Kentucky First Federal Bancorp

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

September 30, 2015

(unaudited)

On March 2, 2005, First Federal Savings and Loan Association of Hazard (“First Federal of Hazard” or the “Association”) completed a Plan of Reorganization (the “Plan” or the “Reorganization”) pursuant to which the Association reorganized into the mutual holding company form of ownership with the incorporation of a stock holding company, Kentucky First Federal Bancorp (the “Company”) as parent of the Association. Coincident with the Reorganization, the Association converted to the stock form of ownership, followed by the issuance of all the Association’s outstanding stock to Kentucky First Federal Bancorp. Completion of the Plan of Reorganization culminated with Kentucky First Federal Bancorp issuing 4,727,938 common shares, or 55% of its common shares, to First Federal Mutual Holding Company (“First Federal MHC”), a federally chartered mutual holding company, with 2,127,572 common shares, or 24.8% of its shares offered for sale at \$10.00 per share to the public and a newly formed Employee Stock Ownership Plan (“ESOP”). The Company received net cash proceeds of \$16.1 million from the public sale of its common shares. The Company’s remaining 1,740,554 common shares were issued as part of the \$31.4 million cash and stock consideration paid for 100% of the common shares of Frankfort First Bancorp (“Frankfort First”) and its wholly-owned subsidiary, First Federal Savings Bank of Frankfort (“First Federal of Frankfort”). The acquisition was accounted for using the purchase method of accounting and resulted in the recordation of goodwill and other intangible assets totaling \$15.4 million.

1. Basis of Presentation

The accompanying unaudited consolidated financial statements, which represent the consolidated balance sheets and results of operations of the Company, were prepared in accordance with the instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of financial position, results of operations and cash flows in conformity with U.S. generally accepted accounting principles. However, in the opinion of management, all adjustments (consisting of only normal recurring adjustments) which are necessary for a fair presentation of the consolidated financial statements have been included. The results of operations for the three-month period ended September 30, 2015, are not necessarily indicative of the results which may be expected for an entire fiscal year. The consolidated balance sheet as of June 30, 2015 has been derived from the audited consolidated balance sheet as of that date. Certain information and note disclosures normally included in the Company’s annual financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. These consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s Form 10-K annual report for 2015 filed with the Securities and Exchange Commission.

Principles of Consolidation - The consolidated financial statements include the accounts of the Company, Frankfort First, and its wholly-owned banking subsidiaries, First Federal of Hazard and First Federal of Frankfort (collectively hereinafter “the Banks”). All intercompany transactions and balances have been eliminated in consolidation.

Reclassifications - Certain amounts presented in prior periods have been reclassified to conform to the current period presentation. Such reclassifications had no impact on prior years’ net income or shareholders’ equity.

Kentucky First Federal Bancorp**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

September 30, 2015

(unaudited)

3. Investment Securities (continued)

The Company's equity securities consist of Federal Home Loan Mortgage Company (FHLMC or Freddie Mac) stock, while our debt securities consist of agency bonds and mortgage-backed securities. Mortgage-backed securities do not have a single maturity date. The amortized cost and fair value of held-to-maturity debt securities are shown by contractual maturity. Securities not due at a single maturity date are shown separately.

(in thousands)	September 30, 2015	
	Amortized Cost	Fair Value
Held-to-maturity Securities		
Within one year	\$ 1,522	\$ 1,523
One to five years	1,560	1,562
Mortgage-backed	2,543	2,638
	\$ 5,625	\$ 5,723

Our pledged securities totaled \$2.2 million at September 30, 2015, and June 30, 2015.

There were no sales of investment securities during the three month periods ended September 30, 2015 and 2014.

We evaluated securities in unrealized loss positions for evidence of other-than-temporary impairment, considering duration, severity, financial condition of the issuer, our intention to sell or requirement to sell. Those securities were agency bonds, which carry a very limited amount of risk. Also, we have no intention to sell nor feel that we will be compelled to sell such securities before maturity. Based on our evaluation, no impairment has been recognized through earnings.

Consumer	25	—	26	—
	\$ 5,110	\$ 1,195	\$4,767	\$ 1,745

Troubled Debt Restructurings:

A Troubled Debt Restructuring (“TDR”) is the situation where the Bank grants a concession to the borrower that the Bank would not otherwise have considered due to the borrower’s financial difficulties. All TDRs are considered “impaired.” At September 30, 2015 and June 30, 2015, the Company had \$1.6 million and \$1.9 million of loans classified as TDRs, respectively. Of the TDRs at September 30, 2015, approximately 40.2% were related to the borrower’s completion of Chapter 7 bankruptcy proceedings with no reaffirmation of the debt to the Banks.

The following table presents TDR’s by loan type at September 30, 2015 and June 30, 2015, and their performance, by modification type:

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

(dollars in thousands)	Number of Loans	Pre- Modification Outstanding Recorded Investment	Post- Modification Outstanding Recorded Investment	TDRs Performing to Modified Terms	TDRs Not Performing to Modified Terms

Three months ended September 30, 2014			
Residential real estate:			
Rate reduction	\$ —	\$ —	\$ —
Bankruptcies	—	—	—
Total troubled debt restructures	\$ —	\$ —	\$ —

The Company had no allocated specific reserves to customers whose loan terms had been modified in troubled debt restructurings as of September 30, 2015, or at June 30, 2015. The Company had no commitments to lend on loans classified as TDRs at September 30, 2015 or June 30, 2015.

There were no TDRs that defaulted during the three-month periods ended September 30, 2015 or 2014.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company analyzes loans individually by classifying the loans as to credit risk. This analysis is performed on an annual basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above-described process are considered to be pass rated loans. Loans listed that are not rated are included in groups of homogeneous loans and are evaluated for credit quality based on performing status. See the aging of past due loan table above. As of September

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

30, 2015, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

	\$53,468	\$ 8,077	\$ 11,046	\$ —	\$175,436

Purchased Credit Impaired Loans:

The Company purchased loans during fiscal year 2013 for which there was, at acquisition, evidence of deterioration of credit quality since origination and it was probable, at acquisition, that all contractually required payments would not be collected. The carrying amount of those loans, net of a purchase credit discount of \$512,000 and \$616,000 at September 30, 2015 and June 30, 2015, respectively, is as follows:

4. Loans receivable (continued)

Accretable yield, or income expected to be collected, is as follows

(in thousands)	Three months ended September 30, 2015	Twelve months ended June 30, 2015
Balance at beginning of period	\$ 1,021	\$ 1,478
Accretion of income	(39)	(457)
Reclassifications from nonaccretable difference	106	—
Disposals	—	—
Balance at end of period	\$ 1,088	\$ 1,021

For those purchased loans disclosed above, the Company made no increase in allowance for loan losses for the year ended June 30, 2015, nor for the three-month period ended September 30, 2015. Neither were any allowance for loan losses reversed during those periods.

5. Disclosures About Fair Value of Assets and Liabilities

ASC topic 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in active markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy.

Securities

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics. Level 2 securities include agency mortgage-backed securities.

5. Disclosures About Fair Value of Assets and Liabilities (continued)

Impaired Loans

At the time a loan is considered impaired, it is evaluated for loss based on the fair value of collateral securing the loan if the loan is collateral dependent. If a loss is identified, a specific allocation will be established as part of the allowance for loan losses such that the loan's net carrying value is at its estimated fair value. Impaired loans carried at fair value generally receive specific allocations of the allowance for loan losses. For collateral-dependent loans, fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Other Real Estate

Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Edgar Filing: Kentucky First Federal Bancorp - Form 10-Q

Financial assets measured at fair value on a recurring basis are summarized below:

<i>(in thousands)</i>	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

5. Disclosures About Fair Value of Assets and Liabilities (continued)

Assets measured at fair value on a non-recurring basis are summarized below:

(in thousands)	Fair Value Measurements Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
September 30, 2015				
Other real estate owned, net				
One- to four-family	\$ 511	—	—	511
Land	121	—	—	121
June 30, 2015				
Other real estate owned, net				
One- to four-family	\$ 525	—	—	\$ 525
Land	15	—	—	15

There were no impaired loans, which were measured using the fair value of the collateral for collateral-dependent loans, at September 30, 2015, and June 30, 2015. There was no specific provision made for the three month periods ended September 30, 2015 or 2014.

Other real estate owned measured at fair value less costs to sell, had carrying amounts of \$632,000 and \$540,000 at September 30, 2015 and June 30, 2015, respectively. Other real estate owned was written down \$18,000 during the three months ended September 30, 2015, while there was no write-down of other real estate owned during the three months ended September 30, 2014.

Kentucky First Federal Bancorp**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)**

September 30, 2015

(unaudited)

5. Disclosures About Fair Value of Assets and Liabilities (continued)

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at September 30, 2015 and June 30, 2015:

September 30, 2015	Fair Value (in thousands)	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
Foreclosed and repossessed assets:				
1-4 family	\$ 511	Sales comparison approach	Adjustments for differences between comparable sales	-10.8% to 11.7% (0.1%)
Land	121	Sales comparison approach	Adjustments for differences between comparable sales	3.5% to 6.6% (5.4%)
June 30, 2015	Fair Value (in thousands)	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
Foreclosed and repossessed assets:				
1-4 family	\$ 525	Sales comparison approach	Adjustments for differences between comparable sales	1.5% to 11.7% (2.9%)
Land	15	Sales comparison approach	Adjustments for differences between comparable sales	20.2% to 38.9% (20.8%)

The following is a disclosure of the fair value of financial instruments, both assets and liabilities, whether or not recognized in the consolidated balance sheet, for which it is practicable to estimate that value. For financial instruments where quoted market prices are not available, fair values are based on estimates using present value and other valuation methods.

The methods used are greatly affected by the assumptions applied, including the discount rate and estimates of future cash flows. Therefore, the fair values presented may not represent amounts that could be realized in an exchange for certain financial instruments.

Kentucky First Federal Bancorp

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

September 30, 2015

(unaudited)

5. Disclosures About Fair Value of Assets and Liabilities (continued)

The following methods were used to estimate the fair value of all other financial instruments at September 30, 2015 and June 30, 2015:

Cash and cash equivalents and interest-bearing deposits: The carrying amounts presented in the consolidated statements of financial condition for cash and cash equivalents are deemed to approximate fair value.

Held-to-maturity securities: For held-to-maturity securities, fair value is estimated by using pricing models, quoted price of securities with similar characteristics, which is level 2 pricing for the other securities.

Loans held for sale: Loans originated and intended for sale in the secondary market are determined by FHLB pricing schedules.

Loans: The loan portfolio has been segregated into categories with similar characteristics, such as one- to four-family residential, multi-family residential and nonresidential real estate. These loan categories were further delineated into fixed-rate and adjustable-rate loans. The fair values for the resultant loan categories were computed via discounted cash flow analysis, using current interest rates offered for loans with similar terms to borrowers of similar credit quality. For loans on deposit accounts and consumer and other loans, fair values were deemed to equal the historic carrying values. The fair values of the loans does not necessarily represent an exit price.

Loans receivable represents the Company's most significant financial asset, which is in Level 3 for fair value measurements. A third party provides financial modeling for the Company and results are based on assumptions and factors determined by management.

Federal Home Loan Bank stock: It is not practicable to determine the fair value of FHLB stock due to restrictions placed on its transferability.

Accrued interest receivable: The carrying amount is the estimated fair value.

Deposits: The fair value of NOW accounts, passbook accounts, and money market deposits are deemed to approximate the amount payable on demand. Fair values for fixed-rate certificates of deposit have been estimated using a discounted cash flow calculation using the interest rates currently offered for deposits of similar remaining maturities.

Federal Home Loan Bank advances: The fair value of these advances is estimated using the rates currently offered for similar advances of similar remaining maturities or, when available, quoted market prices.

Advances by borrowers for taxes and insurance and accrued interest payable: The carrying amount presented in the consolidated statement of financial condition is deemed to approximate fair value.

Commitments to extend credit: For fixed-rate and adjustable-rate loan commitments, the fair value estimate considers the difference between current levels of interest rates and committed rates. The fair value of outstanding loan commitments at September 30, 2015 and June 30, 2014, was not material.

Net interest income/average yield	\$ 2,634	3.83 %	\$ 2,748	3.97 %
Net interest margin		3.93 %		4.07 %
Average interest-earning assets to average interest-bearing liabilities		120.15%		120.29%

¹ Includes loan fees, immaterial in amount, in both interest income and the calculation of yield on loans. Also includes loans on nonaccrual status.

Kentucky First Federal Bancorp

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS (continued)

Discussion of Financial Condition Changes from June 30, 2015 to September 30, 2015

Assets: At September 30, 2015, the Company's assets totaled \$295.9 million, a decrease of \$380,000, or 0.1%, from total assets at June 30, 2015. This decrease was attributed primarily to decreases in both cash and cash equivalents and investment securities and was somewhat offset by an increase in loans.

Cash and cash equivalents: Cash and cash equivalents decreased \$970,000 or 7.1% to \$12.7 million at September 30, 2015, primarily as we seek to maintain the appropriate level of liquidity. Our strategy is to balance our need for liquidity to meet day-to-day operational cash flows against keeping too much idle cash on hand. We keep a minimum of 8.0% of our liquidity base for normal cash flow needs and borrow short-term using FHLB advances when cash is low. Likewise, we pay down FHLB advances with any excess funds we might have.

Investment securities: Investment securities decreased \$802,000 or 12.2% to \$5.8 million at September 30, 2015, due to maturity of a \$500,000 agency bond and cash flows associated with mortgage-backed securities.

Loans: Loans receivable, net, increased by \$1.2 million or 0.5% to \$245.0 million at September 30, 2015. Management continues to look for high-quality loans to add to its portfolio and will continue to emphasize loan originations to the extent that it is profitable, prudent and consistent with our interest rate risk strategies.

Non-Performing and Classified Loans: At September 30, 2015, the Company had non-performing loans (loans 90 or more days past due or on nonaccrual status) of approximately \$6.3 million, or 2.6% of total loans (including loans purchased in the acquisition), compared to \$6.5 million or 2.7%, of total loans at June 30, 2015. The Company's allowance for loan losses totaled \$1.6 million at both September 30, 2015, and June 30, 2015. The allowance for loan losses at September 30, 2015, represented 24.9% of nonperforming loans and 0.6% of total loans (including loans purchased in the acquisition), while at June 30, 2015, the allowance represented 24.1% of nonperforming loans and 0.6% of total loans.

The Company had \$13.6 million in assets classified as substandard for regulatory purposes at September 30, 2015, including loans (\$12.3 million) and real estate owned (“REO”) (\$1.3 million), including loans acquired in the CKF Bancorp transaction. Classified loans as a percentage of total loans (including loans acquired on December 31, 2012) were 5.0% and 4.5% at September 30, 2015 and June 30, 2015, respectively. The increase in substandard loans was due primarily to classification of two of our larger residential real estate borrowers. Our analysis of the cash flow of these two unrelated credits indicated that a downgrade in classification was warranted. Each of these loans are well-secured and neither was delinquent at September 30, 2015. Of substandard loans at September 30, 2015, 99.8% were secured by real estate on which the Banks have priority lien position.

Kentucky First Federal Bancorp**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION****AND RESULTS OF OPERATIONS (continued)**Discussion of Financial Condition Changes from June 30, 2015 to September 30, 2015 (continued)

The table below shows the aggregate amounts of our assets classified for regulatory purposes at the dates indicated:

(dollars in thousands) September 30, 2015 June 30, 2015

Substandard assets	\$ 13,599	\$ 12,639
Doubtful assets	—	—
Loss assets	—	—
Total classified assets	\$ 13,599	\$ 12,639

At September 30, 2015, the Company's real estate acquired through foreclosure represented 9.3% of substandard assets compared to 12.6% at June 30, 2015. During the three months ended September 30, 2015, the Company sold property with carrying value of \$478,000 for \$493,000, while during the year ended June 30, 2015, property with a carrying value of \$590,000 was sold for \$702,000. During the three months ended September 30, 2015, the Company made no loan(s) to facilitate the purchase of its other real estate owned by qualified borrowers, while for the fiscal year ended June 30, 2015, \$424,000 loans to facilitate an exchange were made. The Company defers recognition of any gain on loans to facilitate an exchange until the proper time in the future. Loans to facilitate the sale of other real estate owned, which were included in substandard loans, totaled \$236,000 and \$292,000 at September 30, 2015 and June 30, 2015, respectively.

Kentucky First Federal Bancorp**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION****AND RESULTS OF OPERATIONS (continued)**Discussion of Financial Condition Changes from June 30, 2015 to September 30, 2015 (continued)

The following table presents the aggregate carrying value of REO at the dates indicated:

	September 30, 2015		June 30, 2015	
	Number	Net Carrying	Number	Net Carrying
	of Properties	Value	of Properties	Value
Single family, non-owner occupied	11	\$ 1,099	15	\$ 1,440
Building lot	4	161	5	153
Total REO	15	\$ 1,260	20	\$ 1,593

At September 30, 2015, and June 30, 2015, the Company had \$9.1 million and \$8.1 million of loans classified as special mention, respectively (including loans purchased at December 31, 2012.) This category includes assets which do not currently expose us to a sufficient degree of risk to warrant classification, but do possess credit deficiencies or potential weaknesses deserving our close attention. The primary reason for this increase was related to two larger borrowers who each experienced some weakness in cash flow, but had no delinquency and their loans were well secured by real estate.

Liabilities: At September 30, 2015, the Company's liabilities totaled \$228.4 million, a decrease of \$580,000, or 0.3%, from total liabilities at June 30, 2015. The decrease in liabilities was attributed primarily as a result of a decrease in deposits, which decreased \$3.4 million or 1.7% to \$196.3 million at September 30, 2015, and was partially offset by an increase in FHLB advances, which totaled \$29.2 million at quarter end, an increase of \$2.6 million or 9.7% compared to June 30, 2015. Deposit customers continue seeking higher yields on their funds after growing impatient in the current low-rate environment and some are turning to non-insured investments. As deposits have continued to decrease, we have utilized short-term FHLB advances as replacement funding.

Shareholders' Equity: At September 30, 2015, the Company's shareholders' equity totaled \$67.5 million, an increase of \$200,000 or 0.3% from the June 30, 2015 total. The change in shareholders' equity was chiefly associated with net profits for the period less dividends paid on common stock.

Kentucky First Federal Bancorp

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS (continued)

Discussion of Financial Condition Changes from June 30, 2015 to September 30, 2015 (continued)

The Company paid dividends of \$378,000 or 70.3% of net income for the three month period just ended. On July 7, 2015, the members of First Federal MHC for the fourth time approved a dividend waiver on annual dividends of up to \$0.40 per share of Kentucky First Federal Bancorp common stock. The Board of Directors of First Federal MHC applied for approval of another waiver. The Federal Reserve Bank of Cleveland has notified the Company that there would be no objection to a waiver of dividends paid by the Company to First Federal MHC, and, as a result, First Federal MHC will be permitted to waive the receipt of dividends for quarterly dividends up to \$0.10 per common share through the third quarter of 2016. Management believes that the Company has sufficient capital to continue the current dividend policy without affecting the well-capitalized status of either subsidiary bank. Management cannot speculate on future dividend levels, because various factors, including capital levels, income levels, liquidity levels, regulatory requirements and overall financial condition of the Company are considered before dividends are declared. However, management continues to believe that a strong dividend is consistent with the Company's long-term capital management strategy. See "Risk Factors" in Part II, Item 1A, of the Company's Annual Report on Form 10-K for the year ended June 30, 2015 for additional discussion regarding dividends.

Comparison of Operating Results for the Three Month Periods Ended September 30, 2015 and 2014

General

Net income totaled \$538,000 for the three months ended September 30, 2015, an increase of \$122,000 or 29.3% from net income of \$416,000 for the same period in 2014. The net increase in net earnings for the recently-ended quarter was primarily attributable to lower non-interest expenses and lower income tax expense.

Net Interest Income

Net interest income after provision for loan losses decreased \$69,000 or 2.6% to \$2.6 million for the three month period just ended compared to \$2.7 million for the prior year quarter primarily due to reduced net interest income and

partially offset by a decrease in provision for loan loss. Net interest income before provision for loan loss decreased \$114,000 or 4.1% to \$2.6 million for the quarter ended September 30, 2015. Provision for losses on loans decreased \$45,000 to \$11,000 for the recently-ended quarter compared to a provision of \$56,000 in the prior year period. Interest income decreased by \$115,000, or 3.7%, to \$3.0 million, while interest expense decreased \$1,000 or 0.3% to \$350,000 for the three months ended September 30, 2015, after amortization of fair value adjustments on interest bearing accounts.

Interest income on loans decreased \$108,000 or 3.6% to \$2.9 million, due primarily to a decrease in the average rate earned on the loan portfolio, which decreased 17 basis points to 4.70% for the recently ended quarter compared to the prior year period. The average balance of loans outstanding for the three month period ended September 30, 2015, decreased \$284,000 or 0.1% to \$246.3 million. Interest income on mortgage-backed securities decreased \$6,000 or 20.7% to \$23,000 for the three months ended September 30, 2015, due to lower balances resulting from normal cash flows associated with the securities.

Kentucky First Federal Bancorp

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

AND RESULTS OF OPERATIONS (continued)

Comparison of Operating Results for the Three Month Periods Ended September 30, 2015 and 2014 (continued)

Interest expense on deposits totaled \$280,000 and \$289,000 for the three month periods ended September 30, 2015 and 2014, respectively, while interest expense on borrowings increased \$8,000 or 12.9% to \$70,000 for the most recently ended period. The average balance of deposits decreased \$14.7 million or 7.0% to \$195.1 million for the most recent period, while the average rate paid on deposits increased 2 basis points to 0.57%. The decrease in average deposits was primarily attributed to rate-sensitive deposit customers withdrawing funds to seek additional yield as the historically low interest rate environment continues. The increase in interest expense on borrowings also was attributed to higher outstanding balances of FHLB advances, which were used to offset deposit funding. The average balance of outstanding borrowings increased \$13.2 million or 90.1% to \$27.9 million for the quarter ended September 30, 2015, compared to \$14.7 million for the prior year quarterly period. The average rate paid on borrowings decreased 68 basis points to 1.01% for the recently ended quarter.

Net interest margin decreased from 4.07% for the prior year quarterly period to 3.93% for the quarter ended September 30, 2015.

Provision for Losses on Loans

The Company recorded \$11,000 in provision for losses on loans during the three months ended September 30, 2015, compared to a \$56,000 provision for the three months ended September 30, 2014. There can be no assurance that the loan loss allowance will be adequate to absorb unidentified losses on loans in the portfolio, which could adversely affect the Company's results of operations.

Non-interest Income

Non-interest income totaled \$114,000 for the three months ended September 30, 2015, an increase of \$18,000 from the same period in 2014 due primarily to gains on sales of loans and sales of REO. Net gains on sales of loans totaled \$19,000 for the quarter just ended compared to \$6,000 for the prior year quarter, an increase of \$13,000 or 216.7%.

Sales of REO during the period resulted in net gains of \$16,000 compared to a net loss of \$1,000 in the prior year period. The Company recorded a write-down on REO during the recently-ended quarter of \$18,000, while there was no such write-down in the previous year period. There were no sales of investments during the three month periods ended September 30, 2015 and 2014.

Non-interest Expense

Non-interest expense decreased \$104,000 or 4.8% and totaled \$2.1 million for the three months ended September 30, 2015 compared to \$2.2 million for the same period in 2014. Employee compensation and benefits decreased \$98,000 or 7.1% to \$1.3 million for the quarterly period, primarily due to lower expense to the Company's defined benefit pension plan. The Company participates in a multiple-employer pension plan and has benefited from changes in the pension funding requirement laws. Contributions to the defined benefit pension plan totaled \$151,000 and \$226,000 for the three months ended September 30, 2015 and 2014, respectively. Foreclosure and REO expenses, net decreased \$25,000 or 47.2% to \$28,000 for the quarter just ended primarily due to reduced foreclosure activity and lower levels of REO period to period. Somewhat offsetting the decreased expenses were increases in legal fees and occupancy and equipment costs. Legal fees increased \$22,000 or 314.3% to \$29,000 for the quarter ended September 30, 2015, due to the Company's attempt to merge its two banks, an event that is not expected to recur. Occupancy and equipment costs increased \$17,000 or 13.0% to \$148,000 for the quarter recently ended due chiefly to repairs made to aging facilities. The Company expects occupancy and equipment costs to increase in the future as recently-purchased buildings are placed in service. First Federal of Frankfort purchased a building which will enable it to expand service capabilities to east Frankfort customers, while First Federal of Hazard purchased facilities which are expected to increase service to Perry and surrounding counties in eastern Kentucky.

Federal Income Tax Expense

Federal income taxes expense decreased \$69,000 or 34.0% and totaled \$134,000 for the three months ended September 30, 2015, compared to \$203,000 in the prior year quarter primarily due to the reversal of a FIN 48 reserve related to a previously received federal tax refund. The effective tax rates were 19.9% and 32.8% for the three-month periods ended September 30, 2015 and 2014, respectively.

Kentucky First Federal Bancorp

ITEM 3: Quantitative and Qualitative Disclosures About Market Risk

This item is not applicable as the Company is a smaller reporting company.

ITEM 4: Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the Company's disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report, and have concluded that the Company's disclosure controls and procedures were effective.

The Company's Chief Executive Officer and Chief Financial Officer have also concluded that there were no significant changes during the quarter ended September 30, 2015, in the Company's internal control over financial reporting or in other factors that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Kentucky First Federal Bancorp

PART II

ITEM 1. Legal Proceedings

None.

ITEM 1A. Risk Factors

There have been no material changes in the risk factors disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2015.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) The following table sets forth information regarding Company's repurchases of its common stock during the quarter ended September 30, 2015.

Period	Total # of shares Purchased	Average price paid per share (incl commissions)	Total # of shares purchased as part of publicly announced plans or programs	Maximum # of shares that may yet be purchased under the plans or programs
July 1-31, 2015	—	\$	—	60,323
August 1-31, 2015	—	\$	—	60,323
September 1-30, 2015	—	\$	—	60,323

(1) On January 16, 2014, the Company announced a program (its seventh) to repurchase of up to 150,000 shares of its common stock.
