**Item 1. INFORMATION CONTAINED IN THIS FORM 6-K REPORT**

Attached as Exhibit 99.1 is a copy of the press release of Golar LNG Limited dated April 26, 2011.

---

**Exhibit 99.1**

**Acquisition of Golar LNG Energy Shares**

Golar LNG Limited (Nasdaq:GLNG; OSE:GOL) ("Golar" or the "Company") today announced that in two private transactions with international institutional investors and a related party it has increased its ownership of Golar LNG Energy Limited (Oslo Axxess:GOLE) ("Golar Energy") from 61.1% to 90.5% with agreements to acquire an additional 69,841,044 Golar Energy shares. The sellers will receive one newly-issued Golar share for every 6.06 Golar Energy shares acquired. The shares will be issued at \$30.30.

The share acquisitions have been organised in two transactions. In the first transaction Golar has acquired 36,300,891 shares from international institutional investors and in the second transaction has acquired 33,540,153 from World Shipholding Limited, the Company's major shareholder. In first transaction shares will be issued with immediate effect. In the second transaction the shares will be issued upon filing of a prospectus. The two transactions will increase the Company's share capital by 11,524,911.

With the successful formation of Golar LNG Partners L.P., the Board of Directors of the Company believes that the increase in ownership of Golar Energy best serves the Company's strategy. While long-term contracted assets will be offered to Golar LNG Partners L.P. for acquisition, Golar will continue to develop long-term contracted projects within the LNG midstream sector as well as shorter term business and its LNG trading business. Golar will also hold a significant stake in Golar LNG Partners L.P. as well as its general partner and its incentive distribution rights.

ABG Sundal Collier ASA, Carnegie ASA, RS Platou Markets AS advised the Company on the private exchange transaction.

**Forward Looking Statements**

This press release contains forward-looking statements. These statements are based upon various assumptions, many of which are based, in turn, upon further assumptions, including the Company management's examination of historical operating trends. Although Golar believes that these assumptions were reasonable when made, because assumptions are inherently subject to significant uncertainties and contingencies which are difficult or impossible to predict and are beyond its control, the Company cannot give assurance that it will achieve or accomplish these expectations, beliefs or intentions.

Important factors that, in the Company's view, could cause actual results to differ materially from those discussed in this press release include the strength of world economies and currencies, general market conditions including fluctuations in charter hire rates and vessel values, changes in demand in the shipping market, changes in the Company's operating expenses including bunker prices, dry-docking and insurance costs, changes in governmental rules and regulations or actions taken by regulatory authorities, the demand for liquid natural gas and supply of LNG carriers, potential liability from pending or future litigation, general domestic and international political conditions, potential disruption of shipping routes due to accidents or political events, regulatory requirements and other important factors described from time to

time in the reports filed by the Company with the U.S. Securities and Exchange Commission.
