Table of Contents

Compared to 2005, Telenor's revenues increased by 37 per cent in 2006, to NOK 91.1 billion. Profit after taxes and minority interests more than doubled compared to 2005, reaching NOK 15.9 billion. In the fourth quarter of 2006, revenues increased by 30 per cent compared to the same period last year, reaching NOK 24.5 billion. The EBITDA margin in the fourth quarter of 2006 was 33.4 per cent, compared to 34.9 per cent in the fourth quarter of 2005.

HIGHLIGHTS FOURTH QUARTER 2006:

Revenue growth of 30% underlying growth of 11% 10 million new mobile subscriptions EBITDA margin of 33% Proposed dividend per share of NOK 2.50 for 2006

OUTLOOK FOR 2007

Based upon the current group structure: In 2007 we expect a growth in reported revenues of between 15% and 20%. The EBITDA margin before other income and expenses is expected to be around 35%. We expect capital expenditure as a proportion of revenues to be around 20% in 2007, mainly driven by high subscription growth within our mobile operations in emerging markets. The effects from the introduction of an interconnect regime in Thailand, both when it comes to timing as well as magnitude, represents the main uncertain factor related to Telenor's outlook for 2007. A growing share of Telenor's revenues and profits is derived from operations outside Norway. Currency fluctuations may to an increasing extent influence the reported figures in Norwegian Krone. Political risk, including regulatory conditions, may also influence the profits. We expect seasonal variations between the quarters.

KYIVSTAR FIGURES BASED ON ESTIMATES

There are litigation and arbitration proceedings pending in New York involving Kyivstar's shareholders relating to Kyivstar's shareholders agreement. Further proceedings have recently been brought in Ukrainian courts by Storm LLC (43.5% shareholder in Kyivstar) and a related party challenging the authority of the company to appoint auditors. An injunction from Krasnolutsk City Court of Lugansk Region has been issued that, among other things, purports to prohibit Kyivstar's management from providing financial information to Kyivstar's international auditors, the company's shareholders, including Telenor, from using financial information already provided by Kyivstar and Kyivstar and Telenor's auditors from carrying out any audit work in relation to Kyivstar's year-end IFRS financial statements. Telenor is contesting these actions. As a result of not having the ability to obtain relevant financial information from Kyivstar, the information contained in Telenor's fourth quarter results relating to Kyivstar is based on estimated figures. Actual results could differ from these estimates.

Record high subscription growth

Highlights fourth quarter 2006:

Revenue growth of 30% underlying growth of 11%

10 million new mobile subscriptions

EBITDA margin of 33%

Proposed dividend per share of NOK 2.50 for 2006

2006 has been an outstanding year with high growth in revenues and profits, significantly improving our operating cash flow. The number of subscriptions in our mobile operations increased by more than 30 million, reaching 115 million. I am proud to see that our consistent strategy of investing in emerging markets combined with a strengthened position in the Nordic has led to such strong results. Building on this strong position, we expect the high underlying growth to continue in 2007.

We have had another quarter of record-high subscription growth, mainly driven by impressive net additions in Kyivstar and Telenor Pakistan. Operationally and financially our mobile operations have performed very well. However, the quarterly results from Fixed Norway and Broadcast have been affected by higher costs related to operational conditions and marketing activities.

During 2006, the Group's new visual identity was adopted by ten of our operations in eight countries. The distinctive brand reflects our unique approach, utilizing global scale combined with local market expertise and decision making. With this highly experienced and dedicated organisation, I am confident that we are well prepared to meet future opportunities and challenges, said Jon Fredrik Baksaas, President and CEO.

The number of subscriptions increased by 12,000, while the estimated market share was 55%, in line with the previous quarter.

ARPU remained stable. The effects from increased average usage (AMPU) were offset by lower average prices.

Table of Contents

Total mobile revenues remained stable. Price reductions and initiatives to encourage loyalty have led to lower revenue growth.

The increase in EBITDA margin was mainly due to lower costs related to sales and marketing activities, partially due to reduced costs of acquiring customers.

In the fourth quarter of 2005, capital expenditure included renewal of a GSM licence. Adjusted for this, capital expenditure remained stable.

The number of subscriptions increased by 56,000, while Sonofon s market share increased by 0.5 percentage point to 24% ^{*)} compared to the previous quarter.

ARPU in local currency remained stable. The effects from increased average usage were offset by lower average prices.

Total revenues in local currency increased by 7% primarily due to a higher customer base.

EBITDA margin increased primarily driven by higher revenues and improved gross margin, partially due to lower costs because Sonofon now is using its own fibre network. EBITDA measured in local currency increased by 19%.

In the fourth quarter of 2005, capital expenditure included investments in a UMTS license. Adjusted for this, capital expenditure increased, primarily related to the roll-out of the UMTS network.

Mobile Sweden is consolidated with effect from 5 January 2006. Compared to the fourth quarter of 2005, the Norwegian Krone depreciated against the Swedish Krone by approximately 8% in the fourth quarter of 2006. The following comments are related to the fourth quarter of 2006-compared to the third quarter of 2006.

The number of subscriptions increased by 25,000, while the estimated market share remained stable at 17% compared to the previous quarter.

Mobile revenues from own subscriptions in local currency increased by 2% as a result of increased usage, partially offset by lower average prices. Total revenues remained stable.

Table of Contents

The reduction in EBITDA margin was mainly due to higher costs related to sales and marketing activities including the introduction of the Glocalnet mobile brand. This was partially offset by reversal of previously expensed costs for workforce reductions.

The fourth quarter of 2005 included a loss on the MVNO agreement of NOK 291 million.

In the fourth quarter of 2006, investments in businesses for 2006 were reduced following the final settlement of the purchase of Vodafone.

At the end of the fourth quarter of 2006, Telenor s ownership interest in Kyivstar was 56.5%. Compared to the fourth quarter of 2005, the Norwegian Krone appreciated against the Ukrainian Hryvnia by approximately 4% in the fourth quarter of 2006.

The strong growth in the Ukrainian market continued in the fourth quarter. The number of subscriptions in Kyivstar increased by 3.8-million during the fourth quarter of 2006 and by 7.6 million compared to the fourth quarter of 2005.

Kyivstar maintained its market leader position with an estimated market share of 43%, a reduction of 0.5 percentage point compared to the previous quarter.

ARPU in local currency decreased by 15% mainly due to lower average prices and seasonal campaigns.

Table of Contents

Total revenues in local currency increased by 31%, primarily related to the growth in the number of subscriptions, partially offset by reduction in ARPU.

EBITDA in local currency increased by 26% as a result of higher- revenues, while the EBITDA margin decreased due to higher costs, including costs related to sales and marketing activities.

Depreciation and amortization increased as a result of increased capital expenditure in the preceding quarters.

Higher capital expenditure was mainly related to increased capacity to accommodate the subscription growth.

There are litigation and arbitration proceedings pending in New York involving Kyivstar's shareholders relating to Kyivstar's shareholders agreement. Further proceedings have recently been brought in Ukrainian courts by Storm LLC (43.5% shareholder in Kyivstar) and a related party challenging the authority of the company to appoint auditors. Table of Contents

Compared to the fourth quarter of 2005, the Norwegian Krone depreciated against the Hungarian Forint by approximately 1% in the fourth quarter of 2006.

The number of subscriptions increased by 172,000 achieving the highest net additions amongst the operators in the last quarter of 2006.

Pannon's market share increased to around 34% compared to the previous quarter.

Total mobile revenues in local currency increased by 6% mainly due to a higher share of contract subscriptions and higher inter-connection revenues due to growth in incoming traffic.

The EBITDA margin declined mainly due to higher interconnection costs and sales and marketing related costs. The fourth quarter of 2006 included a provision for Universal Services Obligations for 2003, while the fourth quarter of 2005 included a reversal of previously expensed Universal Service Obligations for 2004. Adjusted for this, the EBITDA margin decreased by approximately 1 percentage point.

Write-downs include obsolete core and radio network assets as a result of converting the network to EDGE capability.

Capital expenditure decreased due to reduced network roll-out.

Table of Contents

In the fourth quarter of 2006 the number of subscriptions increased by 180,000 leading to an-estimated market share of around 41%.

The EBITDA margin of 37% reflects an increased activity level, including sales and marketing activities, compared to the previous quarter.

Since the acquisition, several activities related to the turnaround of the operation have been implemented, including establishing-distribution channels, re-branding and launch of marketing campaigns. Most of these activities will continue in 2007.

At the end of the fourth quarter of 2006, Telenor s economic stake in DTAC was 73.2%. Compared to the third quarter of 2006, the Norwegian Krone depreciated against the Thai Baht by approximately 5% in the fourth quarter of 2006.

The preceding table shows figures for DTAC from the time of consolidation, 26 October 2005.

The following comments are made against the third quarter of 2006.

DTAC increased the number of its subscriptions by 628,000 and is estimated to have maintained its market share at around 31%.

Despite a high increase in average usage, ARPU in local currency declined by 4%, due to lower average prices. Total revenues in local currency increased by 1%, which was primarily driven by the increase in total number of subscriptions.

EBITDA margin increased by 1 percentage point. The revenue share, which DTAC is required to pay to the Communications Authorities of Thailand (CAT Telecom) on a material part of its services, increased as scheduled from 20% to 25% from 16 September 2006. The full impact of this increase in the fourth quarter was more than offset by the amendment of access charge payments with interconnection costs (interconnection and transit) to the fixed line operator TOT.

Table of Contents

Capital expenditure increased following continuous investments in network capacity and network expansion to accommodate the increasing subscription base and usage.

The National Telecommunications Commission (NTC) in Thailand has approved DTAC's Reference Interconnect Offer and, on 4 October 2006, DTAC requested bilateral negotiations with the other fixed and mobile operators in Thailand. On 17 November 2006, DTAC signed an interconnection agreement with the mobile operator True Move, on 30 November 2006 with AIS and on 22 December with the broadband operator Triple T. The interconnection rates between DTAC and AIS / True Move have been set at THB 1 per minute and the companies expect to start billing for traffic in the first quarter of 2007.

On 17 November 2006, DTAC informed TOT that the terms in respect to the Access Charge Agreement are no longer enforceable as they are contrary to the law. From 18 November 2006, the access charge agreement has been amended to reflect the new NTC approved Reference Interconnect Offer rates.

At the end of the fourth quarter of 2006, Telenor s ownership interest in DiGi was 61.0%. Compared to the fourth quarter of 2005, the Norwegian Krone remained stable against the Malaysian Ringgit in the fourth quarter of 2006.

Adjusted for the termination of around 500,000 subscriptions following the mandatory prepaid registration in Malaysia, the number of subscriptions increased by 230,000 during the fourth quarter of 2006.

ARPU measured in local currency declined by 6% primarily due to lower incoming traffic combined with a reduction in interconnect access prices.

Total revenues measured in local currency increased by 17% driven by an 11% increase in the subscription base.

EBITDA margin improved by 5 percentage points primarily contributed by higher revenues. A reduction in provision for licence fees for 2006 affected the EBITDA margin positively by approximately 2 percentage points. Measured in local currency, EBITDA increased by 30%.

Table of Contents

Depreciation and amortization increased primarily due to accelerated depreciation resulting from the re-assessment of assets useful lives with effect from 1 July 2006.

Capital expenditure declined mainly due to a higher roll-out volume and completion of capacity upgrades in the fourth quarter of 2005.

At the end of the fourth quarter of 2006, Telenor s ownership interest in Grameenphone was 62.0%. Compared to the fourth quarter of 2005, the Norwegian Krone appreciated against the Bangladeshi Taka by approximately 6% in the fourth quarter of 2006.

The number of subscriptions increased by almost 1.4 million in the fourth quarter of 2006 and by 5.2 million from the fourth quarter of 2005.

Grameenphone s estimated market share remained stable at 63%.

ARPU in local currency decreased by 22% primarily due to decreasing average prices.

Measured in local currency, total revenues increased by 57% mainly due to the subscription growth. This was partially offset by reduction in ARPU.

The EBITDA margin increased by 5 percentage points due to higher revenues and reversal of provisions. The fourth quarter of 2005 was positively affected by a change in accounting treatment of operating lease. The normalized EBITDA margin is estimated at 52%.

Table of Contents

Depreciation and amortization increased as a result of increased capital expenditure, as well as a reduction in useful life for certain assets.

Capital expenditure decreased primarily due to the change in accounting treatment of operating lease in the fourth quarter of 2005.

From January 2007, the inter-operator mobile call termination price in Bangladesh changed from Taka 0.90 peak time and Taka 0.50 off peak time to a flat rate of Taka 0.66.

Compared to the fourth quarter of 2005, the Norwegian Krone appreciated against the Pakistani Rupee by approximately 6% in the fourth-quarter of 2006. Telenor Pakistan is part of Other mobile operations in the table on page 17.

Telenor Pakistan experienced a significant growth in the number of subscriptions with net additions of 2.1 million during this quarter alone and an increase of almost 5 million compared to the fourth quarter of 2005.

Table of Contents

Telenor Pakistan's estimated market share increased significantly by 3 percentage points to 14% from the previous quarter.

Despite the high subscription growth, ARPU in local currency increased by 3% compared to the third quarter of 2006.

Compared to the third quarter of 2006, total revenues in local-currency increased by 46% mainly due to the subscription growth. EBITDA improved further, mainly due to higher revenues.

Capital expenditure was related to the roll-out of the mobile network.

Measured in traffic minutes, Telenor's estimated market share was 65%, while the estimated market share for xDSL in the retail market was 57%, both in line with the previous quarter.

Total revenues decreased by 7.6%. Adjusted for the outsourcing of contractor activities from 1 April 2006, total revenues decreased by 5.5%. Adjusted total revenues for the full year 2006 decreased by 4.6% compared to the full year 2005.

Table of Contents

Revenues from telephony decreased due to a reduction in the-number of subscriptions, lower traffic volumes and price reductions implemented from 1 September 2006. The number of PSTN/ISDN subscriptions decreased primarily due to migration to VoIP telephony with other fixed network operators, as well as a decrease in the total market. Lower traffic volumes were due to the decrease in the-number of telephony subscriptions and the number of minutes per subscription. The latter was mainly due to migration of traffic from fixed to mobile telephony.

Revenues from xDSL/Internet increased due to growth in the number of xDSL subscriptions. This was partially offset by reduction in revenues from dial-up Internet traffic and Internet subscriptions.

The decrease in Other revenues was mainly related to lower intra-group sales and lower revenues from large installation contracts.

Wholesale revenues, adjusted for the outsourcing of contractor activities from 1 April 2006, increased mainly as a result of growth in the number of subscriptions partially offset by price reductions.

The decrease in EBITDA margin was primarily due to decreased gross margin and high costs related to operational conditions in the network, partially offset by lower operating expenses. Total operating expenses declined mainly due to reduction in the number of man-years.

The decrease in depreciation and amortization was primarily due to lower capital expenditure in recent years. This was partially offset by increased amortization for expenses associated with transactions that provide the rights to use assets, such as local loop unbundling, and decreased estimated useful life for some IT-systems.

Capital expenditure decreased primarily due to the change in accounting treatment of prepaid costs in leases in the fourth quarter of 2005, which increased capital expenditure by NOK 463 million.

Bredbandsbolaget and Glocalnet are consolidated with effect from 8 July 2005 and 1 March 2006, respectively. As of 31 December 2006 Telenor s ownership interest in Glocalnet was 98.8%. Cybercity is consolidated in Fixed Denmark with effect from 5 July 2005. Compared to the fourth quarter of 2005, the Norwegian Krone depreciated against the Swedish Krone by approximately 8% and against the Danish Krone by approximately 4% in the third quarter of 2006. Operations in Other countries were sold with effect from 30 January 2006.

Table of Contents

Fixed Sweden

Revenues, adjusted for the acquisition of Glocalnet, increased due to growth in the number of subscriptions. In the fourth quarter of 2006, the number of xDSL subscriptions increased by 20,000 to 403,000, while the number of LAN subscriptions increased by 7,000 to 172,000.

EBITDA, adjusted for the acquisition of Glocalnet, decreased due to positive effects in the fourth quarter of 2005 related to the change in accounting treatment of transactions that provide the rights to use assets, such as local loop unbundling. In the fourth quarter of 2006 EBITDA was negatively affected by a loss on a rental contract of NOK 65 million.

Write-downs in the fourth quarter of 2005 were mainly related to fixed assets in Telenor AB.

On 1 January 2007 Spray Telecom AB was acquired for SEK 172-million.

Fixed Denmark

Revenues increased due to growth in the number of xDSL and VoIP subscriptions, partially offset by lower prices on xDSL subscriptions.

EBITDA increased mainly due to higher revenues.

The number of xDSL subscriptions increased by 10,000 to 174,000 and the number of VoIP subscriptions increased by 11,000 to 63,000.

Write-downs in the fourth quarter of 2006 were related to goodwill due to recognition of not previously recognised deferred taxes in the business combination of Cybercity. According to IFRS, the acquirer shall write down the carrying amount of goodwill with the same amount as not previously recognised deferred tax assets are recognised as a tax income.

Table of Contents

In the fourth quarter of 2006 the number of DTH pay TV subscribers increased by 14,000, the number of Cable TV subscribers increased by 5,000, and the number of Cable TV internet access subscribers increased by 7,000.

Total revenues increased primarily due to higher number of subscribers, and higher revenues from the sale of cards and services related to Pay TV access control.

The decrease in EBITDA and EBITDA margin was partially driven by free installation and hardware campaigns on DTH and Cable-TV, and the introduction of HDTV in Sweden. Furthermore, the decrease was partially due to higher content costs as a result of renegotiation of the contract with SBS Broadcasting Group/Canal+ with effect from 1 January 2006.

Capital expenditure increased due to start up of the construction of the Norwegian digital terrestrial TV (DTT) network in the third quarter of 2006.

Telenor, together with TV2 in Norway and Denmark and TV4 in Sweden, acquired the Scandinavian TV distribution rights to UEFA EURO 2008.

Telenor, together with Canal+, secured the Nordic TV distribution rights to English F.A. Premier League for three more seasons.

Write-downs in the fourth quarter of 2005 were related to reversal of an impairment loss previously recognised.

In the fourth quarter of 2006, operating profit included gains on-disposal of operations in Venture of NOK 79 million and gains on-disposal of properties of NOK 33 million.

Investments in businesses in the fourth quarter of 2006 were mainly related to the acquisitions within EDB Business Partner and the acquisition of the joint venture company AeroMobile Ltd.

Table of Contents

EDB Business Partner

Revenues and EBITDA increased mainly due to acquisition of operations in the fourth quarter of 2005 and the first half year of 2006.

EDB Business Partner has entered into an agreement to purchase 60% of the shares in Infopulse Ukraine, with an option to acquire the remaining shares.

Satellite Services

On 25 October 2006, Telenor entered into an agreement with Apax Partners France for the sale of Telenor Satellite Services (TSS) to funds managed by Apax Partners for a cash consideration of USD 400 million. The agreement is expected to be closed during the first half year of 2007. The post tax results from external transactions in TSS are excluded from Continuing Operations and reported separately as results from Discontinued Operations. Prior periods profit and loss statements have been reclassified to be comparable. The gain will be recognised when the agreement is closed. Please refer to page 9 for further details about discontinued operations.

Venture

Revenues increased mainly due to acquired business.

Corporate Functions and Group Activities

The increased EBITDA loss was largely due to lower intra-group revenues.

The increase in total depreciation and amortization was primarily due to acquired businesses and increased capital expenditure, partially offset by fully depreciated assets.

In general, depreciation and amortization are also affected by changes in exchange rates and investment levels in the previous quarters.

Write-downs of tangible assets in the fourth quarter of 2005 were mainly related to Telenor AB.

Write-downs of goodwill in the fourth quarter of 2006 were due to recognition of not previously recognised deferred taxes in business combinations. According to IFRS, the acquirer shall write down the carrying amount of goodwill with the same amount as not previously recognised deferred tax assets are recognised as a tax income.

At the end of the fourth quarter of 2006, Telenor's ownership interest in VimpelCom in Russia was 29.9%. The value of Telenor's share of the company, based on the quoted share price as of 31 December 2006, was NOK 30 billion. According to telecom analysts, VimpelCom had approximately 55 million mobile subscriptions at the end of the fourth quarter of 2006.

On 30 October 2006, Telenor entered into an agreement to sell its 46.9% ownership interest in Bravida ASA, which has resulted in a gain of NOK 351 million, recognised in the fourth quarter of 2006.

Increased financial income was mainly due to interest income of NOK 280 million related to the tax settlement in the Sonofon case against the Kingdom of Norway.

Decreased financial expenses were mainly related to reversal of provision for interest expenses of NOK 304 million related to the Sonofon case, partially offset by increased financial expenses due to increased long-term interest-bearing liabilities following the acquisition of businesses.

The change in fair value of financial instruments was primarily related to the total return swap agreement in the underlying VimpelCom share and to derivatives used for economic hedge of interest-bearing liabilities that do not fulfil the requirements for hedge accounting.

Table of Contents

Taxes

The nominal Norwegian corporate income tax rate is 28%. Taxes in the fourth quarter of 2006 were positively impacted by a tax income of NOK 2,414 million related to the Sonofon case. In the fourth quarter of 2006, the Telenor Group reported a tax income of NOK 1,016 million.

The estimated effective tax rate for the Telenor Group for the fiscal year 2006 is approximately 15% of profit before taxes. The low effective tax rate for the full year was mainly due to the tax free gain on the sale of shares in Inmarsat of NOK 1.8 billion in the first quarter and the tax income of NOK 2.4 billion related to the Sonofon case that was recognised in the fourth quarter.

Adjusted for these effects, the effective tax rate for 2006 is approximately 30%. The effective tax rate is also affected by taxes related to companies outside Norway and non-deductible expenses.

The actual effective tax rate for 2006 may deviate from the estimated rate.

Table of Contents

Balance sheet

Total assets as of 31 December 2006 decreased by NOK 4.8 billion compared to 30 September 2006, primarily due to down payment of debt in the fourth quarter.

Net interest-bearing liabilities decreased by NOK 4.1 billion in the quarter to NOK 43.2 billion as of 31 December 2006.

Assets and liabilities directly associated with those assets that will be transferred in connection with the sale of Telenor Satellite Services (TSS) are presented separately as held for sale in the balance sheet. As a consequence of this, non-current assets of NOK 1,194 million and current assets of NOK 925 million were reclassified to Assets held for sale in the fourth quarter of 2006. Correspondingly, NOK 718 million in current and non-current liabilities related to TSS were reclassified to Liabilities held for sale. For more information regarding Discontinued Operations, see further explanation under Discontinued Operations below.

The provisionally purchase price allocation of Mobile Sweden and Telenor Serbia has been revised during the fourth quarter of 2006, and resulted in a reduction of goodwill by NOK 545 million in the fourth quarter of 2006. The increase in intangible assets was mainly related to the same adjustment. The provisionally purchase price allocation is still due for adjustments.

Translation differences increased equity in the fourth quarter of 2006 by NOK 1.0 billion, due to the depreciation of the Norwegian Krone compared to most of the functional currencies of Telenor's foreign subsidiaries and associated companies as of 31 December 2006, compared to 30 September 2006.

Discontinued Operations

Discontinued operations remain consolidated in the Group's financial statements, which means that any internal transactions between continuing and discontinued operations are eliminated as usual in the consolidation. As a consequence, the amounts ascribed to continuing and discontinued operations are revenues and expenses only from external transactions. Prior period's profit and loss statements have been reclassified to be comparable. This means that the results presented for continuing and discontinued operations do not indicate the profit of these operations, as if they were stand-alone entities, for past or future periods. External assets and liabilities are presented separately as held for sale in the balance sheet with effect from the time Telenor entered into the agreement. However, internal assets and liabilities have not been reclassified. The balance sheet has not been reclassified for prior periods.

US GAAP

Net income and equity according to United States Generally Accepted Accounting Principles (US GAAP) will be published in Form 20-F for 2006.

Outlook for 2007

Based upon the current group structure:

In 2007 we expect a growth in reported revenues of between 15% and 20%.

The EBITDA margin before other income and expenses is expected to be around 35%.

We expect capital expenditure as a proportion of revenues to be around 20% in 2007, mainly driven by high subscription growth within our mobile operations in emerging markets.

The effects from the introduction of an interconnect regime in Thailand, both when it comes to timing as well as magnitude, represents the main uncertain factor related to Telenor's outlook for 2007.

A growing share of Telenor's revenues and profits is derived from operations outside Norway. Currency fluctuations may to an increasing extent influence the reported figures in Norwegian Krone. Political risk, including regulatory conditions, may also influence the profits. We expect seasonal variations between the quarters.

Telenor (the Group) consists of Telenor ASA (the Company) and its-subsiidiaries. Telenor ASA is a limited company, incorporated in Norway. The condensed consolidated interim financial statements consist of the Group and the Group's interest in associated companies and joint ventures.

These condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) IAS34 Interim Financial Reporting. They do not include all of the information required for full annual consolidated-financial statements, and should be read in conjunction with consolidated financial statements of the Group as at and for the year ended 31 December 2005. These condensed consolidated interim financial-statements are unaudited.

This report contains statements regarding the future in connection with Telenor's growth initiatives, profit figures, outlook, strategies and objectives. In particular, the section Outlook for 2007 contains forward-looking statements regarding the group's expectations. All statements regarding the future are subject to inherent risks and uncertainties, and many factors can lead to actual profits and developments deviating substantially from what has been expressed or implied in such statements. These factors include the risk factors relating to Telenor's activities described in Telenor's 2005 Annual Report on Form 20-F filed with the Securities and Exchange Commission in the USA under the headings Cautionary Statement Regarding Forward-Looking Statements and Risk Factors (available at www.telenor.com/ir/).
