Notes to Consolidated Financial Statements

(Unaudited)

March 31, 2013

(In Millions, Except Per Share Data or As Otherwise Stated Herein)

1. Organization

References to the terms we, our, us, WellPoint or the Company used throughout these Notes to Consolidated Financial Statements refer to WellPoint, Inc., an Indiana corporation, and unless the context otherwise requires, its direct and indirect subsidiaries.

We are one of the largest health benefits companies in the United States, serving 35.8 medical members through our affiliated health plans and approximately 68.0 individuals through all subsidiaries as of March 31, 2013. We offer a broad spectrum of network-based managed care plans to large and small employer, individual, Medicaid and senior markets. Our managed care plans include: preferred provider organizations, or PPOs; health maintenance organizations, or HMOs; point-of-service, or POS, plans; traditional indemnity plans and other hybrid plans, including consumer-driven health plans, or CDHPs; and hospital only and limited benefit products. In addition, we provide a broad array of managed care services to self-funded customers, including claims processing, underwriting, stop loss insurance, actuarial services, provider network access, medical cost management, disease management, wellness programs and other administrative services. We provide an array of specialty and other insurance products and services such as behavioral health benefit services, dental, vision, life and disability insurance benefits, radiology benefit management, analytics-driven personal health care guidance and long-term care insurance. We also provide services to the Federal Government in connection with the Federal Employee Program, or FEP, and various Medicare programs. Finally, we sell contact lenses, eyeglasses and other ocular products through our 1-800 CONTACTS, Inc., or 1-800 CONTACTS, business.

We are an independent licensee of the Blue Cross and Blue Shield Association, or BCBSA, an association of independent health benefit plans. We serve our members as the Blue Cross licensee for California and as the Blue Cross and Blue Shield, or BCBS, licensee for Colorado, Connecticut, Georgia, Indiana, Kentucky, Maine, Missouri (excluding 30 counties in the Kansas City area), Nevada, New Hampshire, New York (as the BCBS licensee in 10 New York City metropolitan and surrounding counties and as the Blue Cross or BCBS licensee in selected upstate counties only), Ohio, Virginia (excluding the Northern Virginia suburbs of Washington, D.C.) and Wisconsin. In a majority of these service areas we do business as Anthem Blue Cross, Anthem Blue Cross and Blue Shield, Blue Cross and Blue Shield of Georgia, Empire Blue Cross Blue Shield, or Empire Blue Cross (in our New York service areas). Through our AMERIGROUP Corporation subsidiary, or Amerigroup, we conduct business in Florida, Georgia, Kansas, Louisiana, Maryland, Nevada, New Jersey, New Mexico, New York, Ohio, Tennessee, Texas and Washington. We also serve customers throughout the country as UniCare, and in certain Arizona, California, Nevada, New York and Virginia markets through our CareMore Health Group, Inc., or CareMore, subsidiary. We are licensed to conduct insurance operations in all 50 states through our subsidiaries.

2. Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP, for interim financial reporting. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. We have omitted certain footnote disclosures that would substantially duplicate the disclosures in our 2012 Annual Report on Form 10-K, unless the information contained in those disclosures materially changed or is required by GAAP. In the opinion of management, all adjustments, including normal recurring adjustments, necessary for a fair statement of the consolidated financial statements as of and for the three months ended March 31, 2013 and 2012 have been recorded. The results of operations for the three months ended March 31, 2013 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2013. These unaudited

Table of Contents

consolidated financial statements should be read in conjunction with our audited consolidated financial statements for the year ended December 31, 2012 included in our 2012 Annual Report on Form 10-K.

Certain of our subsidiaries operate outside of the United States and have functional currencies other than the U.S. dollar, or USD. We translate the assets and liabilities of those subsidiaries to USD using the exchange rate in effect at the end of the period. We translate the revenues and expenses of those subsidiaries to USD using the average exchange rates in effect during the period. The net effect of these translation adjustments is included in Foreign currency translation adjustments in our consolidated statements of comprehensive income.

Certain prior year amounts have been reclassified to conform to the current year presentation.

3. Restructuring Activities

As a result of restructuring activities implemented during 2012 and 2011, we recorded liabilities for employee termination costs and lease and other contract exit costs. The restructuring activities are classified as components of general and administrative expenses in the consolidated statements of income for the respective period in which they occurred.

The 2012 restructuring activities were initiated primarily as a result of personnel changes, organizational realignment to create efficiencies in our business processes and certain integration activities associated with the Amerigroup acquisition. Activity related to these liabilities for the three months ended March 31, 2013, by reportable segment, is as follows:

	Commercial	Consumer	Other	Total
2012 Restructuring Activities				
Employee termination costs:				
Liability for employee termination costs at January 1, 2013	\$ 40.4	\$ 72.8	\$ 4.4	\$ 117.6
Payments	(8.7)	(19.0)	(0.9)	(28.6)
Liability released	(1.1)	(0.9)	(0.2)	(2.2)
Liability for employee termination costs at March 31, 2013	30.6	52.9	3.3	86.8
Lease and other contract exit costs:				
Liability for lease and other contract exit costs at January 1, 2013	8.8	2.9	0.1	11.8
Payments	(1.0)	(0.3)		(1.3)
Liability released				
Liability for lease and other contract exit costs at March 31, 2013	7.8	2.6	0.1	10.5
Total liability for 2012 restructuring activities at March 31, 2013	\$ 38.4	\$ 55.5	\$ 3.4	\$ 97.3

The 2011 restructuring activities were initiated as a result of a change in strategic focus primarily in response to federal health care reform. At March 31, 2013, our total liability for 2011 restructuring activities was \$24.9, of which \$6.8 related to employee termination costs and \$18.1 related to lease and other contract exit costs. We expect the remaining payments for employee termination costs to be substantially completed by the end of 2013. Payments for lease and other contract exit costs will continue to occur over the remaining terms of the related contracts.

4. Investments

We evaluate our investment securities for other-than-temporary declines based on qualitative and quantitative factors. Other-than-temporary impairment losses recognized in income totaled \$37.9 and \$10.9 for the three months ended March 31, 2013 and 2012, respectively. There were no individually significant other-than-temporary impairment losses on investments by issuer during the three months ended March 31, 2013 and 2012. We continue to review our investment portfolios under our impairment review policy. Given the current market conditions and

the significant judgments involved, there is a continuing risk that further declines in fair value may occur and additional material other-than-temporary impairment losses on investments may be recorded in future periods.

A summary of current and long-term investments, available-for-sale, at March 31, 2013 and December 31, 2012 is as follows:

At March 31, 2013, we owned \$2,909.8 of mortgage-backed securities and \$240.2 of asset-backed securities out of a total available-for-sale investment portfolio of \$19,673.3. These securities included sub-prime and Alt-A securities with fair values of \$38.6 and \$127.1, respectively. These sub-prime and Alt-A securities had accumulated net unrealized gains of \$0.3 and \$7.3, respectively. The average credit rating of the sub-prime and Alt-A securities was BB and B, respectively.

During the three months ended March 31, 2013, we sold \$2,619.2 of investments which resulted in gross realized gains of \$107.0 and gross realized losses of \$90.2. In the ordinary course of business, we may sell securities at a loss for a number of reasons, including, but not limited to: (i) changes in the investment environment; (ii) expectation that the fair value could deteriorate further; (iii) desire to reduce exposure to an issuer or an industry; (iv) changes in credit quality; or (v) changes in expected cash flow.

All securities sold resulting in investment gains and losses are recorded on the trade date. Realized gains and losses are determined on the basis of the cost or amortized cost of the specific securities sold.

5. Fair Value

Assets and liabilities recorded at fair value in the consolidated balance sheets are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Level inputs, as defined by Financial Accounting Standards Board, or FASB, guidance for fair value measurements and disclosures, are as follows:

Level Input:	Input Definition:
Level I	Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
Level II	Inputs other than quoted prices included in Level I that are observable for the asset or liability through corroboration with market data at the measurement date.
Level III	Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

The following methods, assumptions and inputs were used to determine the fair value of each class of the following assets and liabilities recorded at fair value in the consolidated balance sheets:

Cash equivalents: Cash equivalents primarily consist of highly rated money market funds with maturities of three months or less, and are purchased daily at par value with specified yield rates. Due to the high ratings and short-term nature of the funds, we designate all cash equivalents as Level I.

Fixed maturity securities, available-for-sale: Fair values of available-for-sale fixed maturity securities are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level I or Level II inputs for the determination of fair value to facilitate fair value measurements and disclosures. United States Government securities represent Level I securities, while Level II securities primarily include corporate securities, securities from states, municipalities and political subdivisions and mortgage-backed securities. For securities not actively traded, the third party pricing services may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. We have controls in place to review the third party pricing services' qualifications and procedures used to determine fair values. In addition, we periodically review the third party pricing services' pricing methodologies, data sources and pricing inputs to ensure the fair values obtained are reasonable. Inputs that are often used in the valuation methodologies include, but are not limited to, broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds. We also have certain fixed maturity securities, primarily corporate debt securities, that are designated Level III securities. For these securities, the valuation methodologies may incorporate broker quotes or discounted cash flow analyses using assumptions for inputs such as expected cash flows, benchmark yields and credit spreads that are not observable in the markets.

Equity securities, available-for-sale: Fair values of equity securities are generally designated as Level I and are based on quoted market prices. For certain equity securities, quoted market prices for the identical security are not always available and the fair value is estimated by reference to similar securities for which quoted prices are available. These securities are designated Level II. We also have certain equity securities, including private equity securities, for which the fair value is estimated based on each security's current condition and future cash

Table of Contents

flow projections. Such securities are designated Level III. The fair values of these private equity securities are generally based on either broker quotes or discounted cash flow projections using assumptions for inputs such as the weighted average cost of capital, long-term revenue growth rates and earnings before interest, taxes, depreciation and amortization, or EBITDA, and/or revenue multiples that are not observable in the markets.

Other invested assets, current: Other invested assets, current include securities held in rabbi trusts that are classified as trading. Fair values are based on quoted market prices.

Securities lending collateral: Fair values of securities lending collateral are based on quoted market prices, where available. These fair values are obtained primarily from third party pricing services, which generally use Level I or Level II inputs for the determination of fair value, to facilitate fair value measurements and disclosures.

Derivatives-interest rate swaps: Fair values are based on the quoted market prices by the financial institution that is the counterparty to the swap. We independently verify prices provided by the counterparties using valuation models that incorporate market observable inputs for similar interest rate swaps.

Transfers between levels, if any, are recorded as of the beginning of the reporting period. There were no material transfers between Level I, Level II and Level III during the three months ended March 31, 2013. During the three months ended March 31, 2012, the transfers out of Level III of corporate securities and commercial mortgage-backed securities were for certain sub-prime securities transferred from Level III to Level II as a result of inputs that were previously unobservable becoming observable due to increased volume and level of trading in observable markets. In addition, the transfers out of Level III of other debt securities were for certain inverse floating rate securities transferred from Level III to Level II as a result of those securities impending maturity and settlement in June 2012 and trading activity of similar securities in observable markets.

Table of Contents

During the three months ended March 31, 2013 or 2012, there were no transfers from Level I to Level II or from Level II to Level I.

There were no assets or liabilities measured at fair value on a nonrecurring basis during the three months ended March 31, 2013 or 2012.

Our valuation policy is determined by members of our treasury and accounting departments. Whenever possible, our policy is to obtain quoted market prices in active markets to estimate fair values for recognition and disclosure purposes. Where quoted market prices in active markets are not available, fair values are estimated using discounted cash flow analyses, broker quotes or other valuation techniques. These techniques are significantly affected by our assumptions, including discount rates and estimates of future cash flows. Potential taxes and other transaction costs are not considered in estimating fair values. Our valuation policy is generally to obtain only one quoted price for each security from third party pricing services, which are derived through recently reported trades for identical or similar securities making adjustments through the reporting date based upon available market observable information. When broker quotes are used, we generally obtain only one broker quote per security. As we are responsible for the determination of fair value, we perform monthly analysis on the prices received from third parties to determine whether the prices are reasonable estimates of fair value. This analysis is performed by our internal treasury personnel who are familiar with our investment portfolios, the third party pricing services engaged and the valuation techniques and inputs used. Our analysis includes a review of month-to-month price fluctuations. If unusual fluctuations are noted in this review, we may obtain additional information from other pricing services to validate the quoted price. There were no adjustments to quoted market prices obtained from third party pricing services during the three months ended March 31, 2013 or 2012.

In addition to the preceding disclosures on assets recorded at fair value in the consolidated balance sheets, FASB guidance also requires the disclosure of fair values for certain other financial instruments for which it is practicable to estimate fair value, whether or not such values are recognized in the consolidated balance sheets.

Non-financial instruments such as real estate, property and equipment, other current assets, deferred income taxes, intangible assets and certain financial instruments, such as policy liabilities, are excluded from the fair value disclosures. Therefore, the fair value amounts cannot be aggregated to determine our underlying economic value.

The carrying amounts reported in the consolidated balance sheets for cash, accrued investment income, premium and self-funded receivables, other receivables, unearned income, accounts payable and accrued expenses, income taxes receivable/payable, security trades pending payable, securities lending payable and certain other current liabilities approximate fair value because of the short term nature of these items. These assets and liabilities are not listed in the table below.

The following methods, assumptions and inputs were used to estimate the fair value of each class of financial instrument:

Other invested assets, long-term: Other invested assets, long-term include primarily our investments in limited partnerships, joint ventures and other non-controlled corporations, as well as the cash surrender value of corporate-owned life insurance policies. Investments in limited partnerships, joint ventures and other non-controlled corporations are carried at our share in the entities' undistributed earnings, which approximates fair value. The carrying value of corporate-owned life insurance policies represents the cash surrender value as reported by the respective insurer, which approximates fair value.

Short-term borrowings: The fair value of our short-term borrowings is based on quoted market prices for the same or similar debt, or, if no quoted market prices were available, on the current market interest rates available to us for debt of similar terms and remaining maturities.

Long-term debt-commercial paper: The carrying amount for commercial paper approximates fair value as the underlying instruments have variable interest rates at market value.

Table of Contents

Long-term debt-notes: The fair values of our notes are based on quoted market prices in active markets for the same or similar debt, or, if no quoted market prices are available, on the current market observable rates estimated to be available to us for debt of similar terms and remaining maturities.

Long-term debt-convertible debentures: The fair value of our convertible debentures is based on the quoted market price in the active private market in which the convertible debentures trade.

A summary of the carrying values and fair values by level of financial instruments not recorded at fair value on our consolidated balance sheets at March 31, 2013 and December 31, 2012 are as follows:

6. Income Taxes

During the three months ended March 31, 2013 and 2012, we recognized income tax expense of \$401.9 and \$453.3, respectively, which represents effective tax rates of 31.2% and 34.6%, respectively. The decrease in income tax expense and the effective tax rate in 2013 resulted primarily from inclusion of Amerigroup in our state apportionment factors calculation, which produces a lower effective state tax rate.

7. Retirement Benefits

The components of net periodic benefit cost included in the consolidated statements of income for the three months ended March 31, 2013 and 2012 are as follows:

For the year ending December 31, 2013, no material contributions are expected to be necessary to meet the Employee Retirement Income Security Act, or ERISA, required funding levels; however, we may elect to make discretionary contributions up to the maximum amount deductible for income tax purposes. No contributions were made to our retirement benefit plans during the three months ended March 31, 2013 and 2012.

8. Debt

As a result of our acquisition of Amerigroup on December 24, 2012, the carrying amount of Amerigroup's \$475.0 of 7.500% senior unsecured notes due 2019 was included in our consolidated balance sheet as of December 31, 2012. In accordance with FASB accounting guidance for business combinations, the notes were recorded at their estimated fair value of \$556.9 on the date of acquisition. On January 25, 2013 we redeemed the outstanding principal balance of these notes, plus applicable premium for early redemption, for cash totaling \$555.6. The weighted-average redemption price of the notes was approximately 117% of the principal amount outstanding.

We have a senior revolving credit facility, or the facility, with certain lenders for general corporate purposes. The facility, as amended, provides credit up to \$2,000.0 and matures on September 29, 2016. There were no amounts outstanding under this facility as of March 31, 2013 or at any time during the three months then ended.

We have an authorized commercial paper program of up to \$2,500.0, the proceeds of which may be used for general corporate purposes. At March 31, 2013, we had \$831.1 outstanding under this program.

We have senior convertible debentures due 2042, or the Debentures, which are governed by an indenture between us and The Bank of New York Mellon Trust Company, N.A., as trustee. We have accounted for the Debentures in accordance with the FASB cash conversion guidance for debt with conversion and other options. As a result, the value of the embedded conversion option has been bifurcated from its debt host and recorded as a component of additional paid-in capital (net of deferred taxes and equity issuance costs) in our consolidated balance sheet. The following table summarizes at March 31, 2013 the related balances, conversion rate and conversion price of the Debentures:

Outstanding principal amount	\$ 1,500.0
Unamortized debt discount	540.0
Net debt carrying amount	960.0
Equity component carrying amount	543.6
Conversion rate (shares of common stock per \$1,000 of principal amount)	13.2505
Effective conversion price (per \$1,000 of principal amount)	\$ 75.4688

9. Commitments and Contingencies*Litigation*

In the ordinary course of business, we are defendants in, or parties to, a number of pending or threatened legal actions or proceedings. To the extent a plaintiff or plaintiffs in the following cases have specified in their complaint or in other court filings the amount of damages being sought, we have noted those alleged damages in the descriptions below. With respect to the cases described below, we contest liability and/or the amount of damages in each matter and believe we have meritorious defenses.

In the Los Angeles County Superior Court, we are defending a lawsuit filed by the Los Angeles City Attorney alleging the wrongful rescission of individual insurance policies and representations made concerning rescission practices and policies. The suit names WellPoint as well as Blue Cross of California, or BCC, and BC Life & Health Insurance Company, or BCL&H (which name changed to Anthem Blue Cross Life and Health Insurance Company in July 2007), both WellPoint subsidiaries. The lawsuit generally alleges unfair business

practices in a purported practice of rescinding new individual members following the submission of large claims. The Los Angeles City Attorney filed an amended complaint in October 2010, adding claims of misrepresentation arising from several public statements made by the Company during 2010. The Los Angeles City Attorney is requesting two thousand five hundred dollars (\$2,500) per alleged violation of the California Business and Professions Code. Trial is currently set for April 8, 2014. We intend to vigorously defend this suit; however, the ultimate outcome cannot be presently determined.

We are defending a certified class action filed as a result of the 2001 demutualization of Anthem Insurance Companies, Inc., or AICI. The lawsuit names AICI as well as Anthem, Inc., or Anthem, n/k/a WellPoint, Inc., and is captioned *Ronald Gold, et al. v. Anthem, Inc. et al.* AICI's 2001 Plan of Conversion, or the Plan, provided for the conversion of AICI from a mutual insurance company into a stock insurance company pursuant to Indiana law. Under the Plan, AICI distributed the fair value of the company at the time of conversion to its Eligible Statutory Members, or ESMs, in the form of cash or Anthem common stock in exchange for their membership interests in the mutual company. Plaintiffs in *Gold* allege that AICI distributed value to the wrong ESMs. Cross motions for summary judgment were granted in part and denied in part on July 26, 2006 with regard to the issue of sovereign immunity asserted by co-defendant, the state of Connecticut, or the State. The court also denied our motion for summary judgment as to plaintiffs' claims on January 10, 2005. The State appealed the denial of its motion to the Connecticut Supreme Court. We filed a cross-appeal on the sovereign immunity issue. On May 11, 2010, the Court reversed the judgment of the trial court denying the State's motion to dismiss the plaintiff's claims under sovereign immunity and dismissed our cross-appeal. The case was remanded to the trial court for further proceedings. Plaintiffs' motion for class certification was granted on December 15, 2011. We and the plaintiffs filed renewed cross-motions for summary judgment on January 24, 2013. Argument on the renewed motions was held on April 19, 2013. We intend to vigorously defend the *Gold* lawsuit; however, its ultimate outcome cannot be presently determined. We settled a separate lawsuit captioned *Mary E. Ormond, et al. v. Anthem, Inc., et al.*, also filed as a result of the 2001 demutualization of AICI. The *Ormond* case involves a certified class that consists of all ESMs residing in Ohio, Indiana, Kentucky or Connecticut who received cash compensation in connection with the demutualization. On July 1, 2011, the Court held that we were entitled to judgment on all of plaintiffs' claims except those tort claims in connection with the pricing and sizing of the Anthem, Inc. IPO. The parties have reached an agreement to resolve the *Ormond* suit. On June 15, 2012, plaintiffs filed an unopposed motion for preliminary approval of a \$90.0 cash settlement, including any amounts to be awarded for attorneys' fees and expenses and other costs to administer the settlement. As a result, during the six months ended June 30, 2012, we recorded selling, general and administrative expense of \$90.0, or \$0.27 per diluted share, associated with this settlement, which was non-deductible for tax purposes. The Court granted plaintiffs' motion and entered preliminary approval of the settlement on June 18, 2012. As a result, the trial that had been set for June 18, 2012 was vacated. The cash settlement was paid on July 3, 2012 into an escrow account. A final fairness hearing on the settlement was held on October 25, 2012. On November 16, 2012, the Court granted plaintiffs' motion and entered an amended final order approving the settlement. An award of attorneys' fees was issued on November 20, 2012, together with a final judgment dismissing all of plaintiffs' claims. Two appeals of the court's final orders have been taken by objectors to the United States Court of Appeals for the Seventh Circuit. The appeals involve challenges to (i) the amount of attorneys' fees awarded to plaintiffs' counsel out of the settlement fund and (ii) the provision of the Court's order granting final approval of the settlement that requires any residual settlement funds remaining after two rounds of distributions to class members to be paid to the Eskanazi Health Foundation as a *cy pres* award.

We are currently a defendant in eleven putative class actions relating to OON reimbursement that were consolidated into a single multi-district lawsuit called *In re WellPoint, Inc. Out-of-Network UCR Rates Litigation* that is pending in the United States District Court for the Central District of California. The lawsuits were filed in 2009. The plaintiffs include current and former members on behalf of a putative class of members who received OON services for which the defendants paid less than billed charges, the American Medical Association, four state medical associations, OON physicians, chiropractors, clinical psychologists, podiatrists, psychotherapists, the American Podiatric Association, California Chiropractic Association and the California Psychological Association on behalf of a putative class of all physicians and all non-physician health care

providers, and an OON surgical center. In the consolidated complaint, the plaintiffs allege that the defendants violated the Racketeer Influenced and Corrupt Organizations Act, or RICO, the Sherman Antitrust Act, ERISA, federal regulations, and state law by relying on databases provided by Ingenix in determining OON reimbursement. A consolidated amended complaint was filed to add allegations in the lawsuit that OON reimbursement was calculated improperly by methodologies other than the Ingenix databases. We filed a motion to dismiss the amended consolidated complaint. The motion was granted in part and denied in part. The court gave the plaintiffs permission to replead many of those claims that were dismissed. The plaintiffs then filed a third amended consolidated complaint repleading some of the claims that had been dismissed without prejudice and adding additional statements in an attempt to bolster other claims. We filed a motion to dismiss the third amended consolidated complaint, which was granted in part and denied in part. The plaintiffs filed a fourth amended consolidated complaint on November 5, 2012. We filed a motion to dismiss most of the claims asserted in the fourth amended consolidated complaint. The plaintiffs filed a response and we filed a reply. The motion to dismiss is now fully briefed and pending. The OON surgical center voluntarily dismissed their claims. Fact discovery is complete. At the end of 2009, we filed a motion in the United States District Court for the Southern District of Florida, or the Florida Court, to enjoin the claims brought by the medical doctors and doctors of osteopathy and certain medical associations based on prior litigation releases, which was granted in 2011, and that court ordered the plaintiffs to dismiss their claims that are barred by the release. The plaintiffs then filed a petition for declaratory judgment asking the court to find that these claims are not barred by the releases from the prior litigation. We filed a motion to dismiss the declaratory judgment action, which was granted. The plaintiffs appealed the dismissal of the declaratory judgment to the United States Court of Appeals for the Eleventh Circuit, but the dismissal was upheld. The enjoined physicians have not yet dismissed their claims. The Florida Court found the enjoined physicians in contempt and sanctioned them on July 25, 2012. The barred physicians are paying the sanctions. We intend to vigorously defend these suits; however, their ultimate outcome cannot be presently determined.

Where available information indicates that it is probable that a loss has been incurred as of the date of the consolidated financial statements and we can reasonably estimate the amount of that loss, we accrue the estimated loss by a charge to income. In many proceedings, however, it is difficult to determine whether any loss is probable or reasonably possible. In addition, even where loss is possible or an exposure to loss exists in excess of the liability already accrued with respect to a previously identified loss contingency, it is not always possible to reasonably estimate the amount of the possible loss or range of loss.

With respect to many of the proceedings to which we are a party, we cannot provide an estimate of the possible losses, or the range of possible losses in excess of the amount, if any, accrued, for various reasons, including but not limited to some or all of the following: (i) there are novel or unsettled legal issues presented, (ii) the proceedings are in early stages, (iii) there is uncertainty as to the likelihood of a class being certified or decertified or the ultimate size and scope of the class, (iv) there is uncertainty as to the outcome of pending appeals or motions, (v) there are significant factual issues to be resolved, and/or (vi) in many cases, the plaintiffs have not specified damages in their complaint or in court filings. For those legal proceedings where a loss is probable, or reasonably possible, and for which it is possible to reasonably estimate the amount of the possible loss or range of losses, we currently believe that the range of possible losses, in excess of established reserves, for all of those proceedings is from \$0 to approximately \$350.0 at March 31, 2013. This estimated aggregate range of reasonably possible losses is based upon currently available information taking into account our best estimate of such losses for which such an estimate can be made.

Other Contingencies

From time to time, we and certain of our subsidiaries are parties to various legal proceedings, many of which involve claims for coverage encountered in the ordinary course of business. We, like HMOs and health insurers generally, exclude certain health care and other services from coverage under our HMO, PPO and other plans. We are, in the ordinary course of business, subject to the claims of our enrollees arising out of decisions to restrict or deny reimbursement for uncovered services. The loss of even one such claim, if it results in a

Table of Contents

significant punitive damage award, could have a material adverse effect on us. In addition, the risk of potential liability under punitive damage theories may increase significantly the difficulty of obtaining reasonable settlements of coverage claims.

In addition to the lawsuits described above, we are also involved in other pending and threatened litigation of the character incidental to our business, and are from time to time involved as a party in various governmental investigations, audits, reviews and administrative proceedings. These investigations, audits, reviews and administrative proceedings include routine and special inquiries by state insurance departments, state attorneys general, the U.S. Attorney General and subcommittees of the U.S. Congress. Such investigations, audits, reviews and administrative proceedings could result in the imposition of civil or criminal fines, penalties, other sanctions and additional rules, regulations or other restrictions on our business operations. Any liability that may result from any one of these actions, or in the aggregate, could have a material adverse effect on our consolidated financial position or results of operations.

The National Organization of Life & Health Insurance Guaranty Associations, or NOLHGA, is a voluntary organization consisting of the state life and health insurance guaranty associations located throughout the U.S. State life and health insurance guaranty associations, working together with NOLHGA, provide a safety net for their state's policyholders, ensuring that they continue to receive coverage even if their insurer is declared insolvent. We are aware that the Pennsylvania Insurance Commissioner, or Insurance Commissioner, has placed Penn Treaty Network America Insurance Company and its subsidiary American Network Insurance Company, or collectively Penn Treaty, in rehabilitation, an intermediate action before insolvency. The state court denied the Insurance Commissioner's petition for the liquidation of Penn Treaty and ordered the Commissioner to file an updated plan of rehabilitation. The Insurance Commissioner has filed a Notice of Appeal asking the Pennsylvania Supreme Court to reverse the order denying the liquidation petition. In the event rehabilitation of Penn Treaty is unsuccessful and Penn Treaty is declared insolvent and placed in liquidation, we and other insurers may be required to pay a portion of their policyholder claims through state guaranty association assessments in future periods. Given the uncertainty around whether Penn Treaty will ultimately be declared insolvent and, if so, the amount of the insolvency, the amount and timing of any associated future guaranty fund assessments and the availability and amount of any potential premium tax and other offsets, we currently cannot estimate our net exposure, if any, to this potential insolvency. We will continue to monitor the situation and may record a liability and expense in future reporting periods, which could be material to our cash flows and results of operations.

Contractual Obligations and Commitments

We are a party to an agreement with Express Scripts, Inc., or Express Scripts, to provide pharmacy benefit management, or PBM, services for our plans, excluding Amerigroup and certain self-insured members, which have exclusive agreements with different PBM services providers. The initial term of this agreement expires on December 31, 2019. Under this agreement, Express Scripts is the exclusive provider of certain specified PBM services, such as pharmacy network management, home delivery, pharmacy customer service, claims processing, rebate management, drug utilization and specialty pharmaceutical management services. Accordingly, the agreement contains certain financial and operational requirements obligating both Express Scripts and us. Express Scripts' primary obligations relate to the performance of such services and meeting certain pricing guarantees and performance standards. Our primary obligations relate to oversight, provision of data, payment for services and certain minimum volume requirements. The failure by either party to meet the respective requirements could potentially serve as a basis for financial penalties or early termination of the contract. We believe we have appropriately recognized all rights and obligations under this contract at March 31, 2013.

During the first quarter of 2010, we entered into a new agreement with International Business Machines Corporation to provide information technology infrastructure services. This new agreement supersedes certain prior agreements and also includes provisions for additional services. Our remaining commitment under this agreement at March 31, 2013 was \$395.6 through March 31, 2015. We have the ability to terminate this agreement upon the occurrence of certain events, subject to early termination fees.

Table of Contents

On March 31, 2009, we entered into an agreement with Affiliated Computer Services, Inc. to provide certain print and mailroom services that were previously performed in-house. Our remaining commitment under this agreement at March 31, 2013 was \$188.6 through March 31, 2016. We have the ability to terminate this agreement upon the occurrence of certain events, subject to early termination fees.

10. Capital Stock***Use of Capital Dividends and Stock Repurchase Program***

We regularly review the appropriate use of capital, including common stock repurchases and dividends to shareholders. The declaration and payment of any dividends or repurchases of our common stock is at the discretion of our Board of Directors and depends upon our financial condition, results of operations, future liquidity needs, regulatory and capital requirements and other factors deemed relevant by our Board of Directors.

A summary of the cash dividend activity for the three months ended March 31, 2013 and 2012 is as follows:

Declaration Date	Record Date	Payment Date	Cash Dividend per Share	Total
Three Months Ended March 31, 2013				
February 20, 2013	March 8, 2013	March 25, 2013	\$ 0.3750	\$ 113.4
Three Months Ended March 31, 2012				
January 24, 2012	March 9, 2012	March 23, 2012	\$ 0.2875	\$ 95.8

Under our Board of Directors' authorization, we maintain a common stock repurchase program. Repurchases may be made from time to time at prevailing market prices, subject to certain restrictions on volume, pricing and timing. The repurchases are effected from time to time in the open market, through negotiated transactions, including accelerated share repurchase agreements, and through plans designed to comply with Rule 10b5-1 under the Securities Exchange Act of 1934, as amended. Our stock repurchase program is discretionary as we are under no obligation to repurchase shares. We repurchase shares under the program when we believe it is a prudent use of capital. The excess cost of repurchased shares over par value is charged on a pro rata basis to additional paid-in capital and retained earnings.

A summary of share repurchases for the period April 1, 2013 through April 11, 2013 (subsequent to March 31, 2013) and for the three months ended March 31, 2013 and 2012 is as follows:

	April 1, 2013 Through April 11, 2013	Three Months Ended March 31

Fair Value

We use a binomial lattice valuation model to estimate the fair value of all stock options granted. For a more detailed discussion of our stock incentive plan fair value methodology, see Note 15, Capital Stock, to our audited consolidated financial statements as of and for the year ended December 31, 2012 included in our 2012 Annual Report on Form 10-K.

The following weighted-average assumptions were used to estimate the fair values of options granted during the three months ended March 31, 2013 and 2012:

	2013	2012
Risk-free interest rate	1.25%	1.41%
Volatility factor	35.00%	34.00%
Quarterly dividend yield	0.600%	0.400%
Weighted-average expected life (years)	4.0	4.1

The following weighted-average fair values were determined for the three months ended March 31, 2013 and 2012:

Net gain recognized in other comprehensive income, net of tax expense of \$10.5 and \$65.9, respectively	\$ 43.4	\$ 120.1

12. Earnings per Share

The denominator for basic and diluted earnings per share for the three months ended March 31, 2013 and 2012 was as follows:

	Three Months Ended March 31	
	2013	2012
Denominator for basic earnings per share — weighted-average shares	303.2	335.0
Effect of dilutive securities — employee and director stock options and non-vested restricted stock awards	2.7	4.0
Denominator for diluted earnings per share	305.9	339.0

During the three months ended March 31, 2013 and 2012, weighted-average shares related to certain stock options of 11.5 and 10.1, respectively, were excluded from the denominator for diluted earnings per share because the stock options were anti-dilutive.

During the three months ended March 31, 2013, we issued approximately 2.1 restricted stock units under our stock incentive plans, 0.9 of which vesting is contingent upon us meeting specified annual operating gain targets for 2013. The contingent restricted stock units have been excluded from the denominator for diluted earnings per share and will be included only if and when the contingency is met.

13. Segment Information

The results of our operations are described through three reportable segments: Commercial, Consumer and Other, as further described in Note 20, Segment Information, to our audited consolidated financial statements as of and for the year ended December 31, 2012 included in our 2012 Annual Report on Form 10-K.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
(In Millions, Except Per Share Data or As Otherwise Stated Herein)

References to the terms we, our or us used throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations, or MD&A, refer to WellPoint, Inc., an Indiana corporation, and unless the context otherwise requires, its direct and indirect subsidiaries.

This MD&A should be read in conjunction with our audited consolidated financial statements as of and for the year ended December 31, 2012 and the MD&A included in our 2012 Annual Report on Form 10-K, and our unaudited consolidated financial statements and accompanying notes as of and for the three months ended March 31, 2013 included in this Form 10-Q. Results of operations, cost of care trends, investment yields and other measures for the three month period ended March 31, 2013 are not necessarily indicative of the results and trends that may be expected for the full year ending December 31, 2013. Also see Part I, Item 1A, Risk Factors of our 2012 Annual Report on Form 10-K and Part II, Item 1A, Risk Factors of this Form 10-Q.

Overview

The results of our operations are described through three reportable segments: Commercial, Consumer and Other. We regularly evaluate the appropriateness of our reportable segments, particularly in light of organizational changes, merger and acquisition activity and changing laws and regulations. Therefore, these reportable segments may change in the future. For additional information about our organization, see the Overview section of Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2012 Annual Report on Form 10-K.

Executive Summary

We are one of the largest health benefits companies in the United States, serving 35.8 medical members through our affiliated health plans and approximately 68.0 individuals through all subsidiaries as of March 31, 2013. We are an independent licensee of the Blue Cross and Blue Shield Association, or BCBSA, an association of independent health benefit plans. We serve our members as the Blue Cross licensee for California and as the Blue Cross and Blue Shield, or BCBS, licensee for: Colorado, Connecticut, Georgia, Indiana, Kentucky, Maine, Missouri (excluding 30 counties in the Kansas City area), Nevada, New Hampshire, New York (as BCBS in 10 New York city metropolitan and surrounding counties, and as Blue Cross or BCBS in selected upstate counties only), Ohio, Virginia (excluding the Northern Virginia suburbs of Washington, D.C.), and Wisconsin. In a majority of these service areas we do business as Anthem Blue Cross, Anthem Blue Cross and Blue Shield, Blue Cross and Blue Shield of Georgia, Empire Blue Cross Blue Shield, or Empire Blue Cross (in our New York service areas). Through our AMERIGROUP Corporation subsidiary, or Amerigroup, we conduct business in Florida, Georgia, Kansas, Louisiana, Maryland, Nevada, New Jersey, New Mexico, New York, Ohio, Tennessee, Texas and Washington. We also serve customers throughout the country as UniCare and in certain Arizona, California, Nevada, New York and Virginia markets through our CareMore Health Group, Inc., or CareMore, subsidiary. We are licensed to conduct insurance operations in all 50 states through our subsidiaries.

Operating revenue for the three months ended March 31, 2013 was \$17,546.3, an increase of \$2,396.1, or 15.8%, from the three months ended March 31, 2012, reflecting higher premium revenue in our Consumer segment, partially offset by lower premium revenue in our Commercial segment. The higher premium revenue in our Consumer segment primarily resulted from the acquisition of Amerigroup in December 2012 and was partially offset by lower revenues in our Medicare Advantage business. The premium revenue decrease in the Commercial segment was driven primarily by fully-insured membership declines in our Local Group business resulting from strategic product portfolio changes in certain states, competitive pressure in certain markets and affordability challenges affecting our members and, we believe, healthcare consumers in general. This decrease was partially offset by premium rate increases in our Local Group business designed to cover overall cost trends.

Table of Contents

Net income for the three months ended March 31, 2013 was \$885.2, a 3.4% increase from the three months ended March 31, 2012. This increase in net income was primarily driven by improved operating results in our Commercial and Consumer segments and lower income taxes, partially offset by lower realized gains, higher interest expense and increased other than temporary impairment losses on investments. For additional details, see Consolidated Results of Operations included in this MD&A. Our fully-diluted earnings per share, or EPS, was \$2.89 for the three months ended March 31, 2013, which represented a 14.2% increase over the EPS of \$2.53 for the three months ended March 31, 2012. The increase in EPS resulted primarily from the lower number of shares outstanding in 2013 due to share buy back activity under our share repurchase program, and to a lesser extent, improved net income.

Operating cash flow for the three months ended March 31, 2013 was \$956.9, or 1.1 times net income. Operating cash flow for the three months ended March 31, 2012 was \$1,223.1. The decrease in operating cash flow from 2012 of \$266.2 was driven primarily by changes in the timing of government premium payments, as the first quarter of 2012 included an extra monthly payment. This decline was partially offset by the addition of Amerigroup's operating cash flow in 2013.

Our results of operations discussed throughout this MD&A are determined in accordance with U.S. generally accepted accounting principles, or GAAP. We also calculate adjusted net income, adjusted EPS and operating gain, which are non-GAAP measure, to further aid investors in understanding and analyzing our core operating results and comparing them among periods. Adjusted net income and adjusted EPS exclude realized gains and losses on investments, other-than-temporary losses on investments recognized in income and certain other items, if applicable, that we do not consider a part of our core operating results. Operating gain is calculated as total operating revenue less benefit expense, selling, general and administrative expense and cost of products. We use these measures as a basis for evaluating segment performance, allocating resources, setting incentive compensation targets and for forecasting future operating periods. This information is not intended to be considered in isolation or as a substitute for income before income tax expense, net income or diluted EPS prepared in accordance with GAAP, and may not be comparable to similarly titled measures reported by other companies. For additional details on operating gain, see our Consolidated Results of Operations discussion within this MD&A.

Sources and Uses of Capital

We regularly review the appropriate use of capital, including common stock repurchases and dividends to shareholders. The declaration and payment of any dividends or repurchases of our common stock are at the discretion of our Board of Directors and depends upon our financial condition, results of operations, future liquidity needs, regulatory and capital requirements and other factors deemed relevant by our Board of Directors.

For additional information regarding our use of capital during the three months ended March 31, 2013, see Note 8, Debt and the Use of Capital Dividends and Stock Repurchase Program section of Note 10, Capital Stock, to our unaudited consolidated financial statements included in Part I, Item 1 of this Form 10-Q.

Membership

Our medical membership includes seven different customer types: Local Group, Individual, National Accounts, BlueCard®, Senior, State-Sponsored and FEP. BCBS-branded business generally refers to members in our service areas licensed by the BCBSA. Non-BCBS-branded business refers to Amerigroup and CareMore members as well as UniCare members predominantly outside of our BCBSA service areas. For a more detailed description of our medical membership, see the Membership section of Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations included in our 2012 Annual Report on Form 10-K.

Medical Membership (in thousands)				

For the rolling 12 months ended March 31, 2013, total medical membership increased 2,136, or 6.3%, primarily due to State-Sponsored membership acquired with the acquisition of Amerigroup, partially offset by decreases in our Local Group, National Accounts and Senior membership.

Self-funded medical membership decreased 39, or 0.2%, primarily due to pricing increases in our National Accounts business.

Fully-insured membership increased 2,175, or 16.2%, primarily due to State-Sponsored membership acquired with the acquisition of Amerigroup, partially offset by membership losses in certain Local Group markets, as well as membership losses in our Senior business,

described below.

Table of Contents

Local Group membership decreased 237, or 1.6%, primarily due to strategic product portfolio changes in certain states, competitive pressure in certain markets and affordability challenges affecting our members and, we believe, healthcare consumers in general.

Individual membership decreased 26, or 1.4%, primarily due to a heightened competitive environment in certain markets.

National Accounts membership decreased 206, or 2.9%, primarily driven by pricing increases in our self-funded National Accounts business.

BlueCard® membership increased 14, or 0.3%, primarily due to favorable membership activity at other BCBSA plans whose members reside in or travel to our licensed areas.

Senior membership decreased 82, or 5.5%, primarily due to the transition toward HMO product offerings in our Medicare Advantage business.

State-Sponsored membership increased 2,650, or 141.9%, primarily due to membership acquired with the acquisition of Amerigroup.

FEP membership increased 23, or 1.5%, primarily due to favorable in-group change.

Other Membership (in thousands)

Our Other products are often ancillary to our health business, and can therefore be impacted by corresponding changes in our medical membership.

Behavioral health membership decreased 222, or 0.9%, primarily due to the overall declines in our Medicare and fully-insured Local Group membership.

Life and disability membership decreased 132, or 2.7%, primarily due to the overall declines in our Commercial fully-insured medical membership. Life and disability products are generally offered as part of Commercial medical fully-insured membership sales.

Dental membership increased 12, or 0.3%, primarily due to the launch of new dental products in 2012.

Dental administration membership increased 769, or 18.6%, primarily due to the acquisition of a large managed dental contract pursuant to which we provide dental administrative services.

Vision membership increased 349, or 8.2%, primarily due to strong sales in our Local Group, National Accounts and Individual businesses.

Medicare Advantage Part D membership decreased 97, or 16.6%, primarily due to the transition toward HMO product offerings.

Medicare Part D standalone membership decreased 105, or 17.8%, primarily due to competitive pressure in certain markets.

Retail vision customers increased 3,131 due to our acquisition of 1-800 CONTACTS.

Cost of Care

The following discussion summarizes our aggregate underlying cost of care trends for the rolling 12 months ended March 31, 2013 for our Local Group fully-insured business only.

Our cost of care trends are calculated by comparing the year-over-year change in average per member per month claim costs, including member co-payments and deductibles. While our cost of care trend varies by geographic location, based on underlying medical cost trends, we believe that a 2013 cost of care trend estimate of 7.0% plus or minus 50 basis points is appropriate.

Overall, our medical cost trend is driven by unit cost. Inpatient hospital trend is in the mid-single digit range and is primarily related to increases in the average cost per admission. While provider rate increases are a primary driver of unit cost trends, we continually negotiate with hospitals to manage these cost trends. We remain committed to optimizing our reimbursement rates and strategies to help address the cost pressures faced by employers and consumers. Both inpatient admission counts per thousand members and inpatient day counts per thousand members are slightly lower than prior year. The average length of stay is slightly higher than prior year. In addition to our re-contracting efforts, a number of clinical management initiatives are in place to help mitigate the inpatient trend. Focused review efforts continue in key areas, including inpatient behavioral health stays and spinal surgery cases, among others. Additionally, we continue to refine our programs related to readmission management, focused utilization management at high cost facilities, and post-discharge follow-up care.

Outpatient trend is in the high single digit range and is 80% cost driven and 20% utilization driven. Outpatient costs are a collection of different types of expenses, such as outpatient facilities, labs, x-rays, emergency room, and occupational and physical therapy. Per visit costs are still the largest contributor to overall outpatient trend, influenced largely by price increases within certain provider contracts. Outpatient utilization (visits per thousand members) is higher than the prior year. We continue to work with vendors and providers to help optimize site of service decisions, including key areas such as emergency room, lab, radiology, sleep studies, and surgery settings. As an example, we have launched a Sleep Management Program through our American Imaging Management subsidiary in a variety of regions. The program aligns the diagnosis and treatment of sleep apnea with clinical guidelines based on widely accepted medical literature, while at the same time enhancing member access to high value providers. This helps ensure treatment compliance by the member, allowing for the continuing payment for equipment rental and ongoing supplies. Programs like this, along with continued expansion and optimization of our utilization management programs, are serving to moderate trend.

Physician services trend is in the mid-single digit range and is 80% unit cost related and 20% utilization related. Increases in the physician care category are partially driven by contracting changes. We continue to collaborate with physicians to improve quality of care through pay-for-performance programs and bundled payment initiatives. Additionally, we continue to enhance our ability to detect and deter fraud and abuse, reducing waste in the system.

Pharmacy trend is in the mid-single digit range and driven primarily by unit cost (cost per prescription). Continued inflation in the average wholesale price of drugs is applying upward pressure to the overall cost per prescription, as is the increasing cost of specialty drugs. The increase in cost per prescription measures continues to be mitigated by improvements in our generic usage rates and benefit plan design changes. We are continuously evaluating our drug formulary to ensure the most effective pharmaceutical therapies are available to our members.

In response to cost trends, we continue to pursue contracting and plan design changes, promote and implement performance-based contracts that reward clinical outcomes and quality, and expand our radiology management, disease management and advanced care management programs. We are taking a leadership role in the area of payment reform as evidenced by the introduction of the Patient Centered Primary Care program. By establishing the primary care doctor as central to the coordination of a patient's health care needs, the initiative

Table of Contents

builds on the success of current patient-centered medical home programs in helping improve patient care while lowering costs. Additionally, our value-based contracting initiative continues to underscore our commitment to partnering with providers to improve quality and lower cost.

As evidenced by our expansion of CareMore into select New York and Virginia markets on January 1, 2013, we remain committed to providing access-based health care products and services that are simple to use and that customers can trust. CareMore's mission is to improve the overall lives and wellbeing of seniors by providing innovative, focused health care approaches to the complex problems of aging, while protecting precious financial resources of seniors and the Medicare Program. CareMore's model is focused on disease management programs that provide Medicare members with a hands-on approach to care coordination and intensive treatment of chronic conditions.

Consolidated Results of Operations

Our consolidated results of operations for the three months ended March 31, 2013 and 2012 are discussed in the following section.

	Three Months Ended March 31		\$ Change	% Change

Certain of the following definitions are also applicable to all other results of operations tables in this discussion:

¹ Includes interest expense and amortization of other intangible assets.

² Benefit expense ratio = Benefit expense ÷ Premiums. Premiums for the three months ended March 31, 2013 and 2012 were \$16,435.6 and \$14,138.5, respectively, and are included in total operating revenue presented above.

³ bp = basis point; one hundred basis points = 1%.

⁴ Selling, general and administrative expense ratio = Selling, general and administrative expense ÷ Total operating revenue.

Table of Contents

Total operating revenue increased \$2,396.1, or 15.8%, to \$17,546.3 in 2013, resulting primarily from our acquisition of Amerigroup in December 2012. Premium rate increases in our Local Group business designed to cover overall cost trends also contributed to the increased operating revenue. In addition, other revenues generated by 1-800 CONTACTS resulted in an increase over the prior year period. These increases were partially offset by fully-insured membership declines in our Local Group business due to strategic portfolio changes in certain states, competitive pressure in certain markets and affordability challenges affecting our members and, we believe, healthcare consumers in general. Lower revenues in our Medicare Advantage business due to membership declines also partially offset the increased operating revenues.

Net investment income decreased \$7.0, or 4.1%, to \$162.0 in 2013, primarily due to lower investment yields in the current year.

Net realized gains on investments decreased \$90.1, or 84.3%, to \$16.8 in 2013, primarily due to lower realized gains resulting from sales of fixed maturity securities.

Other-than-temporary impairment losses on investments increased \$27.0, or 247.7%, to \$37.9, primarily due to the impairment of certain joint venture investments.

Benefit expense increased \$1,976.8, or 16.8%, to \$13,748.7 in 2013, primarily from our acquisition of Amerigroup and increased benefit cost trends in our Local Group businesses. These increases were partially offset by the fully-insured membership declines in our Local Group business as described above and declines in our Medicare Advantage membership.

Our benefit expense ratio increased 40 basis points to 83.7% in 2013, primarily due to the acquisition of Amerigroup and the resulting change in the overall product mix. This increase was partially offset by the favorable impact of declines in membership in our Local Group businesses in products with higher benefit costs.

Selling, general and administrative expense increased \$199.3, or 9.2%, to \$2,365.0 in 2013, primarily due to the inclusion of selling, general and administrative expense related to our Amerigroup and 1-800 CONTACT subsidiaries in 2013, partially offset by lower personnel costs and advertising expenses.

Our selling, general and administrative expense ratio decreased 80 basis points to 13.5% in 2013, primarily due to the growth in revenue in 2013 related to our acquisition of Amerigroup exceeding the rate of increase in selling, general and administrative expenses. The decrease was further attributable to lower personnel costs and advertising expenses.

Cost of products increased \$65.0 due to the acquisition of 1-800 CONTACTS.

Other expense increased \$53.6, or 31.9%, primarily due to increased interest expense resulting from higher outstanding debt balances and financing costs associated with our acquisition of Amerigroup. In addition, increased amortization of intangible assets acquired with the Amerigroup and 1-800 CONTACTS acquisitions also contributed to the increase in other expense.

Income tax expense decreased \$51.4, or 11.3%, to \$401.9 in 2013, primarily due to a decrease in the effective tax rate. The effective tax rates in 2013 and 2012 were 31.2% and 34.6%, respectively. The decrease in the 2013 effective tax rate resulted primarily from inclusion of Amerigroup in our state apportionment factors calculation, which produces a lower effective state tax rate.

Our net income as a percentage of total revenue decreased 60 basis points to 5.0% in 2013 as compared to 2012 as a result of all factors discussed above.

Table of Contents**Reportable Segments**

We use operating gain to evaluate the performance of our reportable segments, which are Commercial, Consumer and Other. Operating gain is calculated as total operating revenue less benefit expense, selling, general and administrative expense, and cost of products. It does not include net investment income, net realized gains/losses on investments, other-than-temporary impairment losses recognized in income, interest expense, amortization of other intangible assets or income taxes, as these items are managed in a corporate shared service environment and are not the responsibility of operating segment management. For additional information, see Note 13, Segment Information, to our unaudited consolidated financial statements included in Part I, Item 1 of this Form 10-Q. The discussions of segment results for the three months ended March 31, 2013 and 2012 presented below are based on operating gain, as described above, and operating margin, which is calculated as operating gain divided by operating revenue. Our definitions of operating gain and operating margin may not be comparable to similarly titled measures reported by other companies.

Our Commercial, Consumer and Other segments summarized results of operations for the three months ended March 31, 2013 and 2012 are as follows:

	Three Months Ended		\$ Change	% Change

¹ Not applicable

Commercial

Operating revenue decreased \$107.0, or 1.3%, to \$8,399.5 in 2013, primarily due to fully-insured membership declines in our Local Group business resulting from strategic product portfolio changes in certain states, competitive pressure in certain markets and affordability challenges affecting our members, and, we believe, healthcare consumers in general. This decrease was partially offset by premium rate increases in our Local Group business designed to cover overall cost trends and revenues generated by 1-800 CONTACTS.

Operating gain increased \$115.7, or 11.7%, to \$1,107.5 in 2013, primarily due to improved results in our Local Group and National businesses. In addition, 1-800 CONTACTS contributed to the increased operating gain. The improved results in our Local Group business resulted from membership decreases in products with lower operating margins.

The operating margin in 2013 was 13.2%, a 150.0 basis point increase from 2012, primarily due to the factors discussed in the preceding two paragraphs.

Table of Contents

Consumer

Operating revenue increased \$2,445.0, or 51.5%, to \$7,195.4 in 2013, primarily due to the acquisition of Amerigroup, premium rate increases in our Individual business to cover cost trends and increased membership in our CareMore subsidiaries. These increases were partially offset by membership declines in our non-CareMore Medicare Advantage business related to the transition toward HMO product offerings.

Operating gain increased \$29.8, or 13.7%, to \$247.5 in 2013, primarily due to the acquisition of Amerigroup and the transition toward HMO product offerings in our Medicare Part D business. These increases were partially offset by lower operating margins in our Individual business and the impact of the geographic expansion of our CareMore subsidiaries.

The operating margin in 2013 was 3.4%, a 120.0 basis point decrease from 2012, primarily due to the factors discussed in the preceding two paragraphs.

Other

Operating revenue increased \$58.1, or 3.1%, to \$1,951.4 in 2013, primarily due to growth in our FEP business resulting from both premium rate increases designed to cover overall cost trends and increases in membership during 2013.

Operating gain increased \$9.5 to \$12.6 in 2013, primarily due to lower general and administrative expenses, including lower unallocated corporate expenses.

VII. Critical Accounting Policies and Estimates

We prepare our consolidated financial statements in conformity with GAAP. Application of GAAP requires management to make estimates and assumptions that affect the amounts reported in our consolidated financial statements and accompanying notes and within this MD&A. We consider some of our most important accounting policies that require estimates and management judgment to be those policies with respect to liabilities for medical claims payable, income taxes, goodwill and other intangible assets, investments and retirement benefits. Our accounting policies related to these items are discussed in our 2012 Annual Report on Form 10-K in Note 2, *Basis of Presentation and Significant Accounting Policies*, to our audited consolidated financial statements as of and for the year ended December 31, 2012, as well as in the *Critical Accounting Policies and Estimates* section of Part II, Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*. As of March 31, 2013, our critical accounting policies and estimates have not changed from those described in our 2012 Annual Report on Form 10-K.

New Accounting Pronouncements

In February 2013, the Financial Accounting Standards Board, or FASB, issued Accounting Standards Update 2013-02, *Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income*, or ASU 2013-02. ASU 2013-02 amends certain portions of Accounting Standards Codification Topic 220, *Comprehensive Income*, or ASC 220, to improve reporting by requiring the presentation, in one place, of significant reclassifications out of accumulated other comprehensive income on the respective line items in net income if the amount being reclassified is required under GAAP to be reclassified in its entirety to net income. For other amounts that are not required to be reclassified in their entirety to net income in the same reporting period, cross-reference to other disclosures that provide additional detail about those amounts is required. The adoption of ASU 2013-02 did not have an impact on our consolidated financial position, results of operations or cash flows. However, we have added certain disclosures related to the components and reclassification adjustments of accumulated other comprehensive income in Note 11, *Accumulated Other Comprehensive Income (Loss)* to our unaudited consolidated financial statements included in Part I, Item 1 of this Form 10-Q.

Table of Contents

There were no other new accounting pronouncements issued or that became effective during the three months ended March 31, 2013 that had, or are expected to have, a material impact on our financial position, operating results or disclosures.

Liquidity and Capital Resources***Introduction***

Our cash receipts result primarily from premiums, administrative fees, investment income, other revenue, proceeds from the sale or maturity of our investment securities, proceeds from borrowings, and proceeds from the exercise of stock options. Cash disbursements result mainly from claims payments, administrative expenses, taxes, purchases of investment securities, interest expense, payments on borrowings, acquisitions, capital expenditures, repurchases of our common stock and the payment of shareholder cash dividends. Cash outflows fluctuate with the amount and timing of settlement of these transactions. Any future decline in our profitability would likely have an unfavorable impact on our liquidity.

For a more detailed overview of our liquidity and capital resources management, see the *Introduction* section included in the *Liquidity and Capital Resources* section of Part II, Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations* included in our 2012 Annual Report on Form 10-K.

Liquidity

The table below outlines the change in cash and cash equivalents for the three months ended March 31, 2013 and 2012:

	Three Months Ended March 31	
	2013	2012
Cash flows provided by (used in):		
Operating activities	\$ 956.9	\$ 1,223.1
Investing activities	(1,195.6)	20.1
Financing activities	(579.1)	(1,167.0)
Effect of foreign exchange rates on cash and cash equivalents	(1.5)	1.3
(Decrease) increase in cash and cash equivalents	\$ (819.3)	\$ 77.5

During the three months ended March 31, 2013, net cash flow provided by operating activities was \$956.9, compared to \$1,223.1 for the three months ended March 31, 2012, a decrease of \$266.2. This decrease was driven primarily due to changes in the timing of government premium payments, as the first quarter of 2012 included an extra monthly payment. This decrease was partially offset by the addition of Amerigroup's operating cash flow in 2013.

Net cash flow used in investing activities was \$1,195.6 during the three months ended March 31, 2013, compared to net cash flow provided by investing activities of \$20.1 for the three months ended March 31, 2012. The change in cash flow from investing activities of \$1,215.7 between the two periods primarily resulted from an increase in net purchases of investments and changes in securities lending collateral.

Net cash flow used in financing activities was \$579.1 during the three months ended March 31, 2013, compared to \$1,167.0 for the three months ended March 31, 2012. The decrease in cash flow used in financing activities of \$587.9 primarily resulted from a decrease in common stock repurchases, an increase in the net proceeds from commercial paper borrowings, changes in securities lending payable and a decrease in repayments of short-term borrowings. These changes were partially offset by an increase in repayments of long-term borrowings.

Table of Contents

Financial Condition

We maintained a strong financial condition and liquidity position, with consolidated cash, cash equivalents and investments, including long-term investments, of \$22,838.0 at March 31, 2013. Since December 31, 2012, total cash, cash equivalents and investments, including long-term investments, increased by \$364.0 primarily due to cash generated from operations and changes in unrealized gains on investments, partially offset by common stock repurchases, the repayment of long-term debt, purchases of property and equipment and cash dividends paid to shareholders.

Many of our subsidiaries are subject to various government regulations that restrict the timing and amount of dividends and other distributions that may be paid to their respective parent companies. Certain accounting practices prescribed by insurance regulatory authorities, or statutory accounting practices, differ from GAAP. Changes that occur in statutory accounting practices, if any, could impact our subsidiaries' future dividend capacity. In addition, we have agreed to certain undertakings with regulatory authorities, including requirements to maintain certain capital levels in certain of our subsidiaries.

At March 31, 2013, we held at the parent company \$1,396.8 of cash and cash equivalents and investments, which is available for general corporate use, including investment in our businesses, acquisitions, potential future share repurchases and shareholder dividends and debt and interest payments.

We calculate a non-GAAP measure, our consolidated debt-to-capital ratio, which we believe assists investors and rating agencies in measuring our overall leverage and additional borrowing capacity. In addition, our bank covenants indicate a maximum debt-to-capital ratio that we cannot exceed. Our targeted range of debt-to-capital ratio is 25% to 35%. Our debt-to-capital ratio is calculated as the sum of debt divided by the sum of debt plus shareholders' equity. Our debt-to-capital ratio may not be comparable to similarly titled measures reported by other companies. Our consolidated debt-to-capital ratio was 37.8% and 38.6% as of March 31, 2013 and December 31, 2012, respectively. The higher than target consolidated debt-to-capital ratio at March 31, 2013 and December 31, 2012 was primarily due to the increased debt we incurred to finance our acquisition of Amerigroup, and we expect over time to return to targeted levels.

Our senior debt is rated A- by Standard & Poor's, BBB+ by Fitch, Inc., Baa2 by Moody's Investor Service, Inc. and bbb+ by AM Best Company, Inc. We intend to maintain our senior debt investment grade ratings. A significant downgrade in our debt ratings could adversely affect our borrowing capacity and costs.

Future Sources and Uses of Liquidity

We regularly review the appropriate use of capital, including common stock repurchases and dividends to shareholders. The declaration and payment of any dividends or repurchases of our common stock is at the discretion of our Board of Directors and depends upon our financial condition, results of operations, future liquidity needs, regulatory and capital requirements and other factors deemed relevant by our Board of Directors.

For additional information regarding our use of capital during the three months ended March 31, 2013, see Note 8, Debt and the Use of Capital Dividends and Stock Repurchase Program section of Note 10, Capital Stock to our unaudited consolidated financial statements included in Part I, Item 1 of this Form 10-Q.

For additional information regarding our future sources and uses of liquidity, see Future Sources and Uses of Liquidity included in the Liquidity and Capital Resources section of Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2012 Annual Report on Form 10-K.

Contractual Obligations and Commitments

We believe that funds from future operating cash flows, cash and investments and funds available under our credit agreement or from public or private financing sources will be sufficient for future operations and commitments, and for capital acquisitions and other strategic transactions.

Table of Contents

For additional information regarding our estimated contractual obligations and commitments, see the Other Contingencies and Contractual Obligations and Commitments sections of Note 9, Commitments and Contingencies, to our unaudited consolidated financial statements included in Part I, Item 1 of this Form 10-Q. There have been no material changes to our Contractual Obligations and Commitments disclosure in our 2012 Annual Report on Form 10-K other than the early redemption on January 25, 2013 of the outstanding principal balance of Amerigroup's \$475.0 of 7.500% senior unsecured notes due 2019. See Note 8, Debt to our unaudited consolidated financial statements included in Part I, Item 1 of this Form 10-Q.

Risk-Based Capital

Our regulated subsidiaries' states of domicile have statutory risk-based capital, or RBC, requirements for health and other insurance companies and health maintenance organizations largely based on the National Association of Insurance Commissioners, or NAIC, RBC Model Act. These RBC requirements are intended to measure capital adequacy, taking into account the risk characteristics of an insurer's investments and products. The NAIC sets forth the formula for calculating the RBC requirements, which are designed to take into account asset risks, insurance risks, interest rate risks and other relevant risks with respect to an individual insurance company's business. In general, under this Act, an insurance company must submit a report of its RBC level to the state insurance department or insurance commissioner, as appropriate, at the end of each calendar year. Our regulated subsidiaries' respective RBC levels as of December 31, 2012, which was the most recent date for which reporting was required, were in excess of all mandatory RBC thresholds. In addition to exceeding the RBC requirements, we are in compliance with the liquidity and capital requirements for a licensee of the BCBSA and with the tangible net worth requirements applicable to certain of our California subsidiaries.

These statements include, but are not limited to, financial projections and estimates and their underlying assumptions; statements regarding plans, objectives and expectations with respect to future operations, products and services; and statements regarding future performance. Such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond our control, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include: those discussed and identified in our public filings with the U.S. Securities and Exchange Commission, or SEC; increased government participation in, or regulation or taxation of health benefits and managed care operations, including, but not limited to, the impact of the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010; trends in health care costs and utilization rates; our ability to secure sufficient premium rates including regulatory approval for and implementation of such rates; our ability to contract with providers consistent with past practice; our ability to integrate and achieve expected synergies and operating efficiencies in the Amerigroup and 1-800 CONTACTS, Inc. acquisitions within the expected timeframes or at all and to successfully integrate our operations, as such integrations may be more difficult, time consuming or costly than expected, revenues following the transactions may be lower than expected and operating costs, customer loss and business disruption, including, without limitation, difficulties in maintaining relationships with employees, customers, clients and suppliers, may be greater than expected following the transactions; competitor pricing below market trends of increasing costs; reduced enrollment, as well as a negative change in our health care product mix; risks and uncertainties regarding Medicare and Medicaid programs, including those related to non-compliance with the complex regulations imposed thereon and funding risks with respect to revenue received from participation therein; a downgrade in our financial strength ratings; litigation and investigations targeted at our industry and our ability to resolve litigation and investigations within estimates; medical malpractice or professional liability claims or other risks related to health care services provided by our subsidiaries; risks inherent in selling health care products in the consumer retail market; our ability to repurchase shares of our common stock and pay dividends on our common stock due to the adequacy of our cash flow and earnings and other considerations; non-compliance by any party with the Express Scripts, Inc. pharmacy benefit management services agreement, which could result in financial penalties, our inability to meet customer demands, and sanctions imposed by governmental entities, including the Centers for Medicare and Medicaid Services; events that result in negative publicity for us or the health benefits industry; failure to effectively maintain and modernize our information systems and e-business organization and to maintain good relationships with third party vendors for information system resources; events that may negatively affect our licenses with the Blue Cross and Blue Shield Association; possible impairment of the value of our intangible assets if future results do not adequately support goodwill and other intangible assets; intense competition to attract and retain employees; unauthorized disclosure of member sensitive or confidential information; changes in the economic and market conditions, as well as regulations that may negatively affect our investment portfolios and liquidity; possible restrictions in the payment of dividends by our subsidiaries and increases in required minimum levels of capital and the potential negative effect from our substantial amount of outstanding indebtedness; general risks associated with mergers and acquisitions; various laws and provisions in our governing documents that may prevent or discourage takeovers and business combinations; future public health epidemics and catastrophes; and general economic downturns. Readers are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof. Except to the extent otherwise required by federal securities law, we do not undertake any obligation to republish revised forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. Readers are also urged to carefully review and consider the various disclosures in our SEC reports.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a detailed discussion of our market risks, refer to Part II, Item 7A, Quantitative and Qualitative Disclosures about Market Risk, included in our 2012 Annual Report on Form 10-K. There have been no material changes to any of these risks since December 31, 2012.

ITEM 4. CONTROLS AND PROCEDURES

We carried out an evaluation as of March 31, 2013, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information relating to us (including our consolidated subsidiaries) required to be disclosed in our reports under the Exchange Act. In addition, based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures.

There have been no changes in our internal control over financial reporting that occurred during the three months ended March 31, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
