Director Independence

The Company's Board of Directors has determined that each of the current Directors except Messrs. Montgomery, Mansell, Sommerhauser and Ms. Meier are independent under the Company's independence standards. These standards require a finding that the individual Director satisfies all of the independence standards of the New York Stock Exchange (NYSE), as such standards may be amended from time to time, and also that the Director has no material relationships with the Company (either directly or as a partner, shareholder or officer of any entity) which could be inconsistent with a finding of independence. In making these determinations, the Board of Directors has broadly considered all relevant facts and circumstances, recognizing that material relationships can include commercial, banking, consulting, legal, accounting, charitable and familial relationships, among others. Mr. Montgomery, Mr. Mansell and Ms. Meier were not deemed independent because they are current executive officers of the Company. Mr. Sommerhauser was not deemed independent because of his affiliation with Godfrey & Kahn, S.C., which provides legal services to the Company.

Board of Directors Meetings, Attendance and Compensation

The Company's Board of Directors held five formal meetings during fiscal 2003. Each incumbent director attended 75 percent or more of the full board meetings and meetings of committees on which such director

served during the year. Directors are encouraged to attend annual meetings of shareholders, but the Company has no formal policy requiring such attendance. Eleven of the Company's thirteen Directors attended the 2003 Annual Meeting of Shareholders.

Directors who are not employees of the Company or its subsidiaries receive an annual retainer fee of \$15,000. Committee chairpersons receive an additional \$5,000 retainer fee. Non-employee directors also receive \$1,000 for each full Board and committee meeting attended in person (\$500 if the director participates via teleconference). Stock options are granted to non-employee directors from time to time. These grants are typically made at the time the director joins the Board or is re-elected by the shareholders to serve a three year term. Ten-year options to purchase 3,000 shares of the Company's common stock were granted to each of Ms. Sprieser and Messrs. Baker, Burd and Sommerhauser upon their re-election to the Board in fiscal 2003. Directors are also reimbursed for travel and other expenses related to attendance at Board and committee meetings or educational seminars approved in advance by the Governance and Nominating Committee.

Committees of the Board of Directors

The Company's Board of Directors has three standing committees: a Compensation Committee, a Governance and Nominating Committee and an Audit Committee. All committee members have been determined by the Board to be independent under the above-referenced independence standards. The committees operate under written charters that are available for viewing by accessing the Company's website at www.kohls.com, then Investor Relations, then Corporate Governance.

Compensation Committee

The duties of the Compensation Committee are to discharge the Board's responsibilities related to compensation of the Company's directors and officers, as well as those with respect to the general employee compensation and benefit policies and practices of the Company to ensure that they meet corporate objectives. The Compensation Committee has overall responsibility for evaluating and approving the executive officer benefit, bonus, incentive compensation, equity based or other compensation plans, policies and programs of the Company. The Compensation Committee also approves goals for incentive plans and evaluates performance against these goals. During fiscal 2003, the Compensation Committee formally met three times and otherwise accomplished its business without formal meetings. The members of the Compensation Committee are Messrs. Burd, Ericson and Sica. Mr. Ericson chairs this committee.

Governance and Nominating Committee

The duties of the Governance and Nominating Committee are to: (i) provide assistance to the Board of Directors in the selection of candidates for election and re-election to the Board and its committees, (ii) advise the Board on corporate governance matters and practices, including developing, recommending, and thereafter periodically reviewing the Corporate Governance Guidelines and principles applicable to the Company, and (iii) coordinate an annual evaluation of the performance of the Board and each of its standing committees. During fiscal 2003, the Governance and Nominating Committee formally met two times and otherwise accomplished its business without formal meetings. The members of the Nominating Committee during fiscal 2003 were Ms. Sprieser and Messrs. Burd, Embry, Ericson, Herma, Sica and White. Mr. Herma chairs this committee.

The Governance and Nominating Committee regularly assesses the appropriate size of the Board, and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated or otherwise arise, the Committee utilizes a variety of methods for identifying and evaluating director candidates. Candidates may come to the attention of the Committee through current Directors, professional search firms, shareholders or other persons. Once the Committee has identified a prospective nominee, the Committee evaluates the

Edgar Filing: KOHLS CORPORATION - Form DEF 14A

prospective nominee against the standards and qualifications set out in the Committee's charter, including the individual's potential contributions in providing advice and guidance to the Board and management. The Committee seeks to identify nominees who possess a wide range of experience, skills, areas of expertise, knowledge and business judgment. Successful nominees must have a history of superior performance or accomplishments in their professional undertakings and should have the highest personal and professional ethics and values. The Committee does not evaluate shareholder nominees differently than any other nominee.

Pursuant to procedures set forth in the Company's Bylaws, the Company's Governance and Nominating Committee will consider shareholder nominations for directors if the Company receives timely written notice, in proper form, of the intent to make a nomination at a meeting of shareholders. To be timely for the 2005 annual meeting of shareholders, the notice must be received within the time frame discussed below on page 19 under the heading "Shareholder Proposals". To be in proper form, the notice must, among other things, include each nominee's written consent to serve as a director if elected, a description of all arrangements or understandings between the nominating shareholder and each nominee and information about the nominating shareholder and each nominee. These requirements are detailed in the Company's Bylaws, which were attached as an exhibit to the Company's Annual Report on Form 10-K for the fiscal year ended January 29, 2000. A copy of these Bylaws will be provided upon written request to the Company's Secretary.

Audit Committee

It is the responsibility of the Audit Committee to assist the Board of Directors in its oversight of the Company's financial accounting and reporting practices. The specific duties of the Audit Committee include monitoring the integrity of the Company's financial process and systems of internal controls regarding finance, accounting and legal compliance; selecting the Company's independent auditors; monitoring the independence and performance of the Company's independent auditors and internal auditing functions; and providing an avenue of communication among the independent auditors, management, the internal auditing functions and the Board of Directors. The Audit Committee has the authority to conduct any investigation appropriate to fulfilling its responsibilities, and it has direct access to the independent auditors as well as anyone in the Company. The Audit Committee has the ability to retain, at the Company's expense, special legal, accounting, or other consultants or experts it deems necessary in the performance of its duties. The Audit Committee met eight times during fiscal 2003, and otherwise accomplished its business without formal meetings. The members of the Audit Committee are Ms. Sprieser and Messrs. Embry, Herma and White. Mr. White chairs this committee. The Board has determined that Mr. White qualifies as an audit committee financial expert, and that each Audit Committee member is financially literate as defined by the Commission's regulations and the NYSE's listing standards. A copy of the Audit Committee's current charter is attached to this Proxy Statement as Annex A.

Meetings of Non-Management Directors

The non-management members of the Board of Directors regularly meet without any members of management present in regularly scheduled executive sessions. The Board of Directors, upon the recommendation of the Governance and Nominating Committee, has appointed Mr. Kellogg as the Lead Director, who presides over these meetings.

Corporate Governance Guidelines and Code of Ethics

The Board has adopted Corporate Governance Guidelines for the Company in order to assure that the Board has the necessary practices in place to govern the Company in the best interests of the shareholders. To view these Guidelines, access www.kohls.com, then "Investor Relations", then "Corporate Governance", then "Corporate Governance Guidelines".

The Company has adopted a code of ethical standards that describes the ethical and legal responsibilities of all of the Company's employees and, to the extent applicable, members of the Company's Board of Directors. This code includes (but is not limited to) the requirements of the Sarbanes-Oxley Act of 2002 pertaining to codes of ethics for chief executives and senior financial and accounting officers. The Board of Directors, through its Governance and Nominating Committee, has reviewed and approved this code. The Company provides educational seminars with respect to the code, and Company employees agree in writing to comply with the code at commencement of employment and periodically thereafter. Company employees are encouraged to report suspected violations of the code through various means, including through the use of an anonymous toll-free hotline. This code, known as "Kohl's Ethical Standards and Responsibilities" can be viewed on the Company's website by accessing www.kohls.com, then "Investor Relations", then "Corporate Governance", then "Code of Ethics".

⁽¹⁾ Option awards were granted in fiscal 2003 based on fiscal 2002 performance. All options were granted with an exercise price equal to the fair market value of the Common Stock on the date of grant. The options vest in four equal annual installments commencing one year from date of grant, with full vesting on the fourth anniversary of the date of grant.

⁽²⁾ These amounts do not represent the present value of the options. Amounts shown represent what would be received upon exercise (fifteen years after the date of grant) assuming certain rates of stock price appreciation during the entire period. Actual gains, if any, on stock option exercises are dependent on future performance of the Common Stock and overall stock market conditions. In addition, actual gains are dependent upon whether, and the extent to which, the options actually vest.

Executive Stock Sale Guidelines

The Company has established executive stock sale guidelines that restrict the percentage of an executive's vested stock options or shares of Common Stock that may be sold by the executive in any fiscal year. From time to time, the Company's executive officers will engage in sales of Common Stock in accordance with these guidelines. These sales may be accomplished pursuant to SEC Rule 144 during the Company's scheduled insider trading window periods or pursuant to pre-arranged trading plans adopted in accordance with Rule 10b5-1 of the Exchange Act. Compliance with the Company's Executive Stock Sale Guidelines is monitored by the Compensation Committee of the Board of Directors, and exceptions are granted by such Committee only in extraordinary circumstances.

In fiscal 2002, the Compensation Committee addressed certain unexercised and in-the-money stock options held by Mr. Montgomery and Ms. Meier that would be fully vested but scheduled to expire in fiscal 2003, 2004 and 2005 (Expiring Options). Recognizing that the cash required to pay the exercise price and the taxes on the stock appreciation of Expiring Options would be significant if the Expiring Options were exercised and the stock held, the Committee granted Mr. Montgomery and Ms. Meier limited exceptions to the stock sale guidelines. Pursuant to these exceptions, during fiscal 2003, 2004 and 2005, Mr. Montgomery and Ms. Meier were each permitted to do the following:

- (i) sell the number of option shares permitted under the current Executive Stock Sale Guidelines; and
- (ii) exercise all remaining Expiring Options and sell the number of option shares necessary to pay the personal income taxes and exercise price for these options.

Aggregate Option Exercises In Last Fiscal Year and Fiscal Year End Option Values

The table below provides information regarding exercises of stock options during fiscal 2003 and the value of stock options held at January 31, 2004 by the persons named in the Summary Compensation Table.

Name	Shares Acquired On Exercise	Value Realized ⁽¹⁾	Number of Shares Underlying		Value of Unexercised In-the- Money Options	
			Unexercised Options		At Fiscal Year End	
			at Fiscal Year End		Exercisable	Unexercisable
R. Lawrence Montgomery	573,034 ⁽²⁾	\$ 29,209,289 ⁽²⁾	1,811,300	632,200	\$ 42,566,828	\$ 10,788,568
Kevin Mansell	109,710	\$ 5,110,364	984,761	225,725	\$ 20,818,258	\$ 655,500
Arlene Meier	0	\$ 0	1,553,767	229,029	\$ 46,234,036	\$ 0
Richard B. Leto	95,496	\$ 4,524,995	549,484	393,500	\$ 12,073,565	\$ 10,908,750
Donald A. Brennan	0	\$ 0	37,500	96,500	\$ 0	\$ 0

⁽¹⁾ The options exercised were originally granted between 1993 and 1996 at the then-current market price. The Value Realized reflects the appreciation on the date of exercise (based on the excess of the market value of the shares on the date of exercise over the grant price). Because the executive officers may keep the shares they acquired upon the exercise of the option (or sell them at market value), these amounts do not necessarily reflect cash realized upon the sale of those shares. See note 2 as it relates to options exercised by Mr. Montgomery.

Edgar Filing: KOHLS CORPORATION - Form DEF 14A

- (2) These stock options were granted in 1993 and scheduled to expire in 2003. The disposition of these option shares was as follows:
- (i) 194,344 of the option shares were exercised and sold within the Company's Executive Stock Sale Guidelines. The value realized was \$9,437,485.
 - (ii) 184,477 of the option shares with a value realized of \$9,851,625 were exercised and held by Mr. Montgomery; and
 - (iii) Proceeds from the sale of the remaining 194,213 option shares with a value realized of \$9,920,179 were used to pay the personal income taxes and exercise price of these shares and the shares that were held.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers to file reports with the SEC disclosing their ownership, and changes in their ownership, of the Company's stock. Copies of these reports must also be furnished to the Company. Based solely upon its review of these copies, the Company believes that during fiscal 2003, all of such forms were filed on a timely basis by reporting persons.

Employment Agreements

The Company has employment agreements with Mr. Montgomery, Mr. Mansell and Ms. Meier (as amended, the "Employment Agreements"). Each of the Employment Agreements provides for an annual base salary that is subject to an annual increase by the Company's Board of Directors. Mr. Montgomery, Mr. Mansell and Ms. Meier are also entitled to participate in such bonus plans as the Company may establish from time to time. Each of the Employment Agreements has a three-year term, and the term is extended on a daily basis until either party to such contract gives notice that the term shall no longer be so extended. The Employment Agreements provide post-retirement health insurance benefits and a supplemental executive medical plan covering the executive and the executive's eligible dependants with coverage similar to that received by the executive at the time of the executive's retirement. In the event of executive's death, the health insurance benefits shall continue to be provided to executive's eligible dependants, provided that such health insurance benefits are reasonably available to the Company. The executive, or the executive's eligible dependants, as the case may be, must reimburse the Company for all premiums paid for the executive's retiree health insurance benefits.

Under each of the Employment Agreements, the employment of the executive in question may be terminated upon death, as a result of disability, by the Company for "Cause" (as defined in the Employment Agreements), by the executive for "Good Reason" (as defined in the Employment

Edgar Filing: KOHLS CORPORATION - Form DEF 14A

Agreements but which does not include a change-of-control of the Company), or by the executive upon voluntary termination of employment. If the employment of any of the executives is terminated upon the executive's death, such executive's estate will receive the executive's then annual base salary for a period of six months. If the employment of any of the executives is terminated as a result of disability, such executive will continue to receive his or her then base salary (less benefits paid under such disability insurance as the Company may provide from time to time) for a period of six months. Except for the health insurance benefits noted above, the Employment Agreements do not provide for any post-termination payment other than amounts earned through the date of termination if an executive's employment is terminated by the Company for Cause or as a result of the voluntary resignation of the executive. If the employment of an executive is terminated by the executive for Good Reason or by the Company

in violation of the Employment Agreement, the executive will be entitled to a lump-sum payment within ten days of the date of termination or resignation equal generally to the sum of the following: (i) all accrued or deferred amounts not previously paid to the executive; (ii) a pro rata portion of the anticipated bonus and option awards for the current year (determined on the basis of awards made over the prior three years) and (iii) the salary, bonus and incentive compensation payable to the executive for the then remaining term of the Employment Agreement (determined on the basis of the executive's then current salary and average bonus and option awards for the prior three years). If any amount payable under the Employment Agreements upon the termination of an executive's employment would be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code of 1986, as amended (the Code), or any interest or penalties would be incurred by the executive with respect to such excise tax, then such executive would be entitled to receive an additional amount so that after payment by the executive of all such excise taxes, interest and penalties, such executive would retain an amount equal to such excise taxes, interest and penalties. Under the Employment Agreements, each executive agrees not to compete with the Company for a period of two years following the termination of the executive's employment.

Prior to their retirement from the Company, Messrs. Baker, Herma and Kellogg had employment agreements that provided substantially the same benefits as the Employment Agreements. Messrs. Baker, Herma and Kellogg all currently receive the post-retirement health benefits described above, and beginning in fiscal 2004, Messrs. Baker, Herma and Kellogg began reimbursing the Company for premiums paid for their respective retiree health insurance benefits.

COMPENSATION COMMITTEE

REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee of the Board of Directors of Kohl's Corporation (the Compensation Committee) is pleased to present its report on executive compensation. This report documents the components of the Company's executive officer compensation programs and describes the basis on which compensation determinations for fiscal 2003 were made by the Compensation Committee with respect to the executive officers of the Company.

Compensation Philosophy

It is the philosophy of the Company that executive compensation be directly linked to corporate performance and increases in shareholder value. The following objectives have been adopted by the Compensation Committee as guidelines for compensation decisions:

Provide a competitive total compensation package that enables the Company to attract and retain key personnel.

Provide variable compensation opportunities, primarily on an annual basis, that are directly linked to corporate performance goals.

Provide long-term compensation opportunities, primarily through stock options, that align executive compensation with value received by shareholders.

Every Company executive is expected to uphold and comply with the social and ethical responsibilities set forth in the Company's written code of ethical standards. This code describes every executive's responsibilities to the Company's associates, customers, investors, business partners and the communities in which the Company does business. Upholding these ethical standards contributes to the success of the individual executive, and to the Company as a whole. An executive's performance in meeting these standards is taken into account for purposes of determining the executive's compensation level and stock option awards.

Compensation Program Components

The particular elements of the Company's compensation program for executive officers are explained below.

Base Salary. Under the terms of their respective employment agreements the base salaries of Ms. Meier and Messrs. Montgomery and Mansell cannot be reduced without their consent. The Compensation Committee determines, in its discretion, whether increases in salaries for these individuals is warranted. Increases in base salary, if any, are based upon (i) the Compensation Committee's assessment of overall corporate performance, including the Company's income and return on investment, (ii) individual performance criteria, including leadership and vision, long-term strategic planning, succession planning, communication with the Board of Directors, and the Company's record of social responsibility and (iii) a review of salaries paid to executives of a representative group of domestic retailers and general industry, adjusted for the size of the companies, corporate growth rates, and the scope of the executives' responsibilities. During fiscal 2003, based upon the Company's performance in the prior year, Mr. Montgomery's base salary increased 4.8% from \$975,500 to \$1,022,400; Mr. Mansell's salary increased 15% from \$776,200 to \$892,700; and Ms. Meier's salary increased 15% from \$636,700 to \$732,200. A significant portion of the increases granted to Mr. Mansell and Ms. Meier were attributable to competitive adjustments following the Committee's review of salaries paid to retail executives in comparable positions.

Base salaries and salary ranges for the other executive officers of the Company are initially established based on a review of salaries paid to executives of a representative group of domestic retailers and general industry, adjusted for the size of the companies, corporate growth rates, and the scope of the executives' responsibilities. Increases in base salary result from promotions, job scope expansion, increased responsibilities, company growth and from merit increases determined by the executive's personal performance and the executive's position in the applicable salary range. Merit increase guidelines are established each year based on current economic and market conditions.

Ms. Meier and Messrs. Montgomery and Mansell generally determine, in their discretion, based primarily on individual performance evaluations, the appropriate merit increases for the other executive officers, but the Compensation Committee reviews and approves their decisions. Salary increases for executive officers generally range from 3% to 9%, but in some cases may increase more than 9% to reflect increased responsibilities or to raise an executive officer's salary to a level commensurate with the person's position within the Company. The Compensation Committee, Messrs. Montgomery and Mansell and Ms. Meier rely on certain information described below under *Summary* and on the judgment of the Company's Human Resources Department that salary levels of executive officers are generally competitive. Base salary merit increases granted to all executive officers during fiscal 2003 averaged 4.7%.

Annual Incentive Compensation. The Company maintains an executive bonus plan for the benefit of its Management Board members, buyers, store managers and other key executives such as sales support managers and merchandise planners. The Management Board is comprised of the Company's executive officers, senior vice presidents, vice presidents, directors, district managers and divisional merchandise managers. Under the plan, the Compensation Committee fixes income goals for the Company for each fiscal year. Participants receive a cash bonus equal to a predetermined percentage of their base pay depending upon the income level achieved. The targeted income levels are set sufficiently high in order to link corporate performance with bonus levels, and the plan is intended to tie compensation levels to increases in shareholder value which should occur if the income levels are achieved. At the end of the last fiscal year, approximately 1,250 associates participated in the plan. For fiscal 2003, no bonuses were paid under the plan, because the Company did not achieve the threshold earnings level required for a minimum bonus payout.

Long-Term Compensation. The Company's Long-Term Compensation Plans are intended to motivate key associates to put forth maximum efforts toward the continued growth, profitability and success of the Company by providing incentives through the ownership and performance of the Company's Common Stock. The plans are designed to provide benefits to key associates only to the extent that shareholders enjoy increases in value. The Company views stock options as an effective way to motivate key associates and align their interests with those of shareholders. While the plans permit the grant of, among other things, stock options, stock appreciation rights and restricted stock, only stock options were granted during fiscal 2003.

Stock options are granted under the plan at the prevailing market price and the holder will only realize value if the Company's stock price increases after the grant. Stock options granted for performance vest over a period of four years. Stock options granted to executive officers and senior vice presidents upon recruitment and to recognize increased responsibilities vest over a period of seven years. Participants must be employed by the Company at the time of vesting in order to exercise the options except that participants are required to exercise vested stock options within a specified time period in the event of termination of employment, disability or death.

The Compensation Committee determines, in its discretion, the number of options to be granted to executive officers based on individual performance contributions, the Company's financial performance (including return on investment), the dilutive effect on the Company's other shareholders and potential realizable value for the participants. Outstanding historical performance and anticipated future contributions by an individual are recognized in part through larger option grants. The Compensation Committee regularly requests and receives recommendations from the Chief Executive Officer, President and Chief Operating Officer regarding option grants for the other executive officers.

Tax Law Limitation on Deductibility of Compensation

The Compensation Committee is aware of the limitations imposed by Section 162(m) of the Internal Revenue Code of 1986, as amended, on the deductibility of non-performance based compensation paid to certain executive officers of the Company to the extent it exceeds \$1 million per executive. The Compensation Committee currently intends to recommend compensation amounts and plans which meet the requirements for deductibility, and the Compensation Committee expects that Section 162(m) will not limit the deductibility of any compensation expense in fiscal 2003. Messrs. Montgomery and Mansell deferred a portion of their compensation in fiscal 2003.

Summary

The Compensation Committee has the responsibility for ensuring that the Company's compensation program continues to be in the best interest of its shareholders. The Compensation Committee regularly reviews the Company's compensation programs to determine that pay levels and incentive opportunities for executive officers reflect the performance of the Company and of the individual.

In order to ascertain that compensation levels of executive officers are generally reasonable and competitive, the Compensation Committee reviews compensation surveys and certain publicly available compensation information disclosed by comparable companies and other retailers in their proxy statements. The fiscal 2003 compensation paid to the named executive officers of the Company were comparable to the 2002 mean compensation levels for comparable positions in the retail compensation surveys reviewed by the Compensation Committee, when adjusted for company performance, size and growth rates, and the individuals' respective scope of responsibilities. Finally, the Company's compensation programs providing stock based compensation to executive officers have been submitted to shareholders for review and approval.

After a review of all existing programs, the Compensation Committee believes that the total compensation program for executive officers is consistent with the Compensation Committee's compensation philosophy. Base salaries are set at levels that the Compensation Committee considers to be reasonable. The executive bonus plan provides variable compensation opportunities to key associates that are directly linked to annual operating results of the Company. The Company's Long-Term Compensation Plans provide opportunities to participants that are consistent with increases in value realized by shareholders. The Compensation Committee considers the overall executive compensation package an important reason for the Company's long-term success to date.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors and is directly responsible for the compensation, appointment and oversight of the Company's independent auditors. Management has the primary responsibility for the financial statements and the reporting process, including the systems of internal controls. The Company's independent auditors, Ernst & Young LLP (Ernst & Young), are responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with accounting principles generally accepted in the United States. Under its written charter, the Audit Committee has the authority to conduct any investigation appropriate to fulfilling its responsibilities, has direct access to the independent auditors as well as anyone in the Company, and has the ability to retain, at the Company's expense, special legal, accounting, or other consultants or experts it deems necessary in the performance of its duties.

The Audit Committee reviewed and discussed the audited financial statements in the Annual Report with management and Ernst & Young. The Audit Committee has also discussed and reviewed with Ernst & Young the matters required to be discussed by Statements on Auditing Standards No. 61 Communications with Audit Committees, as amended. In addition, the Audit Committee obtained from Ernst & Young the written disclosures and the letter required by Independence Standard No. 1, Independence Discussions with Audit Committees, as amended, by the Independence Standards Board and discussed with the auditors any relationships that may impact their objectivity and independence. The Audit Committee has also considered whether the provision of non-audit services by Ernst & Young is compatible with maintaining their independence, and has satisfied itself with respect to Ernst & Young's independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors (and the Board has approved) that the audited financial statements be included in the Annual Report on Form 10-K for the year ended January 31, 2004 for filing with the Securities and Exchange Commission.

ITEM TWO
RATIFICATION OF AUDITORS

The Audit Committee has selected Ernst & Young LLP as independent auditors of the Company and its subsidiaries for fiscal 2004. This selection is being presented to the shareholders for their ratification. Proxies solicited by the Board of Directors will, unless otherwise directed, be voted to ratify the appointment by the Board of Directors of Ernst & Young LLP as independent auditors of the Company and its subsidiaries for fiscal 2004. The Company has been advised by Ernst & Young LLP that they are independent auditors with respect to the Company within the meaning of the Securities Exchange Act of 1934, as amended, and the rules and regulations promulgated under such act.

A representative from Ernst & Young LLP is expected to be at the annual meeting and will have the opportunity to make a statement if such representative so desires and will be available to respond to appropriate questions during the meeting.

Fees Paid to Ernst & Young LLP

The Company paid the following fees to Ernst & Young LLP for fiscal 2003 and fiscal 2002:

	Fiscal 2003	Fiscal 2002
	<u> </u>	<u> </u>
Audit Fees	\$ 377,000	\$ 367,000
Audit-Related Fees	30,000	29,000
Tax Fees	175,000	437,000
All Other Fees	0	161,000
	<u> </u>	<u> </u>
TOTAL	\$ 582,000	\$ 994,000
	<u> </u>	<u> </u>

Audit fees include fees associated with the annual audit, reviews of the Company's quarterly reports on Form 10-Q and reviews of the Company's registration statements. Audit-related services generally include benefit plan audits. Tax services primarily include assistance provided to the Company for incentives related to new store locations (\$133,000 and \$343,000 in fiscal 2003 and fiscal 2002, respectively). Pursuant to an October 2000 engagement letter, Ernst & Young has assisted the Company in identifying, assessing, negotiating and filing for various governmental incentives for new Company store locations. The benefits provided by these projects have been significant and are a multiple of the associated costs. Other services in fiscal 2002 included cash management consulting and miscellaneous other items. The Company did not pay any fees to Ernst & Young LLP during the last two fiscal years for financial system design and implementation.

The Audit Committee has adopted procedures for pre-approving all audit and permitted non-audit services provided by the Company's independent auditor. The Audit Committee pre-approves a list of specific services and categories of services, subject to a specified cost level. Part of this approval process includes making a determination on whether non-audit services are consistent with the SEC's rules on auditor independence. The Audit Committee may delegate pre-approval authority to the Chairman of the Audit Committee. The Audit Committee periodically monitors the services rendered and actual fees paid to the independent auditors to ensure such services are within the parameters approved.

**THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT
SHAREHOLDERS VOTE FOR THE RATIFICATION OF THE APPOINTMENT
OF ERNST & YOUNG LLP AS INDEPENDENT AUDITORS.**

ITEM THREE

SHAREHOLDER PROPOSAL

The following shareholder proposal was submitted by Advisor s Inner Circle Fund, on behalf of the United Association S&P 500 Index Fund (the Proponent). The Proponent claims to beneficially own 20,885 shares of the Company s stock. If a representative of the Proponent who is qualified under state law is present and submits the proposal for a vote at the Annual Meeting, then the proposal will be voted upon. In accordance with federal securities regulations, the proposal is set forth below exactly as submitted by the Proponents. To ensure that readers can easily distinguish between material provided by the Proponent and material provided by the Company, materials provided by the Proponent are shown in italics.

Resolved, that the shareholders of Kohl s Corporation (Company) hereby request that the Board of Directors Compensation Committee, in developing future senior executive equity compensation plans, utilize performance and time-based restricted share programs in lieu of stock options. Restricted shares issued by the Company should include the following features:

(1) Operational Performance Measures The restricted share program should utilize justifiable operational performance criteria combined with challenging performance benchmarks for each criteria utilized. The performance criteria and associated performance benchmarks selected by the Compensation Committee should be clearly disclosed to shareholders.

(2) Time-Based Vesting A time-based vesting requirement of at least three years should also be a feature of the restricted shares program. That is, in addition to the operational performance criteria, no restricted shares should vest in less than three years from the date of grant.

(3) Dividend Limitation No dividend or proxy voting rights should be granted or exercised prior to the vesting of the restricted shares.

(4) Share Retention In order to link shareholder and management interests, a retention feature should also be included; that is, all shares granted pursuant to the restricted share program should be retained by the senior executives for the duration of their tenure with the Company.

The Board and Compensation Committee should implement this restricted share program in a manner that does not violate any existing employment agreement or equity compensation plan.

Supporting Statement: *As long-term shareholders of the Company, we support executive compensation policies and practices that provide challenging performance objectives and serve to motivate executives to achieve long-term corporate value creation goals. The Company s executive compensation should include a long-term equity compensation component with clearly defined operational performance criteria and challenging performance benchmarks.*

We believe that performance and time-based restricted shares are a preferred mechanism for providing senior executives long-term equity compensation. We believe that stock option plans, as generally constituted, all too often provide extraordinary pay for ordinary performance. In

Edgar Filing: KOHLS CORPORATION - Form DEF 14A

our opinion, performance and time-based restricted shares provide a better means to tie the levels of equity compensation to meaningful financial performance beyond stock price performance and to condition equity compensation on performance above that of peer companies.

Our proposal recognizes that the Compensation Committee is in the best position to determine appropriate performance measures and benchmarks. It is requested that detailed disclosure of the criteria be made so that shareholders may assess whether, in their opinion, the equity compensation system provides challenging targets for senior executives to meet. In addition, the restricted share program prohibits the receipt of dividends and the exercise of voting rights until shares vest.

We believe that a performance and time-based restricted share program with the features described above offers senior executives the opportunity to acquire significant levels of equity commensurate with their long-term contributions. We believe such a system best advances the long-term interests of our Company, its shareholders, employees and other important constituents. We urge shareholders to support this reform.

STATEMENT OF THE BOARD OF DIRECTORS IN OPPOSITION TO SHAREHOLDER PROPOSAL

The Board of Directors strongly supports the concept of executive compensation arrangements that provide challenging performance objectives and serve to motivate executives to achieve long-term corporate value creation goals. For the reasons described below, however, the Board of Directors believes that adopting a policy of utilizing restricted share programs in lieu of stock options would not be in the best interests of the Company and its shareholders. **The Board of Directors therefore recommends that the shareholders vote AGAINST the Proposal.**

The Board of Director's Compensation Committee, which is currently composed of three independent directors, reviews, approves and oversees the Company's executive compensation policies and practices. As described above in the Compensation Committee's Report on Executive Compensation, the Compensation Committee has historically granted stock options to key employees to provide an incentive for superior performance leading to long-term increased shareowner value. The number of options granted to each executive is dependent upon the Company's performance and the employee's individual performance and promotability. Each option permits the employee, generally for a period of ten to fifteen years, to buy a share of Company stock at the price of the stock on the day the option is granted. Stock options granted to Company executives generally vest over a period of four to seven years.

The Board believes that the objectives of the Proposal, as particularly evidenced by the four mandatory features of the proposed restricted stock awards, are being achieved by the Company's current executive compensation program: (1) stock options granted to Company executives are by definition performance-based, because the value of the options is directly linked to the price of the Company's stock over time and thus reflects the fundamental performance of the Company; (2) all options granted to Company executives are time-vested. The options typically vest in equal annual installments over a four- to seven-year period; (3) neither unvested nor vested stock options held by Company executives under the current program carry any dividend or proxy voting rights; and (4) the Company has established a set of guidelines restricting executive stock sales. These guidelines restrict the percentage of an executive's vested stock options or shares of stock that may be sold by the executive in any fiscal year. Compliance with these guidelines is monitored by the Compensation Committee, and exceptions are granted by the Committee only in extraordinary circumstances, such as when strict compliance with the guidelines would result in the expiration of vested and unexercised stock options.

Moreover, the Board believes that the Compensation Committee should have the ability to establish compensation policies in light of the competitive environment in which the Company must compete for executive talent. Limiting the Compensation Committee's flexibility to design a compensation system that is competitive with those of other companies could place the Company at a competitive disadvantage in recruiting executives.

FOR THE ABOVE REASONS, THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT SHAREHOLDERS VOTE AGAINST THE ADOPTION OF THIS PROPOSAL.

ITEM FOUR

SHAREHOLDER PROPOSAL

The following shareholder proposal was submitted on behalf of the Board of Trustees of the International Brotherhood of Electrical Workers Pension Benefit Fund (the Proponent). The Proponent claims to beneficially own 10,400 shares of the Company's stock. If a representative of the Proponent who is qualified under state law is present and submits the proposal for a vote at the Annual Meeting, then the proposal will be voted upon. In accordance with federal securities regulations, the proposal is set forth below exactly as submitted by the Proponents. To ensure that readers can easily distinguish between material provided by the Proponent and material provided by the Company, materials provided by the Proponent are shown in italics.

RESOLVED: The shareholders of Kohl's Corporation (Company) urge the Board of Directors to amend the Company's by laws, effective upon the expiration of current employment contracts, to require that an independent director-as defined by the rules of the New York Stock Exchange (NYSE)-be its Chairman of the Board of Directors.

SUPPORTING STATEMENT

The recent wave of corporate scandals at such companies as Enron, WorldCom and Tyco has resulted in renewed emphasis on the importance of independent directors. For example, both, the NYSE and the NASDAQ have adopted rules that would require corporations that wish to be traded on them to have a majority of independent directors.

Unfortunately, having a majority of independent directors alone is clearly not enough to prevent the type of scandals that have afflicted Enron, WorldCom and Tyco. All of these corporations had a majority of independent directors on their boards when the scandals occurred.

All of these corporations also had a Chairman of the Board who was also an insider, usually the Chief Executive Officer (CEO), or a former CEO, or some other officer. We believe, that no matter how many independent directors there are on a board, that board is less likely to protect shareholder interests by providing independent oversight of the officers if the Chairman of that board is also the CEO, former CEO or some other officer of the company.

We respectfully urge the board of our Company to dramatically change its corporate governance structure and the public's perception of it by having an independent director, as defined by the NYSE, serve as its Chairman.

STATEMENT OF THE BOARD OF DIRECTORS IN OPPOSITION TO SHAREHOLDER PROPOSAL

The Board of Directors strongly endorses the view that one of its primary functions is to protect shareholders' interests by providing independent oversight of management. The Board does not believe, however, that mandating a particular structure, such as requiring that the chairman be independent as defined by NYSE rules, is necessary to achieve effective oversight. **The Board of Directors therefore recommends that the**

shareholders vote AGAINST the Proposal.

The Board of Directors has determined that nine of its thirteen members are independent under the rules of the NYSE. The Board is committed to strong principles of corporate governance. Over the past two years, we have implemented various practices and procedures to further strengthen the Company's corporate governance. Among the more significant enhancements have been the adoption of new corporate governance guidelines, the formalization of regular meetings of the non-management directors, the establishment of the Governance and Nominating Committee, and the revision of the charters of all three of the Board of Director's standing committees. The charters of these committees incorporate all of the requirements of the listing standards of the New York Stock Exchange, the Sarbanes-Oxley Act of 2002 and related rules of the SEC. All three of these

standing committees are comprised solely of independent directors and serve to represent and protect the best interests of the Company's shareholders and also serve as an objective means of performing management oversight. By undertaking these initiatives, the Board has enhanced its independent oversight without compromising the benefit of having one person serve as Chairman and CEO (who, by definition cannot be independent under the NYSE's rules).

Directors of the Company, including the Chairman, are bound by fiduciary obligations under state law to serve the best interests of the shareholders. Prohibiting directors that do not meet the NYSE's independence requirements from serving as Chairman would not enhance any director's ability to fulfill his or her fiduciary duties. The Chairman of the Board has no greater nor lesser vote on matters considered by the Board. The Company's practice of having one individual perform the role of Chairman and CEO is consistent with current U.S. laws (including the Sarbanes-Oxley Act, SEC regulations and the NYSE's corporate governance listing standards) and is in the best interests of shareholders. Moreover, this practice has served the Company and its shareholders well over the course of the Company's history. Consistent with good corporate governance principles, the Board expects that its Governance and Nominating Committee will review the Board's organization annually and recommend appropriate changes.

The Board of Directors believes that success is promoted by active directors and loyal and hard-working executives who act consistently with a strong set of corporate governance and ethical guidelines, rather than a particular Board structure. For the reasons described above, the Board believes that it is not appropriate to impose an absolute rule requiring its Chairman of the Board to meet the independence requirements of the NYSE. The Board of Directors will continue to monitor developments in corporate governance practices and apply practices which we believe best serve the interests of shareholders.

FOR THE ABOVE REASONS, THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT SHAREHOLDERS VOTE AGAINST THE ADOPTION OF THIS PROPOSAL.

OTHER MATTERS

Cost of Solicitation

The entire cost of preparing, assembling, printing and mailing the proxy material, and the cost of soliciting proxies relating to the meeting, will be borne by the Company. The Company has retained Georgeson Shareholder to assist with the solicitation of proxies for a fee not to exceed \$6,500, plus reimbursement for out-of-pocket expenses. In addition, proxies may be solicited by officers, directors, and other regular employees of the Company by mail, telephone, facsimile or personal solicitation, and no additional compensation will be paid to such individuals. The Company will, if requested, reimburse banks, brokerage houses, and other custodians, nominees and certain fiduciaries for their reasonable expenses incurred in mailing proxy material to their principals.

Shareholder Proposals

Proposals and director nominations that shareholders intend to present at the 2005 Annual Meeting of Shareholders must be received at the Company's executive offices in Menomonee Falls, Wisconsin no later than January 28, 2005 in order to be presented at the meeting (and must otherwise be in accordance with the requirements of the Bylaws of the Company), and must be received by November 30, 2004 for consideration for inclusion in the proxy material for that meeting.

Other Proposed Action

If any other matters properly come before the meeting, including any adjournment or adjournments thereof, proxies received in response to this solicitation will be voted upon such matters in the discretion of the person or persons named in the accompanying proxy.

Voting Procedures

Unless otherwise directed, all proxies will be voted FOR the election of each of the individuals nominated to serve as a Class III director, FOR the ratification of the appointment of Ernst & Young LLP as independent auditors and AGAINST the adoption of the shareholder proposals. The votes of shareholders present in person or represented by proxy at the meeting will be tabulated by an inspector of elections appointed by the Company. The nominees for directors of the Company who receive the greatest number of votes cast by shareholders present in person or represented by proxy at the meeting and entitled to vote thereon will be elected directors of the Company. The other proposals will be approved if the affirmative votes exceed the votes cast against. Abstentions and broker non-votes (i.e., proxies from brokers or nominees indicating that such persons do not have discretionary authority as to certain shares to vote on a particular matter) will be treated as present for purposes of determining a quorum. Any shares not voted, whether by withheld authority, broker non-vote or otherwise, will have no effect on the outcome of the voting.
