Report of Independent Registered Public Accounting Firm

To the Plan Administrator
Ryder System, Inc. 401(k) Savings Plan
Miami, Florida

We have audited the accompanying statements of net assets available for benefits of the Ryder System, Inc. 401(k) Savings Plan (the "Plan") as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2016 and 2015, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2016 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

The accompanying notes are an integral part of these financial statements.

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Ryder System, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan, established January 1, 1993, is a defined contribution plan and, as such, is subject to some, but not all, of the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). It is excluded from coverage under Title IV of ERISA, which generally provides for guaranty and insurance of retirement benefits; and it is not subject to the funding requirements of Title I of ERISA. The Plan is, however, subject to those provisions of Title I and II of ERISA which, among other things, require that each participant be furnished with an annual financial report and a comprehensive description of the participant's rights under the Plan, set minimum standards of responsibility applicable to fiduciaries of the Plan, and establish minimum standards for participation and vesting.

The Plan Administrator is the Ryder System, Inc. Retirement Committee. The Plan's trustee and record-keeper are Fidelity Management Trust Co. and Fidelity Investments Institutional Operations Company, respectively.

Eligibility

Participation in the Plan is voluntary. In general, all employees on the U.S. payroll of Ryder System, Inc. (the "Company") and its subsidiaries that have adopted the Plan are eligible to participate in the Plan beginning on the first day of the month following completion of a six month period of service. Prior to January 1, 2016 employees were eligible to participate immediately. However, the following employees or classes of employees are not eligible to participate: (a) an employee who is in a unit of employees represented by a collective bargaining agent is excluded from participation in the Plan unless the unit has negotiated coverage under the Plan; (b) employees eligible to participate under another Company sponsored qualified savings plan; and (c) leased employees.

Contributions

Participant Contributions

Participants may elect to contribute pre-tax dollars to the Plan by having their compensation reduced by a maximum of the lesser of: a) 50% of compensation, b) the IRS limit of \$18,000 for both 2016 and 2015, respectively, or (c) such other amount as shall be determined by the Company's Retirement Committee from time to time. Additionally, participants may elect to make after-tax contributions to the Plan.

Participants who reach age 50 during the calendar year may be eligible to make catch-up contributions up to \$6,000 in addition to the IRS limit of \$18,000 for both the year ended December 31, 2016 and 2015. Participants can also elect a direct rollover of an existing balance from a tax-qualified retirement or savings plan into the Plan. Participants may elect to contribute to any of twenty- six investment options and may direct the record-keeper to transfer among investment options on a daily basis.

Employer Contributions

If a participant meets certain requirements related to employment date, age and service hours, the Company may contribute to the participant's account. Company contributions are invested in the investment options in the same allocation percentages as each participant's contributions.

Salaried and non-salaried employees hired prior to January 1, 2016, other than field hourly employees of Ryder Integrated Logistics, Inc. ("RIL"), a wholly-owned subsidiary of the Company and other employee groups as described

below, that are not grandfathered into the Ryder System, Inc. Retirement Plan are eligible to receive: (a) Company contributions equal to 3% of eligible pay, even if employees do not make contributions to the Plan and (b) a 50% Company match of participant contributions of up to 5% of eligible pay, subject to IRS limits upon meeting eligibility requirements.

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

For field hourly employees of RIL hired prior to January 1, 2016, the Company will make a basic contribution of \$400 on an annual basis whether or not the employee contributes to the Plan. If the employee contributes to the Plan, in addition to the basic contribution, the Company will match the first \$300 at 100% and match the next \$800 at 50%.

On January 1, 2011, the Plan was amended to include employees acquired through the Total Logistic Control (“TLC”) acquisition, which was completed on December 31, 2010. The acquired TLC employees who met the requirements and were deemed eligible to participate under TLC’s plan were immediately eligible to receive Company matching contributions under the Plan. The acquired TLC hourly employees are eligible to receive: a) a 100% Company match of participant contributions up to 4% of eligible pay and b) a 50% Company match of participant contributions of the next 2% of eligible pay. The acquired salaried TLC employees are eligible to receive the same benefit as all other salaried employees (defined above). All acquired TLC employees are fully vested in the Company matching contributions.

On January 1, 2016, the Plan was amended for new hires and re-hires. Effective January 1, 2016, matching contributions for new hires and re-hires, regardless of position, shall equal 50% company match of participant contributions up to 6% of eligible pay, subject to IRS limits upon meeting eligibility requirements. In no event will a new hire or re-hire be eligible to receive employer contributions.

Additionally, the amendment replaces the 30% matching contribution up to 5% of eligible pay for the employees acquired through Scully Distribution Services and employees hired into the company’s Dedicated Contract Carriage (“DCC”) on or after April 1, 2012.

Also on January 1, 2016, effective for plan years beginning with the 2016 plan year, the employer contribution for eligible salaried and non-salaried employees shall be made annually, as soon as practicable, following the last day of the plan year in an amount equal to 3% of the participant’s compensation for the plan year. For field hourly employees of RIL, the \$400 company contribution will also be made annually, as soon as practicable, following the last day of the plan year. An employee must be employed by Ryder on December 31st of the plan year to be eligible to receive the plan year’s employer contribution. Contributions will be calculated for periods during which a person is eligible during the year.

The Company may make a discretionary matching contribution for salaried and non-salaried employees, other than RIL non-salaried employees. This discretionary matching contribution may be based on the Company’s attainment of specified performance goals. Company contributions are for the benefit of those participants who meet eligibility requirements as defined by the Company’s Retirement Committee. For the years ended December 31, 2016 and 2015, the Company did not make any discretionary matching contributions.

Contributions are subject to certain IRS limits.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Upon completion of two years of service, participants vest 25% in the Company contributions and the earnings attributable to such contributions and 25% upon completion of each year thereafter until they are fully vested. Participants will also become fully vested in Company contributions and the earnings attributable to such contributions when they reach age 65, become permanently disabled or upon death while employed by the Company. RIL field hourly employees’ basic Company contributions and the match on the first \$300 of participant contributions are immediately fully vested.

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

Participant Accounts

Each participant's account is credited with the participant's contribution and with allocations of: (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Expenses are allocated evenly across all eligible accounts for recordkeeping services. Loan and distribution expenses are charged directly to the respective participant. Trustee fees are allocated to participants' accounts on a pro-rata basis based on the participant's account balance. Earnings are currently allocated on a daily basis. The benefit for a participant is the benefit that can be provided from the participant's vested account. Participants forfeit the nonvested portion of their accounts in the Plan upon termination of employment with the Company. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. In 2016 and 2015, employer contributions were reduced by \$1,350,906 and \$1,552,772, respectively, from forfeited nonvested accounts. At December 31, 2016 and 2015, forfeited nonvested accounts available to reduce future employer contributions totaled \$5,545 and \$2,414, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan terms range from 1-5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and accrue interest at a fixed rate which is the prime rate as received from Reuters updated on the first business day of the quarter. The loan's interest rate is fixed for the life of the loan. Principal and interest is paid ratably through payroll deductions. All principal and interest payments are allocated to the Plan's investment funds based on the participant's investment elections at the time of payment. Loans which are granted and repaid in compliance with the Plan provisions will not be considered distributions to the participant for tax purposes.

Benefits Paid

If a participant leaves the Company, the participant is entitled to receive the vested value of the account balance. If a participant's vested account value is \$1,000 or less, it will be paid as an automatic distribution. As of December 31, 2016 and 2015, there were no automatic distributions pending. If the vested value of the account balance is greater than \$1,000, a participant may request an immediate lump-sum payment, or a participant may choose to delay payment to a later date, but not beyond April 1st of the year after the participant reaches age 70 ½. Participants may request a withdrawal of all or a portion of their elective contribution account balance if they can demonstrate financial hardship as defined by the Plan. Such amounts will be considered distributions to the participant for income tax purposes.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Certain prior year amounts have been reclassified to conform to the current year presentation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions are subject to inherent uncertainties, which may result in actual amounts differing from reported amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

Purchases and sales of securities are recorded on a trade-date basis. The Plan presents in the Statements of Changes in Net Assets Available for Plan Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the related gains (losses) and the unrealized appreciation (depreciation) on those investments. Dividends on mutual funds and Ryder System, Inc. common stock is recorded on the record date. Interest income is recorded on the accrual basis.

Notes Receivable from Participants

Notes Receivable from Participants is measured at their unpaid principal balance plus any accrued but unpaid interest. Loans in default are recorded as distributions based upon the terms of the plan document and are included in benefits paid to participants. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Due to/from broker

Due to/from broker for investment securities purchased/sold include amounts payable or receivable to/from clearing organizations relating to investment security transactions to be settled.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Trustee fees, management fees and other fund expenses are paid from the assets of the Plan. Loan administrative and origination fees and recordkeeping fees are paid by the participants. Investment related expenses are included in net (depreciation) appreciation in value of investments.

Subsequent Events

The Plan evaluated subsequent events through June 1, 2017, the date the financial statements were available to be issued.

Recently Adopted Accounting Pronouncements

On July 31, 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient - A Consensus of the FASB Emerging Issues Task Force. Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value by eliminating the requirement to disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. ASU No. 2015-12 became effective for the Plan January 1, 2016, with early adoption permitted. As a result, the footnote disclosing investments at or greater than 5% as of December 31, 2015 was removed. Additionally, the disaggregation of investments at December 31, 2015 in Note 3 was removed. Lastly, fully benefit responsive investment contracts were reclassified to investments at contract value on the statement of net assets available for benefits at December 31, 2015.

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

On May 1, 2015, the FASB issued ASU 2015-07, Fair Value Measurements (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which removes the requirements to categorize within the fair value hierarchy and to make certain disclosures for investments eligible to be measured at fair value using the net asset value per share practical expedient. The ASU became effective for the Plan January 1, 2016, with early adoption permitted. Since this new guidance only amends the disclosure requirements, it did not impact the Plan's statements of net assets available for plan benefits or statements of changes in net assets available for plan benefits. The investments measured at NAV as a practical expedient as of December 31, 2015 were removed from the leveling table on Note 3.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- a. Quoted prices for similar assets or liabilities in active markets
- b. Quoted prices for identical or similar assets or liabilities in inactive markets
- c. Inputs other than quoted prices that are observable for the asset or liability
- d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the assets or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies at December 31, 2016 and 2015.

Mutual funds: valued at quoted market prices, which represent the net asset value of the shares held in such funds. Each of these funds is considered an open ended mutual fund and are valued using a market approach. Fair value is based on a daily net asset value ("NAV") that can be validated with a sufficient level of observable activity (i.e. purchases and sales at NAV) and therefore the mutual funds have been classified within Level 1 of the fair value hierarchy.

Ryder System, Inc. common stock: valued at the closing price reported on the active market on which the individual security is traded and therefore, has been classified within Level 1 of the fair value hierarchy.

Common collective trusts: valued at the net asset value per unit as determined by the collective trust as of the valuation date, which approximates fair value. Each fund consists of a commingled trust that invests in a diversified portfolio of equity index, fixed income index and/or short-term products. The investment objective of each portfolio is to achieve a high total return until its target retirement date. Thereafter, each portfolio's objective will be to seek high current income and, as a secondary objective, capital appreciation. There are no trading restrictions on these investments. The fund's fair value is measured as the fair value of the ownership interest in the fund.

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

Short-term money market instruments: stated at NAV. The short-term money market instruments are invested in the Colchester Street Fund - Money Market Portfolio: Class I and Fidelity Institutional Money Market Portfolio: Class I fund. The funds invest in money market funds to provide daily liquidity. Fair value is based on the NAV that can be validated with a sufficient level of observable activity (i.e. purchases and sales at NAV).

The following table presents the Plan's assets at fair value. Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

	December 31,	
	2016	2015
Investments in the fair value hierarchy: ^(a)		
Mutual funds	\$371,084,691	\$359,621,197
Ryder System, Inc. common stock	89,277,157	72,750,527
	460,361,848	432,371,724
Investments measured at net asset value: ^(b)		
Common collective trusts	450,642,235	436,319,027
Short-term money market instruments	2,212,255	2,489,194
	\$913,216,338	\$871,179,945

(a) Mutual funds and Ryder System Inc. common stock have been classified within Level 1 of the fair value hierarchy.

In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are

(b) intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Transfers between Levels

For years ended December 31, 2016 and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015, respectively. There are no participant redemption restrictions for these investments: the redemption notice period is applicable only to the Plan.

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common collective trusts	\$450,642,235	N/A	Daily	N/A
Short-term money market instruments	\$2,212,255	N/A	Daily	N/A
December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Common collective trusts	\$436,319,027	N/A	Daily	N/A

Short-term money market instruments	\$2,489,194	N/A	Daily	N/A
-------------------------------------	-------------	-----	-------	-----

10

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

4. Investment Contracts with Insurance Companies

The Interest Income Fund, one of the Plan's investment options, may be invested in short-term money market instruments and in fully benefit-responsive synthetic guaranteed investment contracts with various insurance companies, banks, and financial institutions. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contracts are fully benefit-responsive, the contract is measured at contract value. Contract value, as reported to the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of the investment at contract value.

There are no reserves against contract value for credit risk of a contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. These events may be different under each contract. Such events include the following: (1) any substantive modification to the Plan or administration of the Plan that is not consented to by the contract issuer (including complete or partial plan termination or merger with another plan), (2) establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) plan sponsor events, such as divestitures, spin-offs or early retirement programs that cause a significant withdrawal from the Plan, (4) transfer of assets from the fund directly to a competing option and (5) the failure of the Plan to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code. The Plan administrator does not believe that the occurrence of any of these events, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement before the scheduled maturity date.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include the following: (1) there is a change in the qualification status of the Plan (2) if there is a breach of material obligations under the contract and misrepresentations by the contract holder (3) if there is a failure of the underlying portfolio to conform to the pre-established investment guidelines (4) if the contract holder assigns its interest in the contract without permission (5) if the investment manager is terminated and a successor manager acceptable by the wrap issuers is not appointed and (6) the contract holder engages in fraud or deceit related to the wrap contract.

5. Risks and Uncertainties

The Plan's invested assets ultimately consist of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits and the Statements of Changes in Net Assets Available for Plan Benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across twenty- six participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments, with the exception of the Ryder System, Inc. common stock fund, which invests in a single security. The Plan's exposure to credit risk on the wrapper contracts is limited to the fair value of the contracts with each company.

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

6. Related Party Transactions and Party-In-Interest Transactions

The Plan holds shares of Ryder System, Inc. common stock (1,199,317 and 1,280,143 shares at December 31, 2016 and 2015, respectively), and recorded dividend income (\$2,121,359 and \$2,007,440 in 2016 and 2015, respectively), net realized gains on sale (\$1,639,908 and \$6,864,386 in 2016 and 2015, respectively) and net unrealized appreciation (depreciation) in value of these securities (\$20,421,195 and (\$52,915,905) in 2016 and 2015, respectively). Accordingly, these shares qualify as a party-in-interest.

The Plan also holds shares of mutual funds managed by Fidelity Management Company, which are affiliated with the Plan's current trustee. The Plan has recorded dividend income, net realized gains (losses) on sales and net unrealized appreciation (depreciation) in value of these securities. Accordingly, these transactions qualify as a party-in-interest.

Fees incurred by the Plan to Fidelity Management Company for investment management and recordkeeping services amounted to \$1,082,645 and \$797,209 for the years ended December 31, 2016 and 2015, respectively. These fees are recorded as administrative expenses in the accompanying Statements of Changes in Net Assets Available for Plan Benefits.

Notes receivable from participants also qualify as exempt party-in-interest transactions.

7. Plan Termination

While it has not expressed any intention to do so, the Company has the right under the Plan to amend or terminate the Plan subject to the provisions of ERISA. In the event of termination, Plan assets are payable to each participant in a lump sum equal to the balance in the participant's account, and would become 100 percent vested in their employer contributions.

8. Tax Status of the Plan

The Plan qualifies as a profit sharing plan under Section 401(a) of the Internal Revenue Code of 1986, as amended, (the "Code") and also qualifies as a cash or deferred arrangement under Section 401(k) of the Code and, therefore, is exempt from federal income taxes under Section 501(a) of the Code. A favorable tax determination letter dated May 10, 2017 has been obtained from the Internal Revenue Service.

Under a plan qualified pursuant to Sections 401(a) and (k) of the Code, participants generally will not be taxed on contributions or matching contributions, or earnings thereon, until such amounts are distributed to participants or their beneficiaries under the Plan. The tax-deferred contributions and matching contributions are deductible by the Company for tax purposes when those contributions are made, subject to certain limitations set forth in Section 404 of the Code.

Participants or their beneficiaries will be taxed, at ordinary income tax rates, on the amount they receive as a distribution from the Plan at the time they receive the distribution. However, if the participant or beneficiary receives a lump sum payment of the balance under the Plan in a single taxable year, and the distribution is made by reason of death, disability or termination of employment of the participant, or after the participant has attained age 59 ½, then certain special tax rules may be applicable.

RYDER SYSTEM, INC. 401(K) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Company has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to the Form 5500:

	December 31,	
	2016	2015
Net assets available for plan benefits per the financial statements	\$1,107,552,767	\$1,047,210,270
Adjustment for fair value of fully benefit-responsive investment contracts	119,558	521,297
Net assets available for plan benefits per the Form 5500	\$1,107,672,325	\$1,047,731,567

The following is a reconciliation of total additions per the financial statements to the Form 5500:

	December 31,	
	2016	2015
Total additions per the financial statements	\$167,735,200	\$58,457,384
Prior year adjustment from fair value to contract value for fully benefit-responsive investment contracts	(521,297)	(1,388,993)
Current adjustment from fair value to contract value for fully benefit-responsive investment contracts	119,558	521,297
Total income per the Form 5500	\$167,333,461	\$57,589,688
