**Arch Wireless Reports First Quarter Operating Results,
Reschedules Annual Meeting of Stockholders**

Westborough, MA (May 8, 2003) Arch Wireless, Inc. (OTCBB: AWIN; BSE: AWL), a leading wireless messaging and mobile information company, today announced consolidated net income of \$6.1 million, or \$0.30 per share, for the first quarter ended March 31, 2003, compared to net income of \$4.5 million, or \$0.02 per share, for the first quarter of 2002. Consolidated revenues for the first quarter of 2003 were \$165 million while net cash provided by operating activities was \$51.2 million.

Arch's financial results include separate results and cash flows prior to its emergence from bankruptcy on May 29, 2002 (the Predecessor Company), as well as operating results and cash flows after its emergence from bankruptcy (the Reorganized Company), reflecting the application of fresh-start accounting that resulted from Arch's Chapter 11 reorganization. Consequently, and due to other reorganization-related events and adjustments, the Predecessor Company's financial statements for the three-month period ended March 31, 2002 are not comparable to the Reorganized Company's financial statements for the three-month period ended March 31, 2003.

Arch reported a net decline of 477,000 messaging units in service during the first quarter of 2003, comprised of 460,000 one-way messaging units and 17,000 two-way messaging units. Direct units in service declined by 281,000 during the quarter while indirect units in service declined by 196,000. Messaging units in service totaled 5,163,000 at March 31, 2003 with 4,031,000 direct units in service and 1,132,000 indirect units in service. During the first quarter average revenue per direct unit in service was \$11.70 compared to \$3.60 per indirect unit in service.

C. Edward Baker, Jr., chairman and chief executive officer, said: Our operating results were consistent with our expectations as we continued to reduce operating expenses and maintained operating margins over the past year.

J. Roy Pottle, executive vice president and chief financial officer, said: The company continued to reduce its debt during the first quarter as our wholly owned subsidiary Arch Wireless Holdings, Inc. (AWHI) completed \$26.7 million of additional redemptions of 10% Senior Subordinated Secured Notes due 2007. Upon completion of optional and mandatory redemption payments scheduled for May 15, 2003, AWHI will have redeemed a total of \$140 million principal amount of the \$200 million of 10% Senior Notes originally issued and will have \$60 million principal amount outstanding. Pottle also noted: Cash and cash equivalents were \$60.4 million as of March 31, 2003 resulting in net debt (total debt less cash and cash equivalents) of \$133 million compared to \$180 million as of December 31, 2002.

Arch also announced that it has rescheduled its annual meeting of stockholders, previously scheduled for May 8, 2003, for Thursday, June 12, 2003, at 1:00 p.m. The meeting was rescheduled in order to provide time for the Securities and Exchange Commission to complete its review of Arch's preliminary proxy materials filed on March 18, 2003. Arch expects to mail the definitive proxy materials, together with its annual report, to all stockholders on or about May 9, 2003.

Arch Wireless, Inc., headquartered in Westborough, Mass., is a leading wireless messaging and mobile information company with operations throughout the United States. It offers a full range of wireless messaging and wireless e-mail services, including mobile data solutions for the enterprise, to business and retail customers nationwide. Arch provides services to customers in all 50 states, the District of Columbia, Puerto Rico, Canada, Mexico and in the Caribbean principally through a nationwide direct sales force, as well as through indirect resellers, retailers and other strategic partners. Additional information on Arch is available on the Internet at www.arch.com.

Statement under the Private Securities Litigation Reform Act: Statements contained herein or in prior press releases which are not historical fact, such as statements regarding Arch's expectations for future reductions in operating expenses and maintenance of operating margins, are forward-looking statements for purposes of the safe harbor provisions under the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that may cause Arch's actual results to be materially different from the future results expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially from those expectations include, but are not limited to, declining demand for its paging products and services, Arch's ability to continue to reduce operating expenses and maintain operating margins, Arch's future capital needs, competitive pricing pressures, competition from both traditional paging services and other wireless communications services, government regulation, reliance upon third party providers for certain equipment and services, as well as other risks described from time to time in Arch's periodic reports and registration statements filed with the Securities and Exchange Commission. Although Arch believes the expectations reflected in the forward-looking statements are based on reasonable assumptions, it can give no assurance that its expectations will be attained. Arch disclaims any intent or obligation to update any forward-looking statements.
