MILITARY RESALE GROUP, INC.
NOTES TO UNAUDITED FINANCIAL STATEMENTS

NOTE 1 - BASIS OF PRESENTATION

The accompanying unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB and Item 310 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The accompanying unaudited financial statements reflect all adjustments that, in the opinion of management, are considered necessary for a fair presentation of the financial position, results of operations, and cash flows for the periods presented. The results of operations for such periods are not necessarily indicative of the results expected for the full fiscal year or for any future period. The accompanying

Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

financial statements should be read in conjunction with the audited financial statements of Military Resale Group, Inc., included in Form 10-KSB for the fiscal year ended December 31, 2003.

The financial statements have been prepared on a going concern basis, which contemplates continuity of operations, realization of assets and liquidation of liabilities in the normal course of business. The Company has suffered recurring losses from operations, and is in a working capital deficit position that raises substantial doubt about its ability to continue as a going concern. The Company's management is currently pursuing equity and/or debt financing in an effort to continue operations. The future success of the Company is likely dependent on its ability to obtain additional capital to develop its proposed products and ultimately, upon its ability to attain future profitable operations. There can be no assurance that the Company will be successful in obtaining such financing, or that it will attain positive cash flow from operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

PRINCIPLES OF CONSOLIDATION

The consolidated financials statements include the accounts of the following entities, collectively referred to as "Company". All significant intercompany transactions have been eliminated.

Military Resale Group, Inc.	Corporation
Ohio Street Partners, Inc.	Corporation

Military Resale Group, Inc. acquired Ohio Street Partners, Inc. on June 10, 2004 and is now a wholly owned subsidiary of Military Resale Group, Inc. Subsequent to September 30, 2004, Lee Brukman, the Company's former Chief Executive Officer and Chairman of the Board of Directors resigned and the sale of Ohio Street Partners, Inc. to the Company was rescinded (See Note 13 and 14).

RECLASSIFICATION

Certain amounts in the prior period financial statements have been reclassified for comparative purposes to conform to the presentation in the current period financial statements.

NOTE 2 - EARNINGS PER SHARE

The Company computes earnings per common share in accordance with Statement of Financial Accounting Standards No. 128, "Earnings per Share" (SFAS No. 128). The Statement requires dual presentation of basic and diluted EPS on the face of the income statement for all entities with complex capital structures and requires a reconciliation of the numerator and denominator of the basic EPS computation to the numerator and denominator of the diluted EPS computation. Basic loss per share is computed by dividing loss available to common shareholders by the weighted average number of common shares outstanding. The computation of diluted loss per share is similar to the basic loss per share computation except the denominator is increased to include the number of additional shares that would have been outstanding if the dilutive potential common shares had been issued. In addition, the numerator is adjusted for any changes in income or loss that would result from the assumed conversions of those potential shares. However, such presentation is not required if the effect is antidilutive. Accordingly, the diluted per share amounts do not reflect the impact of warrants and options because the effect of each is antidilutive.

NOTE 3 - PREPAID CONSULTING

Prepaid consulting expenses are recorded in connection with common stock and options issued to consultants for future services and are amortized over the

Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

agreement term. As of September 30, 2004 the financial statements reflect a balance of \$32,966.

NOTE 4 - PREPAID INTEREST

Prepaid interest is recorded in connection with the issuances of options for the extension of various notes payable. The prepaid interest is being amortized over the extension period, with \$70,021 charged to interest expense during the nine months ended September 30, 2004.

NOTE 10 - COMMITMENTS AND CONTINGENCIES (CONTINUED)

During the third quarter, the Company was involved in a litigation with its current landlord. The Company received an eviction notice to vacate the premise by October 1, 2004 as well as a Writ of Judgment from MRS Connection for past due rent in the amount of \$83,908. MRS Connection received a writ of restitution to eject the Company from the premise. The Company made several attempts to resolve the issue during the three months ended September 30, 2004 including making an agreement to make monthly payments. The Company defaulted on the agreed payments. Subsequent to September 30, 2004 Ed Whelan, the Company's former Chief Executive Officer reached an agreement with MRS Connection on behalf of the Company. The agreement required an immediate payment of \$40,000, which was paid by Mr. Whelan. The \$40,000 payment allowed the Company to stay until December 1, 2004. In addition, if the Company paid MRS Connection \$50,000 more for October, November and December rent, MRS Connection would mark the judgment paid. The Company did not make the additional \$50,000 payment and the eviction proceedings began. Mr. Whelan made an additional agreement with MRS Connection and paid an additional \$10,500 on December 1, 2004. This payment allowed the Company to stay until December 10, 2004 at which time the remaining amount due of \$40,903 was due. Mr. Whelan later paid an additional \$10,234 and has made a verbal agreement with MRS Connection, which is allowing the Company to remain at its office. As of January 17, 2005 the Company and Mr. Whelan are making payments to MRS Connection and remain in their current facilities.

NOTE 11 - LIQUIDATED DAMAGES

During the nine months ended September 30, 2004, the Company issued 62,500 shares of common stock valued at \$11,750 to a stockholder as liquidated damages for the Company not registering the stockholder's common stock by January 31, 2004. The Company also recorded common stock reserved of \$191,539 (the fair market value of the common stock on July 1, August 1 and September 1, 2004) for an additional 1,617,500 shares of common stock that should have been issued to several stockholders as additional liquidated damages for the months of July, August and September 2004. Pursuant to the terms of the agreements, each shareholder is entitled to ten percent of the original shares purchased each month beginning July 1, 2004 and ending December 1, 2004 if the common stock was not registered by June 30, 2004.

In consideration for his resignation, Mr. Tannenbaum will be paid for past services rendered in the amount of \$111,954 payable in equal monthly installments over the twenty-four month period beginning on September 30, 2004 and will be evidenced by a promissory note (See Note 5). valued at \$345,468 (based upon the common stock and warrants issued and debt assumed) and is subject to a mortgage of \$71,297. Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

As part of the acquisition, the owner of DRCI loaned the Company \$75,000 evidenced by a demand note (See Note 9). DRCI signed a subscription agreement with the Company for the 1,920,000 shares of common stock issued. The terms of the stock subscription agreement provide that in the event the average closing bid price of the common stock for the ten days preceding the effective date of the Registration Statement (to be filed) is \$.17 or below, then the purchase price for the shares shall be reset to a purchase price equal to the average price minus \$.05, provided that the purchase price is not less than \$.065 per share. ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

GENERAL

This Management's Discussion and Analysis of Financial Condition and Results of Operations and Plan of Operations and other portions of this report contain forward-looking information that involve risks and uncertainties. Our actual results could differ materially from those anticipated by the forward-looking information. Factors that may cause such differences include, but are not limited to, availability and cost of financial resources, product demand, market acceptance and other factors discussed in this report under the heading "Risk Factors". This Management's Discussion and Analysis of Financial Condition and Results of Operations and Plan of Operations should be read in conjunction with our financial statements and the related notes included elsewhere in this report.

OVERVIEW

We are a regional distributor of grocery and household items specializing in distribution to the military market. We distribute a wide variety of items, including fresh and frozen meat and poultry, seafood, frozen foods, canned and dry goods, beverages, dairy products, paper goods and cleaning and other supplies. Our operations are currently directed to servicing the commissary at each of six military installations located in Colorado, Wyoming and South Dakota, including the Air Force Academy located in Colorado Springs, Colorado. We are approved by the Department of Defense to contract with military commissaries and exchanges.

Military commissaries are large supermarket-type stores operated by the United States Defense Commissary Agency (the "DECA") to provide grocery items for sale to authorized patrons at the lowest practicable prices in facilities designed and operated under standards similar to those in commercial food stores. As of April 30, 2004, there were 275 commissaries worldwide, of which 171 were located in the Continental U.S. and 104 were located overseas. Commissaries are authorized by law to sell goods only to authorized patrons, which include the approximately 1.4 million active duty U.S. military personnel, their dependents and certain authorized reservists and retirees. As of April 30, 2004, these authorized patrons totaled approximately 12.4 million individuals. Annual worldwide commissary sales totaled approximately \$5 billion in DeCA's fiscal year ended September 30, 2003.

We were formed as a New York corporation on August 31, 1983 under the name Owl Capital Corp. On June 17, 1988, we changed our name to Bactrol Technologies, Inc. On November 15, 2001, we acquired 98.2% of the issued and outstanding shares of Military Resale Group, Inc., a Maryland corporation ("MARYLAND SUBSIDIARY"), in a reverse acquisition (the "REVERSE ACQUISITION") and subsequently changed our name to Military Resale Group, Inc. In connection

Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

with the Reverse Acquisition, we commenced operations in our current line of business. Prior to the Reverse Acquisition, we were inactive and had nominal assets and liabilities. Our principal address is 2180 Executive Circle, Colorado Springs, Colorado 80906, and our telephone number at that address is (719) 391-4564. In this report, reference to the terms "Military Resale Group", "we", "us" and "the company" refer collectively to Military Resale Group, Inc., a New York corporation, unless otherwise indicated.

For financial reporting purposes, we have treated the Reverse Acquisition as a reverse acquisition, where Maryland Subsidiary was the acquirer. As a result of the foregoing as well as the fact that the Reverse Acquisition is treated as a recapitalization of Maryland Subsidiary rather than as a business combination, the historical financial statements of Maryland Subsidiary became our historical financial statements after the Reverse Acquisition.

Certain statements in this Report constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. The words "believe", "expect", "anticipate", "intend" and "plan" and similar expressions identify forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statement was made. Because our common stock is considered a "penny stock", as defined by the regulations of the Securities and Exchange Commission, the safe harbor for forward-looking statements does not apply to statements by our company. Any forward-looking statements herein speak only as of the date hereof. We undertake no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. The following discussion should be read in conjunction with the financial statements and related notes appearing elsewhere in this Report.

Our business and results of operations are affected by a wide variety of factors that could materially and adversely affect us and our actual results, including, but not limited to: (1) the availability of additional funds to enable us to successfully pursue our business plan; (2) the uncertainties related to the addition of new products and suppliers; (3) our ability to maintain, attract and integrate management personnel; (4) our ability to complete the development of our proposed product line in a timely manner; (5) our ability to effectively market and sell our products and services to current and new customers; (6) our ability to negotiate and maintain suitable strategic partnerships and corporate relationships with suppliers and manufacturers; (7) the intensity of competition; and (8) general economic conditions. As a result of these and other factors, we may experience material fluctuations in future operating results

14

on a quarterly or annual basis, which could materially and adversely affect our business, financial condition, operating results and stock price.

As of January 11, 2005, we entered into the Agreement, dated as of January 11, 2005 (the "Agreement"), between us and Lee Brukman ("BRUKMAN"). Brukman served as one of our directors and officers on dates prior to the date of the Agreement. In such capacity, Brukman incurred expenses on our behalf (the "BRUKMAN EXPENSES") and was entitled to, but did not receive, salary during his period of service as an officer (the "BRUKMAN UNPAID SALARY"). On June 11, 2004,

Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

Brukman made a loan (the "BRUKMAN LOAN") to us in the amount of \$75,000 represented by the 8% note, dated June 11, 2004, by us in favor of Brukman. On June 11, 2004, Brukman caused his affiliate Data Recovery Continuum, Inc. ("DRC") to transfer its ownership of Ohio Street Partners, LLC ("OHIO STREET") to us in exchange for 1,920,000 shares (the "DISPUTED SHARES") of our common stock, par value \$0.0001 per share (the "COMPANY COMMON STOCK"), and warrants (the "DISPUTED WARRANTS", and, together with the Disputed Shares, the "DISPUTED SECURITIES") to purchase an aggregate of 960,000 shares of Common Stock. Issues arose as to encumbrances covering the title to the assets of Ohio Street in breach of the documents evidencing such exchange.

The Agreement was negotiated for the purpose of resolving all outstanding disputes between us and Brukman. Pursuant to the Agreement, the parties agreed to the following actions:

- o To the extent that Brukman was or may have been serving as one of our officers and/or directors as of the date of the Agreement, effective upon the execution of the Agreement, Brukman resigned from all positions as an officer and as a director with us;
- o We and Brukman agreed that the aggregate amount owed by us to Brukman is \$120,000, which amount includes the repayment of the Brukman Loan, the reimbursement of the Brukman Expenses, and the payment of the Brukman Unpaid Salary, which amounts are represented by a promissory note (the "NOTE"), the form of which is incorporated by referenced as an exhibit to this report;
- o The terms of the Note are as follows:
 - o 10% interest;
 - o \$6,000 payable on each of February 1, 2005, February 22, 2005; March 8, 2005; and March 29, 2005 (the "PERIODIC PAYMENTS");
 - o Balance payable on or prior to July 8, 2005; and
 - o Commencing on the date of first Periodic Payment, the Note shall be mandatorily prepaid by us to the extent of the excess of (A) over (B), where (A) equals twenty-five (25%) percent of any capital raised by us, whether in the form of equity, derivative securities (e.g., warrants, options, convertible securities, exchangeable securities, or otherwise), or indebtedness (other than trade indebtedness), and (B) equals the Periodic Payments made through the date of the prepayment;
- o We delivered to Brukman evidence of the Company's ownership of Ohio Street, duly endorsed and in proper form for transfer;
- o Brukman shall cause his affiliates to deliver to us the stock certificates and warrants comprising the Disputed Securities, duly endorsed and in proper form for transfer. Upon receipt thereof, we caused the Disputed Shares to become authorized, but unissued, shares of Company Common Stock, and shall cancel the Disputed Warrants; and
- o We and Brukman granted to one another general releases, subject to the carve-outs set forth in the Agreement.

Upon receipt of the Disputed Securities, or any securities issued upon the exercise of the Disputed Warrants, we intend to cancel the Disputed Shares

Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

and return the Disputed Shares to our authorized, but unissued shares of capital stock, and cancel the Disputed Warrants.

As a result of the foregoing, the transactions contemplated by the previous announcement of the regarding its intent to acquire a large, high quality, distribution facility in Colorado Springs, Colorado from DRC, an entity affiliated with Brukman, for \$5.5 million, and 2,400 residential lots south of Phoenix, Arizona from DRC for \$7.5 million and convertible securities, have been terminated. The Company delivered no cash or securities in connection with such transactions.

REVENUE RECOGNITION POLICIES

We derive in two ways. In the majority of instances, we purchase products from manufacturers and suppliers for resale to the

15

commissaries we service. In such cases, we resell the manufacturer's or supplier's products to the commissaries at generally the same prices we pay for such products, which prices generally are negotiated between the manufacturer or supplier and the DeCA. Revenue is recognized as the gross sales amount received by us from such sales ("RESALE REVENUES"), which include (i) the purchase price paid by the commissary plus (ii) a negotiated storage and delivery fee paid by the manufacturer or supplier. In the remaining instances, we act as an agent for the manufacturer or supplier of the products we sell, and earn a commission paid by the manufacturer or supplier, generally in an amount equal to a percentage of the manufacturer's or supplier's gross sales amount ("COMMISSION REVENUES"). In such cases, revenue is recognized as the commission we receive on the gross sales amount.

RESULTS OF OPERATIONS

THREE MONTHS ENDED SEPTEMBER 30, 2004 COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2003

REVENUES. Total revenue for the three months ended September 30, 2004 of \$1,816,779 reflected an increase of \$589,838, or approximately 48%, compared to total revenue of \$1,226,941 for the three months ended September 30, 2003. The increase in our total revenues was primarily due to the addition of the frozen chicken line of Tyson Foods, Inc. in December 2003, a line of health and beauty aids manufactured by Alberto Culver, Inc. in January 2004 and a frozen vegetable line produced by VIP Sales Company Inc. in January 2004, all of which we sell to commissaries on a resale basis. We also acquired the line of products offered by Sargento Cheese and Gorton's Seafood in 2004, which contributed to the increase in revenue. Additionally, the volume of products shipped rose due to an increase in ordering by the bases. This was due in large to the return of a majority of the troops that were deployed overseas in the fourth quarter of 2003.

Resale Revenue for the three months ended September 30, 2004 of \$1,660,463 reflected an increase of \$516,617, or approximately 45.2%, compared to Resale Revenue of \$1,143,846 for the three months ended September 30, 2003. For the three months ended September 30, 2004, approximately 40.2% of our gross profit was derived from sales involving resale revenue compared to approximately 7.7% for the three months ended September 30, 2003. These increases were attributable primarily to addition of the suppliers discussed above. We cannot be certain as to whether this trend will continue. However, in the long term, we are seeking to increase the ratio of our sales of products sold on a resale basis, rather than a commission basis, because we believe we can increase our profitability on such sales by taking advantage of payment discounts frequently

Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

offered by the manufacturers and suppliers of such products. Provided we can generate sufficient cash from operations or financing activities, we intend to do so by seeking to add new products that we can offer to commissaries on a resale basis from our existing manufactures and suppliers and from others with whom we do not currently have a working relationship.

Commission Revenues for the three months ended September 30, 2004 of \$156,316 reflected an increase of \$73,221, or approximately 88.1%, compared to Commission Revenues of \$83,095 for the three months ended September 30, 2003. For the three months ended September 30, 2004, approximately 59.8% of our gross profit was derived from sales involving Commission Revenues as compared to approximately 92.3% for the three months ended September 30, 2003. The increase in Commission Revenues was attributable primarily to a change in our supplier of fresh chicken products in the third quarter of 2003 from Tyson Foods, Inc., whose products we sold on a resale basis, to ConAgra Foods, Inc., whose products we sell on a commission basis. Also added as commission sales were Dixie Eggs and Shasta Soda which attribute to the increase in Commission Revenue.

Management believes our long-term success will be dependent in large part on our ability to add additional product offerings to enable us to increase our sales and revenues. However, we believe our ability to add additional product offerings, are dependent on our ability to obtain additional capital to fund new business development and increased sales and marketing efforts. We are currently in discussions with a number of other manufacturers and suppliers in an effort to reach an agreement under which we can distribute their products to the military market. While there can be no assurance that we will do so, we believe we will be successful in negotiating agreements with a number of such suppliers and manufacturers.

To date, all of our sales revenue has been generated from customers located in the United States.

COST OF GOODS SOLD. Cost of goods sold consists of our cost to acquire products from manufacturers and suppliers for resale to commissaries. In instances when we sell products on a commission basis, there is no cost of goods sold because we act as an agent for the manufacturer or supplier and earn only a commission on such sales. During the three months ended September 30, 2004, cost of goods sold increased by \$418,668, or approximately 36.8%, to \$1,555,597 from \$1,136,929 for the three months ended September 30, 2003. This increase was attributable primarily to increased sales of products that we sold on a resale basis as discussed above. We cannot be certain as to whether or not this trend will continue; however, in the long term we are seeking to increase the ratio of our sales on a resale basis, as discussed above.

GROSS PROFIT. Gross profit for the three months ended September 30, 2004 increased by \$171,170, or approximately 190% compared to the three months ended September 30, 2003, from \$90,012 for the three months ended September 30, 2003 to \$261,182 for the three months ended September 30, 2004.

16

OPERATING EXPENSES. Total operating expenses aggregated \$943,978 for the three months ended September 30, 2004 as compared to \$815,321 for the three months ended September 30, 2003, representing an increase of \$128,657, or approximately 15.8%. This increase in expenses can in part be attributed to our increase in sales (i.e. increase in employees and related expenses, trucking expenses and additional equipment acquired to handle the increase in volume).

INTEREST EXPENSE. Interest expense of \$48,127 for the three months ended September 30, 2004 reflected an increase of \$22,668 as compared to interest expense of \$25,459 for the three months ended September 30, 2003. The

Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

increase in interest expense was attributable primarily to the conversion of certain accounts payable into notes payable during the three months ended September 30, 2004.

NET LOSS. Primarily as a result of the increased gross profit discussed above, we incurred a net loss of \$730,923 for the three months ended September 30, 2004 as compared to a net loss of \$750,632 for the three months ended September 30, 2003.

NINE MONTHS ENDED SEPTEMBER 30, 2004 COMPARED TO NINE MONTHS ENDED SEPTEMBER 30, 2003

REVENUES. Total revenue for the nine months ended September 30, 2004 of \$5,972,496 reflected an increase of \$1,317,027, or approximately 28.2%, compared to total revenue of \$4,655,469 for the nine months ended September 30, 2003.

Resale Revenue for the nine months ended September 30, 2004 of \$5,481,791 reflected an increase of \$1,190,971, or approximately 27.7%, compared to Resale Revenue of \$4,290,820 for the nine months ended September 30, 2003. For the nine months ended September 30, 2004, approximately 47.5% of our gross profit was derived from sales involving Resale Revenue compared to approximately 45.7% for the nine months ended September 30, 2003. These increases were attributable primarily to addition of the suppliers discussed above. We cannot be certain as to whether this trend will continue. However, in the long term, we are seeking to increase the ratio of our sales of products sold on a resale basis, rather than a commission basis, because we believe we can increase our profitability on such sales by taking advantage of payment discounts frequently offered by the manufacturers and suppliers of such products. Provided we can generate sufficient cash from operations or financing activities, we intend to do so by seeking to add new products that we can offer to commissaries on a resale basis from our existing manufactures and suppliers and from others with whom we do not currently have a working relationship.

Commission Revenues for the nine months ended September 30, 2004 of \$490,705 reflected an increase of \$126,056, or approximately 34.5%, compared to commission revenues of \$364,649 for the nine months ended September 30, 2003. For the nine months ended September 30, 2004, approximately 52.5% of our gross profit was derived from sales involving commission revenues as compared to approximately 54.3% for the nine months ended September 30, 2003. The increase in Commission Revenues was attributable primarily to a change in our supplier of fresh chicken products in the third quarter of 2003 from Tyson Foods, Inc., whose products we sold on a resale basis, to ConAgra Foods, Inc., whose products we sell on a commission basis.

COST OF GOODS SOLD. Cost of goods sold for the nine months ended September 30, 2004 increased by \$1,053,474, or approximately 26.4%, to \$5,037,096 from \$3,983,622 for the nine months ended September 30, 2003. This increase was attributable primarily to increased sales of products that we sold on a resale basis as discussed above. We cannot be certain as to whether or not this trend will continue; however, in the long term we are seeking to increase the ratio of our sales on a resale basis, as discussed above.

GROSS PROFIT. Gross profit for the nine months ended September 30, 2004 increased by \$263,553, or approximately 39.2%, compared to the nine months ended September 30, 2003, from \$671,847 for the nine months ended September 30, 2003 to \$935,400 for the nine months ended September 30, 2004.

OPERATING EXPENSES. Total operating expenses aggregated \$2,665,319 for the nine months ended September 30, 2004 as compared to \$2,250,539 for the nine months ended September 30, 2003, representing an increase of \$414,780, or approximately 18.4%.

Edgar Filing: MILITARY RESALE GROUP INC - Form 10QSB/A

INTEREST EXPENSE. Interest expense of \$143,463 for the nine months ended September 30, 2004 reflected a decrease of \$115,292 as compared to interest expense of \$258,755 for the nine months ended September 30, 2003.

NET LOSS. Primarily as a result of the increased expenses discussed above, we incurred a net loss of \$1,873,382 for the nine months ended September 30, 2004 as compared to a net loss of \$1,837,311 for the nine months ended September 30, 2003.

LIQUIDITY AND CAPITAL RESOURCES

GENERAL

At September 30, 2004, we had a cash balance of approximately \$193. Since 2001, we have funded our operations primarily from the sale of common stock and borrowings of approximately \$850,000 through the issuance of demand notes and convertible notes bearing interest at either 8% or 9% per annum and having original maturity dates of three to five months following the date of issuance of such convertible notes. At September 30, 2004, none of such demand notes was outstanding and \$585,000 aggregate principal amount of convertible notes were outstanding, of which \$520,000 aggregate principal amount mature on or about June 3, 2006 and \$65,000 aggregate principal amount have matured but have not yet been paid. Such convertible notes require us to register under the Securities Act the shares Company Common Stock issuable upon conversion of such convertible notes. The terms of our convertible notes provide generally that the holders may convert, at any time and from time to time, all or a portion of the outstanding balance under each convertible note into a number of shares (subject to certain anti-dilution adjustments) of Company Common Stock that will allow the noteholder to receive common stock having a market value equal to 150% of the converted balance of the note. To achieve this result, the conversion price of such notes has been initially set at \$0.25; provided, that the closing price per share of our common stock as reported on the OTC Bulletin Board on the date of conversion is at least \$0.375 per share. If such closing price is less than \$0.375 per share, the conversion price shall be proportionately reduced, but in no event to a conversion price that is less than \$0.25 per share, to permit the noteholder to receive the number of shares discussed above.

At September 30, 2004, we had liquid assets of \$654,891, consisting of cash and accounts receivable derived from operations, and other current assets of \$893,384, consisting primarily of inventory of products for sale and/or distribution, investment property and prepaid expenses. Long term assets of \$200,040 consisted primarily of warehouse equipment (net of depreciation) used in operations and the long-term portion of prepaid interest.

Current liabilities of \$2,910,580 at September 30, 2004 consisted primarily of \$2,114,011 of accounts payable and related party payables as well as the current portion of capital leases, accrued interest and notes payables, and the mortgage on the investment property. Long term liabilities consisting of non-current portions of capital leases and notes totaled \$578,578.

Our working capital deficit was \$1,362,305 as of September 30, 2004 for the reasons described above.

In addition, this shareholder has used his own finances to pay several other vendors on our behalf. As of January 17, 2005 this shareholder is owed \$138,152 by us for expense reimbursement.

CAPITAL REQUIREMENTS

Our current cash levels, together with the cash flows we generate from operating activities, are not sufficient to enable us to execute our business strategy. Until further material capital resources can be secured, we intend to fund our operations based on our cash position and the near term cash flow generated from operations, as well as additional borrowings and the sale of unregistered shares of our common stock in private placements to accredited investors, as defined in Rule 501(a) of Regulation D under the Securities Act. Our independent auditors have indicated in its report on our 2003 financial statements that our recurring losses from operations and our difficulties in generating sufficient cash flow to meet our obligations and sustain our operations raise substantial doubt about our ability to continue as a going concern. Such qualification may hinder our ability to raise or obtain the capital we require or have an adverse impact on the terms upon which we are able to attract or obtain such capital. In addition, such qualification may adversely impact our ability to attract and maintain new customer accounts.

During the nine months ended September 30, 2004, we used cash of \$611,950 in operating activities, primarily as a result of the net loss we incurred during this period.

During the nine months ended September 30, 2004, we used net cash of \$9,874 in investing activities, all of which was used for capital expenditures.

Financing activities, consisting primarily of proceeds from the sale and issuance of shares of our common stock, provided net cash of \$619,155 during the nine months ended September 30, 2004.

OFF BALANCE SHEET ARRANGEMENTS

At September 30, 2004, we had no off-balance sheet arrangements that had or were reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to our stockholders.

IMPACT OF INFLATION

We believe that our results of operations are not dependent upon moderate changes in inflation rates.

ITEM 3. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures. Our management, with the participation of our chief executive officer and chief financial officer, has evaluated the effectiveness of our company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, our chief executive officer and chief financial officer have concluded that, as of the end of such period, our company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act.

(b) Internal Control Over Financial Reporting. There have been not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
