	343
Total	\$79	\$113	\$463	\$605

**11. INCOME TAXES**

The net deferred tax asset at September 30, 2014 and December 31, 2013 represents the following temporary difference components:

(In Thousands)	Sept. 30, 2014	December 31, 2013
Deferred tax assets:		
Unrealized holding losses on securities	\$0	\$541
Net realized losses on securities	144	91
Allowance for loan losses	2,607	3,032
Credit for alternative minimum tax paid	1,073	1,905
Other deferred tax assets	2,443	2,332
Total deferred tax assets	6,267	7,901
Deferred tax liabilities:		
Unrealized holding gains on securities	2,121	0
Defined benefit plans - ASC 835	52	6
Bank premises and equipment	1,193	1,314
Core deposit intangibles	21	30
Other deferred tax liabilities	207	207
Total deferred tax liabilities	3,594	1,557
Deferred tax asset, net	\$2,673	\$6,344

The provision for income tax for the three-month and nine-month periods ended September 30, 2014 and 2013 is based on the Corporation's estimate of the effective tax rate expected to be applicable for the full year. The effective tax rates for the Corporation are as follows:

Edgar Filing: - Form

(In thousands)	Three Months		Nine Months	
	Ended		Ended	
	September 30,		September 30,	
	2014	2013	2014	2013
Income before income tax provision	\$5,678	\$6,268	\$16,928	\$19,203
Income tax provision	1,411	1,579	4,210	4,834
Effective tax rate	24.85%	25.19%	24.88%	25.17%

The effective tax rate for each period presented differs from the statutory rate of 35% principally because of the effects of tax-exempt interest income.

The Corporation has investments in three limited partnerships that manage affordable housing projects that have qualified for the federal low-income housing tax credit. The Corporation's expected return from these investments is based on the receipt of tax credits and tax benefits from deductions of operating losses. The Corporation uses the effective yield method to account for these investments, with the benefits recognized as a reduction of the provision for income taxes. For two of the three limited partnership investments, the tax credits have been received in full in prior years, and the Corporation has fully realized the benefits of the credits and amortized its initial investments in the partnerships. The most recent affordable housing project was completed in 2013, and the Corporation received tax credits in 2013 and expects to continue to receive tax credits annually through 2022. The carrying amount of the Corporation's investment is \$929,000

## **CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

at September 30, 2014 and \$996,000 at December 31, 2013 (included in Other Assets in the consolidated balance sheets). For the year ending December 31, 2014, the estimated amount of tax credits and other tax benefits to be received is \$159,000 and the estimated amount to be recognized as a reduction of the provision for income taxes is \$83,000. For the year ended December 31, 2013, tax credits and other tax benefits totaled \$160,000 and the amount recognized as a reduction of the provision for income taxes for 2013 was \$85,000. The reduction in the provision for income taxes resulting from this investment totaled \$21,000 in the third quarter 2014 and \$62,000 for the nine months ended September 30, 2014, and \$21,000 in the third quarter 2013 and \$64,000 for nine months ended September 30, 2013.

The Corporation has no unrecognized tax benefits, nor pending examination issues related to tax positions taken in preparation of its income tax returns. With limited exceptions, the Corporation is no longer subject to examination by the Internal Revenue Service for years prior to 2010.

### **12. CONTINGENCIES**

In the normal course of business, the Corporation may be subject to pending and threatened lawsuits in which claims for monetary damages could be asserted. In management's opinion, the Corporation's financial position and results of operations would not be materially affected by the outcome of such pending legal proceedings.

### **13. RECENT ACCOUNTING PRONOUNCEMENTS**

The FASB issues Accounting Standards Updates (ASUs) to the FASB Accounting Standards Codification (ASC). This section provides a summary description of recent ASUs that have significant implications (elected or required) within the consolidated financial statements, or that management expects may have a significant impact on financial statements issued in the near future.

In July 2013, the FASB issued ASU 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. The amendments in this standard clarify that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with

deferred tax assets. For the Corporation, the amendments in this Update are effective beginning in the first quarter 2014. The Corporation will be affected by these amendments if unrecognized tax benefits arise in future periods.

In December 2013, the FASB issued ASU 2013-12, Definition of a Public Business Entity. The amendment in this Update provides a single definition of public business entity for use in future financial accounting and reporting guidance. The amendment does not affect existing requirements and does not have an effective date. The amendment specifies the following: (1) an entity that is required by the Securities and Exchange Commission (SEC) to file or furnish financial statements with the SEC, or does file or furnish financial statements with the SEC, is considered a public entity, (2) a consolidated subsidiary of a public company is not considered a public business entity for purposes of its standalone financial statements other than those included in an SEC filing by its parent or by other registrants or those that are issuers and are required to file or furnish financial statements with the SEC, and (3) a business entity that has securities that are not subject to contractual restrictions on transfer and that is by law, contract or regulation required to prepare U.S. GAAP financial statements (including footnotes) and make them publicly available on a periodic basis is considered a public business entity. Based on this definition, Citizens & Northern Corporation is considered a public business entity, while the individual subsidiaries are not considered to be public business entities for purposes of their standalone financial statements.

In January 2014, the FASB issued ASU 2014-01, Accounting for Investments in Qualified Affordable Housing Projects. This Update provides guidance on accounting for investments in flow-through limited liability entities that qualify for the federal low-income housing tax credit. Currently, under U.S. GAAP, a reporting entity that invests in a qualified affordable housing project may elect to account for that investment using the effective yield method if certain conditions are met, or alternatively, the investment would be accounted for under either the equity method or the cost method. Generally, investors in qualified affordable housing project investments expect to receive all of their return through the receipt of tax credits and tax deductions from operating losses, and use of the effective yield method results in recognition of the return

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

as a reduction of income tax expense over the period of the investment. The amendments in this Update modify the conditions that a reporting entity must meet to be eligible to use a method other than the equity or cost methods to

account for investments in qualified affordable housing projects. Additionally, the amendments introduce new recurring disclosure requirements about investments in qualified affordable housing projects. The amendments in this Update are effective for the Corporation for annual and interim periods beginning in the first quarter 2015, and are to be applied retrospectively. Information concerning the Corporation's investments in qualified affordable housing projects is provided in Note 11 to these unaudited consolidated financial statements.

In January 2014, the FASB issued ASU 2014-04, Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans upon Foreclosure. The objective of the amendments in this Update is to reduce diversity among reporting entities by clarifying when an in substance foreclosure occurs. The amendments in this Update clarify that an in substance foreclosure occurs, and a creditor is considered to have received physical possession of residential real property collateralizing a consumer mortgage loan, upon either (1) the creditor obtaining legal title to the residential real estate property upon completion of a foreclosure or (2) the borrower conveying all interest in the residential real estate property to the creditor to satisfy that loan through completion of a deed in lieu of foreclosure or through a similar legal agreement. Additionally, the amendments require interim and annual disclosure of both (1) the amount of foreclosed residential real estate property held by the creditor and (2) the recorded investment in consumer mortgage loans collateralized by residential real estate property that are in the process of foreclosure according to the requirements of the applicable jurisdiction. An entity can elect to adopt the amendments in this Update using either a modified retrospective transition method or a prospective transition method. Under the modified retrospective transition method, an entity would record a cumulative-effect adjustment to residential consumer mortgage loans and foreclosed residential real estate properties existing as of the beginning of the annual period for which the amendments are effective. For prospective transition, an entity would apply the amendments to all instances of an entity receiving physical possession of residential real estate property collateralizing consumer mortgage loans that occur after the date of adoption. Early adoption is permitted. The amendments in this Update are effective for the Corporation for annual and interim periods beginning in the first quarter 2015, and the Corporation is in the process of determining how it will apply the amendments to its accounting and reporting practices.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, which provides a principles-based framework for revenue recognition that supersedes virtually all previously issued revenue recognition guidance under U.S. GAAP. Additionally, the ASU requires improved disclosures to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. The core principle of the five-step revenue recognition framework is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU will be effective for all annual and interim periods beginning in the first quarter 2017. The amendments in the ASU should be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying this ASU recognized at the date of initial application. The Corporation is in the process of evaluating the potential impact of adopting this ASU, including determining which transition method to apply.

## Edgar Filing: - Form

In June 2014, the FASB issued ASU 2014-11, Repurchase-to-Maturity Transactions, Repurchase Financings, and Disclosures. In addition to various other amendments that will affect accounting and disclosures for transactions in which the Corporation has not engaged to date, this Update requires expanded disclosures for repurchase agreements that are accounted for as secured borrowings, including: (1) a disaggregation of the gross obligation by the class of collateral pledged, (2) the remaining contractual tenor of the agreements and (3) a discussion of the potential risks associated with the agreements and the related collateral pledged, including obligations arising from a decline in the fair value of the collateral pledged and how those risks are managed. The expanded disclosure requirements associated with repurchase agreements are effective for the Corporation for annual and interim periods beginning in the second quarter 2015. Information concerning the Corporation's repurchase agreements is provided in Note 8 to these unaudited consolidated financial statements.

In August 2014, the FASB issued ASU 2014-14, Receivables – Troubled Debt Restructuring by Creditors, which requires that a mortgage loan be derecognized and that a separate other receivable be recognized upon foreclosure if the following conditions are met: (1) the loan has a government guarantee that is not separable from the loan before foreclosure, (2) at the time of foreclosure, the creditor has the intent to convey the real estate property to the guarantor and make a claim on the guarantee, and the creditor has the ability to recover under the claim and (3) at the time of foreclosure, any amount of the claim that is determined on the basis of the fair value of the real estate is fixed. The amendments in this Update are effective for the Corporation for annual and interim periods beginning in the first quarter 2015.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

**ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION**

**AND RESULTS OF OPERATIONS**

Certain statements in this section and elsewhere in this quarterly report on Form 10-Q are forward-looking statements. Citizens & Northern Corporation and its wholly-owned subsidiaries (collectively, the Corporation) intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Reform Act of 1995. Forward-looking statements, which are not historical facts, are based on certain assumptions and describe future plans, business objectives and expectations, and are generally identifiable by the use of words such as, "should", "likely", "expect", "plan", "anticipate", "target", "forecast", and "goal". These forward-looking statements are subject to risks and uncertainties that are difficult to predict, may be beyond management’s control and could cause results to differ materially from those expressed or implied by such forward-looking statements. Factors which could have a material, adverse impact on the operations and future prospects of the Corporation include, but are not limited to, the following:

- changes in monetary and fiscal policies of the Federal Reserve Board and the U. S. Government, particularly related to changes in interest rates
- changes in general economic conditions
- legislative or regulatory changes
- downturn in demand for loan, deposit and other financial services in the Corporation’s market area
- increased competition from other banks and non-bank providers of financial services
- technological changes and increased technology-related costs
- changes in accounting principles, or the application of generally accepted accounting principles.

These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

**EARNINGS OVERVIEW**

Net income in the third quarter 2014 totaled \$4,267,000, or \$0.34 per basic and diluted share, up from \$0.33 per share in the second quarter 2014 and down from \$0.38 per share in the third quarter 2013. For the nine months ended September 30, 2014, net income was \$12,718,000, or \$1.02 per basic and diluted share, down from \$1.16 per share for the first nine months of 2013. Earnings results for the nine months ended September 30, 2014 reflected an annualized return on average assets of 1.37% and an annualized return on average equity of 9.18%.

Some of the more significant fluctuations in the components of earnings between the third quarter and second quarter of 2014, and between the three-month and nine-month periods ended September 30, 2014 and the corresponding periods in 2013 are as follows:

Net interest income of \$10,285,000 in the third quarter 2014 was up slightly from the second quarter 2014, reflecting increases compared to the prior quarter in average balances of deposits of \$14,979,000, available-for-sale securities of \$9,548,000 and loans outstanding of \$4,321,000. Third quarter 2014 net interest income was down 3.3% from the third quarter 2013 and net interest income for the first nine months of 2014 was down \$1,942,000 (6.0%) from the first nine months of 2013. Yields earned on securities and loans have fallen by more than interest rates paid on deposits and borrowings over the course of 2013 and the first nine months of 2014. The net interest margin was 3.75% in the third quarter 2014, down from 3.84% in the second quarter 2014 and 3.97% in the third quarter 2013. For the first nine months of 2014, the net interest margin was 3.82% as compared to 4.10% for the first nine months of 2013. The average balance of loans outstanding was \$33.3 million (5.0%) lower in the first nine months of 2014 as compared to the first nine months of 2013.

The provision for loan losses was \$218,000 in the third quarter 2014 as compared to \$446,000 in the second quarter 2014 and \$239,000 in the third quarter 2013. For the first nine months of 2014, the provision for loan losses totaled \$353,000, down from \$488,000 for the first nine months of 2013.

Noninterest revenue of \$3,887,000 in the third quarter 2014 was down \$93,000 (2.3%) from the second quarter 2014, and down \$406,000 (9.5%) from the third quarter 2013. For the first nine months of 2014, noninterest revenue was \$709,000 (5.8%) lower than in the first nine months of 2013. Gains from sales of residential mortgage loans totaled \$557,000 in the first nine months of 2014, down from \$1,560,000 in the first nine months of 2013, reflecting lower volume from refinancing activity. Total trust and brokerage revenue of \$4,007,000 in the first nine months of 2014 was \$399,000 (11.1%) higher than the total in the first nine months of 2013.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

In the third quarter 2014, realized gains from available-for-sale securities totaled \$760,000, including gains from sales of mortgage-backed securities and other debt securities totaling \$471,000 and gains from sales of equity securities (bank stocks) totaling \$289,000. In comparison, realized gains from available-for-sale securities totaled \$103,000 in the second quarter 2014 and \$193,000 in the third quarter 2013. Realized gains from available-for-sale securities totaled \$894,000 in the first nine months of 2014, while in the first nine months of 2013 realized gains from securities totaled \$1,452,000 and losses from prepayment of borrowings totaled \$1,023,000.

Noninterest expenses totaled \$9,036,000 in the third quarter 2014, up from \$8,347,000 in the second quarter 2014 and \$8,610,000 in the third quarter 2013. In the third quarter 2014, salaries and wages expense increased \$702,000 over the second quarter 2014, and \$812,000 over the third quarter 2013, mainly because of severance expenses. In the first nine months of 2014, total noninterest expenses, excluding losses from prepayment of borrowings, were \$224,000 (0.9%) higher than in the first nine months of 2013. Salaries and wages expense increased \$788,000 in the first nine months of 2014 as compared to the corresponding period in 2013, mainly as a result of severance benefits, and pensions and other employee benefit expenses increased \$398,000, mainly due to higher health care costs. Professional fees expense was \$997,000 lower in the first nine months of 2014 as compared to the first nine months of 2013, as the total in 2013 included fees associated with projects designed to identify sources of noninterest revenue and reductions in debit card and ATM processing expense.

More detailed information concerning fluctuations in the Corporation's earnings results are provided in other sections of Management's Discussion and Analysis.

## CRITICAL ACCOUNTING POLICIES

The presentation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect many of the reported amounts and disclosures. Actual results could differ from these estimates.

A material estimate that is particularly susceptible to significant change is the determination of the allowance for loan losses. Management believes the allowance for loan losses is adequate and reasonable. Analytical information related to the Corporation's aggregate loans and the related allowance for loan losses is summarized by loan segment and classes of loans in Note 7 to the unaudited consolidated financial statements. Additional discussion of the Corporation's allowance for loan losses is provided in a separate section later in Management's Discussion and Analysis. Given the very subjective nature of identifying and valuing loan losses, it is likely that well-informed individuals could make materially different assumptions, and could, therefore calculate a materially different allowance value. While management uses available information to recognize losses on loans, changes in economic conditions may necessitate revisions in future years. In addition, various regulatory agencies, as an integral part of their examination process, periodically review the Corporation's allowance for loan losses. Such agencies may require the Corporation to recognize adjustments to the

## **CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

allowance based on their judgments of information available to them at the time of their examination.

Another material estimate is the calculation of fair values of the Corporation's debt securities. For most of the Corporation's debt securities, the Corporation receives estimated fair values of debt securities from an independent valuation service, or from brokers. In developing fair values, the valuation service and the brokers use estimates of cash flows, based on historical performance of similar instruments in similar interest rate environments. Based on experience, management is aware that estimated fair values of debt securities tend to vary among brokers and other valuation services.

As described in Note 6 to the unaudited consolidated financial statements, management evaluates securities for other-than-temporary impairment (OTTI). In making that evaluation, consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) whether the Corporation intends to sell the security or more likely than not will be required to sell the security before its anticipated recovery. Management's assessments of the likelihood and potential for recovery in value of securities are subjective and based on sensitive assumptions.

### **NET INTEREST INCOME**

The Corporation's primary source of operating income is net interest income, which is equal to the difference between the amounts of interest income and interest expense. Tables II, III and IV include information regarding the Corporation's net interest income for the three-month and nine-month periods ended September 30, 2014 and September 30, 2013. In each of these tables, the amounts of interest income earned on tax-exempt securities and loans have been adjusted to a fully taxable-equivalent basis. Accordingly, the net interest income amounts reflected in these tables exceed the amounts presented in the consolidated financial statements. The discussion that follows is based on amounts in the related Tables.

#### **Nine-Month Periods Ended September 30, 2014 and 2013**

For the nine-month periods, fully taxable equivalent net interest income was \$32,946,000 in 2014, \$2,118,000 (6.0%) lower than in 2013. As shown in Table IV, interest rate changes had the effect of decreasing net interest income \$1,341,000 and changes in volume had the effect of decreasing net interest income \$777,000 in 2014 compared to 2013. The most significant components of the rate-related change in net interest income in 2014 were a decrease in interest income of \$1,422,000 attributable to lower rates earned on loans receivable and a decrease in interest income of \$244,000 attributable to lower rates earned on available-for-sale securities, partially offset by a decrease in interest expense of \$314,000 due to lower rates paid on interest-bearing deposits. The most significant components of the volume-related change in net interest income in 2014 were a decrease in interest income of \$1,398,000 attributable to

a decline in the balance of loans receivable, partially offset by an increase in interest income of \$415,000 from an increase in available-for-sale securities, a decrease in interest expense of \$134,000 attributable to a reduction in the balance of interest-bearing deposits (primarily certificates of deposit) and a decrease in interest expense of \$105,000 attributable to a reduction in the balance of borrowed funds. As presented in Table III, the “Interest Rate Spread” (excess of average rate of return on earning assets over average cost of funds on interest-bearing liabilities) was 3.66% in 2014, as compared to 3.92% in 2013.

#### INTEREST INCOME AND EARNING ASSETS

Interest income totaled \$36,811,000 in 2014, a decrease of 6.7% from 2013. Interest and fees on loans receivable decreased \$2,820,000, or 9.9%. The average balance of gross loans receivable decreased 5.0% to \$627,810,000 in 2014 from \$661,144,000 in 2013. The Corporation experienced contraction in the balance of loans receivable due to borrowers prepaying or refinancing existing loans combined with modest demand for new loans. The decline in the balance of the residential mortgage portfolio was also affected by management’s decision to sell a significant portion of newly originated residential mortgages on the secondary market. The Corporation’s average rate of return on loans receivable declined to 5.48% in 2014 from 5.77% in 2013 as rates on new loans have decreased.

As indicated in Table III, average available-for-sale securities (at amortized cost) totaled \$491,361,000 in 2014, an increase of \$35,469,000 (7.8%) from 2013. The net increase in the Corporation’s available-for-sale securities portfolio was primarily made up of mortgage-backed securities and collateralized mortgage obligations issued or guaranteed by U.S. Government agencies. The Corporation’s yield on securities was lower in 2014 than in 2013, primarily because of lower market interest rates. The average rate of return on available-for-sale securities was 2.98% for 2014 and 3.17% in 2013.

**CITIZENS & NORTHERN CORPORATION – FORM 10-Q**

**INTEREST EXPENSE AND INTEREST-BEARING LIABILITIES**

Interest expense fell \$546,000, or 12.4%, to \$3,865,000 in 2014 from \$4,411,000 in 2013. Table III shows that the overall cost of funds on interest-bearing liabilities fell to 0.61% in 2014 from 0.69% in 2013.

Total average deposits (interest-bearing and noninterest-bearing) decreased 0.2%, to \$963,212,000 in 2014 from \$965,126,000 in 2013. Decreases in the average balances of certificates of deposit, Individual Retirement Accounts, and money market accounts were partially offset by increases in average balances of demand deposits, interest checking and savings accounts. Consistent with continuing low short-term market interest rates, the average rates incurred on certificates of deposit have decreased significantly in 2014 as compared to 2013.

Total average borrowed funds decreased \$2,797,000 to \$79,927,000 in 2014 from \$82,724,000 in 2013.

**Three-Month Periods Ended September 30, 2014 and 2013**

For the three-month periods, fully taxable equivalent net interest income was \$11,031,000 in 2014, which was \$398,000 (3.5%) lower than in 2013. As shown in Table IV, interest rate changes had the effect of decreasing net interest income \$252,000 and net changes in volume had the effect of decreasing net interest income \$146,000 in 2014 compared to 2013. As presented in Table III, the “Interest Rate Spread” was 3.59% in 2014, as compared to 3.81% in 2013.

Interest income totaled \$12,318,000 in 2014, a decrease of \$507,000 (4.0%) from 2013. Income from available-for-sale securities increased \$178,000 (5.0%), while interest and fees from loans receivable decreased \$684,000, or 7.4%. As indicated in Table III, total average available-for-sale securities (at amortized cost) in 2014 increased to \$505,782,000 from \$466,270,000 in 2013. The average rate of return on available-for-sale securities was 2.91% for 2014, down from 3.00% in 2013. For the three-month period, the average balance of gross loans receivable decreased 3.6% to \$626,336,000 in 2014 from \$650,030,000 in 2013. The average rate of return on loans was 5.43% in 2014, down from 5.65% in 2013.

For the three-month period, interest expense fell \$109,000, or 7.8%, to \$1,287,000 in 2014 from \$1,396,000 in 2013. Total average deposits (interest-bearing and noninterest-bearing) amounted to \$979,530,000 in the third quarter 2014, an increase of \$20,714,000 (2.2%) over the third quarter 2013 total. The average interest rate on interest-bearing liabilities was 0.60% in the third quarter 2014 as compared to 0.65% in the third quarter 2013.
