PROXY STATEMENT

INFORMATION ABOUT THE ANNUAL MEETING AND VOTING

This proxy statement and enclosed proxy card are being furnished to stockholders commencing on or about April 30, 2019 in connection with the solicitation by the Board of Directors (the "Board") of Echo Global Logistics, Inc., a Delaware corporation ("Echo," the "Company," "we," "us," or "our"), of proxies for use in voting at the 2019 annual meeting of stockholders (the "Annual Meeting"). You are receiving the proxy materials because the Board is seeking your permission (or proxy) to vote your shares at the Annual Meeting on your behalf. This proxy statement presents information that is intended to help you in reaching a decision on voting your shares of common stock. Only stockholders of record at the close of business on April 18, 2019, the record date, are entitled to vote at the Annual Meeting. As of April 18, 2019, there were 27,921,459 shares of common stock outstanding and entitled to vote.

Annual Meeting Information

Date and Location. The Annual Meeting will be held on Friday, June 14, 2019 at 9:00 a.m., Central Daylight Time, at our corporate headquarters at 600 West Chicago Ave., Suite 725, Chicago, Illinois 60654.

Admission. Only record or beneficial owners of the Company's stock, or their proxies, may attend the Annual Meeting in person. When you arrive at the Annual Meeting, you must present photo identification, such as a driver's license. Beneficial owners also must provide evidence of stock holdings, such as a recent brokerage account or bank statement.

Voting Information

Record Date. The record date for the Annual Meeting is April 18, 2019. You may vote all shares of the Company's common stock that you owned as of the close of business on that date. Each share of common stock entitles you to one vote on each item to be voted on at the Annual Meeting. Cumulative voting is not permitted. On the record date, there were 27,921,459 shares of common stock outstanding and entitled to vote. We have no other voting securities.

Confidential Voting. Your vote will be confidential except (a) as may be required by law, (b) as may be necessary for the Company to assert or defend claims, (c) in the case of a contested election of director(s) or (d) at your express request.

Vote by Proxy. If your shares of common stock are held in your name with our transfer agent, American Stock Transfer & Trust Company, you are considered the stockholder of record with respect to those shares. As the stockholder of record, you can vote your shares on matters presented at the Annual Meeting or by proxy. There are three ways to vote by proxy:

1. By Telephone - Stockholders can vote by telephone by calling 1-800-690-6903 and following the instructions on the proxy card;
2. By Internet - You can vote over the Internet at www.proxyvote.com by following the instructions on the proxy card;
or
3. By Mail - You can vote by mail by signing, dating and mailing your proxy card.

Any proxy given pursuant to such solicitation by a stockholder of record and received in time for the Annual Meeting will be voted as specified in such proxy. If no instructions are given, proxies will be voted FOR the election of the nominees listed below under the caption "PROPOSALS TO BE VOTED ON--Proposal 1: Election of Directors," FOR the ratification of the appointment of Ernst & Young LLP as independent registered public accounting firm for the Company's fiscal year ending December 31, 2019 under "PROPOSALS TO BE VOTED ON--Proposal 2: Ratification of Appointment of Independent Registered Public Accounting Firm," FOR advisory approval of the compensation of our named executive officers as disclosed in this proxy statement under "PROPOSALS TO BE VOTED ON--Proposal 3: Advisory Approval of the Compensation of Our Named Executive Officers," and in the discretion of the proxies named on the proxy card, with respect to any other matters properly brought before the Annual Meeting and any adjournments thereof.

Submitting Voting Instructions for Shares Held Through a Broker. If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in "street name," and these proxy materials are being forwarded to you by your broker, bank or nominee who is considered the stockholder of record with respect

to those shares. As the beneficial owner, you have the right to direct your broker, bank or nominee on how to vote and are also invited to attend the Annual Meeting with proper evidence of stock holdings, such as a recent brokerage account or bank statement. Street name stockholders should check the voting instruction cards used by their brokers or nominees for specific instructions on methods of voting. If your shares are held in street name, you must contact your broker or nominee to revoke your proxy.

If you hold shares through a broker, follow the voting instructions you receive from your broker. If you want to vote in person at the Annual Meeting, you must obtain a legal proxy from your broker and present it at the Annual Meeting. If you do not submit voting instructions to your broker, your broker may still be permitted to vote your shares in certain cases. A broker non-vote occurs when a broker or other nominee holding shares for a beneficial owner does not vote on a particular proposal because the broker or nominee does not have discretionary voting power and has not received instructions from the beneficial owner. If you do not give your broker or nominee instructions on how to vote your shares, your broker or nominee can vote your shares with respect to "routine" items but not with respect to "non-routine" items. "Proposal 1: Election of Directors" and "Proposal 3: Advisory Approval of the Compensation of Our Named Executive Officers" are non-routine matters for which your broker or nominee may not vote without explicit instructions from you. "Proposal 2: Ratification of Independent Registered Public Accounting Firm" is a routine matter for which your broker or nominee may vote your shares without explicit instructions from you.

Quorum. In order to carry on the business of the Annual Meeting, we must have a quorum. This means that stockholders representing at least 50% of the common stock issued and outstanding as of the record date must be present at the Annual Meeting, either in person or by proxy. Abstentions and broker non-votes are counted as present for purposes of establishing a quorum, but broker non-votes are not considered "present" for purposes of voting on non-routine matters.

Revoking Your Proxy. You may revoke your proxy at any time by (1) providing written notice to Kyle L. Sauers, Corporate Secretary, Echo Global Logistics, Inc., 600 West Chicago Avenue, Suite 725, Chicago, Illinois 60654 at any time prior to the voting thereof, (2) submitting a proxy with a later date or (3) attending the Annual Meeting and voting in person.

Vote Required to Elect Directors. In order to be elected, director nominees must receive the affirmative vote of a majority of the votes cast in the election of directors. In other words, a nominee for director must receive more votes "FOR" his or her election than votes "AGAINST" such nominee. The size of the Board is currently set at seven members. Abstentions and broker non-votes will have no effect on the election of directors.

Vote Required to Adopt Other Proposals. "Proposal 2: Ratification of Independent Registered Public Accounting Firm" requires the affirmative vote of a majority of the shares of common stock represented at the Annual Meeting and entitled to vote thereon. Abstentions will have the same effect as a vote against the ratification of the independent registered accounting firm, and there will be no broker non-votes with respect to this proposal, as it is a discretionary item.

"Proposal 3: Advisory Approval of the Compensation of Our Named Executive Officers" is a single "yes" or "no" vote on the total compensation package provided to the named executive officers, as described in the Compensation Discussion and Analysis and related compensation tables. The stockholder vote will not be binding on the Company or the Board and may not be construed as (1) overruling their decision, (2) creating or implying any addition or change to the Board's fiduciary duties, or (3) restricting or limiting stockholders' ability to make proposals for inclusion in proxy materials related to executive compensation.

Director Nominations. For a stockholder to nominate an individual to serve as a director at the 2020 Annual Meeting, the stockholder must follow the procedures outlined in this proxy statement under the caption "OTHER INFORMATION—Stockholder Proposals for the 2020 Meeting." Stockholders may also designate a director nominee to be considered by the Board for recommendation to the stockholders at the 2020 Annual Meeting by following the procedures outlined in this proxy statement under the caption "BOARD OF DIRECTORS AND CORPORATE GOVERNANCE—Meetings and Committees of the Board of Directors—Nominating and Corporate Governance Committee."

PROPOSALS TO BE VOTED ON

Proposal 1: Election of Directors

Nominees

The size of the board is currently set at seven members. At the Annual Meeting, the stockholders will elect seven directors to serve until the 2020 Annual Meeting of stockholders or until their respective successors are elected and qualified. Unless marked otherwise, proxies received will be voted "FOR" the election of each of the seven nominees named below. Any director vacancy occurring after the election may be filled by a majority vote of the remaining directors. In accordance with the Company's by-laws, a director appointed to fill a vacancy will be appointed to serve until the next annual meeting of stockholders held for the election of directors.

All nominees have consented to be named in this proxy statement and to serve as directors, if elected. If any nominee is unable or unwilling to serve as a director at the time of the Annual Meeting, the persons who are designated as proxies intend to vote, in their discretion, for such other persons, if any, as may be designated by the Board. As of the date of this proxy statement, the Board has no reason to believe that any of the persons named herein will be unable or unwilling to serve as a nominee or as a director if elected.

The Company believes that the Board as a whole should encompass a range of talent, skill, diversity and expertise enabling it to provide sound guidance with respect to the Company's operations and interests. In addition to considering a candidate's background and accomplishments, candidates are reviewed in the context of the current composition of the Board and the evolving needs of our business. The Company does not have a formal policy with regard to the consideration of diversity in identifying candidates, but the Nominating and Corporate Governance Committee strives to nominate candidates with a variety of complementary skills so that, as a group, the Board will possess the appropriate level of talent, skills and expertise to oversee the Company's business. The Company regularly assesses the size of the Board, whether any vacancies are expected due to retirement or otherwise, and the need for particular expertise on the Board. The Company's policy is to have at least a majority of directors qualify as "independent directors" as defined in the rules of the Nasdaq Global Market. Currently, six of our seven directors are independent.

The Nominating and Corporate Governance Committee seeks candidates with strong reputations and experience in areas relevant to the strategy and operations of the Company, particularly in industries and growth segments that the Company serves. Each director nominee holds or has held senior positions in complex organizations and has operating experience that meets this objective, as described below. In these positions, the director nominees have also gained experience in core management skills, such as strategic and financial planning, public company financial reporting, corporate governance, risk management and leadership development. Each of our directors also has experience serving on boards of directors or trustees and committees of other companies.

The Nominating and Corporate Governance Committee also believes that each of the nominees and current directors has other key attributes that are important to an effective board: integrity and demonstrated high ethical standards; sound judgment; analytical skills; the ability to engage management and each other in a constructive and collaborative fashion; diversity of origin, background, experience, and thought; and the commitment to devote significant time and energy to service on the Board and its committees.

The names of the Company's current directors and director nominees, their ages as of April 18, 2019, their recent employment or principal occupation, the names of other public companies for which they currently serve as a director or have served as a director within the past five years, and their period of service as director of the Company are set forth below:

The affirmative vote of the holders of a majority of the Company's common stock present at the Annual Meeting in person or by proxy and entitled to vote on this proposal is required to approve the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the current fiscal year.

Recommendation of the Board of Directors

THE BOARD RECOMMENDS A VOTE "FOR" RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG LLP AS THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2019.

Proposal 3: Advisory Approval of the Compensation of Our Named Executive Officers

Under Section 14A of the Securities Exchange Act of 1934, enacted pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, the Company is required to provide a stockholder advisory vote, at least every three years, to approve the compensation of our named executive officers, as disclosed in our Compensation Discussion and Analysis, related compensation tables, and other related material under the compensation disclosure rules of the Securities and Exchange Commission set forth in this proxy statement. Based on feedback from our stockholders at the 2017 Annual Meeting, our Board elected to provide this vote on an annual basis. At our 2018 Annual Meeting, in a non-binding vote, a majority of shares cast voted in favor of our executive compensation program and practices disclosed in our 2018 proxy statement.

This advisory vote will not be binding on or overrule any decisions by our Board, will not create or imply any additional fiduciary duty on the part of the Board, and will not restrict or limit the ability of our stockholders to make proposals for inclusion in proxy materials related to executive compensation. However, our Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements. Our Board has determined that the best way to allow our stockholders to vote on the Company's executive pay programs and policies is through the following resolution:

RESOLVED, that the stockholders approve the compensation of our named executive officers as disclosed in this proxy statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission (which includes the Compensation Discussion and Analysis, the compensation tables, and related material).

Required Vote. Approval of this proposal will require the affirmative vote of a majority of the holders of our common stock represented in person or by proxy and entitled to vote at the Annual Meeting.

Recommendation of the Board of Directors

THE BOARD RECOMMENDS A VOTE "FOR" ADVISORY APPROVAL OF THE COMPENSATION OF THE COMPANY'S NAMED EXECUTIVE OFFICERS AS DISCLOSED IN THIS PROXY STATEMENT.

BOARD OF DIRECTORS AND CORPORATE GOVERNANCE

Board Leadership Structure

Our Board is led by our Chairman and CEO, Douglas R. Waggoner. In accordance with Company policy, the Board of Directors sets high standards for the Company's employees, officers and directors. It is the duty of the Board and its leadership to serve as a prudent fiduciary for stockholders and to oversee the management of the Company's business. We believe that having Mr. Waggoner serve as Chairman and CEO is the most appropriate structure for the Company, as Mr. Waggoner can unify his responsibility for setting the strategic direction of the Company with his role of providing guidance to the leadership team as Chairman of the Board. Our current Lead Independent Director, Samuel K. Skinner, serves as a liaison between senior management and the Company's independent directors, and presides at executive sessions of the Board. The role of Lead Independent Director was created in June 2015 to further enhance the Board's independence and corporate governance. We believe our current board leadership structure strengthens the alignment between the Board and the day-to-day operations of the Company and is most appropriate for the Company at this time.

Board of Directors' Role in Risk Oversight

Risk assessment and oversight are a critical part of our corporate governance and management processes. Our Board encourages management to promote a culture that incorporates risk management into both our overall corporate strategy and our day-to-day business operations. It is management's responsibility to identify, evaluate, manage and mitigate risk within the context of our strategic plans and to bring to the Board's attention the most material risks facing the Company. It is the Board's responsibility to oversee our overall risk management processes and to ensure that management is taking appropriate action to manage material risks. The Board has delegated certain risk management oversight tasks to the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee in their respective areas of financial statement compliance and financial reporting, compensation plans and policies, and general corporate governance practices.

The Board also relies on the external audit of financial information, the Company's internal control structure, the Company's insurance advisors and the historically conservative practices of the Company to provide comfort on the Company's ability to manage its risks.

Code of Ethics and Business Conduct

Echo is committed to acting with uncompromising honesty and integrity. Every employee is required to sign the Echo Employee Handbook, which includes the Code of Ethics and Business Conduct. Echo performs internal audits to ensure compliance with this requirement. The Code of Ethics and Business Conduct provides guidance to employees on adhering to this commitment, while recognizing that it does not address every situation an employee is likely to encounter. This code is therefore not a substitute for an employee's responsibility and accountability to exercise good judgment and obtain guidance on appropriate business conduct. Echo also incorporates further ethics content in its induction training and within other sections of the Echo Employee Handbook.

Equal Employment Opportunity

Echo is an equal opportunity employer. In accordance with applicable federal, state and local law, we prohibit discrimination against any applicant or employee based on any legally-recognized basis, including, but not limited to: veteran status, uniformed service member status, race, color, religion, sex, sexual orientation, gender identity, age (40 and over), pregnancy (including childbirth, lactation and related medical conditions), national origin or ancestry, physical or mental disability, genetic information (including testing and characteristics) or any other consideration protected by federal, state or local law. Our commitment to equal opportunity employment applies to all persons involved in our operations and prohibits unlawful discrimination by any employee, including supervisors and co-workers.

Employment Practice Standards

We encourage all clients and carriers with which we do business to:

• Observe laws and internationally recognized labor standards;

Ensure training and education on labor rights for employees; and

Refrain from knowingly employing anyone who has contributed to the violation of labor rights.

We recognize that we have a responsibility to ensure that human rights are upheld in our supply chain. An extensive on-boarding process is performed for each carrier partner to mitigate the risk of Echo engaging with a supplier having conflicting values to ours.

7

We are not aware of any significant risk of our operations causing or directly contributing to adverse impacts on the human rights of others. If we identify that adverse impacts have occurred, we will work to remediate those impacts through legitimate and proportionate processes. In addition, no instances have been identified where freedom of association or collective bargaining have been found to be at a material risk.

Social and Environmental Responsibility

Echo considers social, environmental and fair economic business principles as key elements of its business. Echo supports employee resource groups such as Women at Echo, Echo Parents, Echo Pride and the Military Employee Interest Group. Echo Gives is a platform allowing employees to make payroll contributions to over 300 charities worldwide and includes a company-funded dollar match. Echo also funds an employee Corporate Citizenship Committee that provides volunteer opportunities to employees within their communities.

For three consecutive years, Echo has been named one of Chicago's Best and Brightest Companies to Work For®. The Best and Brightest Companies to Work For® competition recognizes organizations that display a commitment to excellence in their employee practices. The judges assess companies based on categories such as communication, employee education and employee recognition. Echo's continued commitment to crafting the best employee experience emphasizes initiatives to cultivate collaboration, a high-energy culture and career development.

Echo is sensitive to the environmental consequences of its operations. Accordingly, we strive to maintain compliance with all applicable federal and state environmental laws and regulations. Echo is an EPA SmartWay® Transport ("SmartWay") partner striving to improve the operational efficiencies of its clients and carrier partners through its technology and services. SmartWay provides Echo with an annual report which measures grams per mile of carbon dioxide, nitrogen, and particulate matter. For two consecutive years, Echo has been named a Green Supply Chain Partner by Inbound Logistics, an honor which placed the Company among the leading 75 companies in the area of green transportation management solutions. Internally, Echo strives to reduce its overall carbon footprint by encouraging company-wide recycling efforts, minimizing power use through eco-friendly lighting systems and offering commuter benefits to employees for the use of public transportation.

Echo also advises its clients and carrier partners on supply chain practices that minimize carbon emissions and eliminate costs. By using technology, industry expertise, and its extensive carrier network and multi-modal transportation options, Echo helps clients and carrier partners improve operational efficiencies and lower carbon emissions.

Safety and Health Practices

Echo's corporate values, policies (including the Code of Ethics and Business Conduct) and practices are aligned to promote care and concern for others, keeping our employees and others safe and healthy. Our employees are provided with the knowledge, skills and abilities to work safely and maintain a healthy environment. Echo establishes viable security measures to ensure the Company's facilities are safe and secure to the maximum extent.

Echo provides workers' compensation coverage to all employees for injuries incurred or occupational illnesses sustained on the job. Our aim is to maintain safety measures that are appropriate, enforceable, consistent and compliant with legislation.

In evaluating candidates for nomination, the Nominating and Corporate Governance Committee utilizes a variety of methods. The Company does not have a formal policy with regard to the consideration of diversity in identifying candidates, but the Nominating and Corporate Governance Committee strives to nominate candidates with a variety of complementary skills so that, as a group, the Board will possess the appropriate level of talent, skills and expertise to oversee the Company's business. The Company regularly assesses the size of the Board, whether any vacancies are expected due to retirement or otherwise, and the need for particular expertise on the Board. Candidates may come to the attention of the Nominating and Corporate Governance Committee from current Board members, stockholders, professional search firms, officers or other persons. The Nominating and Corporate Governance Committee will review all candidates in the same manner regardless of the source of recommendation. During 2018, the Nominating and Corporate Governance Committee held one meeting.

Compensation Discussion and Analysis

The following Compensation Discussion and Analysis ("CD&A") describes our executive compensation program and philosophy, our compensation-setting process, the elements of our executive compensation program and the compensation decisions made in 2018. Executive Summary

Echo Global Logistics is a leading provider of technology-enabled transportation and supply chain management solutions. We utilize a proprietary technology platform to compile and analyze data from our multi-modal network of transportation providers to satisfy the transportation and logistics needs of our clients. Our platform enables us to quickly adapt to and offer efficient and cost-effective solutions for our clients' shipping needs. We focus primarily on arranging transportation with truckload ("TL") and less than truckload ("LTL") carriers. We also offer intermodal (which involves moving a shipment by rail and truck), small parcel, domestic air, expedited and international transportation services. Our core logistics services include carrier selection, dispatch, load management and tracking. The success of our model and its ability to deliver a competitive value proposition to shippers (our clients) has been the main driver behind our historical growth, and we believe will serve as the basis for our continued expansion. Our continued expansion and future success is dependent on our talented workforce, including our executive team. We encourage stockholders to review this CD&A, the compensation tables and the related narrative disclosures which outline the objectives of and the philosophy behind our compensation program.

2018 Say-on-Pay Result and Shareholder Outreach

At our Annual Meeting of Stockholders held in June 2018, our executive compensation program proposal (commonly referred to as a "say-on-pay proposal") received approximately 54.5% support from our stockholders. Following this outcome, the Company was determined to better understand the factors that drove this result by soliciting input and feedback through engagement with our stockholders. During 2018, commencing prior to, and continuing after, our Annual Meeting, we participated in meetings, phone calls and correspondence with our significant stockholders. We reached out to 35 stockholders, who together owned over 87% of our outstanding common stock, and successfully conducted meaningful engagements with 25 of these stockholders, who hold 53% of our outstanding common stock. Finally, we sought feedback from the largest proxy advisor firm to discuss executive compensation and governance matters.

These discussions were led by members of our management team and the results of these conversations were reported to and discussed by the Compensation Committee. Through these conversations we gained a deeper understanding of investor viewpoints and concerns that we have incorporated into improving our compensation program and philosophy.

In addition to assessing feedback from our stockholders, we undertook a review of our executive compensation program to identify other areas of improvement.

The table below summarizes the feedback we obtained, the actions we took in response to this feedback and areas of improvement we identified through our review of the executive compensation program.

What We Heard

Insufficient disclosure on stockholder outreach activities

CD&A lacked disclosure on how individual performance was evaluated and contributed to the individual executive bonuses

Better demonstration of how pay and performance are aligned over time

What We Did

- Strengthened our CD&A disclosure regarding our engagement efforts by adding this "Say-on-Pay Result and Shareholder Outreach" section.
- Expanded discussion of annual cash incentives and the factors that contribute to individual award payouts
- Added discussion of "realizable" pay demonstrating the actual amounts our NEOs are eligible to earn over time based on

Company performance

- Increased focus on long-term, sustainable performance by decreasing the maximum payout under the annual incentive plan from 250% to 200% of target for 2019

Review maximum payout under the annual incentive plan

- For 2019, reduced the maximum payout under the annual incentive plan from 250% of target to 200% of target

Beyond the foregoing, our stockholders did not identify any other areas of concern regarding the substance or disclosure of our executive compensation program. The Compensation Committee will continue to consider the outcome of our say-on-pay proposals when making future compensation decisions for our named executive officers.

Financial Highlights and Compensation Considerations

As our Company has continued to grow and expand, it has been imperative that the Compensation Committee continually evaluate and transform our executive compensation program to appropriately structure pay packages with consideration for our business objectives, investor expectations and industry standards in light of our evolving business. Our Compensation Committee designs and implements our incentive programs with the firm belief that our compensation program should motivate performance and support achievement of our corporate goals beyond those of individuals.

In order to accomplish these goals, our annual cash incentives and long-term equity incentives are tied to key internal metrics and relative total shareholder return. Specifically, our annual cash incentive plan utilizes Net Revenue⁽¹⁾ and Adjusted EBITDA⁽¹⁾ achievement against targets, while our long-term incentive program features performance shares that are earned based on our relative total shareholder return versus our peers.

⁽¹⁾ "Net Revenue" and "Adjusted EBITDA" are financial measures that are not calculated in accordance with accounting principles generally accepted in the United States ("GAAP"). For more information regarding Net Revenue and Adjusted EBITDA and a reconciliation to the nearest comparable GAAP measure, see Appendix A, "Reconciliation of Non-GAAP Financial Measures."

How Our Pay Program Works

Our guiding principle is to establish and maintain a compensation program that is fair and reasonable, market competitive and performance driven. Further, our compensation program should support our business strategy and organizational objectives, while successfully aligning executive focus and interest with that of shareholders. The Compensation Committee employs a total compensation approach in establishing executive compensation opportunities, consisting of base salary, annual cash incentives, long-term equity incentives, a competitive benefits package and limited perquisites.

The Compensation of our named executive officers in 2018 consisted of the following primary elements:

Base Salary	<ul style="list-style-type: none"> • Fixed level of cash compensation set with consideration of responsibilities, individual contribution, expertise and market data • 100% at-risk compensation based on individual performance and Company performance against Net Revenue⁽¹⁾ and Adjusted EBITDA⁽¹⁾
Annual Cash Incentives	<ul style="list-style-type: none"> • NEOs may earn between 0% and 250% of target annual incentive based on performance achievement • Designed to motivate and reward our executives for the achievement of company-wide objectives and individual contributions • Target annual cash incentive based on percentage of base salary • Vests ratably over a four-year period based on continued service
Restricted Stock	<ul style="list-style-type: none"> • Generally, upon an NEO's separation from service, any then unvested restricted stock would be forfeited • Designed as a retention vehicle for our top executive talent and to align the long-term interests of the NEOs with those of the shareholders
Long-Term Equity Incentives	<ul style="list-style-type: none"> • 100% at-risk compensation based on Company's total shareholder return relative to a peer group
Performance Shares	<ul style="list-style-type: none"> • NEOs may earn between 0% and 200% of target number of performance shares granted based on performance achievement • Designed to drive sustained share price performance, encourage retention and align NEOs' interests with those of the shareholders

⁽¹⁾ "Net Revenue" and "Adjusted EBITDA" are financial measures that are not calculated in accordance with accounting principles generally accepted in the United States ("GAAP"). 2018 Target Pay Mix

Consistent with our philosophy of aligning executive pay with performance, and to align the interests of management and shareholders, our compensation packages are designed to provide the majority of executive compensation in the form of variable, at-risk pay which is earned based on the short- and long-term performance of the Company. Our Compensation Committee thoughtfully employs the primary compensation elements described in the table above in order to achieve the target compensation mix as illustrated below:

Note: Amounts may not foot due to rounding.

Pay and Performance Alignment - Realizable Pay

We believe stockholders should understand how much of the above-mentioned target compensation value is actually "realizable" by executives, as this comparison is an important demonstration of the alignment between pay and performance that permeates throughout our executive compensation program. As illustrated in the graphic below, our

CEO and other NEOs have received performance shares and shares of restricted stock totaling approximately \$8.3 million and \$6.8 million at target,

16

grant date fair value, respectively. However, based on our stock price as of the end of 2018, the actual value that our CEO and other NEOs could realize from these equity awards is far less.

"Target Shares" is the value of equity (performance shares and service-based restricted stock) based on the grant date fair value.

"Realizable" is the value of the equity compensation earned or deliverable for each year calculated as of the end of the 2018 fiscal year, including the intrinsic value of long-term incentive plan components, as valued on December 31, 2018 (the last trading day of fiscal year 2018) using the year-end share price of \$20.33/share.

Compensation Governance

The Compensation Committee, along with the Company, places high importance on continued increased governance to ensure the alignment between the interests of our executives with those of shareholders and to mitigate excessive risk-taking. The Compensation Committee engages an independent compensation consultant to provide outside advice and feedback on its current compensation policies. These practices, which encourage actions that are in the long-term interests of our shareholders and the Company, include:

Compensation Program Objectives and Philosophy

The objectives of our compensation program are to:

- attract, motivate and retain talented and dedicated named executive officers;
- provide our named executive officers with both cash and equity incentives that link our interests and those of our stockholders; and
- provide our named executive officers with long-term incentives so we can retain them and provide stability during periods of rapid growth.

Use of Peer Group. We define our competitive market for executive talent and investment capital to be the transportation and technology services industries. In 2017, the Compensation Committee engaged Aon, a nationally recognized and reputable executive compensation consulting firm, to provide market information for the total cash and total direct compensation elements of our compensation program against our peer group of companies and present the results to the Compensation Committee in preparation for executive compensation decisions.

The peer group was determined based on several factors including industry and size. From an industry perspective, balancing the number of transport companies versus technology/Business Process Outsourcing ("BPO") companies was important in designing the peer group. From a size perspective, generally peers that were approximately one-third to three times the Company's revenues were included; however, some exceptions were made for companies that we considered to be our direct competitors.

For the purpose of making 2018 executive compensation decisions, the Compensation Committee determined the following companies would comprise our peer group:

ArcBest Corporation (ARCB)	Hub Group, Inc. (HUBG)	Roadrunner Transportation Systems, Inc. (RRTS)
Blackbaud, Inc. (BLKB)	J.B. Hunt Transportation Services (JBHT)	Ryder System, Inc. (R)
C.H. Robinson Worldwide, Inc. (CHRW)	Landstar System, Inc. (LSTR)	The Ultimate Software Group, Inc. (ULTI)
CSG Systems International, Inc. (CSGS)	Manhattan Associates, Inc. (MANH)	Verint Systems, Inc. (VRNT)
ExlService Holdings, Inc. (EXLS)	Microstrategy, Inc. (MSTR)	Werner Enterprises, Inc. (WERN)
Fair Issac Corporation (FICO)	Old Dominion Freight Line, Inc. (ODFL)	WEX, Inc. (WEX)
Forward Air Corporation (FWRD)	Pegasystems, Inc. (PEGA)	XPO Logistics (XPO)

The Compensation Committee used the peer data to determine market reference points for consideration when determining the total cash and total direct compensation of our Chief Executive Officer, Chief Financial Officer, and Chief Operating Officer. No specific percentile of the market data was targeted when making this determination.

In 2019, Echo engaged Aon in an executive compensation study to determine the 2019 executive compensation plan. As part of this study, the above peer group list was slightly modified to better align with the Company and industry peers. Roadrunner Transportation Systems, Inc. (RRTS) was removed from the group due to recent market performance.

Role of the Compensation Committee, Compensation Consultant and Management in Setting NEO Compensation

Our Compensation Committee, comprised solely of independent directors, oversees the design and implementation of our executive compensation program. Based on input from the CEO (as discussed below) and other significant factors (see discussion below on "Compensation Committee Process"), the Committee reviews and evaluates the performance of our NEOs and determines their compensation and objectives, or, in the case of our CEO, recommends compensation and objectives to the independent, non-executive members of the Board. The Compensation Committee monitors compensation trends and developments periodically and undertakes a comprehensive assessment of our

compensation program at least annually. In fulfilling these responsibilities, the Compensation Committee utilizes the support of independent compensation consulting firms and independent outside counsel.

In 2018, the Compensation Committee retained Aon to provide advice and information regarding the design and implementation of the Company's executive compensation program. Aon also provided information to the Compensation

Committee regarding regulatory and other technical developments that may be relevant to the Company's executive compensation program. In addition, Aon provided the Compensation Committee with competitive market information, analyses and trends on executive base salary, annual incentives, long-term incentives, benefits and perquisites.

Company executives participate in the review and refinement of our executive compensation program. The CEO meets with the Compensation Committee to discuss compensation packages for executive officers and to review the performance of the Company and each executive officer, other than himself, and make recommendations with respect to the appropriate base salary, annual cash bonus and grants of long-term equity incentive awards. The Compensation Committee then discusses the CEO's recommendations and determines the annual compensation package for each executive officer. The Compensation Committee reviews the CEO's performance, and recommends an appropriate compensation package to the independent, non-executive members of the Board.

Compensation Committee Process

The decisions of the Compensation Committee and the independent directors relating to executive compensation each year reflect a variety of quantitative metrics in addition to qualitative analysis. The Compensation Committee's decisions reflect its members' individual and collective experience and business judgment, and are based on extensive interactions with independent consultants, management and assessment of some or all of the following factors, among others:

- Company performance (relative to peers and budget);
- Talent, experience and tenure of each NEO;
- Individual leadership performance and contributions to the success of the Company;
- Responsibilities of, and future expectations for, each NEO;
- Short-, medium- and long-term executive talent needs of the Company;
- The need to provide competitive levels of compensation to retain our talented NEOs;
- Other qualitative contributions of each NEO;
- Internal pay equity considerations;
- Peer group pay levels; and
- Advice from independent advisors.

We consider these and other qualitative and quantitative factors from time-to-time in assessing our compensation philosophy and approach, in addition to using these factors to make individual compensation decisions. Our independent directors are intimately familiar with matters that the Board oversees and guides, including the Company's business, strategies, challenges and opportunities. They apply their independent judgment and experience to assess the unique respective talents, contributions, leadership, responsibilities and future expectations of the executives who drive performance and long-term sustainability of the Company.

Elements of Compensation Program

Base Salaries

We provide the opportunity for our named executive officers and other executives to earn a competitive annual base salary. The Compensation Committee reviews base salaries annually and adjusts base salaries in accordance with its compensation philosophy. For 2017 and 2018, the Compensation Committee set our named executive officers' base salaries at compensation benchmarks presented in the aforementioned peer group study completed in 2017. No specific percentile of the market data from the study was targeted when making compensation decisions. In determining base salaries of our named executive officers, the Compensation Committee considers the results of the relevant study as well as the performance of each executive, the nature of his responsibilities and the Company's general compensation practices.

The table below shows our named executive officers' base salary rates (and related increases) since 2017:

Name and Principal Position	2017 (\$)	2018 (\$)	Percent Increase over 2017 ⁽¹⁾	
				%
Douglas R. Waggoner Chief Executive Officer	798,000	830,000	4	%
Kyle L. Sauers Chief Financial Officer	451,000	475,000	5	%
David B. Menzel President & Chief Operating Officer	562,000	587,000	4	%

⁽¹⁾ Increases in compensation from 2017 to 2018 were driven by market factors and increased responsibilities due to the growth of the Company, along with a comparison to the applicable peer group.

For 2019, base salaries were set by reference to a new peer group study completed in 2019. The 2019 base salaries, and the percent increases over 2018, for each of our named executive officers are shown in the table below:

Name and Principal Position	2019 (\$)	Percent Increase over 2018 ⁽¹⁾	
			%
Douglas R. Waggoner Chief Executive Officer	863,000	4	%
Kyle L. Sauers Chief Financial Officer	494,000	4	%
David B. Menzel President & Chief Operating Officer	610,500	4	%

⁽¹⁾ Increases in compensation from 2018 to 2019 were driven by market factors and increased responsibilities due to the growth of the Company, along with a comparison to the applicable peer group.

Annual Cash Incentives

We provide the opportunity for our named executive officers and other executives to earn an annual cash incentive award. In 2018, the targeted annual cash incentive awards were 100% of base salary for Mr. Waggoner and 75% of base salary for Mr. Sauers and Mr. Menzel, consistent with the 2017 target awards. The Compensation Committee set these targets based on the annual incentive compensation benchmarking results presented in the aforementioned peer group study, as well as performance expectations.

Bonuses may be earned based on a combination of an individual performance component and the Adjusted EBITDA⁽¹⁾ and Net Revenue⁽¹⁾ (collectively, "Company Performance") component. In 2018, the maximum percentage that could be earned with respect to the individual component is 250% of target and the maximum percentage that could be earned with respect to the Company Performance component is 250% of target.

⁽¹⁾ "Net Revenue" and "Adjusted EBITDA" are financial measures that are not calculated in accordance with accounting principles generally accepted in the United States ("GAAP"). For more information regarding Net Revenue and Adjusted EBITDA and a reconciliation to the nearest comparable GAAP measure, see Appendix A, "Reconciliation of Non-GAAP Financial Measures."

2018 Performance Goals

Company Performance Component

Consistent with our performance-based philosophy and given the broader responsibilities of our named executive officers, the annual incentive compensation for our named executive officers is partially based on the Company's Net Revenue⁽¹⁾ (50% of Company Performance component) and partially based on overall Company Adjusted EBITDA⁽¹⁾ (50% of Company Performance component).

Metric	Weighting	Threshold	Target	Maximum	Actual 2018	Actual as a % of Target
Net Revenue ⁽¹⁾	50%	\$336.6M	\$374.0M	\$411.4M	\$420.4M	112%
Adjusted EBITDA ⁽¹⁾	50%	\$61.1M	\$67.9M	\$74.7M	\$100.2M	148%

As shown in the table above, each of the named executive officers was paid out at 250% of target for the Company Performance component. The 250% payout factor was achieved by surpassing the maximum thresholds for both Net Revenue⁽¹⁾ of \$411.4 million and Adjusted EBITDA⁽¹⁾ of \$74.7 million.

⁽¹⁾ "Net Revenue" and "Adjusted EBITDA" are financial measures that are not calculated in accordance with accounting principles generally accepted in the United States ("GAAP"). For more information regarding Net Revenue and Adjusted EBITDA and a reconciliation to the nearest comparable GAAP measure, see Appendix A, "Reconciliation of Non-GAAP Financial Measures."

Individual Performance Component

The Compensation Committee determined that each NEO earned 100% of his target incentive opportunity based on his individual contributions during 2018, including those highlighted below.

• Mr. Waggoner, Chief Executive Officer, successfully achieved goals related to Company growth, strategy development and execution, acquisition initiatives, and deployment of technology and data science.

• Mr. Sauers, Chief Financial Officer, successfully achieved goals related to Company growth, back office automation, investor engagement and cash flow optimization.

• Mr. Menzel, President and Chief Operating Officer, successfully achieved goals related to Company growth, customer service levels, customer and carrier satisfaction levels, and deployment of technology to enhance sales and operations.

Earned Incentives

Based on the actual performance achieved by our executives with respect to the Company Performance and individual components as discussed above, the earned incentives for 2018 are outlined in the following table:

	Base Salary	Target Annual Incentive (% of Base Salary)	Company Performance		Individual Performance			Earned Actual Annual Incentive	
			Allocation to Component	Payout Factor	Allocation to Component	Payout Factor	Component Amount Achieved		
Douglas R. Waggoner	\$830,000	100%	85%	250%	\$1,763,750	15%	100%	\$124,500	\$1,888,250
Kyle L. Sauers	\$475,000	75%	75%	250%	\$667,969	25%	100%	\$89,063	\$757,031
Dave B. Menzel	\$587,000	75%	75%	250%	\$825,469	25%	100%	\$110,063	\$935,531

Note: Amounts may not foot due to rounding.

The Compensation Committee may make reasonable adjustments to our overall corporate performance goals and our actual performance results that may cause differences between the numbers used for our performance goals and the numbers reported in our financial statements. These adjustments may exclude all or a portion of both the positive or negative effects of external, unusual or significant strategic events, such as natural disasters, litigation, regulatory changes in accounting or taxation standards, restructurings, acquisitions or divestitures. No such adjustments were determined necessary with respect to the 2018 annual cash incentive awards.

Long-term Equity Incentives

We provide the opportunity for our named executive officers and other executives to earn long-term equity incentive awards. We believe that one of the best ways to align the interests of shareholders and executives is by providing those individuals who have substantial responsibility over the management, performance and growth of the Company with an opportunity to have a meaningful ownership position in the Company. We maintain our 2008 Stock Incentive Plan pursuant to which we may grant equity and other incentive awards to our executive officers and other employees. We believe that providing management with strong economic incentives will inspire management to act in the best interest of the Company and its stockholders.

Equity Awards. Since 2014, our Compensation Committee has granted a combination of restricted stock and performance shares to each named executive officer on an annual basis, with each component representing 50% of the total number of shares granted to each executive. The stock awards are issued as a percentage of base salary set by the Compensation Committee based on long-term incentive compensation benchmarks presented in the aforementioned peer group study as well as executive tenure, experience and performance expectations.

We believe the restricted stock grants are an effective tool for creating long-term ownership and aligning our employees' interests with those of our stockholders, which includes the retention of our key employees. All outstanding restricted share awards granted to our named executive officers vest ratably over a four-year period.

The performance share awards may be earned based on our relative total shareholder return against a peer group over one-, two- and three-year periods. This peer group consists of similar companies in the transportation and freight brokerage industry. The amount of performance shares earned can range from 50% of target amount for achieving the threshold performance goal to 200% for achieving the maximum performance goal. While in prior years, the performance shares would vest, depending on performance, on each of the first three anniversaries of the grant date, we adjusted the vesting schedule for the 2018 performance shares to instead align with our fiscal year-end. Thus, the 2018 performance shares are scheduled to vest, depending on performance, 20% on December 31, 2018 based on one-year total shareholder return (the number of performance shares earned for this performance period are shown below under "Results of Performance Cycles Ending in 2018"), 30% on December 31, 2019 based on two-year total shareholder return and 50% on December 31, 2020 based on three-year total shareholder return. The Company has assigned less weight to the performance periods less than three years. Executives earn the majority (50%) in the longest performance period (3 years). The Company uses relative total shareholder return as the metric for measuring performance shares and set the maximum at 200% of the target amount based on the Compensation Committee deeming these measurements to be more aligned with the interests of the stockholders. No performance shares will be earned if the threshold goal is not achieved. Earned performance shares are convertible into shares of the Company's common stock on a 1-for-1 basis after the end of the performance period.

On February 26, 2018, Messrs. Waggoner, Sauers and Menzel received grants of restricted stock awards and performance share awards (at target) as summarized in the following table.

Name	Number of Shares	
	2018 (Performance Shares) (at target)	2018 (Restricted Stock)
Douglas R. Waggoner	44,865	44,865
Kyle L. Sauers	17,117	17,117
David B. Menzel	21,153	21,153

The table below shows the multiple of the target shares that could be earned at different levels of performance for each performance cycle:

	Threshold	Target	Maximum
Performance Goal	25 th Percentile	50 th Percentile	>75 th Percentile
Multiple of Target Earned	0.50x	1.0x	2.0x

Performance between threshold and target and between target and maximum would earn a multiple of target that would be calculated based on straight-line interpolation.

Results of Performance Cycles Ending in 2018

All performance shares granted since 2014 have been structured using one-year, two-year and three-year performance vesting conditions, substantially similar to the aforementioned 2018 grants. As a result, there are multiple total shareholder return performance periods that end each fiscal year.

For each individual below, the table below shows the number of shares earned for one-year (granted in 2018 and 2017), two-year (granted in 2016) and three-year (granted in 2015) performance cycles that ended in 2018:

Name	Grant Year	TSR Performance Period	Performance Goal Attained	Total Target Shares Awarded (#)	Target Allocated to Cycle	Target Earned	Shares Earned (#)
Douglas R. Waggoner	2018	1/1/2018 - 12/31/2018	38th Percentile	44,865	20%	76.9 %	6,902
	2017	1/30/2017 - 1/29/2018	25th Percentile	49,158	20%	50.0 %	4,916
	2016	2/26/2016 - 2/25/2018	17th Percentile	44,900	30%	—	—
	2015	2/13/2015 - 2/12/2018	27th Percentile	32,747	50%	54.5 %	8,931
Kyle L. Sauers	2018	1/1/2018 - 12/31/2018	38th Percentile	17,117	20%	76.9 %	2,633
	2017	1/30/2017 - 1/29/2018	25th Percentile	16,206	20%	50.0 %	1,621
	2016	2/26/2016 - 2/25/2018	17th Percentile	14,647	30%	—	—
	2015	2/13/2015 - 2/12/2018	27th Percentile	11,087	50%	54.5 %	3,024
David B. Menzel	2018	1/1/2018 - 12/31/2018	38th Percentile	21,153	20%	76.9 %	3,254
	2017	1/30/2017 - 1/29/2018	25th Percentile	23,080	20%	50.0 %	2,308
	2016	2/26/2016 - 2/25/2018	17th Percentile	21,505	30%	—	—
	2015	2/13/2015 - 2/12/2018	27th Percentile	17,192	50%	54.5 %	4,689

The vesting of our named executive officers' restricted stock and performance share awards is subject to acceleration pursuant to the terms of their employment agreements in certain termination and/or change in control events, which we find to be consistent with standard market terms among the peer group. These terms are more fully described below under the heading "—Change in Control and Severance Benefits" and in the "Executive Compensation" section below under the "—Employment Agreements" and "—Potential Payments upon Termination or Change in Control."

Additional Compensation Policies and Practices

Stock Ownership Requirements

In order to ensure alignment with our stockholders, the Compensation Committee maintains stock ownership requirements for our officers. The Compensation Committee believes that linking a significant portion of the executive officer's personal holdings to the Company's success, as reflected in the stock price, provides officers with a stake similar to that of our stockholders. Therefore, executive officers are expected to acquire and hold a significant amount of the Company's stock. The Compensation Committee has established stock ownership requirements based on all shares of Company stock owned by an executive officer, including vested stock options, vested restricted stock

and stock beneficially owned by the officer, including owned in a trust, by a spouse, or dependent children for our executive officers as follows:

- Chief Executive Officer: four times base salary
- Other executive officers: three times base salary.

All executive officers had three years to meet their ownership requirements from the effective date, February 3, 2010. New executive officers are expected to meet their ownership requirement within three years of being named an executive officer. As of December 31, 2018, all named executive officers met their ownership requirement.

Executive Benefits and Perquisites

We provide the opportunity for our named executive officers and other executives to receive certain perquisites and general health and welfare benefits. We also offer participation in our defined contribution 401(k) plan. We match employee contributions up to 25% on the first 6% of an employee's salary deferred under our 401(k) plan. We provide these benefits to provide an additional incentive for our executives and to remain competitive in the general marketplace for executive talent. We also provide a modest amount (on average less than 3% of total compensation for last 3 years) of personal benefits and

perquisites that we believe are highly valued and support our retention objectives. We do not maintain any nonqualified deferred compensation plans. For more information, see the "Summary Compensation Table" provided below.

Change in Control and Severance Benefits

We provide our named executive officers with certain severance and change in control protections in their employment agreements, in order to attract and retain an appropriate caliber of talent for such positions and to provide reassurance during a period leading up to and following a Change in Control should one occur. Our severance and change in control provisions for the named executive officers are summarized above under "—Results of Performance Cycles Ending in 2018" and in the "Executive Compensation" section below under "—Employment Agreements" and "—Potential Payments upon Termination or Change in Control." We intend to periodically review the level of the benefits in these agreements. We believe that our arrangements are reasonable in light of the fact that cash severance is limited to two years for Mr. Waggoner and Mr. Menzel, and one year for Mr. Sauers, unless a Change in Control occurs, in which case Mr. Sauers would also get two years of cash severance (each at a rate equal to their then current base salary and the greater of target annual performance bonus in the year terminated and the average of the three most recent annual performance bonus payments).

Upon a termination of service by the Company without cause or by the named executive officer with good reason, not in connection with a Change in Control, each named executive officer will earn a pro-rata portion of the outstanding and unvested performance shares based on actual Company performance during the relevant performance period, and the executive will be credited with an additional 12 months of service to determine such pro-rata vesting. Outstanding equity awards that would have vested based solely on the passage of time in the 12 months following the date of termination will also vest in full. In addition, upon a termination of service due to retirement, death, or disability, each named executive officer will vest in a number of performance shares for each performance sub-period as would have been earned based on actual Company performance had the executive remained employed through the end of the period multiplied by a fraction, the numerator of which is the number of days on which the executive was employed during the performance period, and the denominator is the number of days in the applicable period. Upon any other termination of service, unvested performance shares are forfeited. We find that these provisions to align with those of the peer group and support the overall objectives of our compensation program.

The employment agreements with our named executive officers do not provide for "single trigger" benefits upon a Change in Control, other than the accelerated vesting of certain equity awards. Each of our named executive officers will vest in 50% of all outstanding unvested equity awards upon the occurrence of a Change in Control, with performance shares vesting at the greater of target or actual level of performance through the date of the Change in Control. If a named executive officer is terminated without cause, or resigns for good reason, within the three months prior to or the 12 months following a Change in Control, all outstanding equity awards will vest in full, with the performance shares vesting at the greater of target or actual performance through the date of the Change in Control. No gross-up payment will be made to cover any excise and related income tax liability arising under Section 4999 and 280G of the Internal Revenue Code as a result of any payment or benefit arising under the employment agreements with any of our named executive officers. We find these benefits align with those of the peer group and appropriately compensate our named executive officers upon a termination or Change in Control.

Effect of Accounting and Tax Treatment on Compensation Decisions

One of the factors the Compensation Committee considers when determining executive compensation is the anticipated tax treatment to the Company and to the executives of the various payments and benefits. Section 162(m) of the Internal Revenue Code ("Section 162(m)") generally provides that a publicly held company may not deduct compensation paid to certain covered executive officers to the extent that such compensation exceeds \$1,000,000 per executive officer in any year. Limited exceptions to Section 162(m) apply with respect to "qualified performance-based compensation," as defined in the Internal Revenue Code, as well as certain other items of compensation, in each case, that qualify for transition relief applicable to certain arrangements in place as of November 2, 2017. While the Compensation Committee generally considers this limit when determining compensation, there are instances in which the Compensation Committee has concluded, and reserves the discretion to conclude in the future, that it is appropriate to exceed the limitation on deductibility under Section 162(m) to ensure that executive officers are

compensated in a manner that it believes to be consistent with the Company's best interests and those of its stockholders. Furthermore, interpretations of and changes in the tax laws, and other factors beyond the Compensation Committee's control, may also affect the deductibility of compensation.

Notwithstanding anything to the contrary set forth in any of the Company's filings under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act that might incorporate future filings, including this proxy statement, in whole or in part, the Report of the Compensation Committee and the Audit Committee Report shall not be deemed to be "Soliciting Material," are not deemed "filed" with the SEC and shall not be incorporated by reference into any filings under the Securities Act or Exchange Act whether made before or after the date hereof and irrespective of any general incorporation language in such filing, except to the extent that the Company specifically requests that the information be treated as soliciting material or specifically incorporates it by reference into a document filed under the Securities Act or the Exchange Act.

(1) The salary amounts reflect the actual base salary payments made to the named executive officers.

(2) Value of restricted stock awards is based on the closing value of the Company's stock on the date of grant pursuant to Financial Accounting Standards Board Accounting Standards Codification Topic 718 ("ASC Topic 718"). For 2018, a combination of restricted stock awards and performance shares with a market condition were issued with each representing 50% of the total number of shares granted. A grant date fair value assessment was performed based on the probable outcome of the relative total shareholder return market condition of the performance shares at grant date pursuant to ASC Topic 718. The value of the restricted stock was calculated using the closing price on the day of issuance of \$27.75 for shares granted on February 26, 2018, and the value of the performance share awards was calculated based on the probable outcome of the performance conditions as determined on the grant date. For 2018, the breakdown of the fair value of the performance shares is as follows: (i) Mr. Waggoner, 44,865 performance shares at target with a grant date fair value of \$1,588,759; (ii) for Mr. Sauers, 17,117 performance shares at target with a grant date fair value of \$606,147; and (iii) for Mr. Menzel, 21,153 performance shares at target with a grant date fair value of \$749,070. The value of the performance shares that could be earned at the end of the performance period if maximum performance is achieved, based on the grant date fair value of the Company's common stock, is as follows: Mr. Waggoner - \$3,177,519; Mr. Sauers - \$1,212,294 and Mr. Menzel - \$1,498,140. For additional information, see Note 15 to our Consolidated Financial Statements as reported on the Company's Annual Report on Form 10-K for the year ended December 31, 2018 filed with the SEC.

(3) For 2018, All Other Compensation includes, (i) for Mr. Waggoner, medical and dental premium reimbursement of \$9,535 and a combined life insurance and car allowance of \$31,165; (ii) for Mr. Sauers, medical and dental premium reimbursement of \$9,535 and a car allowance of \$12,000; and (iii) for Mr. Menzel, medical and dental premium reimbursement of \$9,535 and a car allowance of \$19,000.

Because the components of our non-equity incentive awards pay out percentages over certain ranges of performance, the awards do not have a specific payout based on a threshold. As a result, we have omitted the (1) threshold column. For a more detailed description of our non-equity incentive awards, including the performance objectives applicable thereto, see "—Compensation Program Objectives and Philosophy" and "—Annual Incentives" in the CD&A above.

The amounts listed reflect restricted stock awarded with performance-based restrictions. The performance shares (2) awards are earned based on our relative total shareholder return against a peer group over one-, two- and three-year periods. Information related to the performance-based restrictions associated with these shares is contained in the CD&A above.

The amounts listed reflect restricted stock granted under the 2008 Stock Incentive Plan. For more information on (3) the terms of these awards, see "— Long-term Equity Incentives — Equity Awards."

See footnote 2 to the Summary Compensation Table for information related to the calculation of the grant date fair (4) value.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Assuming the employment of our named executive officers were to be terminated without Cause or for Good Reason, each as of December 31, 2018, they would be entitled to payments in the amounts set forth opposite to each executive officer's name in the table below.

We are not obligated to make any cash payments to these executives if their employment is terminated by us for Cause or by the executive without Good Reason. No cash severance is provided for any of the executive officers in the event of death or disability. Pursuant to the performance share award agreements, upon a termination of service during the performance period due to retirement after age 65, death, or disability, the executive will vest in a number of performance shares for each performance sub-period as would have been earned based on actual Company performance had the executive remained employed through the end of the period multiplied by a fraction, the numerator of which is the number of days on which the executive was employed during the performance period, and the denominator is the number of days in the applicable period. A Change in Control does not affect the amount or timing of these cash severance payments.

Name	Cash Severance ⁽¹⁾	Benefit Continuation ⁽²⁾
Douglas R. Waggoner	\$138,333 per month for 24 months	\$34,779
Kyle L. Sauers	\$69,271 per month for 12 months	\$17,390
David B. Menzel	\$85,604 per month for 24 months	\$34,779

No gross-up payment will be made to cover any excise and related income tax liability arising under Sections 4999 and 280G of the Internal Revenue Code as a result of any payment or benefit arising under the employment

⁽¹⁾ agreements with any of our named executive officers. Instead, the employment agreements provide for a reduction in amounts payable so that no excise tax would be imposed. However, a reduction in payments will not occur if the payment of the excise tax would produce a greater overall net after-tax benefit.

Pursuant to the employment agreements with Messrs. Waggoner, Sauers and Menzel, in the event of a termination without Cause or a termination for Good Reason, the Company will also provide them and their dependents with

⁽²⁾ Company-paid insurance benefits until such time comparable benefits are secured through another employer's benefits program, up to a maximum of 24 months for Messrs. Waggoner and Menzel and 12 months for Mr. Sauers. In calculating the benefit continuation amounts, we assumed an annual cost of \$17,390 for Messrs.

Waggoner, Menzel and Sauers.

Assuming the employment of our named executive officers were to be terminated without Cause or for Good Reason or solely upon a Change in Control of the Company, each as of December 31, 2018 (or as otherwise specified), the named executive officers would be entitled to accelerated vesting of their outstanding equity awards described in the table below:

Name	Value of Equity Awards:		Value of Equity Awards: Termination Without Cause or For Good Reason In Connection With a Change in Control (\$) ⁽¹⁾⁽³⁾
	Without Cause or For Good Reason (\$) ⁽¹⁾	Change in Control Without Termination of Employment (\$) ⁽¹⁾⁽²⁾	
Douglas R. Waggoner	2,647,499	2,135,046	4,270,093

Kyle L. Sauers	911,399	745,613	1,491,226
David B. Menzel	1,260,231	1,012,983	2,025,966

(1) Values are based on the price of our common stock of \$20.33 per share, which was the fair market value of our common stock as of December 31, 2018, which was the last trading day in fiscal year 2018.

(2) Upon the occurrence of a Change in Control, each named executive officer is entitled to immediate vesting of 50% of all outstanding unvested equity awards (any outstanding performance-based awards will vest at target).

(3) In the event that a named executive officer is terminated by us (other than for Cause), or he terminates his employment for Good Reason, three months prior to the public announcement of a proposed Change in Control or within 12 months following a Change in Control, he would be entitled to immediate vesting of all unvested equity awards (with any outstanding performance-based awards vesting at the greater of target or actual performance).

In connection with a termination without Cause or a termination for Good Reason, no payments are due unless the executive officer executes a general release and waiver of claims against us. Messrs. Waggoner and Menzel are subject to non-competition and non-solicitation restrictions for a period of 24 months following termination without Cause or a termination for Good Reason (and 12 months upon a termination of any other type) and Mr. Sauer is subject to similar restrictions for a period of 12 months following termination. Further, each named executive officer entered into a confidentiality agreement upon joining the Company.

Change in Control

The employment agreements incorporate the Change in Control definition from the 2008 Stock Incentive Plan. Under the 2008 Stock Incentive Plan, "Change in Control" means the occurrence of any one or more of the following: (a) an effective change in control pursuant to which any person or persons acting as a group acquires (or has acquired during the 12-month period ending on the date of the most recent acquisition by such person or persons) beneficial ownership of stock of the Company representing more than thirty-five percent (35%) of the voting power of the Company's then outstanding stock; provided, however, that a Change in Control shall not be deemed to occur by virtue of any of the following acquisitions: (i) by the Company or any Affiliate, (ii) by any employee benefit plan (or related trust) sponsored or maintained by the Company or any Affiliate, or (iii) by any underwriter temporarily holding securities pursuant to an offering of such securities, (b) any person or persons acting as a group acquires beneficial ownership of Company stock that, together with Company stock already held by such person or group, constitutes more than fifty percent (50%) of the total fair market value or voting power of the Company's then outstanding stock (the acquisition of Company stock by the Company in exchange for property, which reduces the number of outstanding shares and increases the percentage ownership by any person or group to more than 50% of the Company's then outstanding stock will be treated as a Change in Control); (c) individuals who constitute the Board immediately after the Effective Date (the "Incumbent Directors") cease for any reason to constitute at least a majority of the Board during any 12-month period; provided, however, that any person becoming a Director subsequent thereto whose election or nomination for election was approved by a vote of a majority of the Incumbent Directors then on the Board (either by a specific vote or by approval of the proxy statement of the Company in which such person is named as a nominee for Director, without written objection to such nomination) shall be an Incumbent Director, provided, that no individual initially elected or nominated as a Director of the Company as a result of an actual or threatened election contest with respect to Directors or as a result of any other actual or threatened solicitation of proxies or consents by or on behalf of any person other than the Board (including, without limitation, any settlement thereof) shall be deemed to be an Incumbent Director; (d) any person or persons acting as a group acquires (or has acquired during the 12-month period ending on the date of the most recent acquisition by such person or persons) assets from the Company that have a total gross fair market value of at least forty percent (40%) of the total gross fair market value of all the assets of the Company immediately prior to such acquisition. For purposes of this section, gross fair market value means the value of the assets of the Company, or the value of the assets being disposed of, without regard to any liabilities associated with such assets. The event described in this paragraph (d) shall not be deemed to be a Change in Control if the assets are transferred to (i) any owner of Company stock in exchange for or with respect to the Company's stock, (ii) an entity in which the Company owns, directly or indirectly, at least fifty percent (50%) of the entity's total value or total voting power, (iii) any person that owns, directly or indirectly, at least fifty percent (50%) of the Company stock, or (iv) an entity in which a person described in (d)(iii) above owns at least fifty percent (50%) of the total value or voting power (for purposes of this definition, and except as otherwise provided, a person's status is determined immediately after the transfer of the assets); or (e) upon the happening of any other event(s) designated as a change in control event for purposes of Section 409A. In no event will a Change in Control be deemed to have occurred, with respect to the Participant, if an employee benefit plan maintained by the Company or an Affiliate or the Participant is part of a purchasing group that consummates the transaction that would otherwise result in a Change in Control. The employee benefit plan or the Participant will be deemed "part of a purchasing group" for purposes of the preceding sentence if the plan or the Participant is an equity participant in the purchasing company or group, except where participation is: (i) passive ownership of less than two percent (2%) of the stock of the purchasing company; or (ii) ownership of equity participation in the purchasing company or group that is otherwise not significant, as determined prior to the Change in Control by a majority of the non-employee continuing directors.

CEO PAY RATIO

Pursuant to rules adopted by the SEC, as required by the Dodd-Frank Wall Street Reform and Consumer Protection Act, the Company is required to disclose the ratio of its median employee's annual total compensation to the annual total compensation of its principal executive officer. The Company's principal executive officer is Douglas R. Waggoner, Chairman of the Board and Chief Executive Officer.

In determining the median employee, a listing was prepared of all employees, excluding Mr. Waggoner, as of December 31, 2018. Since all Echo employees reside in the United States, no employees were excluded from the list and the Company did not make any other adjustments. Total compensation earned from January 1, 2018 to December 31, 2018 was gathered for each employee, which includes salary, stock awards, earned non-equity incentive compensation, and other compensation.

From these results, we identified the median employee and calculated the median employee's total annual compensation for 2018 in accordance with the SEC rules for reporting compensation in the Summary Compensation Table of the proxy. Under this calculation, our median employee's total annual compensation for 2018 was \$47,349. For the total annual compensation of Mr. Waggoner, we used the amount reported in the "total" column of our Summary Compensation Table included in this Proxy Statement. Mr. Waggoner earned 2018 total compensation of \$5,592,713, which is the total of his salary, stock awards, non-equity incentive compensation, and other compensation. As a result we estimate that Mr. Waggoner's 2018 annual total compensation was approximately 118 times that of our median employee, which was calculated in a manner consistent with the applicable SEC disclosure rules.

This information is being provided solely for compliance purposes. Because the Compensation Committee has determined the ratio is not an adequate indicator of linking pay with performance, the Compensation Committee does not materially consider this ratio when evaluating compensation arrangements. Moreover, given the different methodologies that various public companies use to determine an estimate of their CEO pay ratio, we do not believe that the estimated ratio reported should be used as a basis for comparison between any companies.

COMPENSATION AND RISK

Our Compensation Committee strives to provide strong incentives to management for the long-term, while avoiding excessive risk-taking in the short-term. We utilize Aon, an independent third party, to advise the Compensation Committee on matters related to compensation and find that the design of our compensation program and the level of oversight is sufficient to mitigate potential risks associated with our current policies and practices. Our compensation program is designed to provide a mix of both fixed and variable incentive compensation and to reward a mix of different performance measures. The variable (cash incentive and performance share) portions of compensation are designed to reward both annual performance (under the short-term incentive plan) and longer-term performance (under the performance share program). We believe this design mitigates any incentive for short-term risk-taking that could be detrimental to our long-term interests.

In addition, our senior executives are subject to stock ownership requirements, which we believe incentivize our executives to consider our long-term interests and to discourage excessive risk-taking that could negatively impact our stock price. Our incentive compensation program is designed with payout curves that are relatively smooth and do not contain steep payout "cliffs" that might encourage short-term business decisions in order to meet a payout threshold. As a matter of practice on an annual basis, the Compensation Committee conducts a thorough risk assessment of the Company's compensation program and practices to confirm that the incentive compensation criteria do not encourage unnecessary and excessive risk. The risk assessment conducted in 2018 concluded that our compensation plans provide incentives that appropriately balance risk and reward; are compatible with effective controls and risk management; are supportive of strong governance, including active oversight by the Compensation Committee; and are not reasonably likely to have a material adverse effect on the Company.

2018 DIRECTOR COMPENSATION

Directors who are full-time employees of the Company receive no additional fees for service as a director. In 2018, each non-employee director received a combination of cash payments and equity-based compensation as shown in the tables and narrative below. Under our 2008 Stock Incentive Plan, directors are eligible to receive stock options and other equity grants at the discretion of the Compensation Committee or other administrators of the plan. If a Change in Control (as defined under the 2008 Stock Incentive Plan) occurs, or if the director's service is terminated due to death, disability, or by the Company (or its Board or stockholders) other than for cause, all unvested shares of restricted stock will immediately vest. In January 2018, each non-employee director received a restricted stock grant of approximately \$105,000 that vests on the first anniversary of the grant date.

The annual retainer remained constant after the 2018 Annual Meeting, at \$72,500. The Lead Independent Director receives an additional \$10,000 annual cash retainer per year, which is prorated for those directors who spend a partial year as the Lead Independent Director. For the Audit, Compensation, and Nominating and Corporate Governance committees, each committee chair and committee member will receive an additional annual retainer of \$10,000 and \$5,000, respectively, to be paid in cash and prorated for those directors who spend a partial year on such committee. AUDIT COMMITTEE REPORT

The Audit Committee of the Board consists of five non-employee directors: David Habiger, Samuel K. Skinner, Matthew Ferguson, William M. Farrow III and Virginia L. Henkels, each of whom the Board has determined to be an independent director as defined in the rules of the Nasdaq Global Market and the SEC. The Audit Committee is a standing committee of the Board and operates under a written charter adopted by the Board of Directors, which is available at www.echo.com on the "Investors" page under the link "Corporate Governance." Among its other functions, the Audit Committee has the authority and responsibility to retain and terminate the engagement of the Company's independent registered public accounting firm (the "independent auditors").

Management is responsible for the Company's internal controls and the financial reporting process. The independent auditors are responsible for performing an independent audit of the Company's consolidated financial statements and internal control over financial reporting in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States) and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

During fiscal year 2018, at each of its meetings, the Audit Committee met with the senior members of the Company's financial management team and the independent auditors. The Audit Committee's agenda is established by the Audit Committee's chairman and senior members of the Company's financial management team. The Audit Committee met in private sessions with the Company's independent auditors at certain of its meetings to discuss financial management, accounting and internal control issues. The Audit Committee has reviewed and discussed with management and the independent auditors the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments and the clarity of disclosures in the consolidated financial statements. Management represented to the Audit Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles. The Audit Committee discussed with the independent auditors matters required to be discussed under the Public Company Accounting Oversight Board standards.

The Company's independent auditors also provided to the Audit Committee the written disclosures regarding the auditors' independence required by the Public Company Accounting Oversight Board Ethics and Independence Rule 3526, "Communication with Audit Committees Concerning Independence." The Committee discussed with the independent auditors the firm's independence and considered whether the non-audit services provided by the independent auditors are compatible with maintaining their independence.

Based on the Audit Committee's discussion with management and the independent auditors, and the Audit Committee's review of the representations of management and the report of the independent auditors to the Audit Committee, the Audit Committee recommended that the Board include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2018 filed with the Securities and Exchange Commission.

OTHER INFORMATION

Stockholder Proposals for the 2020 Annual Meeting

If any stockholder intends to present a proposal to be considered for inclusion in the Company's proxy material in connection with the 2020 Annual Meeting of stockholders, the proposal must be in proper form (per SEC Regulation 14A, Rule 14a-8 Shareholder Proposals) and received by the Corporate Secretary of the Company on or before December 30, 2019. Stockholder proposals to be presented at the 2020 Annual Meeting of stockholders which are not to be included in the Company's proxy materials must be received by the Company no earlier than February 14, 2020 and no later than March 16, 2020, in accordance with the procedures in the Company's By-laws.

Expenses of Solicitation

The Company pays the cost of preparing, assembling and mailing this proxy-soliciting material. The Company pays all costs of solicitation, including certain expenses of brokers and nominees who mail proxy materials to their customers or principals.

Householding

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy materials with respect to two or more stockholders sharing the same address by delivering a single Notice addressed to those stockholders. This process, which is commonly referred to as "householding," potentially offers the advantages of convenience for stockholders and cost savings for companies. We have not implemented householding rules with respect to our record holders. However, a number of brokers with account holders who are stockholders may be "householding" our proxy materials. If a stockholder receives a householding notification from his or her broker, a single Notice will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from an affected stockholder. Once you have received notice from your broker that they will be "householding" communications to your address, "householding" will continue until you are notified otherwise.

Stockholders of record who currently receive multiple copies of the Notice at their address and would like to request "householding" of their communications should contact their broker or, if a stockholder is a direct holder of shares of our common stock, they should submit a request to our transfer agent in writing addressed to: American Stock Transfer and Trust Company, 6201 15th Avenue, Brooklyn, New York 11219.

Other Matters

The Board does not know of any matters which may be presented at the Annual Meeting other than those specifically set forth in the Notice. If any other matters come before the meeting or any adjournment thereof, the persons named in the accompanying form of proxy and acting thereunder will vote in accordance with their best judgment with respect to such matters.

Upon written request by any stockholder entitled to vote at the Annual Meeting, we will promptly furnish, without charge, a copy of our proxy statement or Annual Report. Requests should be addressed to: Investor Relations, Echo Global Logistics, Inc., 600 West Chicago Avenue, Suite 725, Chicago, Illinois 60654, or by telephone at 1-800-354-7993.

APPENDIX A

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES

The information presented in this Proxy Statement under “Financial Highlights and Compensation Considerations” regarding Net Revenue and Adjusted EBITDA is not calculated in accordance with accounting principles generally accepted in the United States (“GAAP”) and shall not be construed as an alternative to the reported financial results of the Company determined in accordance with GAAP. Net Revenue is defined as revenue minus transportation costs. EBITDA is defined as net income excluding the effects of changes in depreciation, amortization, cash and non-cash interest expense, interest income, remeasurement of the net deferred tax liability resulting from the Tax Cuts and Jobs Act (“TCJA”) and income taxes. Adjusted EBITDA is defined as EBITDA (as previously defined) excluding the effects of acquisition-related transaction costs, changes in contingent consideration and stock compensation. 2017 Adjusted EBITDA also excluded \$1.8 million of one-time consulting expenses associated with strategy development and salesforce integration.

We believe such measures provide useful information to investors because they provide information about the financial performance of the Company's ongoing business. In addition, you should be aware when evaluating Adjusted EBITDA, that in the future we may incur expenses similar to those excluded when calculating these measures. Our presentation of these measures should not be construed as an inference that our future results will be unaffected by these or other unusual or non-recurring items. Our computation of Adjusted EBITDA may not be comparable to other similarly titled measures computed by other companies, because all companies do not calculate Adjusted EBITDA in the same manner. Our management does not, and you should not, consider Adjusted EBITDA in isolation or as an alternative to financial measures determined in accordance with GAAP. The principal limitation of Adjusted EBITDA is that they exclude significant expenses and income that are required by GAAP to be recorded in our financial statements. See a reconciliation of Net Revenue and Adjusted EBITDA to net income, the most directly comparable GAAP measure, below:
