Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions (see General Instruction A.2. below):

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02 Results of Operations and Financial Condition

On February 2, 2017, we issued a press release reporting our financial results for the three and twelve months ended December 31, 2016 (the "Press Release"). We will also host a conference call and webcast on February 2, 2017 during which we will make a presentation on our financial results for the three and twelve months ended December 31, 2016 (the "Presentation"). The Press Release and the Presentation are available on our website at <http://investors.ryder.com>. The Press Release includes information regarding non-GAAP financial measures, as defined by SEC regulations, as well as a reconciliation of each non-GAAP financial measure to the nearest GAAP measure in the tables following the press release. Set forth in the table below is an explanation of each non-GAAP financial measure and why management believes that presentation of each measure provides useful information to investors:

Non-GAAP Financial Measures

Operating Revenue Measures:

Operating Revenue	Operating revenue
FMS Operating Revenue	is defined as total
DTS Operating Revenue	revenue for Ryder
SCS Operating Revenue	System, Inc. or
FMS EBT as a % of FMS Operating Revenue	each business
DTS EBT as a % of DTS Operating Revenue	segment (FMS,
SCS EBT as a % of SCS Operating Revenue	DTS and SCS),
	respectively,
	excluding any (1)
	fuel and (2)
	subcontracted
	transportation. We
	believe operating
	revenue provides
	useful information
	to investors as we
	use it to evaluate
	the operating
	performance of our
	core businesses and
	as a measure of
	sales activity at the
	consolidated level
	for Ryder System,
	Inc., as well as for
	each of our
	business segments.
	We also use
	segment EBT as a
	percentage of
	segment operating
	revenue for each
	business segment
	for the same
	reason. Note: FMS
	EBT, DTS EBT
	and SCS EBT, our
	primary measures

of segment performance, are not non-GAAP measures.

Fuel: We exclude FMS, DTS and SCS fuel from the calculation of our operating revenue measures, as fuel is an ancillary service that we provide our customers, which is impacted by fluctuations in market fuel prices, and the costs are largely a pass-through to our customers, resulting in minimal changes in our profitability during periods of steady market fuel prices. However, profitability may be positively or negatively impacted by rapid changes in market fuel prices during a short period of time, as customer pricing for fuel services is established based on trailing market fuel costs.

Subcontracted transportation: We also exclude subcontracted transportation from the calculation of our operating revenue measures, as these services are also typically a pass-through to our customers and,

therefore, fluctuations result in minimal changes to our profitability. While our DTS and SCS business segments subcontract certain transportation services to third party providers, our FMS business segment does not engage in subcontracted transportation and, therefore, this item is not applicable to FMS.

Operating Revenue Growth Excluding Foreign Exchange Operating revenue growth excluding foreign exchange is calculated by dividing the results for the current and prior year periods by the exchange rates in effect on December 31, 2015, which was the last day of the prior year period, rather than the actual exchange rates in effect as of December 31, 2016. Ryder's period-over-period operating revenue growth excluding foreign exchange excludes the effects of changes in foreign currency exchange rates from our operating revenue financial measures. Due to the variability of foreign exchange rates from period

to period, we believe operating revenue growth excluding foreign exchange is useful to investors to evaluate period-over-period operating performance.

Comparable Earnings Measures:

Comparable Earnings Before Income Tax (EBT)  
Comparable Earnings  
Comparable earnings per diluted common share (EPS)  
Comparable EPS Forecast  
Comparable Tax Rate

Comparable EBT, comparable earnings, comparable EPS, comparable EPS forecast and comparable tax rate are defined, respectively, as GAAP EBT, earnings, EPS, EPS forecast and tax rate, all from continuing operations, excluding (1) non-operating pension costs and (2) any other significant items that are not representative of our business operations. We believe these comparable earnings measures provide useful information to investors and allow for better year-over-year comparison of operating performance. Non-Operating Pension Costs: Our comparable earnings measures exclude

non-operating pension costs, which include the amortization of net actuarial loss, interest cost and expected return on plan assets components of pension and postretirement costs. We exclude non-operating pension costs because we consider these to be impacted by financial market performance and outside the operational performance of our business.

Other Significant Items: Our comparable earnings measures also exclude other significant items that are not representative of our business operations. These other significant items vary from period to period and, in some periods, there may be no such significant items.

In this reporting period, we exclude the following other significant items from our comparable earnings measures in this Form 8-K:

\_\_\_(1)  
Pension-related adjustments (in the

full year 2016 and full year 2015). In the second quarter of 2016, it was determined that certain pension benefit improvements made in 2009 were not fully reflected in our projected benefit obligation, resulting in a charge to reflect those pension benefits.

Additionally, in the third quarter of 2015, we recognized a benefit from lower than anticipated settlement charges to exit multi-employer pension plans.

\_\_\_\_(2) Professional fees (in the full year 2016 and full year 2015). These charges represent professional fees associated with the assessment of potential cost savings initiatives.

\_\_\_\_(3) A benefit from a tax law change (in the full year 2015). In the second quarter of 2015, the states of Connecticut and Texas and the city of New York enacted changes to their tax systems, which decreased Ryder's provision for income taxes in each jurisdiction.

\_\_\_\_(4)

Restructuring charges (in the fourth quarter and full year of 2016 and 2015). In the fourth quarter of 2016 and 2015, we recognized charges related to reductions in workforce as part of cost containment actions.

Additionally, in the fourth quarter of 2015, we recognized charges related to the divestiture and shutdown of several business units in Canada.

Calculation of comparable tax rate: The comparable provision for income taxes is computed using the same methodology as the GAAP provision for income taxes.

Income tax effects of non-GAAP adjustments are calculated based on the statutory tax rates of the jurisdictions to which the non-GAAP adjustments relate.

Adjusted Return on Average Capital (ROC)  
Adjusted ROC Spread

Adjusted ROC:  
Adjusted ROC is defined as adjusted net earnings divided by average adjusted total capital and represents the rate of return generated by the capital deployed in our business. The adjustments represent the comparable items described above which are excluded, as applicable, from the calculation of net earnings and average shareholder's equity (a component of average total capital).

Adjusted ROC Spread:  
Adjusted ROC spread is defined as the difference between adjusted ROC and the weighted average cost of capital. We use adjusted ROC

and adjusted  
ROC spread  
as internal  
measures of  
how  
effectively we  
use the capital  
invested  
(borrowed or  
owned) in our  
operations.

Cash Flow Measures:  
Total Cash Generated  
Free Cash Flow

We consider  
total cash  
generated and  
free cash flow  
to be  
important  
measures of  
comparative  
operating  
performance,  
as our  
principal  
sources of  
operating  
liquidity are  
cash from  
operations and  
proceeds from  
the sale of  
revenue  
earning  
equipment.  
Total Cash  
Generated:  
Total cash  
generated is  
defined as the  
sum of (1) net  
cash provided  
by operating  
activities, (2)  
net cash  
provided by  
the sale of  
revenue  
earning  
equipment  
and (3)  
operating

property and equipment, (4) collections on direct finance leases and (5) other cash inflows from investing activities. We believe total cash generated is an important measure of total cash flows generated from our ongoing business activities. Free Cash Flow: We refer to the net amount of cash generated from operating activities and investing activities (excluding changes in restricted cash and acquisitions) from continuing operations as “free cash flow”. We calculate free cash flow as the sum of (1) net cash provided by operating activities, (2) net cash provided by

the sale of  
revenue  
earning  
equipment  
and (3)  
operating  
property and  
equipment, (4)  
collections on  
direct finance  
leases and (5)  
other cash  
inflows from  
investing  
activities, less  
(6) purchases  
of property  
and revenue  
earning  
equipment.  
We believe  
free cash flow  
provides  
investors with  
an important  
perspective on  
the cash  
available for  
debt service  
and for  
shareholders,  
after making  
capital  
investments  
required to  
support  
ongoing  
business  
operations.  
Our  
calculation of  
free cash flow  
may be  
different from  
the calculation  
used by other  
companies  
and, therefore,  
comparability  
may be  
limited.

Edgar Filing: RYDER SYSTEM INC - Form 8-K

Additional information regarding non-GAAP financial measures can be found in the Press Release and our most recent Form 10-K and Form 10-Q filed with the SEC.

The information in this Report, including Exhibit 99.1, is being furnished pursuant to Item 2.02 of Form 8-K and General Instruction B.2 thereunder and shall not be deemed to be incorporated by reference in any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except as expressly set forth by specific reference to such filing.

Item 7.01 Regulation FD Disclosure

The Company is hosting a conference call and webcast on February 2, 2017 during which we will make a presentation on our financial results for the three and twelve months ended December 31, 2016 (the Presentation). The Presentation has been made available on our website at <http://investors.ryder.com>.

Item 9.01(d) Exhibits

The following exhibit is furnished as part of this report on Form 8-K:

Exhibit 99.1<sup>1</sup> Press release, dated February 2, 2017, relating to Ryder System, Inc.'s financial results for the three and twelve months ended December 31, 2017.
