UNITED BANCORP, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These interim financial statements are prepared without audit and reflect all adjustments which, in the opinion of management, are necessary to present fairly the financial position of United Bancorp, Inc. ("Company") at March 31, 2008, and its results of operations and cash flows for the three month periods presented. All such adjustments are normal and recurring in nature. The accompanying condensed consolidated financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not purport to contain all the necessary financial disclosures required by accounting principles generally accepted in the United States of America that might otherwise be necessary in the circumstances and should be read in conjunction with the Company's consolidated financial statements and related notes for the year ended December 31, 2007 included in its Annual Report on Form 10-K. Reference is made to the accounting policies of the Company described in the Notes to the Consolidated Financial Statements contained in its Annual Report on Form 10-K. Except for the adoption of EITF 06-4, as described in "Recent Accounting Pronouncements," the Company has consistently followed these policies in preparing this Form 10-Q. The results of operations for the three months ended March 31, 2008, are not necessarily indicative of the results to be expected for the full year.

PRINCIPLES OF CONDENSED CONSOLIDATION

The consolidated financial statements include the accounts of United Bancorp, Inc. ("United" or "the Company") and its wholly-owned subsidiary, The Citizens Savings Bank of Martins Ferry, Ohio ("the Bank" or "Citizens"). For periods prior to July 1, 2007, the consolidated financial statements include the Company and its two wholly-owned subsidiaries, Citizens and The Community Bank. Effective July 1, 2007, the Company merged, The Community Bank into The Citizens Savings Bank and now operates that market area as The Community Bank, a division of The Citizens Savings Bank and operates The Citizens Bank, a division of The Citizens Savings Bank. All intercompany transactions and balances have been eliminated in consolidation.

NATURE OF OPERATIONS

The Company's revenues, operating income, and assets are almost exclusively derived from banking. Accordingly, all of the Company's banking operations are considered by management to be aggregated in one reportable operating segment. Customers are mainly located in Athens, Belmont, Carroll, Fairfield, Harrison, Hocking, and Tuscarawas Counties and the surrounding localities in northeastern, east-central and southeastern Ohio, and include a wide range of individuals, businesses and other organizations. The Citizens Bank division conducts its business through its main office in

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

Martins Ferry, Ohio and nine branches in Bridgeport, Colerain, Dellroy, Dover, Jewett, New Philadelphia, St. Clairsville, Sherrodsville, and Strasburg, Ohio. The Community Bank division conducts its business through its main office in Lancaster, Ohio and six offices in Amesville, Glouster, Lancaster, and Nelsonville, Ohio. The Company's primary deposit products are checking, savings, and term certificate accounts, and its primary lending products are residential mortgage, commercial, and installment loans. Substantially all loans are secured by specific items of collateral including business assets, consumer assets and real estate and are not considered "sub prime" type loans. Commercial loans are expected to be repaid from cash flow from operations of businesses. Real estate loans are secured by both residential and commercial real estate. Net interest income is affected by the relative amount of interest-earning assets and interest-bearing liabilities and the interest received or paid on these balances. The level of interest rates paid or received by the Company can be significantly influenced by a number of environmental factors, such as governmental monetary policy, that are outside of management's control.

### USE OF ESTIMATES

To prepare financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and the disclosures provided and future results could differ. The allowance for loan losses and fair values of financial instruments are particularly subject to change.

### ALLOWANCE FOR LOAN LOSSES

The allowance for loan losses is a valuation allowance for probable incurred credit losses, increased by the provision for loan losses and decreased by charge-offs less recoveries. Management estimates the allowance balance required based on past loan loss experience, the nature and volume of the portfolio, information about specific borrower situations and estimated collateral values, economic conditions and other factors. Allocations of the allowance may be made for specific loans, but the entire allowance is available for any loan that, in management's judgment, should be charged-off. Loan losses are charged against the allowance when management believes the uncollectibility of a loan balance is confirmed. The Company accounts for impaired loans in accordance with Statement of Financial Accounting Standards ("SFAS") No. 114, "Accounting for Creditors for Impairment of a Loan." SFAS 114 requires that impaired loans be measured based upon the present value of expected future cash flows discounted at the loan's effective interest rate or, as an alternative, at the loan's observable market price or fair value of the collateral. A loan is defined under SFAS No. 114 as impaired when, based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. In applying the provisions of SFAS No. 114, the Company considers its investment in one-to-four family residential loans and consumer installment loans to be homogenous and therefore excluded from separate identification for evaluation of impairment. With respect to the

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

Company's investment in nonresidential and multi-family residential real estate loans, and its evaluation of impairment thereof, such loans are generally collateral dependent and, as a result, are carried as a practical expedient at the fair value of the collateral.

Collateral dependent loans which are more than ninety days delinquent are considered to constitute more than a minimum delay in repayment and are evaluated for impairment under SFAS No. 114 at that time.

### MORTGAGE SERVICING ASSETS

### EARNINGS PER SHARE

Basic earnings per common share is computed based upon the weighted-average number of common shares outstanding during the year, less shares in the ESOP which are unallocated and not committed to be released. At March 31, 2008, the ESOP held 307,274 unallocated shares which were not included in weighted-average common shares outstanding. Diluted earnings per common share include the dilutive effect of additional potential common shares issuable under the Company's stock option plans.

STOCK OPTIONS

The Company maintains a nonqualified stock option plan for directors and officers. The exercise price for options granted under this plan is no less than 100% of the fair market value of the shares on the date of grant, adjusted for stock splits in the form of a dividend.

The Company accounts for its stock option plan in accordance with SFAS No. 123(R), "Share-Based Payment," which requires that the cost related to the fair value of grants of stock options be recognized in the financial statements.

The compensation cost recorded for unvested equity-based awards is based on their grant-date fair value. For the quarters ended March 31, 2008 and 2007, the Company recorded approximately \$3,000 and \$10,000, respectively, in compensation costs for stock option awards that vested in each period. The Company has approximately \$92,000 of total unrecognized compensation expense related to non-vested equity-based awards granted under its stock incentive plan as of March 31, 2008, which is expected to be recognized over a remaining weighted-average period of 6.9 years.

No stock options were granted during the three month periods ended March 31, 2008 and 2007.

There are no remaining options available for grant under the Company's 1996 plan as of March 31, 2008. A summary of the status of the Company's stock option plan for the three months ended March 31, 2008 and 2007 is presented below:

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
 FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007

INCOME TAXES

The Company adopted the provisions of FASB Interpretation 48, "Accounting for Uncertainty in Income Taxes," on January 1, 2007. Previously, the Company had accounted for tax contingencies in accordance with Statement of Financial Accounting Standards No. 5, "Accounting for Contingencies." As required by Interpretation 48, which clarifies Statement No. 109, "Accounting for Income Taxes," the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, the Company applied Interpretation 48 to all tax positions for which the statute of limitations remained open. As a result of the implementation of Interpretation 48, the Company was not required to record any liability for unrecognized tax benefits as of January 1, 2007. There have been no material changes in unrecognized tax benefits since January 1, 2007.

The Company is subject to income taxes in the U.S. federal jurisdiction, as well as various state jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for the years before 2004.

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

The Company will recognize, if applicable, interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses.

### RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the Financial Accounting Standards Board ("FASB") issued SFAS No. 157, "Fair Value Measurements." This Statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. This Statement emphasizes that fair value is a market-based measurement and should be determined based on assumptions that a market participant would use when pricing an asset or liability. This Statement clarifies that market participant assumptions should include assumptions about risk as well as the effect of a restriction on the sale or use of an asset. Additionally, this Statement establishes a fair value hierarchy that provides the highest priority to quoted prices in active markets and the lowest priority to unobservable data. This Statement is effective for fiscal years beginning after November 15, 2007, or January 1, 2008 as to the Company, and interim periods within that fiscal year. The Company adopted SFAS No. 157 effective January 1, 2008, as required, without material effect on the Company's financial position or results of operations.

12

UNITED BANCORP, INC.  
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS  
FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007

In September 2006, the FASB ratified the Emerging Issues Task Force's (EITF) Issue 06-4, "Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements," which requires companies to recognize a liability and related compensation costs for endorsement split-dollar life insurance policies that provide a benefit to an employee extending to postretirement periods. The liability should be recognized based on the substantive agreement with the employee. This Issue is effective beginning January 1, 2008. The Issue can be applied as either a change in accounting principle through a cumulative-effect adjustment to retained earnings as of the beginning of the year of adoption, or a change in accounting principle through retrospective application to all periods. The Company adopted Issue 06-4 effective January 1, 2008, as required. The Company recorded a liability and a corresponding charge to retained earnings totaling \$1.0 million to recognize the commitment obligation under its split-dollar life insurance policies. The Company will recognize expense in 2008 totaling approximately \$133,000 for these policies.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115." This Statement allows companies the choice to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This Statement is expected to expand the use of fair value measurement, which is consistent with the Board's long-term measurement objectives for accounting for financial instruments. This Statement is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007, or January 1, 2008 as to the Company,

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

and interim periods within that fiscal year. The Company adopted SFAS No. 159 effective January 1, 2008, as required, without material effect on the Company's financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "Business Combinations," which replaces SFAS No. 141. The Statement applies to all transactions or other events in which one entity obtains control of one or more businesses. It requires all assets acquired, liabilities assumed and any noncontrolling interest to be measured at fair value at the acquisition date. The Statement requires certain costs such as acquisition-related costs that were previously recognized as a component of the purchase price, and expected restructuring costs that were previously recognized as an assumed liability, to be recognized separately from the acquisition as an expense when incurred.

SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008 and may not be applied before that date.

Concurrent with SFAS No. 141 (revised 2007), the FASB recently issued SFAS No. 160, "Noncontrolling Interests in Consolidated Financial Statements, an Amendment of ARB 51." SFAS No. 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest (formerly known as minority interest) in a subsidiary and for the deconsolidation of a subsidiary. A subsidiary, as defined by SFAS No. 160, includes a variable interest entity that is consolidated by a primary beneficiary.

A noncontrolling interest in a subsidiary, previously reported in the statement of financial position as a liability or in the mezzanine section outside of permanent equity, will be included within consolidated equity as a separate line item upon the adoption of SFAS No. 160. Further, consolidated net income will be reported at amounts that include both the parent (or primary beneficiary) and the noncontrolling interest with separate disclosure on the face of the consolidated statement of income of the amounts attributable to the parent and to the noncontrolling interest.

SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008.

NOTE 2: ALLOWANCE FOR LOAN LOSSES

The activity in the allowance for loan losses was as follows:

During the three months ended March 31, 2008, the Company recorded expense of approximately \$28,000 as certain participants in the Company's defined benefit plan were paid lump sum distributions from the plan. During 2008 it is anticipated that Company will incur approximately \$231,000 of additional settlement accounting expense under the provisions of SFAS No. 88.

### NOTE 4: OFF-BALANCE SHEET ACTIVITIES

Some financial instruments, such as loan commitments, credit lines, letters of credit and overdraft protection, are issued to meet customer financing needs. These are agreements to provide credit or to support the credit of others, as long as conditions established in the contracts are met, and usually have expiration dates. Commitments may expire without being used. Off-balance sheet risk to credit loss exists up to the face amount of these instruments, although material losses are not anticipated. The same credit policies are used to make such commitments as are used for loans, including obtaining collateral at exercise of the commitment.

A summary of the notional or contractual amounts of financial instruments with off-balance sheet risk at the indicated dates is as follows:

### NOTE 5: FAIR VALUE MEASUREMENTS

Effective January 1, 2008, the Company adopted SFAS No. 157, "Fair Value Measurements." SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 has been applied prospectively as of the beginning of the period.

SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS No. 157 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

LEVEL 1 Quoted prices in active markets for identical assets or liabilities

LEVEL 2 Observable inputs other than Level 1 prices, such as quoted

Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

LEVEL 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Following is a description of the valuation methodologies used for instruments measured at fair value on a recurring basis and recognized in the accompanying balance sheet, as well as the general classification of such instruments pursuant to the valuation hierarchy.

AVAILABLE-FOR-SALE SECURITIES

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include highly liquid government agency bonds and mortgage-backed securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. Level 2 securities include certain collateralized mortgage and debt obligations and certain municipal securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include other less liquid securities.

UNITED BANCORP, INC.  
ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

The following discusses the financial condition of the Company as of March 31, 2008, as compared to December 31, 2007, and the results of operations for the three months ended March 31, 2008, compared to the same period in 2007. This discussion should be read in conjunction with the interim condensed consolidated financial statements and related footnotes included herein.

FORWARD-LOOKING STATEMENTS

When used in this document, the words or phrases "will likely result," "are expected to," "will continue," "is anticipated," "estimated," "projected" or similar expressions are intended to identify "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties including changes in economic conditions in the Bank's market areas, changes in policies by regulatory agencies, fluctuations in interest rates, demand for loans in the Bank's market areas and competition, that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. Factors listed above could affect the Company's financial performance and could cause the Company's actual results for future periods to differ materially from any statements expressed with respect to future periods.

The Company is not aware of any trends, events or uncertainties that will have or are reasonably likely to have a material effect on its financial condition, results of operations, liquidity or capital resources except as discussed herein. The Company is not aware of any current recommendation by regulatory authorities that would have such effect if implemented.

The Company does not undertake, and specifically disclaims any obligation, to publicly revise any forward-looking statements to reflect events or circumstances after the date such statements were made or to reflect the occurrence of anticipated or unanticipated events.

CRITICAL ACCOUNTING POLICIES

Management makes certain judgments that affect the amounts reported in the financial statements and footnotes. These estimates, assumptions and judgments are based on information available as of the date of the financial statements, and as this information changes, the financial statements could reflect different estimates, assumptions, and judgment.

The procedures for assessing the adequacy of the allowance for loan losses reflect our evaluation of credit risk after careful consideration of all

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

information available to management. In developing this assessment, management must rely on estimates and exercise judgment regarding matters where the ultimate outcome is unknown such as economic factors, development affecting companies in specific industries and issues with respect to single borrowers. Depending on changes in circumstances, future assessments of credit risk may yield materially different results, which may require an increase or a decrease in the allowance for loan losses.

The allowance is regularly reviewed by management and the board to determine whether the amount is considered adequate to absorb probable losses. This evaluation includes specific loss estimates on certain individually reviewed loans, statistical loss estimates for loan pools that are based on historical loss experience, and general loss estimates that are based on the size, quality and concentration characteristics of the various loan portfolios, adverse situations that may affect a borrower's ability to repay and current economic and industry conditions. Also considered as part of that judgment is a review of the Bank's trend in delinquencies and loan losses, and economic factors.

18

### UNITED BANCORP, INC. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The allowance for loan losses is maintained at a level believed adequate by management to absorb probable loan losses inherent in the loan portfolio. Management's evaluation of the adequacy of the allowance is an estimate based on management's current judgment about the credit quality of the loan portfolio. While the Company strives to reflect all known risk factors in its evaluation, judgment errors may occur.

#### ANALYSIS OF FINANCIAL CONDITION

##### EARNING ASSETS - LOANS

At March 31, 2008, gross loans were \$233.9 million, compared to \$234.6 million at year-end 2007, a decrease of \$779,000, or 0.3%. The decrease in total outstanding loans was the result of a decrease in the installment portfolio. Management attributes the decrease in loans to the sluggish loan demand in the markets served.

Installment loans represented 17.0% of total loans at March 31, 2008, and 17.5% at December 31, 2007. This indirect lending type of financing carries somewhat more risk than real estate lending, however; it also provides for higher yields. The targeted lending areas encompass four metropolitan areas, minimizing the risk to changes in economic conditions in the communities housing the Company's 17 branch locations.

Commercial and commercial real estate loans comprised 57.9% of total loans at March 31, 2008 compared to 57.3% at December 31, 2007. Commercial and commercial real estate loans have increased \$1.0 million, or 0.8% since December 31, 2007. The Company has originated and purchased participations in loans from other banks for out-of-area commercial and commercial real estate loans to benefit from consistent economic growth outside the Company's primary market area.

Real estate loans were 24.8% of total loans at March 31, 2008 and 24.9% at year-end 2007. Real estate loans decreased by 0.7%, or \$421,000, since December 31, 2007. Real estate lending for the three months of 2008 has been slow with respect to the Company's adjustable-rate mortgage products. As of March 31, 2008, the Bank has approximately \$37.3 million in fixed-rate loans that it

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

services for a fee that is typically 25 basis points. At March 31, 2008, the Company did not hold any loans for sale.

The allowance for loan losses represents the amount which management and the Board of Directors estimates is adequate to provide for probable losses inherent in the loan portfolio. The allowance balance and the provision charged to expense are reviewed by management and the Board of Directors monthly using a risk evaluation model that considers borrowers' past due experience, economic conditions and various other circumstances that are subject to change over time. Management believes the current balance of the allowance for loan losses is adequate to absorb probable incurred credit losses associated with the loan portfolio. Net charge-offs for the three months ended March 31, 2008 were approximately \$75,000, or 3.1%, of the beginning balance in the allowance for loan losses.

19

### UNITED BANCORP, INC. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### EARNING ASSETS - SECURITIES AND FEDERAL FUNDS SOLD

The securities portfolio is comprised of U.S. Government agency-backed securities, tax-exempt obligations of states and political subdivisions and certain other investments. The Company does not hold any collateralized mortgage-backed securities other than those issued by U.S. government agencies, or derivative securities. The quality rating of obligations of state and political subdivisions within Ohio is no less than Aaa, Aa or A, with all out-of-state bonds rated at AAA. Board policy permits the purchase of certain non-rated bonds of local schools, townships and municipalities, based on their estimated levels of credit risk. Securities available for sale at March 31, 2008 decreased approximately \$6.4 million, or 3.9%, from year-end 2007 totals. With the overall decreasing interest rate environment the Company has experienced a high level of called bond activity during the first quarter of 2008. While the Company has plans to reinvest these funds in other available-for-sale securities, there is lag between the time when bonds are called and the right investment opportunity is available to the Company.

#### SOURCES OF FUNDS - DEPOSITS

The Company's primary source of funds is core deposits from retail and business customers. These core deposits include all categories of interest-bearing and noninterest-bearing deposits, excluding certificates of deposit greater than \$100,000. For the period ended March 31, 2008, total core deposits increased approximately \$3.3 million, or 1.1%. The Company's interest-bearing demand deposits increased \$3.6 million, or 2.9%, noninterest-bearing demand deposits decreased \$1.5 million, or 6.6%, while certificates of deposit under \$100,000 increased by \$394,000, or 0.3%. As part of a strategic focus to grow deposits the Bank has introduced premium rate money market index accounts.

The Company has a strong deposit base from public agencies, including local school districts, city and township municipalities, public works facilities and others that may tend to be more seasonal in nature resulting from the receipt and disbursement of state and federal grants. These entities have maintained fairly static balances with the Company due to various funding and disbursement timeframes.

Certificates of deposit greater than \$100,000 are not considered part of core

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

deposits and as such are used to balance rate sensitivity as a tool of funds management. At March 31, 2008, certificates of deposit greater than \$100,000 increased \$1.5 million, or 3.8%, from year-end 2007 totals.

### SOURCES OF FUNDS - SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE AND OTHER BORROWINGS

Other interest-bearing liabilities include securities sold under agreements to repurchase, sweep accounts, federal funds purchased, Treasury, Tax and Loan notes payable and Federal Home Loan Bank ("FHLB") advances. In the first three months of 2008, the Company continued to utilize the FHLB programs to manage interest rate risk and liquidity positions. The majority of the Company's repurchase agreements are with local school districts and city and county governments. As a result of the Company's growth in deposits in 2008, total borrowings, including federal funds purchased, decreased approximately \$10.2 million, or 13.0% from year-end 2007 totals.

20

### UNITED BANCORP, INC. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

#### RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007

##### NET INCOME

Basic and diluted earnings per share for the three months ended March 31, 2008 totaled \$0.20, compared with \$0.16 for the three months ended March 31, 2007, an increase of 25.0%. In dollars, the Company's net income was \$903,000, an increase of \$185,000, or 25.8%, for the three months ended March 31, 2008, compared to the same quarter in 2007.

##### NET INTEREST INCOME

Net interest income, by definition, is the difference between interest income generated on interest-earning assets and the interest expense incurred on interest-bearing liabilities. Various factors contribute to changes in net interest income, including volumes, interest rates and the composition or mix of interest-earning assets in relation to interest-bearing liabilities. Net interest income increased 19.4%, or \$572,000, for the three months ended March 31, 2008 compared to the same period in 2007, due primarily to the effects of decreasing interest rates in the economy, which resulted in a lower cost of funds during the three months ended March 31, 2008. During the three months ended March 31, 2008, the Company's net interest margin increased 66 basis points over the same period in 2007. Interest income and fees on interest-earning assets decreased 29 basis points from 6.85% for the three months ended March 31, 2007 to 6.56% for the same period in 2008. However, the Company's cost of funds decreased 95 basis points from 3.65% for the three months ended March 31, 2007 to 2.70% for the same period in 2008.

Total interest income for the three months ended March 31, 2008, was \$6.7 million, an increase of \$234,000, or 3.6%, compared to \$6.4 million for the same period in 2007. The increase can be attributed primarily to the overall higher yield of the securities portfolio.

Total interest expense was \$3.1 million for the three months ended March 31, 2008, a decrease of 9.7%, or \$338,000, compared to the three-month period ended March 31, 2007. A majority of the Company's cost of funds is tied to the short

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

end of the yield curve and with the short-term rates decreasing dramatically in the past nine months, the Company's cost of funds has decreased.

### PROVISION FOR LOAN LOSSES

The provision for loan losses was \$168,000 for the three months ended March 31, 2008, compared to \$183,000 for the same period in 2007. The decrease in loan loss provision for the three-month period ended March 31, 2008, was primarily due to decreased net charge-offs period to period.

### NONINTEREST INCOME

Total noninterest income is made up of bank related fees and service charges, as well as other income producing services provided, sales of secondary market loans, ATM income, early redemption penalties for certificates of deposit, safe deposit rental income, internet bank service fees, earnings on bank-owned life insurance and other miscellaneous items.

Noninterest income for the three months ended March 31, 2008 was \$756,000, an increase of \$88,000, or 13.2%, compared to \$668,000 for the same three-month period ended March 31, 2007. During the three-months ended March 31, 2008, the increase in noninterest income was primarily driven by increase of \$93,000, or 23.4%, related to customer service fees on deposit accounts.

21

## UNITED BANCORP, INC. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

### NONINTEREST EXPENSE

Noninterest expense was \$3.0 million for the three months ended March 31, 2008, an increase of \$367,000, or 14.1%, over the three months ended March 31, 2007. Salaries and employee benefit expense increased approximately \$59,000, or 4.2%, for the period ended March 31, 2008 over the same period in 2007. This increase was primarily due to normal merit increases. Professional fees increased \$51,000 for the first quarter of 2008 over the same period in 2007. Legal fees for loan collection efforts increased approximately \$26,000 for the first quarter of 2008. It is anticipated this trend will continue for the remainder of 2008. Other noninterest expense increased \$191,000 for the period ended March 31, 2008 over the same period in 2007. During the first quarter of 2008, the Company increased the provision for losses on non performing assets by \$155,000 over the same period in 2007. This provision related to a specific other real estate owned property which has a pending sales contract. This sale is expected to close during the second quarter of 2008.

### FEDERAL INCOME TAXES

The provision for federal income taxes was \$225,000 for the three months ended March 31, 2008, an increase of \$123,000, or 120.6%, over the same period in 2007. The increase was due primarily to the increase in pretax income of \$308,000, or 37.6%. The effective tax rate was 19.9% and 12.4% for the three months ended March 31, 2008 and 2007, respectively.

### CAPITAL RESOURCES

Internal capital growth, through the retention of earnings, is the primary means of maintaining capital adequacy for the Company. Shareholders' equity at March

Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

31, 2008, totaled \$34.2 million compared to \$33.9 million at December 31, 2007, a \$289,000 increase. The increase was due primarily to net income of \$903,000 and an increase in unrealized gains on available-for-sale securities of \$894,000, which were partially offset by dividends paid of \$649,000, a \$1.0 million charge to retained earnings from the adoption of EITF 06-4 and purchases of treasury stock of \$57,000. Total shareholders' equity in relation to total assets was 7.6% at March 31, 2008 and 7.5% at December 31, 2007. In 2001, our shareholders approved an amendment to the Company's Articles of Incorporation to create a class of preferred shares with 2,000,000 authorized shares. This enables the Company, at the option of the Board of Directors, to issue series of preferred shares in a manner calculated to take advantage of financing techniques which may provide a lower effective cost of capital to the Company. The amendment also provides greater flexibility to the Board of Directors in structuring the terms of equity securities that may be issued by the Company. Although this preferred stock is a financial tool, it has not been utilized to date.

The Company has a Dividend Reinvestment Plan ("The Plan") for shareholders under which the Company's common stock will be purchased by the Plan for participants with automatically reinvested dividends. The Plan does not represent a change in the Company's dividend policy or a guarantee of future dividends.

The Company is subject to the regulatory requirements of The Federal Reserve System as a bank holding company. The Bank is subject to regulations of the Federal Deposit Insurance Corporation (FDIC) and the State of Ohio, Division of Financial Institutions. The most important of these various regulations address capital adequacy.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL  
CONDITION AND RESULTS OF OPERATIONS

LIQUIDITY

Management's objective in managing liquidity is maintaining the ability to continue meeting the cash flow needs of its customers, such as borrowings or deposit withdrawals, as well as its own financial commitments. The principal sources of liquidity are net income, loan payments, maturing securities and sales of securities available for sale, federal funds sold and cash and deposits with banks. Along with its liquid assets, the Company has additional sources of liquidity available to ensure that adequate funds are available as needed. These include, but are not limited to, the purchase of federal funds, the ability to borrow funds under line of credit agreements with correspondent banks, a borrowing agreement with the Federal Home Loan Bank of Cincinnati and the adjustment of interest rates to obtain depositors. Management feels that it has the capital adequacy and profitability to meet the current and projected liquidity needs of its customers.

INFLATION

Substantially all of the Company's assets and liabilities relate to banking activities and are monetary in nature. The consolidated financial statements and related financial data are presented in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). U.S. GAAP currently requires the Company to measure the financial position and results of operations in terms of historical dollars, with the exception of securities available for sale, certain impaired loans and certain other real estate and loans that may be measured at fair value. Changes in the value of money due to rising inflation can cause purchasing power loss.

Management's opinion is that movements in interest rates affect the financial condition and results of operations to a greater degree than changes in the rate of inflation. It should be noted that interest rates and inflation do affect each other, but do not always move in correlation with each other. The Company's ability to match the interest sensitivity of its financial assets to the interest sensitivity of its liabilities in its asset/liability management may tend to minimize the effect of changes in interest rates on the Company's performance.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There has been no significant change from disclosures included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

### ITEM 4. CONTROLS AND PROCEDURES

The Company, under the supervision, and with the participation, of its management, including the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to the requirements of Exchange Act Rule 13a-15e. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of March 31, 2008, in timely alerting them to material information relating to the Company (including its consolidated subsidiary) required to be included in the Company's periodic SEC filings.

There was no change in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended March 31, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## Edgar Filing: UNITED BANCORP INC /OH/ - Form 10-Q

United Bancorp maintains a stock repurchase program publicly announced by a press release issued on November 21, 2006, under which its Board of Directors authorized management to cause the Company to purchase up to \$2 million of its common shares over a two-year period. Such authorization will expire on November 21, 2008.

The Company adopted the United Bancorp, Inc. Affiliate Banks Directors and Officers Deferred Compensation Plan (the "Plan"), which is an unfunded deferred compensation plan. Amounts deferred pursuant to the Plan remain unrestricted assets of the Company, and the right to participate in the Plan is limited to members of the Board of Directors and certain senior executive officers. Under the Plan, eligible participants may defer fees payable to them by the Company, which fees are used to acquire common shares which are credited to a participant's respective account. Except in the event of certain emergencies, no distributions are to be made from any account as long as the participant continues to be an employee or member of the Board of Directors. Upon termination of service, the aggregate number of shares credited to the participant's account are distributed to him or her along with any cash proceeds credited to the account which have not yet been invested in the Company's stock. On January 31, 2008, the Company purchased a total of 14,435 common shares for participant accounts for the aggregate purchase price of \$102,458. No underwriting fees, discounts, or commissions are paid in connection with the Plan. The shares allocated to participant accounts have not been registered under the Securities Act of 1933 in reliance upon the exemption provided by Section 4(2) thereof.
