To the Participants and Administrator of

Gibraltar 401(k) Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Gibraltar 401(k) Plan (the "Plan") at December 31, 2001 and December 31, 2000, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at December 31, 2001 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The United Steel Products Company 401(k) Plan, the Gibraltar Steel Corporation Profit Sharing Plan and the Hi-Temp Incorporated Employee's 401(k) Plan were merged into the Plan effective January 31, 2000, March 31, 2000 and July 1, 2000, respectively. The total fair market value of the net assets transferred into the Plan from the United Steel Products Company 401(k) Plan, the Gibraltar Steel Corporation Profit Sharing Plan and the Hi-Temp Incorporated Employee's 401(k) Plan as a result of these mergers were approximately \$5,825,000, \$10,231,000 and \$3,575,000, respectively.

The Plan was not party to a merger during 2001.

Notes to Financial Statements (continued)

1. Major Plan Provisions (continued)

Vesting

Effective October 1, 1999, all active participants are 100% vested in employer contributions. Prior to October 1, 1999, vesting in employer contributions was based upon the participant's number of whole years of service in accordance with the following schedule:

<u>Completed years of service</u>	<u>Percent vested</u>
Less than 1	0%
1	25%
2	60%
3	100%

Forfeitures

Participants who left the Company prior to October 1, 1999 with less than three years of service forfeited the nonvested portion (up to 100%) of the Company's contributions. The nonvested percentage of the employer contribution account shall become available for allocation in accordance with the Plan agreement at the end of the Plan year in which the employee receives distribution or, if earlier, in which the employee incurs their fifth consecutive break in service.

Benefit Payments

Upon retirement, termination of employment, death or disability, participants or their beneficiaries may elect to receive their account balances in a single sum, over a fixed number of years or by the purchase of an annuity contract from an insurance company.

Participant Loans

Participants may borrow against their vested account balance subject to the provisions specified in the Plan agreement. Loan terms shall not exceed 5 years, except for a maximum of 10 years for the purchase of a primary residence. The loans are secured by the vested balance in the participant's account and bear interest at the prime rate plus 1%.

Principal and interest are required to be repaid in equal installments over the term of the loan.

Plan Expenses

All of the costs of Plan administration are paid by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments and Administration

On January 25, 2001, the Plan Sponsor amended and restated the Plan in the form of the Dreyfus Nonstandardized Prototype Profit Sharing Plan and Trust (the Dreyfus Prototype). As part of the adoption of the Dreyfus Prototype, the Plan replaced certain investment options, including all Chase and Chase Vista investment options, with other options in the same investment category and also added additional investment options. In addition, Dreyfus Service Corporation (Dreyfus) became the recordkeeper of the Plan.

Also effective January 25, 2001, the Plan's assets are held by Boston Safe Deposit and Trust Company (the Trustee), an affiliate of Dreyfus, under the Trust Agreement with the Plan dated December 22, 2000. Previously, the Plan's assets were held by Texas Commerce Bank National Association (the former Trustee) under a Trust Agreement dated December 23, 1998. The Administrator of the Plan shall specify whether the investments of the Trust Fund shall be managed in whole or in part by the Trustee, one or more investment managers, the Administrator, or the participants as provided for by the Trust Agreement. During 2001 and 2000, all Plan investments were participant directed. The information on investments has been derived from reports received from and certified by the Trustee and the former Trustee. Realized gains and losses are determined based on average costs.

The Plan's investments are valued at their stated asset value, based on quoted prices in an active market for the underlying investments. Investment income is determined separately for each participant account.
