The FDA approval is based on results from two pivotal clinical trials, SHINE (6-month) and SUN (12-month), which found SYMBICORT improved lung function within five minutes of the first dose and sustained that lung function improvement for the duration of the studies. SYMBICORT pMDI (pressurized metered-dose inhaler) has been available in the U.S. since June, 2007 for the long-term maintenance treatment of asthma in patients 12 years of age and older.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Members

AstraZeneca PLC:

We have audited AstraZeneca PLC's ("AstraZeneca") internal control over financial reporting as of 31 December 2008, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). AstraZeneca's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, AstraZeneca maintained, in all material respects, effective internal control over financial reporting as of 31 December 2008, based on criteria established in Internal Control — Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of AstraZeneca as of 31 December 2008, 2007 and 2006, and the related consolidated income statements, consolidated statements of recognized income and expense, and consolidated cash flow statements for each of the years in the three-year period ended 31 December 2008, and our report dated 29 January 2009 expressed an unqualified opinion on those consolidated financial statements.

ITEM 16G – CORPORATE GOVERNANCE

AstraZeneca PLC is a public limited company incorporated in England and Wales, listed on the London Stock Exchange and is subject to the authority of the Financial Services Authority in the UK. As a result, it follows the UK Combined Code on Corporate Governance (the “Combined Code”) in respect of its corporate governance practices. The Company has ADRs listed on the New York Stock Exchange (“NYSE”) and, under the NYSE Corporate Governance Standards (the “NYSE Standards”) applicable to listed companies, as a foreign private issuer, the Company is permitted to follow the corporate governance practice of its home country in lieu of certain provisions of the NYSE Standards.

A summary of the significant ways in which the Company's corporate governance practices differ from those followed by US domestic companies under the NYSE Standards is set forth below.

NYSE Standards	AstraZeneca Corporate Governance Practice
1. Under the NYSE Standards, the audit committee is to be directly responsible for the appointment, compensation, retention and oversight of a company's external auditor, unless there is a conflicting requirement under the home country laws of the company.	Under the Combined Code, a company's external auditors are appointed by its shareholders. As a result, the Company's audit committee is responsible for making recommendations to the Board of Directors, for the Board of Directors to propose to the Company's shareholders in general meeting, in relation to the appointment, re-appointment, terms of compensation and removal of the external auditors.

2. Under the NYSE Standards, the nominating/corporate governance committee and compensation committee are to be composed entirely of independent directors.
- Under the Combined Code, a majority of the members of these committees should be independent directors. Accordingly, a majority of the members of the Company's Nomination and Governance Committee are independent directors.
3. Under the NYSE Standards, the Compensation Committee is to make recommendations to the Company's Board of Directors with respect to non-CEO executive officer compensation and certain other compensation plans which are subject to Board approval.
- The Company's Remuneration Committee includes at least four members, including the chairman of the Company's Board of Directors, with the remainder all being independent directors (under the Combined Code, a determination as to the independence of the chairman of the Company's Board of Directors may be made only upon appointment as chairman).
4. Under the NYSE Standards, shareholders are entitled to vote on all equity compensation plans and material revisions thereto, with certain limited exemptions.
- In compliance with the Combined Code, the Company's Remuneration Committee determines the Company's global remuneration frameworks and principles, approves individual salary decisions and related matters for members of the Company's Board of Directors, SET and the Company Secretary, and reviews annual bonus payments for all executives reporting directly to SET members. While the Remuneration Committee does not make initial recommendations to the Board of Directors in this respect, it does report to the Board of Directors on these matters.
- Under the listing rules of the UK Listing Authority (the "UKLA Rules"), with which the Company complies, shareholder approval is required to be obtained by the Company for the adoption of equity compensation plans which are either long-term incentive schemes in which directors of the Company can participate or schemes which may involve the issue of new shares. Under the UKLA Rules, these plans may not be changed to the benefit of the plan participants unless shareholder approval is obtained (with certain minor exceptions, for example, to benefit the administration of the plan or to take account of tax benefits). The UKLA Rules in respect of shareholder approval regarding equity compensation plans, or any material revision thereto, may differ from the NYSE Standards.

The information set forth in the final paragraph under the heading "Directors' Report—Business Organisation and Corporate Governance—Principal UK and US Governance Requirements—US Corporate Governance Requirements" on page 93 and "—UK Corporate Governance Requirements" on pages 91 and 92, in each case of the Company's "Annual Report and Form 20-F Information 2008" included as exhibit 15.1 to this Form 20-F dated March 17, 2009 is incorporated by reference.
